

Resource List of Third Party Vendors to Help You Administer Commuter Benefits

Commuter Benefits are transportation fringe benefits provided by the employer to the employee. Effective January 2019, federal law will allow employers to offer employees up to \$265.00 per month as a pre-tax deduction or tax-free subsidy for use on mass transit or vanpools.

The providers listed below offer service options to employers interested in establishing a commuter benefits program. Commuter Choice Maryland does not endorse a particular provider, nor are organizations required to use a provider on this list. Commuter Choice Maryland is not responsible for services provided. If you prefer to establish your commuter benefits in-house please consult the [IRS Employer's Tax Guide to Fringe Benefits](#) for current laws related to offering commuter benefits.
