Dear Ms. Murphy:

Enclosed are two amendments to the 2016 – 2019 Baltimore Region Transportation Improvement Program (TIP) as approved by the Baltimore Regional Transportation Board (BRTB) on November 24, 2015. Baltimore City requested to add two projects to the TIP: East Baltimore Development Inc. (EBDI) Road Reconstruction and Citywide Road Resurfacing – Federal Aid Program (Citywide Road Resurfacing had previously been on hold). The attached letter from Baltimore City for Citywide Road Resurfacing also details a request for two administrative modifications that were approved separately by the BRTB Executive Committee on October 9, 2015.

The EBDI project underwent a publicized 45-day public review from September 1, 2015 to October 15, 2015 with six town hall meetings held throughout the region. The Citywide Road Resurfacing project underwent a publicized 30-day public review from October 9, 2015 to November 11, 2015 with a public meeting held on November 4, 2015 at the Baltimore Metropolitan Council (BMC). No comments were received on these projects. Also, the Interagency Consultation Group has determined that both projects are exempt from the requirement to determine conformity according to the Conformity Rule.

Baltimore City affirmed that fiscal constraint for the City's program of projects remains intact and have made a commitment to the local match required.

Pursuant to the prescribed TIP amendment process, the BRTB approved Resolution #16-7 to support changes to the 2016 – 2019 TIP for the East Baltimore Development Inc. (EBDI) Road Reconstruction and Citywide Road Resurfacing – Federal Aid Program projects.

If you have any questions, please feel free to call me.

Description:

This roadway rehabilitation project includes two phases (Phase 2A and Phase 1D) encompassing Chase Street, McDonogh Street, and Rutland Avenue bound by Broadway to the west, Wolfe Street to the east, Biddle Street to the north and Eager Street to the south. Improvements will include full depth pavement reconstruction and resurfacing, reconstruction of curb and gutter, sidewalks, ADA-compliant pedestrian ramps, driveway and alley reconstruction, landscaping, streetscape elements, lighting, signing, and various utility improvements. A previous phase (Phase 1C) completed construction in the summer of 2015 under the TIP ID # 12-1212-99.

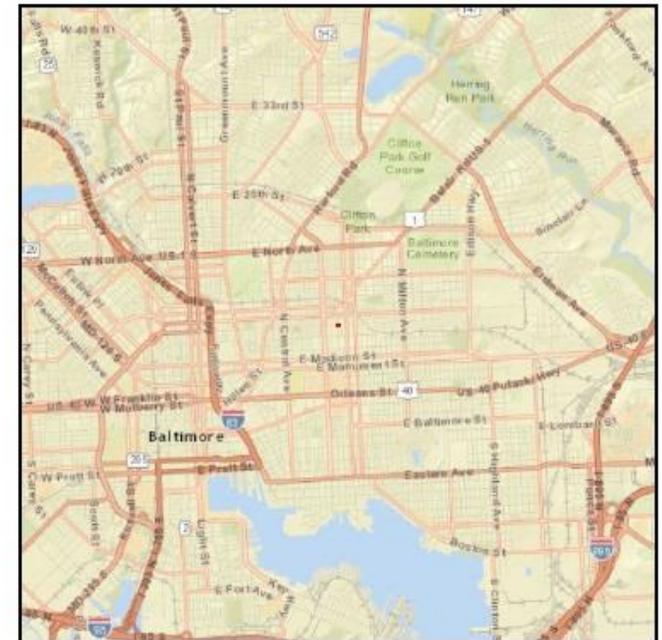

Justification:

As significant development revitalizes the blocks north of Johns Hopkins Hospital, the roadway and infrastructure improvements provided through this project will replace a deficient network of roads and utilities. The project will provide the necessary infrastructure for the up and coming community and new businesses expected within the area.

Amendment: This amendment adds a new project to the 2016-2019 TIP utilizing funds from two SAFETEA-LU earmarks. The fund source is Section 1702 (High Priority Projects). The project allocates construction funds in both FY 2016 and FY 2017 in the amount of \$2.62 million Federal and \$655,000 Matching. It also allocates funds in both FY 2016 and FY 2017 in the amount of \$100,000 Federal and \$25,000 Matching for utility improvements. The total amount of funding is \$6.8 million.

Connection to Long-Range Transportation Planning Goals:

- 1.E Improve System Safety -- Improve safety conditions for pedestrians and bicyclists.
- 2.A Improve and Maintain the Existing Infrastructure -- Improve the condition of roadway systems (pavement, bridges, tunnels).
- 3.B Improve Accessibility -- Improve ADA-related conditions for pedestrians / transit riders.

Description:

Resurfacing or rehabilitation of various roadways on the Federal Aid system citywide. Work is to generally include the removal and replacement of existing asphalt surfaces. It may also include roadway base repairs, minor curb and sidewalk repairs, and other isolated roadway appurtenance modifications.

Amendment: This amendment adds a project to the 2016-2019 TIP utilizing federal STP funds. The project allocates construction funds in FY 2016 in the amount of \$8 million federal and \$2 million matching for a total amount of \$10 million. The project had previously been on hold.

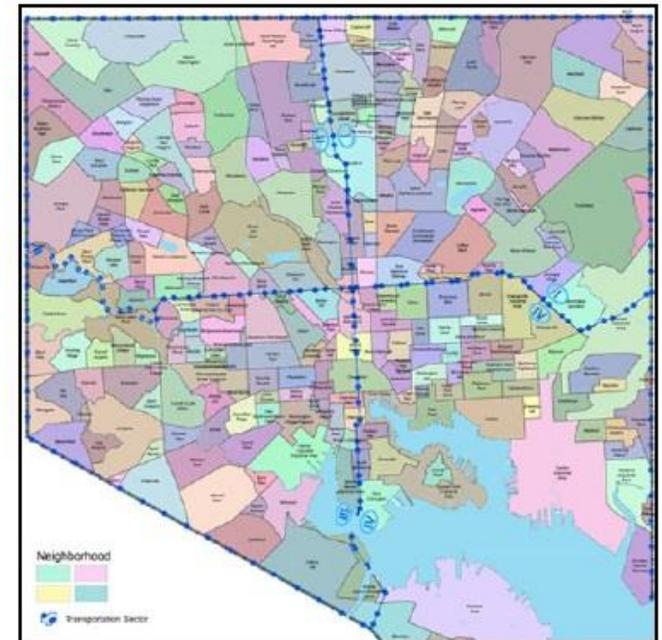

Justification:

It is imperative that these roadways be resurfaced at this time to halt the type of physical deterioration that jeopardizes motorist safety and increases maintenance activities. If resurfacing does not occur soon, reconstruction will be necessary at a cost of 3 to 4 times the existing resurfacing costs.

The City of Baltimore reviews every project throughout the design and engineering process for complete streets and bicycle facilities compatibility. DOT has a complete streets policy whereby projects are evaluated to ensure they meet goals for the corridor and neighborhood. DOT also has a bicycle policy whereby projects are reviewed for compliance with the Bicycle Master Plan and to the extent possible will install appropriate bicycle facilities to create a multi-modal transportation system throughout the City.

Connection to Long-Range Transportation Planning Goals:

- 1.C Improve System Safety – Eliminate hazardous or substandard conditions.
- 2.A Improve and Maintain the Existing Infrastructure – Improve the condition of roadway systems (pavement, bridges, tunnels).
