

Base Realignment and Closure (BRAC) Intersection Improvement Projects Fort George G. Meade

PROJECT NEWSLETTER • MARCH 2009

Design Progresses on 5 BRAC-related Intersections

The Maryland State Highway Administration (SHA) has initiated design activities for the 5 intersections in the Fort Meade area most affected by the Base Realignment and Closure (BRAC). Below are the project background, schedule, and information on the upcoming Public Informational Workshop where the five intersection projects will be presented to the community.

Attend the Public Meeting

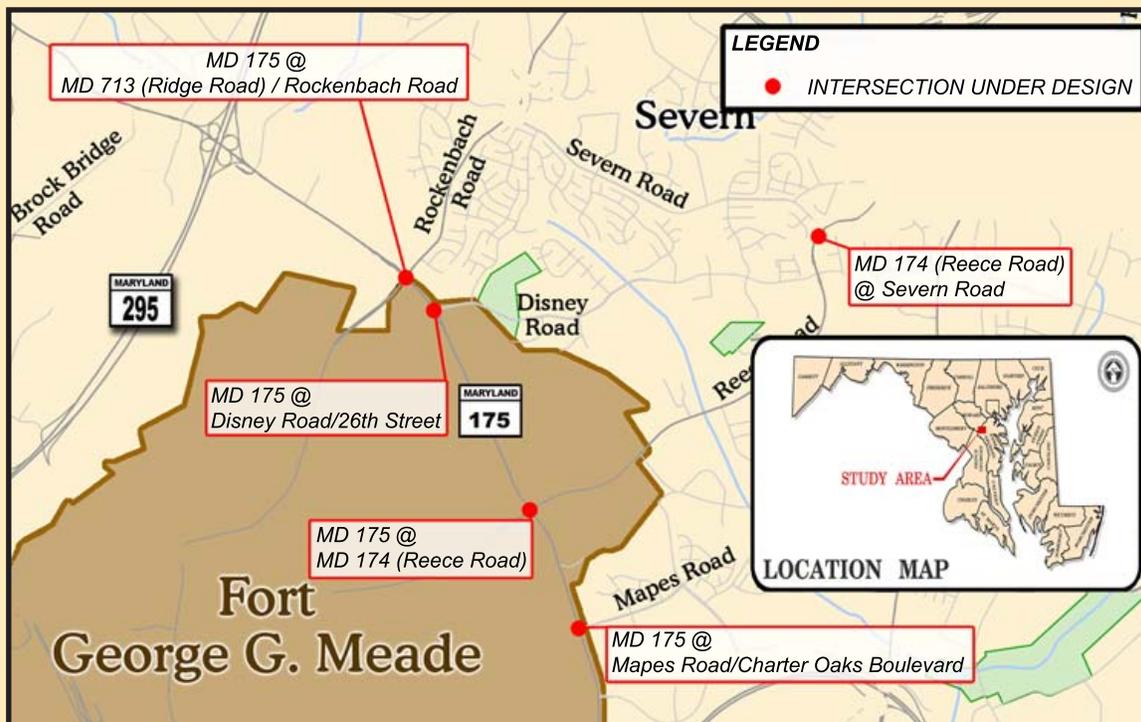

SHA invites you to attend an Informational Workshop at which transportation improvements associated with 5 intersections near Ft. Meade will be presented. This meeting format will allow attendees to review the concepts at their own pace and provide feedback.

SHA staff and other agency representatives will be available to discuss the project issues, answer questions, and address any concerns you may have. No formal presentation will be given. Feel free to arrive at any time and walk through at your own convenience.

WHEN:	WHERE:
Tuesday, March 31, 2009 5:30 PM to 7:30 PM	Meade Middle School - Cafeteria 1103 26th Street Ft. Meade, MD 20755

Project Background

Base Realignment and Closure, or "BRAC," is the congressionally authorized process used by the U.S. Department of Defense to reorganize and consolidate its military bases nationwide. In preparation for the 40,000 to 60,000 direct and indirect jobs coming to Maryland over the next six to ten years, SHA is designing short-term intersection improvements, including 5 key intersections that service the Ft. Meade area (see map).
