Dear Chairman York:

The Maryland Department of Transportation (MDOT) currently has a series of proposed amendments to the State Highway Administration (SHA) portion of the National Capital Region Transportation Planning Board (TPB) FY 2013-2018 Transportation Improvement Program (TIP) out for public comment. Since the release of the original amendment request, Governor O'Malley has announced additional projects that will receive funding that has been made available by the Maryland Transportation Infrastructure Improvement Act of 2013. These projects are either exempt from the requirement to determine conformity or have been included in the currently approved air quality conformity analysis.

MDOT requests that these additional projects, as outlined in the attached memo, be included in the package of proposed amendments (Resolution # R5-2014) and be placed on the July 17, 2013 TPB agenda for approval. MDOT is also proposing to change a funding source for one of the projects that has been out for public comment as outlined in the attached memo.

The revised funding status will not impact scheduling or funding availability for other projects in the current TIP, which continues to be fiscally constrained. The cost does not affect the portion of the federal funding which was programmed for transit, or any allocations of state aid in lieu of federal aid to local jurisdictions.

We appreciate your cooperation in this matter. If you have any questions or comments, please do not hesitate to contact Ms. Lyn Erickson, at 410-865-1279, toll-free at 888-713-1414 or via email at lerickson@mdot.state.md.us. Of course, please feel free to contact me directly.

Dear Chairman York:

The Maryland Department of Transportation (MDOT) requests multiple amendments to the State Highway Administration (SHA) portion of the National Capital Region Transportation Planning Board (TPB) FY 2013-2018 Transportation Improvement Program (TIP) as described in the attached memo. The amendments are needed to reflect additional funding that has been programmed for several projects in the National Capital Region. These projects are either exempt from the requirement to determine conformity or have been included in the currently approved air quality conformity analysis. A portion of these funds have been made available due to the annual update of the MDOT budget, called the Consolidated Transportation Program (CTP). The current CTP (FY 2013-2018) was approved by the legislature in April 2013. The remainder of the funds has been made available by the Maryland Transportation Infrastructure Improvement Act of 2013.

MDOT requests that this amendment be released for a 30 day public comment period, be placed on the June 19, 2013 TPB agenda as a Notice Item, and be placed on the July 17, 2013 TPB agenda for approval.

The revised funding status will not impact scheduling or funding availability for other projects in the current TIP, which continues to be fiscally constrained. The cost does not affect the portion of the federal funding which was programmed for transit, or any allocations of state aid in lieu of federal aid to local jurisdictions.
