

# Aberdeen Station Area Master Plan makes progress !

## Please join us to see the results of the **Aberdeen Station Square Feasibility Study**

### WHAT?

The Mayor and City Council adopted the 2012 Aberdeen Station Area Master Plan earlier this year. With the State of Maryland, Harford County, and the Chesapeake Science and Technology Corridor, the City has advanced one of the plans key recommendations. The concept known as Aberdeen Station Square creates a more welcoming, convenient, and attractive crossing of the rail track with a terraced public plaza and daylighted undercrossing. See a presentation of refined plans for east and west entrances, undercrossing and station area to recast the station as Aberdeen's unique community and transportation asset.
