INTRODUCTION

This Report highlights the activities of the Transportation Professional Services Selection Board (TPSSB) during Fiscal Year 2011 in conjunction with the selection of consultants for Architectural/Engineering (A/E) projects processed through the TPSSB, for the Maryland Department of Transportation (Department), in conformance with applicable laws, regulations and internal guidelines.

The contents of this report have been organized under the following topical headings:

- Executive Summary
- Minority Business Participation
- Changes in Laws, Regulations, and Internal Guidelines
- TPSSB Membership and Composition
- Consultant Recommendations
- Certification for Consultant Services

Appropriate attachments have also been provided detailing Department Consultant Screening Committees and Negotiating Teams membership; consultant recommendations, including project and proposal data/time involved; projects certified by the Secretary of Transportation (Secretary) in accordance with the TPSSB statute for consultant services for Fiscal Year 2011.

EXECUTIVE SUMMARY

The major facts and conclusions contained in this report are as follows:

1. The TPSSB finalized 71 consultant recommendations, compared to 55 in Fiscal Year 2010. The total awards for these 71 recommendations amounted to approximately $523 Million, compared to $352 Million in Fiscal Year 2010.

2. Of the total 71 recommendations, all were in excess of $1,000,000 and were based upon evaluation of technical proposals and negotiated prices.

3. The total time required to finalize recommendations on a negotiated basis averaged 21.8 months, with 21.0 months consumed by Transportation Agencies and .8 months by the TPSSB. (These averages exclude major delays attributable to non-selection related matters). This is an increase over Fiscal Year 2010 of .5 months in time consumed by Transportation Agencies and a decrease of .1 months for the time required by the TPSSB.

4. Of the $532 million in contract awards for fiscal year 2011, two awards for $80 million from the Maryland Transit Administration (MTA) were for On-Call General Engineering Consultant (GEC) services for New Starts projects that include the Red Line, Purple Line and Corridor Cities Transitway. These two projects represent 30% of the total awards for fiscal year 2011.

MINORITY BUSINESS PARTICIPATION/DISADVANTAGED BUSINESS PARTICIPATION

Of the 71 projects in Fiscal Year 2011, 149 firms were used as subcontractors, and of those subcontractors, 78 were MBE/DBE firms.

CHANGES IN LAWS, REGULATIONS, & INTERNAL GUIDELINES

In Fiscal Year 2011, there were no changes to COMAR 21.12.01, 21.12.02 or Sections 12-303 or 13-304 of the State Finance and Procurement Article.

CONSULTANT RECOMMENDATIONS

During Fiscal Year 2011, the TPSSB met 10 times, and processed 71 recommendations on a negotiated basis involving 19 consultant firms compared to 30 consultant firms in 2010. The total cost of the 71 finalized recommendations amounted to approximately $523 Million.

Detailed information on the 71 finalized recommendations is provided as Attachments II - V. An analysis of the data on these Attachments, and other information available in TPSSB files, reveals the following:

1. Projects by Cost Categories:
   Costs for each of the 71 recommendations for which consultants were recommended on a negotiated basis ranged from approximately $1,000,000 to $80,000,000.

   The following tabulation summarizes these recommendations by cost categories:

Cost Category $	No. of Recommendations	% by No. of Recommendations
200,001 – 300,000	0	0%
300,001 – 500,000	0	0%
500,001 – 1,000,000	2	2.8%
1,000,001 – 10,000,000	33	46.5%
10,000,001 – 50,000,000	34	47.9%
50,000,001 – 90,000,000	2	2.8%
TOTAL	**71**	**100%**

Contracts range from 4 to 8 years

2. Recommendations by Technical Proposals/Negotiated Prices:
   71 recommendations were finalized based on evaluation of technical proposals and negotiated prices.

Negotiating Teams were able to negotiate a satisfactory contract with the top-ranked firms in all instances at a price, which they determined to be fair, competitive and reasonable.

There is a possibility that the TPSSB could consider a Transportation Agency's recommendation of the award of a contract to the second highest ranked firm. In addition, in cases where simultaneous negotiations with two or more firms for the awarding of identical open-end contracts from one reduced candidate list have not been satisfactory, the Transportation Agency may negotiate with, and recommend the award of a contract to a lower ranked firm. Neither of these situations occurred in Fiscal Year 2011.

3. Time Involved in Finalizing Recommendations:

Of the 71 recommendations, which were finalized on a negotiated basis, the total time required for a selection ranged from 13.4 to 49.7 months, depending on the nature and complexity of the project, averaging 21.8 months per selection, excluding major delays attributable to non-selection related matters. This was measured from solicitation of interest from firms, to final approval by the TPSSB. Related actions occurring during this period were as follows:

An average of 21.0 months per selection was consumed by appropriate Transportation Agencies in making specific selection recommendations to the TPSSB. This covered time necessary for public announcements for solicitation of interest from firms, evaluation of candidate firms, any de-briefings of firms not on reduced candidate lists, preparation of requests for technical and price proposals, and evaluation of these proposals and price negotiations in order to make selection recommendations to the TPSSB.

An average of .8 months per selection was required for the TPSSB to review and finalize all selection recommendations made by Transportation Agencies, including waiting periods necessary for public announcements for TPSSB meetings, and any de-briefings through Transportation Agencies of firms not recommended for selection.

CERTIFICATION FOR CONSULTANT SERVICES

During Fiscal Year 2011, the TPSSB received and recorded a total of 34 certifications by the Secretary involving A/E services, which at the time of certification could not feasibly or economically be provided through existing in-house resources, and appropriate Transportation Agencies were directed to proceed with the selection of consultants.

Detailed listings of such projects recorded by the TPSSB as certified by the Secretary are provided as Attachment VII.

Report of Activities for Fiscal Year 2011 submitted and approved at the TPSSB meeting held on January 5, 2012.
