The Board will hear the following case(s) **BAZA Case Number 437** regarding Mr. Edwin Fernandez-Quiles, Northrop Grumman Corporation, Temporary Crane Operations at 1212 Winterson Rd, Linthicum, MD 21090.

Northrop Grumman Corporation is proposing to utilize a temporary crane to install various company equipment on a building roof located at 1212 Winterson Road, Linthicum Heights, MD. This location is approximately 8,850 feet northwest of Runway 15L at Baltimore Washington Thurgood Marshall International Airport (BWI Marshall). The proposed height of the temporary crane is 150 feet Above Ground Level (AGL)/336 feet Mean Sea Level (MSL). The temporary crane height will exceed the Code of Federal Regulations (FAR) Part 77, Objects Affecting Navigable Airspace by approximately 44 feet. The Appellant has filed for a "Determination of No Hazard to Air Navigation" (ASN# 2025-AEA-12080-OE) to the Federal Aviation Administration. Code of Maryland Regulations (COMAR) 11.03.06.03 and 11.03.06.04 - Height Limits in Airport Districts, enables the proponent to seek a variance from the Board of Airport Zoning Appeals for any proposed penetration of FAR Part 77. Therefore, the Maryland Aviation Administration requests to present BAZA Case 437 to the Board of Airport Zoning Appeals in December 2025.
