

MD 175 AT MD 713 (ROCKENBACH ROAD/RIDGE ROAD) AND AT DISNEY ROAD/26TH STREET FORT MEADE BRAC INTERIM INTERSECTION IMPROVEMENTS

Overview

This project includes the improvements of two intersections along MD 175 (Annapolis Road) in the vicinity of Fort George G. Meade in Anne Arundel County. The limits of this project extend along MD 175 from west of MD 713 (Rockenbach Road / Ridge Road) to east of Disney Road / 26th Street. The purpose is to improve the existing capacity, traffic operations, intermodal connectivity, and vehicular and pedestrian safety of MD 175 as a result of Fort Meade BRAC and EUL traffic through 2015. The proposed improvement includes widening the existing at-grade crossings to accommodate double left turning movements on all approaches except for a single left turning movement from westbound MD 175 onto southbound 26th Street. The widening also accommodates for adding dedicated right turn lanes at all approaches except eastbound MD 175 onto southbound 26th Street. The project also includes 5-foot bike lanes, the reconstruction of sidewalk along the north side of MD 175, construction of a new hiker/biker trail along the south side of MD 175, the reconstruction of the existing signals. All new sidewalk, ramps and driveway openings will be in compliance with the Americans with Disabilities Act.

SCHEDULE	
Task	Date
Design Complete	11/01/2010
Right of Way Clear	09/29/2010
Advertisement Date	12/07/2010
Notice To Proceed	On or about 04/25/2011
Completion Date	Fall 2012
