TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 - 2021**

**RESOLUTION BY THE CALVERT - ST. MARY'S
METROPOLITAN PLANNING ORGANIZATION COUNCIL ADOPTING THE
FY 2018 - FY 2021 TRANSPORTATION IMPROVEMENT PROGRAM
RESOLUTION 06-2017**

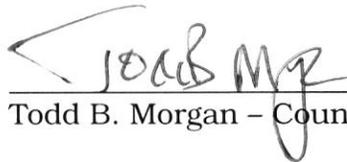

WHEREAS, the Calvert - St. Mary's Metropolitan Planning Organization (C-SMMPO) was established to conduct regional transportation planning for the C-SMMPO area in accordance with Federal requirements; and

WHEREAS, the C-SMMPO Council is the governing body for the C-SMMPO; and

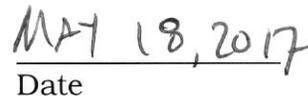

WHEREAS, the Maryland Department of Transportation and the C-SMMPO prepared the FY 2018 - FY 2021 Transportation Improvement Program (TIP); and

WHEREAS, the FY 2018 - FY 2021 TIP was presented at a public meeting of the C-SMMPO Council on May 18, 2017 and consistent with the requirements of the MPOs adopted Public Participation Process a 15-day public comment period extending from May 3, 2017, through May 18, 2017 was instituted prior to the public meeting; and

NOW THEREFORE, BE IT RESOLVED that the C-SMMPO Council does hereby adopt the FY 2018 - FY 2021 TIP for the C-SMMPO area.

Todd B. Morgan - Council Chairperson for 2017

Date

TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 - 2021**

TRANSPORTATION IMPROVEMENT PROGRAM

CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 – 2021

INTRODUCTION

As a result of the 2010 U.S. Census, the Lexington Park—California—Chesapeake Ranch Estates Area was classified as an Urbanized Area, and in accordance with the U.S. Department of Transportation requirements a Metropolitan Planning Organization (MPO) was designated by Maryland Governor Martin O'Malley on December 31, 2013 as the Calvert - St. Mary's Metropolitan Planning Organization (C-SMMPO). The Planning Area boundary, which includes the Urbanized Area, is a larger area that includes the anticipated growth area for the next 20 years for the member jurisdictions.

The population of the Urbanized Area as defined by the U.S. Census Bureau was 58,875. A population of 50,000 or greater is required for designation of an urbanized area.

Since the 1960s the federal government has established urban transportation planning requirements in all metropolitan areas, as a prerequisite to the approval of federal funding (23 CFR Part 450 and 49 CFR Part 613). The regulations require a continuing, comprehensive and cooperative (3-C) planning process in all urbanized areas. The MPO is the planning agency responsible for transportation planning within the identified planning area in accordance with federal regulations.

In 1991, the Intermodal Surface Transportation Efficiency Act (ISTEA) was passed. This act revised some of the established regulations and procedures and placed a new emphasis on Metropolitan Planning Organizations. As part of this Act the MPO planning process has been more specifically defined and new planning requirements have been prescribed.

In 1998, the Transportation Equity Act for the 21st Century (TEA-21) was passed continuing the initiatives of the 1991 Act and adding several new provisions and programs.

In 2005, the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) was passed, building on the foundation established by ISTEA and TEA-21 and representing the largest surface transportation investment in the nation's history.

SAFETEA-LU expired in 2009 and after a series of continuing resolutions; Moving Ahead for Progress in the 21st Century (MAP-21) was signed into law in 2012. MAP-21 built on and refined many of the highway, transit, bike and pedestrian programs and policies established by ISTEA and subsequent federal transportation acts, through a performance-based approach to surface transportation.

In December 2015, the Fixing America's Surface Transportation (FAST) Act was passed, which re-authorized funding for highway, transit, and other multi-modal projects through September 30, 2020. The FAST Act continues MAP-21's performance-based approach, and it includes a new focus on freight and provides funding certainty for five full years.

TRANSPORTATION PLANNING PROCESS

Federal Planning Factors

Federal regulations (23 CFR 450.306) stipulate that the metropolitan planning process incorporate eight specific factors reflecting sound planning principles. These factors are to be explicitly considered, analyzed as appropriate, and reflected in each MPO's planning

CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 - 2021

products (including the Long Range Transportation Plan and the Transportation Improvement Program). These eight factors are:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency.
2. Increase the safety of the transportation system for motorized and non-motorized users.
3. Increase security for transportation system users.
4. Increase the accessibility and mobility options available to people and for freight.
5. Protect and enhance the environment, promote energy conservation, improve quality of life, and promote consistency between transportation improvements and state and local planned growth and economic development patterns.
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.
7. Promote efficient system management and operation.
8. Emphasize preservation of the existing transportation system.

Performance Management Measures / National Goals

The FAST Act has continued the transition, started by MAP-21, of the nation's surface transportation program to a performance and outcome-based program, in which resources are invested in projects to achieve targets toward regional, state, and national goals. The bill established seven national goals described in 23 USC§150(b). The goals are:

1. **Safety** - Achieve a significant reduction in traffic fatalities and serious injuries on all public roads
2. **Infrastructure Condition** - Maintain the highway infrastructure asset system in a state of good repair
3. **Congestion Reduction** - Achieve a significant reduction in congestion on the National Highway System
4. **System Reliability** - Improve the efficiency of the surface transportation system
5. **Freight Movement and Economic Vitality** - Improve the national freight network, strengthen the ability of rural communities to access national and international trade markets, and support regional economic development
6. **Reduced Project Delivery Delays** - Reduce project costs, promote jobs and the economy, and expedite the movement of people and goods by accelerating project completion through eliminating delays in the project development and delivery process, including reducing regulatory burdens and improving agencies' work practices

The FHWA and FTA have published a series of rules that establish regulations to assess progress towards the seven national goals. The regulations direct states, MPOs, and transit providers to establish targets and track specific measures related to the conditions and performance of their surface transportation systems in areas that include bridges, pavement, safety, congestion, freight, and transit asset management. States and MPOs are to incorporate the measures into their transportation improvement programs and long-range transportation plans, so that they can demonstrate how proposed transportation projects will help make progress towards the goals. Based on federal guidance, MDOT is establishing statewide targets and measures, and it will be working closely with the Calvert-St. Mary's MPO throughout the process. MDOT already tracks performance through its

**CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION
TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 – 2021**

Annual Attainment Report, which provides information on measures of funding, investment, mobility, and safety, and the C-SMMPO will produce a similar report once the State and MPO targets are set.

This Transportation Improvement Program (TIP), which is a component of the prescribed Metropolitan Planning Process, is a compendium of all federally-funded and regionally significant transportation projects that have been programmed for a four-year period for the C-SMMPO Area. This TIP was available for review and comment by the public consistent with the organization's Public Participation Program.

ORGANIZATION AND MANAGEMENT

Metropolitan Planning Organization

The primary governing body of the C-SMMPO is the Council, which consists of three (3) members. The members consist of one representative from each the following governments and agencies:

- Maryland Department of Transportation
- Calvert County
- St. Mary's County

All three members have equal voting rights as defined in the MPO's bylaws.

Technical Advisory Committee (TAC)

The C-SMMPO has established a Technical Advisory Committee (TAC) comprised of technical representatives such as planners and engineers to provide technical expertise and develop recommendations to assist the Council by reviewing and recommending revisions to the planning process, data collection, forecasts, the Long-Range Transportation Plan, the Transportation Improvement Program, and the Unified Planning Work Program. The TAC meets on an as needed basis. The members of the TAC are illustrated in the table below:

Figure 1: TAC Members

Representing	Name	Title
Calvert-St. Mary's MPO	Ashley Renshaw	Administrator/MPO Planner
St. Mary's County Land Use & Growth Management	Kathleen Easley	Senior Planner, LUGM
Calvert County Planning and Zoning	Pat Haddon	Transportation/Town Centers Planner
St. Mary's County Public Works & Transportation	John Groeger Jacque Fournier	Acting Director, DPW&T Transportation Manager
Calvert County Public Works	Danielle Conrow Frank Schlotter	Division Chief, Engineering Deputy Director, Engineering
Tri-County Council	Nicky Pires	Regional Transit Coordinator
St. Mary's Transit	MaryAnn Blankenship	Transportation Supervisor
Calvert County Transportation	Sandra Wobbleton	Transportation Division Chief
Maryland Department of Transportation	Tyson Byrne Chris Witt	Regional Planning Manager Regional Planner
State Highway Administration	Tara Penders	Regional Planner
State Highway Administration	Karen Fiasco	Chief Engineering Systems Team
NAS Patuxent River	Russ Byrd	Community Planning & Liaison Officer

CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 – 2021

MPO Staff

The C-SMMPO staff consists of personnel from the Calvert County Department of Planning and Zoning and the St. Mary's County Department of Land Use and Growth Management. St. Mary's County has a full-time MPO Planner that administers the program. Technical assistance is provided as needed by the Maryland Department of Transportation, the State Highway Administration, and the Maryland Transit Administration. The staff manages the operations of the C-SMMPO as directed by the Council and recommendations of the TAC, and coordinates all planning projects and activities identified by the Council. The staff also acts as a local liaison to the State and Federal agencies involved in transportation planning within the C-SMMPO's Metropolitan Planning Area.

Organizational Procedures and Bylaws

The C-SMMPO operates under an adopted set of bylaws. The C-SMMPO provides and maintains all records including fiscal, administrative, and procurement services, and staff performing these services operates under the rules and procedures of Calvert and St. Mary's Counties and the State of Maryland. C-SMMPO's records are available for public inspection at the offices of St. Mary's County Department of Land Use and Growth Management during normal business hours, Monday through Friday. All of C-SMMPO's planning documents are also available at the planning offices of each County as specified in the C-SMMPO's Public Participation Plan. The records are available for public inspection during normal business hours, Monday through Friday.

PUBLIC PARTICIPATION PROCESS

The C-SMMPO Council is the policy body for transportation planning in the Metropolitan Area and meets as needed to conduct MPO business such as approval of the annual Unified Planning Work Program (UPWP) and the Transportation Improvement Program (TIP). The Council also acts to amend these documents as necessary. The Council meetings are advertised on the C-SMMPO website and in the local newspapers. All C-SMMPO meetings are open to the public and opportunities for the public to comment on MPO issues are provided at the meetings. The C-SMMPO Council solicited public input on the FY 2018-2021 TIP.

In compliance with federal requirements, the C-SMMPO developed a Public Participation Plan, which was adopted on April 20, 2015. This Plan documents and formalizes the public participation process, which is conducted for all MPO activities including the development, review and approval of the TIP. Specifically, the Plan requires a 15-day public comment period for the TIP, which includes amendments. Moreover, the Plan requires a Public Hearing of the C-SMMPO Council, as well as advertising notice of the Public Hearing as specified in the Public Participation Plan 15-days in advance of the meeting.

The public participation process for this Transportation Improvement Program also meets the Federal Transit Administration public participation requirements for the Maryland Transit Administration's Program of Projects.

LONG RANGE TRANSPORTATION PLAN

In 2016, the Calvert St. Mary's MPO approved its first long range transportation plan, *Moving Forward 2040*. The long-range transportation plan, which all MPOs are required to develop, identifies and details the transportation plans, projects, and programs that will be

**CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION
TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 – 2021**

carried out by the C-SMMPO over the next twenty-five years, from 2015 to 2040. It includes a description of the region's transportation system, a list of goals, financial forecasts, a list of transportation projects that are being considered for funding in the region, and a list of projects for which funding has not been identified.

Through *Moving Forward 2040*, the C-SMMPO identified six goals for the region's transportation system, which are supported by more specific objectives and linked to the plan's list of transportation projects. The goals are:

- Manage the existing transportation system
- Enhance access and mobility
- Support economic vitality
- Provide a connected, multimodal transportation system
- Improve safety and security
- Conserve the environment

The C-SMMPO Board selected one project, the widening of MD 4, for inclusion in the fiscally-constrained portion of the plan. The project would widen MD 4 to four lanes from Patuxent Point Parkway in Calvert County to MD 235 in St. Mary's County and include the replacement of the Thomas Johnson Bridge. *Moving Forward 2040* breaks the project into four phases with the bridge replacement as the highest priority.

Figure 2: MD 4 Widening Project Phasing

Phase	Facility/Project	Location	Project Description	YOE	Estimated Project Cost in YOE
1	Patuxent River Crossing	Thomas Johnson Bridge	Construct a new four-lane bridge	2015-2027	\$510,400
2	MD 4 Mainline, St. Mary's County	Thomas Johnson Bridge to MD 235	Four-lane widening	2023	\$88,000
3	MD 4/MD 235 Interchange	MD 4/MD 235 intersection in Lexington Park	Interchange construction	2028	\$232,500
4	MD 4 Mainline, Calvert County	Thomas Johnson Bridge to Patuxent Point Parkway	Four-lane widening	2031	\$10,500

PROJECT PRIORITIZATION

Maryland's small MPOs, which are staffed by county planning offices, do not have formally defined project prioritization processes. The MPOs do however have a role in the development of the Maryland Consolidated Transportation Program (CTP) which contains all the projects programmed in the Metropolitan Transportation Improvement Programs.

In addition to the frequent and in some cases daily coordination and consultation between MPO staff and MDOT planners, there are several mechanisms for reaching consensus on the programming of local transportation projects as follows:

- **Maryland Association of Counties & Maryland Municipal League:** These two organizations meet annually and provide both formal and informal opportunities for

CALVERT - ST. MARY'S METROPOLITAN PLANNING ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FY 2018 - 2021

local elected officials and County representatives in the State to share and discuss transportation needs. MPO policy body members are members of these groups.

- **Secondary Highway System Priority Letter:** State and local elected officials are encouraged to reach consensus on local priorities for the secondary highway system, as well as transit priorities, and to document these priorities in a letter to the Maryland Department of Transportation. The priorities become candidates for funding and inclusion in the CTP.
- **Annual Consolidated Transportation Program (CTP) Tour:** Every year, in the fall, the Secretary of Transportation and the Department's modal administrators visit each of the State's 23 counties and Baltimore City to present and solicit input on the Draft CTP from local elected officials, state legislators and citizens. Information obtained at these meetings is used in the development of the final CTP that is presented to the General Assembly for approval at the beginning of the 90-day legislative session in January. Since County elected officials are members of all of Maryland's small MPO policy boards, the MPOs are represented and consulted during the annual CTP Tour.

AIR QUALITY CONFORMITY STATUS

The Environmental Protection Agency (EPA) has designated Calvert County as marginal non-attainment of the 2008 Ozone National Ambient Air Quality Standard (NAAQS). St. Mary's County is in attainment for the 2008 Ozone NAAQS and both Counties are in attainment of the Fine Particulate Matter (PM_{2.5}) NAAQS. As required by 23 CFR 450.314 Metropolitan Planning Agreements, C-SMMPO, the National Capital Region Transportation Planning Board (TPB), and Calvert County, Maryland executed an agreement on January 27, 2016 to specify the procedures for ensuring that transportation plans, programs, and projects in Calvert County are assessed by the TPB for regional air quality conformity. On November 16, 2017, the TPB determined that the FY 2018-2021 TIP conformed to all requirements of the 1990 Clean Air Act Amendments. FHWA, FTA, and the EPA approved the conformity analysis on February 27, 2017. The approved conformity analysis:

- Included all relevant projects and planning assumptions for Calvert and St. Mary's County as provided by the C-SMMPO.
- Was conducted in interagency consultation with the C-SMMPO and all applicable federal, state, and local parties.
- Was made available for two, 30-day public comment periods that were advertised throughout the Metropolitan Washington Region, including in Calvert and St. Mary's Counties.

As a result, it has been demonstrated that the C-SMMPO's FY 2018-2021 TIP will not cause any degradation in the region's air quality or delay the timely attainment of the National Ambient Air Quality Standards because they are part of an approved air-quality conformity analysis.

A copy of the conformity analysis can be found on the TPB website:
https://www.mwcog.org/assets/1/28/R3-2017_updated_2016_CLRP_conformity.pdf

The TPB's agreement with the MPO can be found on the C-SMMPO website:
