

APPENDICES A&B – PREVIOUS CHAPTER 30 SCORES

Appendix A: Previous Chapter 30 Project Scores Draft FY 2026-31 CTP

The Maryland Department of Transportation (MDOT) evaluates major transportation projects through a project-based scoring model that is required by the Maryland Open Transportation Investment Decision Act – Application and Evaluation (Chapter 30). Major transportation projects are defined as highway and transit capacity projects over \$5 million. The major transportation projects that have been evaluated under chapter 30 and their corresponding scores are shown below. Please note that the maximum allowable score for any project was determined to be 2000. The project prioritization model required under Chapter 30 does not select major transportation projects for funding, but it is one of many tools MDOT utilizes in its project evaluation and selection process.
