

Maryland Department of Transportation

CONSOLIDATED TRANSPORTATION PROGRAM

2013 State Report on Transportation • FY 2013-2018

*Martin O'Malley, Governor
Anthony G. Brown, Lt. Governor
Darrell B. Mobley, Acting Secretary*

Printed on recycled paper

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation, its modal agencies – the Maryland Aviation Administration (MAA), Maryland Port Administration (MPA), Motor Vehicle Administration (MVA), State Highway Administration (SHA) and the Maryland Transit Administration (MTA) and related authorities within the Department, including, the Maryland Transportation Authority (MdTA), as well as the Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find a Project Information Form (PIF) for every major project in the state which includes project details, financial information and construction status as well as a list of minor capital projects. The Maryland Department of Transportation (MDOT) works together with residents, local jurisdictions and local and State elected officials to include projects in the CTP that preserve investments, enhance transportation services and improve accessibility throughout the State. In order to help Maryland's citizens review this document, the CTP includes a summary of the Department's financing and budgeting process and instructions for reading Project Information Forms (PIFs).

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT's Office of Diversity and Equity at **410-865-1397**.

For the hearing impaired, Maryland Relay 711.

Glossary	GL-1

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Maryland Department of Transportation (MDOT) is pleased to present the State's six year capital investment program for transportation, the Final FY 2013-2018 Consolidated Transportation Program (CTP).

The CTP is the capital budget outlook and a key part of the State Report on Transportation (SRT) that MDOT publishes each year. The SRT contains three important documents in total: the Maryland Transportation Plan (MTP), the Consolidated Transportation Program (CTP) and the annual Attainment Report (AR) on Transportation System Performance. The CTP contains projects and programs across the Department. Under the leadership of the O'Malley-Brown Administration, MDOT is beginning to update the Maryland Transportation Plan, a 20-year vision for Maryland's transportation system. The MTP is updated every five years through an extensive outreach effort with the public, local jurisdictions, and State agencies to ensure it reflects the needs and priorities of Marylanders. To learn more, visit the new plan website at www.mdot.maryland.gov/MTP. The CTP includes capital projects that are generally new, expanded or significantly improved facility or service that may involve planning, environmental studies, design, right-of-way acquisition, construction, or the purchase of essential equipment related to the facility or service.

ESTABLISHING PRIORITIES

This year's CTP reflects the priorities of the O'Malley/Brown Administration embodied in the goals of the Maryland Transportation Plan and is influenced by federal and state mandates related to transportation, the interests and concerns of local governments and the public. Guided by these considerations, MDOT has a clear set of priorities that represent a core focus of the State's transportation program.

While MDOT places a strong emphasis on these priorities, our economic challenges continue to limit resources and to require the Department to make tough decisions about how to invest public dollars in the most efficient and cost-effective way. Given the current issues and constraints, MDOT views the following as our transportation priorities:

Priority: Safety & System Preservation

MDOT continues to place a high priority on allocating funds toward safety and system preservation. The MTP and the CTP both reflect significant investments in the bridge program, road and runway resurfacing, rail car overhauls and replacements, bus replacements, facility rehabilitation and replacement and upkeep. A key area of focus is the condition of bridges across Maryland. The State Highway Administration continues to make significant progress in reducing the number of structurally deficient bridges on the state's highway system to ensure safe travel for Maryland motorists and other system users.

Since 2007, when Governor O'Malley took office, SHA has repaired or rehabilitated 121 state-owned bridges that had been classified as structurally deficient. By April 2012, SHA had reduced the total number of state-owned structurally deficient bridges to 97 out of more than 2,500 structures statewide. SHA reports the number of structurally deficient bridges to FHWA once a year in April. This effort has reduced the number of state-owned structurally deficient bridges in Maryland to its lowest number in more than a generation.

Priority: Supporting Economic Development and Jobs

Transportation infrastructure provides value, and investing in Maryland's transportation system supports Maryland industries and businesses. Maryland employers depend upon high quality access to remain productive and competitive. By making investments in the transportation system Maryland retains and enhances access to markets across the globe. Maryland has had success receiving numerous discretionary grants that have benefited several projects in the short term. Over the past several years US DOT has awarded:

- \$15 million in grant funding to BWI Airport for apron resurfacing;
- \$60.0 million in design funds to replace the Baltimore and Potomac Tunnel;
- \$22 million to design a replacement for the Susquehanna Rail Bridge;

- \$2.6 million for expanded truck parking;
- \$9.4 million in design funds for track, platform and station improvements at BWI Rail Station;
- \$12.3 million to construct the Takoma/Langley Park Transit Center;
- \$2.5 million for priority bus corridor enhancements in Prince George's and Montgomery counties;
- Baltimore City received monies for their water taxi service;
- MTA has received monies for greenhouse gas and energy reduction improvements;
- MPA has received \$3.4 million for port security work;
- Most recently, the MTA received a discretionary award of \$40 million to replace the Kirk bus facility. Phase I of this project will construct a new maintenance facility on land recently acquired adjacent to the current site. The project will improve air quality and reduce noise by storing buses indoors. The MTA also received an \$800,000 discretionary grant to refine and improve its Asset Management Plan.

In order to create the greatest economic benefit, to keep Marylanders working and to continue to improve the State's transportation network, MDOT is working to spend federal money as quickly as possible while preserving its capital program.

Priority: Transit Improvements

Maryland citizens, businesses and visitors need a dependable and affordable means to get to and from work, school or other activities each day. Public transit is a sustainable investment in the future as it can help working families keep more money in the bank by providing them less expensive transportation options, address environmental issues like global climate change and can serve as a focus for the State's Smart, Green and Growing initiatives. When people choose to ride public transportation, it translates into fewer cars on the road, fewer emissions in the air and a healthier environment. That is why the O'Malley/Brown Administration is committed to doubling transit ridership by 2020. Transit can fit into the various communities across the State of Maryland so this year's CTP provides funding for transit in rural areas, small cities and metropolitan regions. For longer commutes, MDOT provides MARC train and commuter bus services to downtown Baltimore and Washington, D.C. Our state is committed to providing easily accessible, high quality public transportation. In today's economy transit is a wise and often necessary service that helps create opportunities and a better future for hundreds of thousands of people in Maryland. The O'Malley/Brown Administration is aggressively moving forward with new transit initiatives designed to meet current and future demand in both the Washington and Baltimore regions. The next generation of transit includes the Purple Line and Corridor Cities Transitways in the Washington region and the Red Line Transitway in the Baltimore region.

The Baltimore Red Line is a 14.1-mile, 19 station Light Rail system that will run from Johns Hopkins Bayview Medical Campus east of Baltimore to the Social Security Administration and CMS/Centers for Medicare and Medicaid service west of Baltimore. This project was named by President Obama as one of 14 infrastructure projects across the country that would receive expedited environmental review to help create new jobs quickly. The Red Line links the existing Baltimore Light Rail system, MARC stations, the Baltimore Metro subway and local bus routes to create a comprehensive regional transit network that is unprecedented in the Baltimore region. It will provide the region's first cross-town rail route and tie the City and suburbs together serving existing residential neighborhoods and employment centers. It also will support emerging new development at locations such as Harbor East, Canton Crossing and Uplands. The presence of the Red Line has the potential to spur revitalization efforts at Security Square Mall, Edmondson Village, Highlandtown, Greektown and around the West Baltimore MARC station. By linking with the MARC system, the Red Line will improve access to Washington, D.C. and to growing BRAC-related job opportunities at Fort Meade and Aberdeen.

The Purple Line is a light rail line serving a 16-mile east-west corridor between New Carrollton in Prince George's County and Bethesda in Montgomery County. On the eastern end, it will operate along the Montgomery County Master Plan's Georgetown Branch alignment, where innovative design techniques will be used to allow the hiker-biker trail and the Purple Line to coexist in a community-friendly-manner. The Purple Line will directly serve local communities and provide an important link to other transit services, particularly both branches of the Metrorail Red Line as well as the Green and Orange lines; MARC's Brunswick, Camden and Penn lines and local bus services. The Federal Transit Administration (FTA) gave MTA approval in October 2011 to move forward with preliminary engineering. This means the project can now prepare more detailed plans, cost estimates and environmental studies.

Priority: Smart, Green and Growing

The O'Malley/Brown Administration has given new energy and focus to Maryland's Smart Growth legacy by launching the Smart, Green and Growing initiative and by supporting the Sustainable Communities Act, passed by the Maryland General Assembly in 2010. These statewide initiatives provide a framework for addressing transportation challenges and for coordinating with other stakeholders toward smarter and more sustainable patterns of future growth. This focus has enabled MDOT to promote new measures and mechanisms: to encourage rideshare, telework and other commuter options; to establish a broader sustainability agenda to address air emissions, water quality and other environmental impacts; and to coordinate with other agencies and partners to more strategically leverage investment. The Smart, Green and Growing Initiative also has encouraged the preservation of resource lands, the revitalization of existing communities and the promotion of compact, mixed-use development near existing and planned transit stations.

Priority: Transit-Oriented Development (TOD)

Transit-oriented development (TOD) is a key component of Maryland's efforts to ensure efficient use of our transportation system and promote sustainable, smart growth development for the State. A development that is "transit-oriented" typically comprises a mixture of land uses generally configured and oriented to maximize visibility and access to the transit station. TOD projects design street networks and parking to ensure the safety and comfort of pedestrians and bicyclists, while ensuring efficient traffic flow to automobiles, buses and carpoolers. TOD will help ensure that Maryland residents achieve maximum benefit for their investment in transit

and related transportation infrastructure. By contributing to transit ridership, TOD can reduce highway congestion, greenhouse gas emissions and sprawl.

MDOT works with State, local and private partners to support TOD through: pre-development planning, policy and program support; joint development partnerships, infrastructure investments and other project support. The Department has an active program of TOD planning and joint-development projects, spanning multiple jurisdictions and station types. MDOT also works with other agencies and local jurisdictions to help identify additional TOD opportunities and to promote principles of TOD through transit-supportive, land-use policies.

To date the O'Malley/Brown Administration has promoted TOD as part of its Smart, Green, and Growing initiative by officially designating 15 transit stations as Transit-Oriented Developments. These station areas are to be developed as integral elements of the state's overarching transportation agenda. They also will benefit from legislation which makes it easier for both state and local agencies to coordinate and advance their respective TOD agendas. For example, these designated TOD sites will be eligible to take advantage of 2009 legislation that grants many local governments greater flexibility to use existing tax increment financing (TIF) and special taxing district powers to finance these projects. Under the 2010 Sustainable Communities Act, these designated TODs are considered "Sustainable

Communities”, and will, thereby, gain more ready access to other state programs. This designation also ensures general oversight by an expanded Smart Growth Sub-Cabinet.

Priority: Bicycle & Pedestrian Travel

Providing safe infrastructure so that people can choose to walk or bike to meet their daily needs results in fewer cars on the road, fewer emissions in the air, and a healthier Maryland. Supporting walking and bicycling is an

Photo by Jay L. Baker, Governor's Office

essential element of Maryland's Smart Growth strategy, and MDOT is committed to improving facilities for walking and biking across the statewide network. Several recent studies have highlighted the high economic return that bicycle and pedestrian projects can have by generating both jobs and tourism activity. With household budgets stressed, walking and bicycling are affordable travel options that are becoming even more critical to a high quality of life in Maryland. MDOT is working hard to realize Governor O'Malley's commitment to make trails in Maryland second to none.

MDOT includes accommodations for walking and bicycling in all of its projects, wherever possible, and has launched several programs specifically

directing additional funding to walking and biking. This Final CTP includes almost \$124 million for bicycle and pedestrian projects. These investments include a bikeways program launched in 2012 that will direct \$10 million to projects that support bicycle transportation. The bikeways program will provide needed funding to implement the Statewide Trails Plan and the 20 Year Bicycle and Pedestrian Master Plan. The bikeways program is filling missing links in the statewide trails and bikeways network by connecting and extending on-road and off-road bicycle facilities across the state and improving connections to transit, work, schools, shopping, and other destinations. Maryland also provided \$2.5 million in grants to local governments for planning and implementing Bikeshare programs to promote the development of a bicycle infrastructure.

Priority: Natural Environment

MDOT recognizes the need to work within a framework of ecological boundaries. As our climate changes, those boundaries will continue to change. Our commitment to Environmental Stewardship is one aspect of a larger commitment to a more sustainable future. That future will require our transportation system to be resilient and our strategies for the protection of our natural, cultural and community resources to be forward-looking and adaptive.

By coordinating land-use, transportation and resource planning with partners in other agencies and local governments, MDOT will ensure the investments we make will meet multiple needs for the citizens of Maryland. Using the State's Green Infrastructure Plan and Chesapeake Bay Restoration priorities as a guide, MDOT agencies are minimizing negative impacts and using project mitigation to support the State's broader conservation goals. As part of the State's response to the EPA's imposition of Total Maximum Daily Loads (TMDLs) for nutrients and sediment on the Bay and its tidal tributaries, the CTP supports a three-pronged approach. Retrofitting older parts of the transportation network with the latest stormwater management technology; restoring natural filters through stream restoration, forest establishment and wetland creation; and adopting protective operational practices will move the State closer to meeting our water quality targets.

MDOT is working to address Climate Change issues, reduce air emissions and manage energy consumption related to the transportation industry. MDOT has been addressing these issues by continuing to improve its public transportation network and provide an alternative to single occupant vehicles. Another way is through the Electric Vehicle Infrastructure Council, a body created through state legislation in 2011 that has recommended strategies to

facilitate the successful integration of electric vehicles and electric vehicle infrastructure into Maryland's existing transportation system. MDOT is working with other states' departments of transportation and environmental agencies across the Northeast to assess the possibility of installing electric vehicle recharging stations across the region. The State continues to build its hybrid-electric bus technology and hybrid and flex-fuel vehicle fleets. With the passage of the Clean Car legislation in 2007, the State has adopted the cleaner California car standards beginning with the 2011 model year. MDOT has installed electric vehicle recharging stations for public use at several locations including MDOT headquarters, BWI Marshall Airport and at several park and ride lots throughout the state. By paving the way for broader usage of cleaner vehicles, these efforts will help us reduce greenhouse gas emissions and contribute to our long-term efforts to fight climate change.

MDOT uses a variety of Travel Demand Management (TDM) strategies to support alternatives to driving alone and to limit emissions from the transportation sector. TDM efforts can also help reduce congestion, lower commuting costs, and improve air quality. Some of these efforts are: carpooling, car sharing, transit, teleworking, and variable pricing infrastructure.

MDOT is implementing these strategies in cooperation with our partners in the metropolitan planning organizations, the Maryland Department of the Environment, local governments and the private and not-for-profit sectors.

Also, we are working closely with the Maryland Department of the Environment and our sister agencies to develop a Final Green House Gas Reduction Plan.

Priority: Security

The safety and security of the public is a top priority for the Maryland Department of Transportation. We work with our federal and local law enforcement partners on a daily basis and are constantly evaluating and implementing measures that will reduce the vulnerability of our citizens and our facilities. With an investment of federal and state dollars, progress is being made on a variety of fronts.

Recent investments to enhance security include a \$100 million terminal expansion program at Baltimore Washington International Thurgood Marshall Airport. The expansion, now under construction, will include creation of a new, state-of-the-art security screening area for concourses A, B and C. BWI Marshall also is in the midst of a \$60 million upgrade to various elements of its security network including enhancements to its video monitoring capability and access control system.

The Maryland Transportation Authority is investing \$12 million to upgrade security and surveillance at its major bridge facilities including enhancements to its video monitoring capability on the Chesapeake Bay Bridge.

MDOT has been a primary source of funding for the State's 700 MHz radio system to connect Maryland's first responders on one secure radio network. The first phase of the implementation has been completed and covers central Maryland, Kent County and key infrastructure operated by the Maryland Transportation Authority. With the implementation of Phase I, first responders responsible for two-thirds of Maryland's population can now talk to one another in an emergency situation via one secure radio system.

The security of customers and highly visible transit infrastructure is the focus of a \$61 million anti-terrorism and emergency preparedness program being implemented by the Maryland Transit Administration. Enhancements include improved video monitoring of transit stations and vehicles, communication improvements and public education efforts to involve MTA's hundreds of thousands of daily customers in the security effort based on the premise that, "If you see something, say something." Through its financial support of the Washington Metropolitan Area Transit Authority, MDOT also supports security enhancements to the Washington region's bus and Metro subway system.

Governor Martin O'Malley's goal of making the Port of Baltimore the safest port in the nation is the driving force behind the Maryland Port Administration's \$43 million Terminal Security Program. With the assistance of our federal partners, the latest state-of-the-art technology is being integrated into a comprehensive port security network that includes enhancements to video monitoring, access controls and other security infrastructure. This comprehensive approach to port security has earned the Port of Baltimore an "Excellent" evaluation rating from the United States Coast Guard for four years in a row.

Priority: Freight

Freight activity in Maryland and the eastern region is expected to double by 2030. Maryland's location at the crossroads of I-95 corridor and significant rail and marine corridors means that the infrastructure in Maryland is critical to the State, regional and national economy. As much of Maryland's freight network is shared with passenger or vehicle operations, both freight and passenger growth will exacerbate already congested infrastructure throughout the State. The resulting chokepoints create significant challenges for freight and passenger movement in the region. It is imperative that MDOT work with freight stakeholders to plan and facilitate the necessary improvements to accommodate freight demand and allow for the cost-effective and safe movement of goods by all modes.

To meet these needs, MDOT is taking an aggressive approach to implement multimodal freight solutions in Maryland and the greater multi-state region. Through planning activities, MDOT is working to cultivate partnerships with neighboring states, freight stakeholders and non-profits, and participates in freight efforts regional and with groups such as the I-95 Corridor Coalition. For a full list of freight projects in the CTP, please visit the Office of Freight and Multimodalism website at:

<http://www.mdot.maryland.gov/Office%20of%20Freight%20and%20Multimodalism/Freight> .

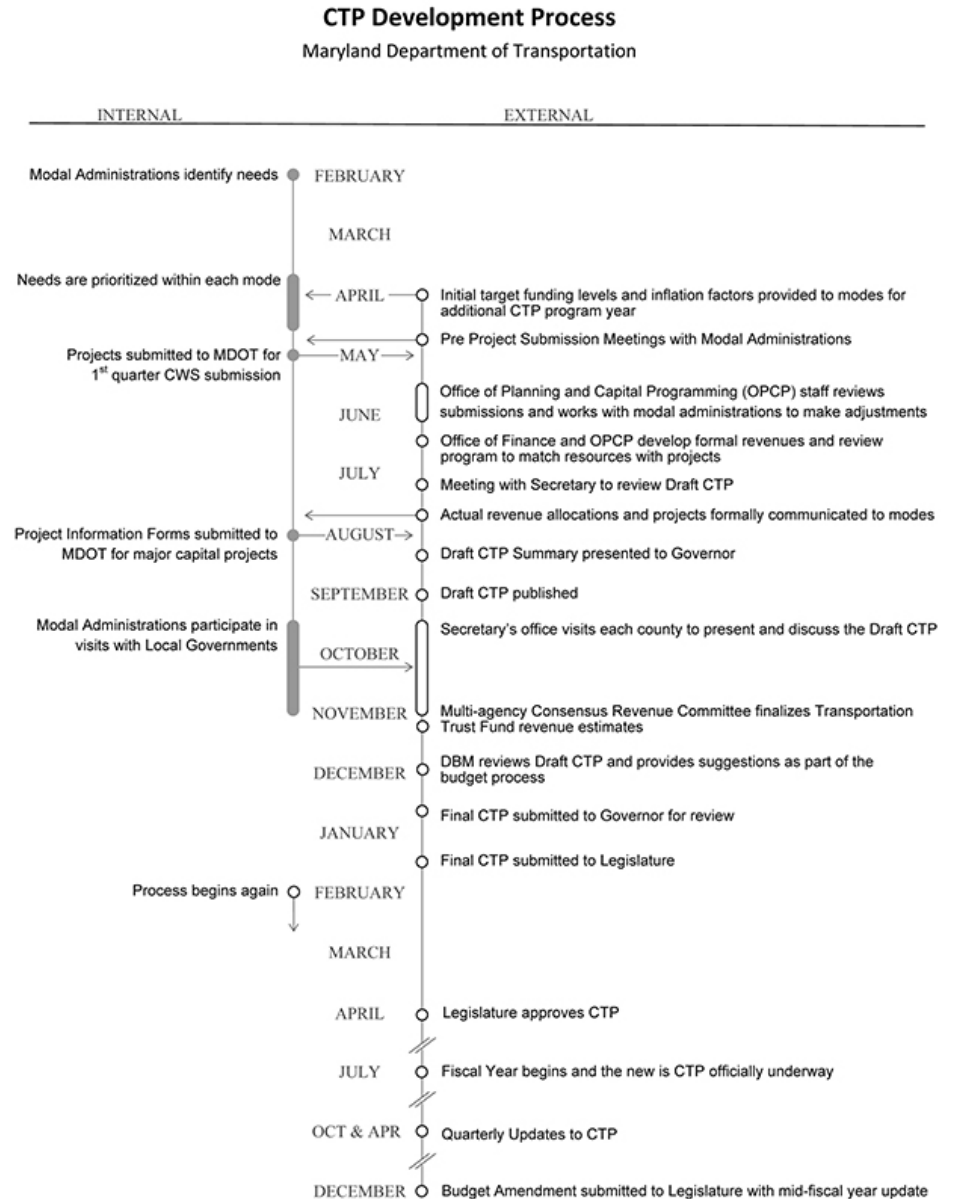

Process for CTP Development

The CTP takes nearly a full year to create, and the criteria used to prioritize program and project investment and its milestones are outlined generally below.

These criteria include:

- Support existing project commitments and uphold intergovernmental agreements;
- Meet all federal and other legal mandates (e.g. TMDL compliance, PTC requirement by 2015, FAA regulations to maintain airport permit);
- Meet all Federal match requirements to maximize Federal revenue sources;
- Address critical safety issues;
- Support system preservation;
- Support local and/or statewide economic development;
- Support alternative modes of transportation (transit, bike and pedestrian);
- The single top priority (or one of two or three top priorities) within a local priority letter;
- Consistent with local plans;
- Included in the regional MPO long-range plan (if the project is located within an MPO boundary);
- Supports the Department's program priorities and goals and,
- Project supports State plans and objectives, such as priority revitalization area (e.g. TOD or a designated Sustainable Community).

FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

In developing the CTP and establishing funding levels, the Secretary and MDOT must account for both State and local economic growth, projections of state transportation revenue and allocations of federal funding. The State's Transportation Trust Fund supports MDOT investments through a dedicated account. Being heavily influenced by State and national economic performance, the Trust Fund has experienced a number of funding challenges in recent years that have deeply impacted the Department's decision-making process. Maryland continues to work with the federal government and to rely on it as an important source of funding. MDOT is committed to working with available resources and investing in the most cost-effective, responsible manner that will constantly improve our transportation system while respecting our state's fiscal challenges.

State Revenue Projections

Maryland's economy was substantially affected by the recent recession. MDOT had to adjust its Consolidated Transportation Program (CTP) in the face of declining revenues. However, the revenues added to the Transportation Trust Fund during the 2007 special session of the General Assembly cushioned MDOT from the full impact of the recession and enabled the Department to continue capital investments for projects already under construction and to support some safety and system preservation projects. Maryland's economy is slowly recovering from the deep nationwide economic downturn. The Department's revenues have stabilized and are starting to recover.

Total projected revenues amount to \$21.6 billion for the six-year period. This estimate is based on the revenue sources used by MDOT and includes bond proceeds and federal funds that will be used for operating, capital and debt payment expenses. The projection does not assume any future State tax or fee increases beyond those changes enacted in prior sessions.

Pertinent details are as follows:

- **Opening Balance:** MDOT's goal is to maintain a \$100 million fund balance over the program period to accommodate working cash flow requirements throughout the year.
- **Motor Fuel Tax:** This revenue is projected to be \$4 billion over the six year period. Motor fuel taxes include the 23.5 cents per gallon gasoline and the 24.25 cents per gallon diesel fuel.
- **Motor Vehicle Titling Tax:** This source is projected to yield \$4.6 billion. The titling tax of 6.0 percent of the fair market value of motor vehicles, less an allowance for trade-in vehicles, is applied to new and used vehicles sold and to vehicles of new residents. This revenue source follows the cycle of auto sales with periods of decline and growth. Following the recent down cycle, vehicle sales have stabilized and titling tax revenues are starting to recover. It is projected that this six-year planning period will follow a normal business cycle around an underlying upward trend.
- **Motor Vehicle Registration/Miscellaneous, and Other Fees:** These fees are projected to generate \$3.5 billion. This forecast assumes revenues will increase an average of 3.0 percent every two-year cycle.

- **Corporate Income Tax:** The transportation share of corporate income tax revenues is estimated to be \$893 million. Legislation enacted during the 2011 session of the Maryland General Assembly altered the portion of the State's 8.25 percent corporate income tax that MDOT receives. MDOT's share will be 8 percent for fiscal year 2013, 16.6 percent for fiscal years 2014-2016, and 14.6 percent for each fiscal year thereafter.
- **Federal Aid:** This source is projected to contribute \$4.0 billion for operating and capital programs. This amount does not include \$575 million received directly by the Washington Metropolitan Area Transit Authority (WMATA). The majority of federal aid is capital; only \$570 million is for operating assistance. Since federal aid supports a significant portion of the capital program, a more detailed discussion of federal aid assumptions is presented in the next section of this summary.
- **Operating Revenues:** These revenues are projected to provide a six-year total of \$2.5 billion, with \$915 million from MTA; \$283 million from MPA; and \$1.3 billion from MAA. MTA revenues primarily include rail and bus fares. MPA revenues include terminal operations, the World Trade Center, and other Port related revenues. MAA revenues include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.
- **Bond Proceeds:** It is projected that \$1.8 billion of bonds will be sold in the six-year period. The level of bonds that could be issued is dependent on the net revenues of MDOT. This level of bonds is affordable within the financial parameters used by MDOT.
- **Other Sources:** The remaining sources are projected to provide \$358 million. These sources include earned interest from trust funds, reimbursements, and miscellaneous revenues.

FEDERAL AID ASSUMPTIONS

On July 6, 2012, the President signed into law the Moving Ahead for Progress in the 21st Century Act (MAP-21), P.L. 112-141. This two-year, \$105 billion legislation authorizes highway and transit programs through FFY 2014 at levels generally equivalent to what was provided in FFY 2012. In FFY 2012, Maryland has received approximately \$580 million for highways and \$168 million for transit. Congress has only appropriated funding for the first half of FFY 2013 through what is known as a "Continuing Resolution"

and provided Maryland with a pro-rated amount of the funding it received in FFY 2012.

Our Consolidated Transportation Program (CTP) allocates federal funds to projects in the Program based on conservative projections for future federal funding. Because the federal bill did not increase federal funding the majority of funds authorized by MAP-21 will be used for projects already committed in our capital program and for unfunded system preservation needs.

While MAP-21 made policy changes regarding the use of federal funds, consolidated several funding categories and provides funding certainty for the next two years, the bill did not address the long-term solvency of the federal Highway Trust Fund (HTF) which has constrained MDOT's ability to plan for future investments throughout the State. Since FFY 2009, Congress added approximately \$35 billion in general funds to the HTF to protect against projected shortfalls but additional general fund transfers are increasingly unlikely. If Congress does not provide for additional revenue in the future they will need to reduce the amount of federal aid provided to states. This action would have a dramatic impact on programs that are currently funded in the CTP.

Highways

Federal highway programs are authorized by multiple-year legislation. The funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the authorized money can be obligated in any given year. This ceiling is referred to as Obligation Authority (OA) and is imposed by Congress annually in response to prevailing economic policy. Since FFY 2004 OA has ranged from 84 percent to 93 percent. Given fiscal concerns with the soundness of the Federal Highway Trust Fund, this CTP assumes an OA level of 85 percent for FFY 2013 and 80 percent for 2014 through 2018. This is much lower than the OA level received for FFY 2012 of 92 percent.

Transit

The majority of Maryland's federal transit funds are also distributed by formula. FTA formula funding for Maryland in FFY 2013 is expected to be similar to what was provided in FFY 2012. Additional federal funding will be requested for the development of Maryland's New Starts projects, which include the Purple Line, the Red Line and the Corridor Cities Transitway. Both the Red Line and the Purple Line have been approved to enter Preliminary Engineering. Currently, MDOT's intent is to seek at least 50 percent of the cost of the Purple and Red lines from federal funding. In FFY

2012 Maryland also received \$45 million in transit discretionary funding, including \$40 million for the Kirk Bus Facility replacement project.

Washington Metropolitan Area Transit Authority — WMATA

WMATA also receives a significant amount of federal formula funds (80 percent federal share) for bus and rail preservation activities. In FFY 2012, WMATA received \$162 million. Additionally, in 2010 Congress passed legislation amending the National Capital Transportation Act of 1969 to authorize additional federal contributions for rehabilitation and replacement of capital for the WMATA system. This legislation authorized up to \$1.5 billion of FTA funding over 10 years. These federal funds need to be equally matched by Maryland, Virginia and the District of Columbia. MDOT has been fully supportive of the effort to secure additional financial resources for the Nation's transit system. To this end, this CTP includes a total of \$300 million (\$50 million each year in federal fiscal years 2013 through 2018) as Maryland's initial matching contribution required by the federal legislation. To date, the federal government and the three jurisdictions have fulfilled their promise by providing the first three installments in FFY 2010, FFY 2011 and FFY 2012.

As required by the Act, all three jurisdictions passed identical amendments to the WMATA Compact; these amendments were ratified by Congress; and the President signed the amendments into law on August 19, 2009.

Aviation

The Federal Aviation Administration (FAA), through the Airport Improvement Program (AIP), provides federal entitlement and discretionary funding for airport projects. Entitlement funding is calculated using enplanement and cargo-based formulas for the Baltimore Washington Thurgood Marshall International Airport (BWI Marshall) and adjusted based on authority to collect Passenger Facility Charges. The MAA estimates annual AIP Entitlement funding will range from \$3.5 million to \$4.0 million for BWI Marshall during the six-year period.

Congress has completed a multi-year authorization of FAA programs. The Maryland Aviation Administration (MAA) anticipates receiving additional discretionary AIP funding for BWI Marshall and Martin State Airports during the six-year program period. FAA plans to financially support funding needs for the Runway Safety Areas (RSA.) An environmental assessment to determine the viable RSA options was completed and an FAA Finding of No

Significant Impact (FONSI) was received. These improvements must be completed by the end of calendar year 2015. The MAA will augment federal AIP funding with FAA approved Passenger Facility Charge (PFC) funding as required.

Future year entitlement and discretionary AIP funding of \$15 million or greater per federal fiscal year is expected between now and 2015. The MAA received \$20 million in FAA AIP funding in federal fiscal year 2012.

WHERE THE MONEY COMES FROM...

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the State's General Fund, which pays for most other State government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, operating revenues, and corporate income taxes. The motor fuel tax and vehicle titling tax are the two largest sources of MDOT revenue. Operating revenues include transit fares and usage fees generated at the Port of Baltimore and the BWI Thurgood Marshall Airport. In addition to collecting revenue within the state, Maryland also receives federal aid for its transportation program. These federal funds must be authorized by a congressional act. The United States Congress last enacted long term federal surface transportation authorizing legislation in June 2012 which provides investment in transportation infrastructure through FFY 2014.

Where The Money Comes From

Total projected Trust Fund revenues amount to \$21.6 billion for the six-year period covered by this CTP. These amounts are based on the assumption that the economy will continue to recover and continue along a moderate growth scenario for the next six years.

WHERE THE MONEY GOES...

The MDOT program is fiscally constrained, meaning that the list of projects is tied to estimates of future revenue. The Trust Fund supports operation and maintenance of State transportation systems, administration, debt service and capital projects. A portion of these funds is directed to the General Fund and a share is also dispersed among Maryland's counties and Baltimore City for local transportation needs. After operating costs, debt service, and local distributions, the remaining money goes toward funding capital projects. This document, Maryland's CTP, is the six-year capital budget for all State transportation projects. This FY 2013-2018 CTP totals about \$10.1 billion; \$9.1 billion of which comes through the Trust Fund and \$1.0 billion from "Other" fund sources.

Where The Money Goes

EVALUATING OUR PERFORMANCE

In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop an Annual Attainment Report (AR) on Transportation System Performance. The main objectives of the AR are:

- to report on progress toward achieving the goals and objectives in the Maryland Transportation Plan and the CTP;
- to establish performance indicators that quantify achievement of these objectives; and
- to set long-term and intermediate-term performance targets.

Capital Expenditures

FY 2013 – 2018 CTP SUMMARY (\$ MILLIONS)					
	STATE FUNDS	FEDERAL AID	OTHER*	TOTAL	PERCENT OF TOTAL
TSO	218.7	85.1	15.4	319.2	3.1
MVA	108.5	0.8	0.0	109.3	1.1
MAA**	245.7	80.0	332.8	658.4	6.5
MPA	818.0	7.3	0.0	825.4	8.1
MTA	789.7	1009.3	28.7	1827.7	18.0
WMATA	837.3	0.0	575.2	1412.4	13.9
SHA	2741.4	2247.9	0.0	4989.3	49.2
TOTAL	5759.3	3430.4	952.1	10141.8	100.0

Note: Figures may not add perfectly due to rounding error.

* Funds not received through the Trust Fund. Includes some funds from Maryland Transportation Authority (MdTA), Passenger Facility Charges (PFC), Customer Facility Charges (CFC) and federal funds received directly by WMATA.

** Projects using non-trust fund financing sources are included in the total.

TSO – Transportation Secretary's Office

MVA – Motor Vehicle Administration

MAA – Maryland Aviation Administration

MPA – Maryland Port Administration

MTA – Maryland Transit Administration

WMATA – Washington Metropolitan Area Transit Authority

SHA – State Highway Administration

The performance measures were developed in a collaborative effort between the Secretary's Office, the modal administrations, the Maryland Transportation Authority and the AR-Advisory Committee. The Attainment Report documents how MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

One of the performance measures established in the report is the percentage of the estimated budget that is spent. In FY 2012, the MTA spent 99% of its estimated FY 2012 budget. This budget was estimated in December of 2010 and reported to the General Assembly at that time. This performance measure is an indicator of efficiency, accuracy and proper planning and implementation.

HOW TO READ THIS DOCUMENT

The Maryland Department of Transportation (MDOT) is organized into agencies responsible for different modes of travel. These are referred to as MDOT's modal agencies, or modes. Projects in the Consolidated Transportation Program (CTP) are listed under the mode responsible for the project's delivery.

For each major project, there is a Project Information Form (PIF). Each PIF contains a description of the project, its status, its justification, its compliance status with smart growth and a brief explanation of how it fits with the goals of the Maryland Transportation Plan. It also shows any significant change in the project since the previous year's CTP, as well as the funding for the project over the six-year cycle. The information in each PIF is meant to provide a general description of the project along with some specifics such as alignments, status of environmental permitting, or alternatives under study.

Funding Phases

Planning – Once a proposal is funded for project planning, detailed studies and analyses are conducted to evaluate the need for the project, to establish the scope and location of proposed transportation facilities and to obtain environmental approvals.

Engineering – Engineering projects involved detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase these projects are candidates for future addition to the Construction Program.

Right-of-Way – This funding is to provide the necessary land for the project or to protect corridors for future projects.

Construction – This last stage includes the costs of actually building the designed facility.

Total – This is the sum of any funding shown for Planning, Engineering, Right-of-Way and Construction.

Federal-Aid – This is the amount of the total that will utilize federal funding.

Construction does not begin until a project receives necessary environmental permits, the State meets air and water quality requirements and the contracts are bid. PIFs can include specific facilities and corridor studies that examine multimodal solutions to transportation needs. One example is the I-270/US15 multimodal corridor study, which is evaluating highway and transit improvements in Montgomery and Frederick counties.

The CTP also contains information on minor projects. These projects are smaller in scope and less costly. They also can include road resurfacing, safety improvements and sidewalk and bicycle trail construction. Following this introduction is an explanation of some of the significant changes from last year's CTP. This section lists major projects added to the CTP or projects that have advanced to a new stage of development. It also lists changes in construction schedules and projects removed from the CTP. The CTP also includes information regarding the economic trends and assumptions and future revenue projects that inform the capital programming process.

MAJOR PROJECT SIGNIFICANT CHANGES TO THE FY 2012-2017 CTP

Significant project changes consist of additions to, or deletions from, the Construction Program or the Development and Evaluation Program; changes in the construction start year; significant cost increases or decreases, and changes in the scope of a project.

In total, \$287.5 million worth of projects have been added to the CTP. Of that amount seventeen projects at a cost of \$239.8 million were added to the Construction Program. Four projects at a cost of \$47.7 million were added to the Development and Evaluation Program (D&E). In addition, three projects were moved from the D&E Program to the Construction Program at a cost of \$86.1 million. These projects are listed below by category.

PROJECTS ADDED TO THE CONSTRUCTION PROGRAM

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
The Secretary's Office	
Baltimore Rail Intermodal Facility	30.0
Maryland Aviation Administration	
Parking Revenue Control System at BWI Marshall Airport	11.9
State Highway Administration	
I-68, National Freeway; Replace Bridge decks over Kelley Ave., CSXT & Patterson Ave. (Allegany)	12.5
MD 175, Annapolis Road; BRAC Intersection improvements at Mapes and Reece Roads (Anne Arundel)	22.1
I-695, Baltimore Beltway; Replace Bridge over Milford Mill Road (Baltimore)	18.7
MD 261, Willows Road; Replace Bridge over Fishing Creek (Calvert)	9.2
MD 272, Mauldin Ave; Replace Bridge over Amtrak (Cecil)	14.8
Maintenance Facility in Cambridge; Replacement of Shop (Dorchester)	14.6
MD 22, Aberdeen Thruway; BRAC Intersection improvements at Old Post Road (Harford)	8.6
US 29, Columbia Pike; US 29 from MD 175 to Seneca Drive Access Road Improvements (Phase 1A) (Howard)	6.2
I-95; I-95 South Welcome Center truck parking expansion (Howard)	11.7
MD 193, University Boulevard; Replace Bridge over I-495 (Montgomery)	12.4

--------------	-------------

CONSTRUCTION SCHEDULE DELAYS

The start of construction has been postponed from the schedule shown in the FY 2012-2017 CTP, for the following major project:

<u>PROJECT DESCRIPTION</u>	<u>JUSTIFICATION</u>	<u>FISCAL YEAR</u>
State Highway Administration		
MD 24, Rocks Road; South of Sharon Road to North of Stirrup Run Culvert (Harford)	Constructability Issues	FY 2014 to FY 2015

COST & SCOPE CHANGES

In total, one-hundred and forty major construction projects experienced significant changes in project cost or scope, for a net increase of \$792.0 million. One-hundred and eight projects increased in cost by a total of \$955.8 million, while there were no projects that experienced a reduction in scope. The scope of two projects changed, which caused a net increase totaling \$53.0 million. There are many reasons for these changes, including legislated changes in program participation rates, more refined cost estimates, changes in design and environmental requirements. The specific reasons for significant changes to individual projects are noted on their respective Project Information Forms (PIF's).

FY 2012 ACCOMPLISHMENTS
MAJOR PROJECT COMPLETIONS

The Department completed fifteen major projects in FY 2012, at a total cost of \$403.0 million. These projects are listed below:

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST</u> <u>(\$ MILLIONS)</u>
Maryland Aviation Administration	
Concourse C/D Apron Reconstruction at BWI Marshall Airport (ARRA)	45.9
Airport Layout Plan Environmental Assessment at BWI Marshall Airport	2.2
Maryland Transit Administration	
MARC Frederick Extension	60.3
Metro Fire and Security Management Systems	67.5
State Highway Administration	
MD 36, George's Creek Road; Replace Bridge over Koontz Run (Allegany)	2.3
MD 295, Baltimore Washington Parkway; I-695 to I-195 (Anne Arundel)	14.5
MD 404, Shore Highway; Tuckahoe Road to MD 480. (Caroline)	16.0
MD 545, Blue Ball Road; Replace Bridge over Little Elk Creek (Cecil)	2.6
MD 725, Old Marlboro Road; Replace Bridge over Federal Spring Branch (Prince George's)	3.7
MD 5, Branch Avenue; MD 373 to US 301 (Prince George's)	8.6
US 113, Worcester Highway; Goody Hill Road to Massey Branch (Worcester)	20.2
Maryland Transportation Authority	
I-95 John F. Kennedy Memorial Highway - MD 24 Interchange Improvements (Phase I)	65.3
I-95 Fort McHenry Tunnel - Rehabilitate Bridge, Roadway and Signage North of Tunnel	40.4
I-95 Fort McHenry Tunnel - Rehabilitate Bridge, Roadway and Signage from Joh Avenue to Washington Boulevard	37.5
MD 695 Francis Scott Key Bridge - Improve Interchange at Quarantine Road	16.0
Total	403.0

SYSTEM PRESERVATION MINOR PROJECT COMPLETIONS

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
Rehabilitation and resurfacing of fifty-one (51) segments of highway	77.4
Rehabilitation and replacement of forty-nine (49) bridges	38.5
Safety and geometric improvements at six (6) locations	3.0
Sixty-two (62) projects including environmental preservation, enhancements, noise abatement, crash prevention, guardrail end treatments, ADA, drainage, sidewalks, commuter action improvements, community safety and enhancements, traffic management, intelligent transportation systems and intersection capacity improvements	50.3
Eighty (80) rehabilitation projects for aviation, railroad, port, transit, motor vehicle facilities and the Secretary's Office	186.1
Total	<hr/> 355.3

AWARDS

Highlights of projects awarded by the Department during FY2012 are listed below:

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST (\$ MILLIONS)</u>
MAA Consolidated Dispatch Center Upgrades	5.4
MAA Runway Pavement Rehabilitation and Improvements	40.3
MAA Reconstruct Runway Intersection	6.2
MAA Interior & Exterior Modifications	10.0
MPA Vessel Berth #3 at Masonville	20.3
MPA Construct Access Control Center for Terminals	2.3
MPA Water and Sanitary Rehabilitation	3.5
MPA Comprehensive Paving	3.3
MTA Bus - Minor Construction Repairs	8.0
MTA Control Center Consolidation and Security Upgrade	15.4
MTA Light Rail - Minor Construction and Repairs	7.0
MTA MARC - Wedge Storage Yard at Union Station	21.3
SHA I-68 over Wills Creek/CSX/Cumberland Thru & MD 51	15.1
SHA I-695 over MD 372	16.8
SHA I-95 Contee Rd	49.3
SHA I-70 Conococheague Creek	16.1
Total	240.3

^A - WMATA capital and operating grants in the Secretary's Office budget are shown for informational purposes.

^B - County and Municipality transfer funds from the federal government are not included in FY2015-2018

^C - Capital Program WMATA Grants line includes federal funds received by WMATA directly.

^D - "Other" funds are included in the totals for TSO, MAA, MTA, and WMATA.

^E - Debt Service for County Bonds is not included in FY 2015-2018.

^F - Funds not received through the Trust Fund. Includes funds from Passenger Facility Charges (PFC), Maryland Transportation Authority (MdTA) funds, Certificates of Participation (COPs), County participation and federal funds received by WMATA directly.

SUMMARY OF FEDERAL AID OBLIGATIONS
(\$ MILLIONS)

The following listing estimates the annual levels of funds anticipated from individual federal aid categories necessary to support the FY 2013-FY 2018 CTP/STP:

	Federal Fiscal Year					<u>TOTAL</u>
	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>	<u>2017 - 18</u>	
Surface Transportation Program (STP)	74.6	109.8	110.3	115.4	228.1	638.2
National Highway System (NHS)	191.2	148.8	179.5	123.2	248.7	891.4
Interstate Maintenance (IM)	53.9	52.4	31.2	15.0	34.0	186.5
Bridge (BR)	57.8	81.7	80.6	69.5	151.0	440.6
Congestion Mitigation/Air Quality (CMAQ)	48.4	55.1	46.5	54.5	103.1	307.6
Safety (HSIP & SRTS)	1.0	11.7	15.1	16.8	28.6	73.2
Enhancements	9.6	8.5	8.9	9.2	19.2	55.4
Appalachia Development (APD)	0.8	0.8	0.8	0.8	1.6	4.8
Recreation Trails	1.2	1.2	1.2	1.2	2.4	7.2
Statewide Planning & Research (SPR)	16.9	16.9	16.9	16.9	33.7	101.3
Special Federal Appropriations	9.0	19.5	21.2	10.2	2.2	62.1
Equity Bonus	37.8	27.8	37.2	17.0	71.4	191.2
Urbanized Area Formula, SEC9	85.0	86.1	86.1	86.1	172.2	515.5
New Starts, Fixed Guideway, Modernization & Bus	54.4	55.1	55.1	55.1	110.2	329.9
Elderly and Persons with Disabilities	<u>2.3</u>	<u>2.3</u>	<u>2.3</u>	<u>2.3</u>	<u>4.6</u>	<u>13.8</u>
TOTALS	643.9	677.7	692.9	593.2	1,211.0	3,818.7

Note: These categories generally reflect the SAFETEA-LU federal authorization programs. The current MAP-21 authorization modifies the names of programs at both FTA and FHWA from which some projects will be funded, but it does not change the total amount of federal funds received between FFY2013 and FFY2018 for a given project.

STATE HIGHWAY ADMINISTRATION
FEDERAL FUNDING BY YEAR OF OBLIGATION FOR SYSTEM PRESERVATION MINOR PROJECTS
BY FEDERAL FISCAL YEAR (\$ MILLIONS)

The following estimates annual levels of federal aid funds, by category, necessary to support system preservation in the FY 2013 - FY 2018 CTP/STIP:

SYSTEM PRESERVATION/TRAFFIC MANAGEMENT CATEGORIES	Federal Fiscal Year					TOTAL
	2013	2014	2015	2016	2017 - 18	
<u>Environmental Projects</u>						
National Highway System	2.9	3.7	2.1	1.3	3.0	13.0
Surface Transportation Program	26.0	36.5	32.6	10.7	15.6	121.4
Interstate Maintenance	0.6	0.6	0.5	0.4	0.9	3.0
Enhancement	11.1	8.4	8.7	9.1	19.5	56.8
National Recreational Trails	1.1	1.1	1.1	1.1	2.2	6.6
<u>Safety and Spot Improvements</u>						
National Highway System	20.9	12.0	10.7	8.3	17.2	69.1
Surface Transportation	78.1	57.1	52.1	41.3	87.9	316.5
Interstate Maintenance	4.1	3.7	3.4	3.0	6.4	20.6
Congestion Mitigation/Air Quality	3.8	2.7	2.8	1.7	3.6	14.6
Highway Safety (HSIP & SRTS)	16.0	16.0	16.0	16.0	32.0	96.0
<u>Resurfacing and Rehabilitation</u>						
National Highway System	27.3	20.9	20.0	18.3	42.5	129.0
Surface Transportation Program	67.1	51.4	49.1	44.8	104.3	316.7
Interstate Maintenance	29.8	22.8	21.8	19.9	46.3	140.6
<u>Bridge Replacement and Rehabilitation</u>						
Bridge Replacement and Rehabilitation	81.4	73.3	68.6	43.2	87.2	353.7

MAJOR BRIDGE PROJECTS

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIF's as referenced.

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Allegany County</u>		
<u>Construction Program</u>		
1.	I-68, National Freeway -- Interstate	Rehabilitate Bridge on I-68 over Willis Creek/CSX/Cumberland Thruway and Bridge #01092 on MD 51.
2.	I-68, National Freeway -- Interstate	Replace Bridge decks over Kelley Ave., CSXT & Patterson Ave.
3.	US 220, McMullen Highway -- Primary	Replace Bridge over the Potomac River
<u>Baltimore County</u>		
<u>Construction Program</u>		
1.	I-83, Harrisburg Expressway -- Interstate	Replace Bridge on Middletown Rd. over I-83
2.	I-695, Baltimore Beltway -- Interstate	Replace Bridge on MD 139 over I-695
3.	I-695, Baltimore Beltway -- Interstate	Replace Bridge at MD 26 (Liberty Road) (ARRA)
4.	I-695, Baltimore Beltway -- Interstate	Replace Bridge on MD 144 over I-695
5.	I-695, Baltimore Beltway -- Interstate	Replace Bridge over MD 372 (Wilkens Ave.)
6.	I-695, Baltimore Beltway -- Interstate	Replace Bridge over Milford Mill Road
7.	US 40, Baltimore National Pike -- Secondary	Replace Bridge over Patapsco River
<u>Development and Evaluation Program</u>		
10.	I-695, Baltimore Beltway -- Interstate	Replace ramp at Southwest Boulevard

MAJOR BRIDGE PROJECTS (Cont'd.)

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Calvert County</u>		
	<u>Construction Program</u>	
1.	MD 261, Willows Road -- Secondary	Replace Bridge over Fishing Creek
<u>Caroline County</u>		
	<u>Construction Program</u>	
1.	MD 287, Sandtown Road -- Secondary	Replace Bridge over the Choptank River
2.	MD 328, New Bridge Road -- Secondary	Replace Bridge over Tuckahoe Creek
	<u>Development and Evaluation Program</u>	
4.	MD 331, Dover Road -- Secondary	Replace Bridge over Choptank River
<u>Cecil County</u>		
	<u>Construction Program</u>	
1.	MD 272, Mauldin Ave -- Secondary	Replace Bridge over Amtrak
<u>Frederick County</u>		
	<u>Construction Program</u>	
2.	I-270, Eisenhower Memorial Highway -- Interstate	Replace deck and widen bridges over MD 80 and Bennett Creek
3.	US 15, Catocin Mountain Highway -- Primary	Replace Bridge on Motter Ave.
4.	MD 140, Taneytown Pike -- Primary	Replace Bridge over Monocacy River
5.	MD 76, Motters Station Road -- Secondary	Replace Bridge over Motter Run
6.	MD 550, Woodsboro Road -- Secondary	Replace Bridge over Israel Creek
<u>Howard County</u>		
	<u>Construction Program</u>	
6.	US 40, Baltimore National Pike -- Secondary	Replace Bridge over Patapsco River

MAJOR BRIDGE PROJECTS (Cont'd.)

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Howard County</u>		
	<u>Construction Program</u>	
7.	US 40, Baltimore National Pike -- Secondary	US 40 WB Ramp to US 29 EB over US 40 EB
<u>Montgomery County</u>		
	<u>Construction Program</u>	
1.	I-495, Capital Beltway -- Interstate	Rehabilitate Bridge over Northwest Branch
5.	MD 193, University Boulevard -- Secondary	Replace Bridge over I-495
<u>Prince George's County</u>		
	<u>Construction Program</u>	
4.	MD 4, Pennsylvania Avenue -- Primary	Replace Bridges over MD 223
<u>Talbot County</u>		
	<u>Construction Program</u>	
1.	MD 328, New Bridge Road -- Secondary	Replace Bridge over Tuckahoe Creek
	<u>Development and Evaluation Program</u>	
3.	MD 331, Dover Road -- Secondary	Replace Bridge over Choptank River
<u>Washington County</u>		
	<u>Construction Program</u>	
1.	I-70, Eisenhower Memorial Highway -- Interstate	Bridge over Conococheague Creek
2.	I-70, Eisenhower Memorial Highway -- Interstate	Replace Bridges over MD 63
3.	MD 68, Lappans Road -- Secondary	Replace Bridge over James Run
<u>Worcester County</u>		
	<u>Development and Evaluation Program</u>	
2.	US 50, Ocean Gateway -- Primary	Replace Bridge over Sinepuxent Bay

BICYCLE & PEDESTRIAN PROJECTS

BICYCLE AND PEDESTRIAN RELATED PROJECTS

The Maryland Department of Transportation has various funding programs for bicycles and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners. Funds that have been awarded through these programs, but not yet spent are identified below as "ongoing grant awards and earmarks".

TOTAL ESTIMATED FUNDS PROGRAMMED FOR BICYCLE AND PEDESTRIAN IMPROVEMENTS

	Projects currently funded for construction as of November 2012	Ongoing Grant Awards and Earmarks	FY13-18 Ped/Bike Program Funding^
Sidewalk Retrofit	660,000		10,000,000
Bicycle Retrofit	1,546,000		9,600,000
Community Enhancement and Safety	0		8,073,000*
Minor Urban Reconstruction	0		224,000*
ADA Program	9,753,000		61,500,000
Pedestrian Access to Transit	5,800,000		13,800,000
Primary/Secondary Roadway Program	1,327,848		1,327,848**
Bikeways Program	--	5,322,230	4,677,770
Bikeshare Program	--	2,488,000	0
Transportation Enhancements/Alternatives	--	26,336,500	32,200,000***
Recreational Trails	--	5,393,000	4,924,130***
Other Federal Grants and Earmark projects	--	29,572,200	0****
Total	19,086,848	69,111,930	151,004,518

^Includes planning, design and construction funds

*Estimated as a percentage of total program funding based on recent bike/ped expenditures

**Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

***Estimated based on projected federal appropriations and percentage of program funds spent on bike/ped projects in recent years

****No additional earmark projects are expected at this time

BICYCLE AND PEDESTRIAN RELATED PROJECTS

PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION AS OF NOVEMBER 2012

The following projects, funded for construction as of **November** 2012, are typical of projects that will be developed through the bicycle and pedestrian programs.

STATE HIGHWAY ADMINISTRATION

Sidewalk Retrofit Program (FY2013)

Frederick County

MD 26 from Kingfisher Drive to Latham Drive	180,000
---	---------

Washington County

US 40 Eastbound from Nottingham Road to Bryan Place	290,000
---	---------

US 40 Westbound from Oxford Circle to Nottingham Road	135,000
---	---------

Worcester County

MD 374 from Esham Avenue to east of Washington Street	55,000
---	--------

TOTAL	660,000
--------------	----------------

Bicycle Retrofit Program (FY2013)

Anne Arundel County

MD 170 - MD 648 to Andover Road	1,000,000
---------------------------------	-----------

Harford County

MD 543 from Gilmer Way to Church Creek	546,000
--	---------

TOTAL	1,546,000
--------------	------------------

ADA Program (FY2013)

Areawide Contracts	TOTAL	9,753,000
--------------------	--------------	------------------

Pedestrian Access to Transit (FY2013)

Areawide Contracts	TOTAL	5,800,000
--------------------	--------------	------------------

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Primary/Secondary Roadway Program (FY2013-18)

The following lists the estimated costs for pedestrian and bicycle elements associated with major projects currently funded for construction

Allegany County

US 220 - Bridge over Potomac River

sidewalks 1.0 miles

137,280

shoulders 1.0 miles

150,000

MD 36 - Bridges over Koontz Run

shoulders 0.1 miles

15,000

Baltimore County

US 40 - Bridge over Patapsco River

shoulders 0.1 miles

15,000

Calvert County

MD 261 - Bridge over Fishing Creek

shoulders 0.1 miles

15,000

Caroline County

MD 287 - Bridge over Choptank River

shoulders 0.1 miles

15,000

MD 328 - Bridge over Tuckahoe Creek

shoulders 0.1 miles

15,000

Cecil County

MD 272 - Bridge over Amtrak

shoulders 0.1 miles

15,000

Frederick County

MD 140 - Bridge over Monocacy River

shoulders 0.1 miles

15,000

MD 76 - Bridge over Motter Run

shoulders 0.1 miles

15,000

MD 550 - Bridge over Israel Creek

shoulders 0.1 miles

15,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Howard County

US 40 - Bridge over Patapsco River
shoulders

0.1 miles

15,000

Montgomery County

MD 97 - Randolph Rd.

wide curb lanes

1.0 miles

150,000

sidewalks

1.0 miles

137,280

MD 185 - At Jones Bridge Road/

Kennsington Parkway

sidewalks

274,560

wide curb lanes

2.0 miles

300,000

Talbot County

MD 328 - Bridge over Tuchahoe Creek

shoulders

0.1 miles

15,000

wide curb lanes	3.1 miles	sub-total	465,000
shoulders	2.0 miles	sub-total	300,000
sidewalks	4.1 miles	sub-total	562,848

TOTAL

1,327,848

BICYCLE AND PEDESTRIAN RELATED PROJECTS

ONGOING GRANT AWARDS AND EARMARKS

The following bicycle and pedestrian projects have been awarded grant or earmark funds. Projects are in various stages of design and construction.

Bikeways Program

Typical projects, awarded FY2013

Towson Bike Beltway	100,000
Friendsville Town Trail	78,500
Frederick Shared Use Path Design	200,000

TOTAL ONGOING AWARDS 5,322,230

Bikeshare Program

Frederick City feasibility study	12,000
Howard County feasibility study	40,000
Baltimore City bikeshare	993,000
Montgomery County bikeshare	1,008,000
University of Maryland	187,500
City of College Park	187,500
Prince George's County/Greenbelt feasibility study	60,000

TOTAL ONGOING AWARDS 2,488,000

Transportation Enhancements Program

Allegany County

Amtrak Station Entryway Improvement	198,000
-------------------------------------	---------

Anne Arundel County

South Shore Trail Phase II	1,645,000
----------------------------	-----------

Baltimore City

Baltimore Bicycle Safety Education Network	44,500
Baltimore Waterfront Promenade Inner Harbor East	2,000,000
Jones Falls Greenway Phase IV	2,000,000
Jones Falls Greenway Phase V	2,050,000
Herring Run Greenway	1,980,000
Key Highway bicycle pedestrian path	554,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Frederick County

Ballenger Creek Trail Phase 1 857,000

Carroll Creek Park Trail Phase II 3,000,000

Howard County

Broken Land Parkway Pathway 386,000

Montgomery County

Shady Grove Metro Access Road Bikepath 1,255,000

Prince George's County

College Park Trolley Trail 200,000

North Gate Park at Paint Branch 830,000

St. Mary's County

Three Notch Trail Phase VI 1,435,000

Talbot County

Easton Rail Spur Line 827,000

Washington County

Western Maryland Rail Trail Phase IV 2,450,000

Big Slackwater C&O Path 4,400,000

Wicomico County

Northeast Collector Road Bikepath Phase II 225,000

TOTAL 26,336,500

Recreational Trails Program

Typical projects, awarded FY2013

Easton Rail Trail Extension 40,000

Allegany County Great Allegheny Passage Safety and Equipment 16,312

Montgomery Parks Boardwalks for Upper Rock Creek 32,800

DNR Forest Service Elk Neck Contractual Trail Maintenance 30,000

DNR Park Service Trail Guide Printing 28,000

TOTAL ONGOING AWARDS 5,393,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

BRAC ACTIVITIES

MARYLAND DEPARTMENT OF TRANSPORTATION BRAC ACTIVITIES

Base Realignment and Closure (BRAC) encompassed the arrival of new residents, jobs, and national defense and security activities into Maryland in September, 2011. As a result of the Federally-established 2005 BRAC Commission's decision to relocate several thousand jobs from outside the State to five Maryland military installations, BRAC has brought a myriad of benefits and challenges to the State, including the need for transportation improvements that will both support the BRAC consolidations, as well as preserve Marylanders' quality of life.

Maryland is one of the few states that benefitted from BRAC by gaining 26,000 direct positions, with Aberdeen Proving Ground and Fort George G. Meade receiving the most growth. Somewhat unique to Maryland is that nearly all of the 26,000 jobs are or will be filled by civilian employees who are not authorized to live on the bases. When indirect and tertiary positions are factored into the equation, Maryland stands to gain between 45,000 and 60,000 new jobs – the greatest economic growth the State will experience since World War II. It is important to note that this represents both BRAC and other federal and Department of Defense (DoD) location decisions. According to the Maryland Department of Business and Economic Development, the five Maryland military installations to have the most significant increases in personnel resulting from BRAC and non-BRAC related DoD growth are:

- **Fort George G. Meade** in Anne Arundel County is expected to add 5,700 jobs due directly to BRAC, over 4,000 jobs due to ongoing National Security Agency and other Army and DoD growth, and over 10,000 jobs from Enhanced Use Lease (EUL) related growth over time (beyond the BRAC window of 2011);
- **Aberdeen Proving Ground** in Harford County is expected to add approximately 8,200 direct BRAC jobs on base, as well as 6,000 indirect and induced jobs, and 3,000 to 5,000 new jobs from EUL related growth over time (beyond the BRAC window of 2011);
- **National Naval Medical Center at Bethesda** in Montgomery County is expected to add approximately 2,500 new personnel due to BRAC, including 1,750 from the Walter Reed Army Medical Center, in addition to a doubling of patient load;
- **Fort Detrick** in Frederick County is expected to add approximately 2,000 jobs total, 220 of which will be due directly to BRAC; and
- **Joint Base Andrews** in Prince George's County is expected to add approximately 3,000 jobs total, 600 of which will be due directly to BRAC.

How has Maryland Prepared for BRAC?

Efforts to meet the transportation needs in connection with BRAC continue in coordination with communities and stakeholder groups throughout the State. MDOT's work has been performed consistent with the vision set forth by the State of Maryland's Subcabinet on BRAC, chaired by the Lt. Governor, which was established by the Governor and the General Assembly to "coordinate State activities and work with the federal and local governments to prepare for and accommodate incoming households and jobs while sustaining and enhancing the quality of life throughout the State." MDOT prepared a section of the State of Maryland's *BRAC Action Plan* for the Subcabinet, outlining policies, projects and legislation needed for Maryland to respond to BRAC. The State of Maryland's *BRAC Action Plan* outlines

MARYLAND DEPARTMENT OF TRANSPORTATION BRAC ACTIVITIES

specific investments to meet the transportation needs of BRAC in Maryland. Transportation action items listed in the *BRAC Action Plan* are included in the table below, as well as references to specific project information forms (PIFs).

The *BRAC Action Plan* also proposed legislation, subsequently signed into law as the BRAC Community Enhancement Act in the summer of 2008, to allow for the designation of “BRAC Revitalization and Incentive Zones” (BRAC Zones) as a mechanism for local governments to provide State financing support for public infrastructure in areas targeted for BRAC growth. On December 15, 2008, Lt. Governor Brown announced the designation of BRAC Zones in Baltimore City, Anne Arundel County, the City of Frederick, the City of Laurel, and Prince George’s County. In 2009, additional BRAC Zones were designated in the City of Aberdeen in Harford County, and Savage Town Centre in Howard County.

The BRAC Community Enhancement Act also empowered local governments to negotiate for transportation improvements with developers of Enhanced Use Lease (EUL) projects at military installations, which are otherwise exempt from local mitigation requirements. As a result of the legislation, in June 2009, a Payment in Lieu of Taxes Agreement (PILOT) was executed between MDOT (acting on behalf of the state), Harford County and the private developer, for mitigation in connection with an EUL Project to be located at the Aberdeen Proving Ground. A similar agreement was also executed at Fort Detrick for its Central Utility Plant project, and is anticipated in association with a planned EUL project at Fort Meade.

The State’s *BRAC Action Plan and progress reports* may be accessed at <http://www.brac.maryland.gov/subcabinet.asp>.

MDOT’s Approach to BRAC

MDOT’s mission for BRAC is “to facilitate the safe and efficient movement of people and goods to support Maryland’s military installations while sustaining and enhancing the quality of transportation and Maryland’s communities throughout the State.” This mission is achieved through the collaborative work of MDOT’s modal agencies: the Maryland Transit Administration (MTA), State Highway Administration (SHA), Motor Vehicle Administration (MVA), Maryland Port Administration (MPA), Maryland Aviation Administration (MAA), and Maryland Transportation Authority (MdTA).

MDOT has taken a proactive approach in planning for and implementing a coordinated response to the projected increase in demand on the transportation system as a result of BRAC. MDOT’s coordinated effort is reflected through the transportation planning process, involving consultation and collaboration with local governments, as well as regional, state and federal partners, including the BRAC-impacted military installations. Addressing BRAC needs is a challenge for transportation in terms of both time and funding, as major transportation projects

MARYLAND DEPARTMENT OF TRANSPORTATION BRAC ACTIVITIES

may take 8-14 years to plan, design, fund and construct, while the BRAC moves have transpired in the short-term. To address the challenges of time and available funding, MDOT has relied on a “*high/low*” investment strategy to fund and deliver BRAC-related transportation projects.

Under the “*high/low*” strategy, lower-cost improvements that can be implemented quickly (low strategy) have been targeted for completion in concert with the 2011 consolidations, while higher-cost, major capacity projects will be implemented over time. Many of the long-term projects identified in the FY 2013-2018 CTP as BRAC-related are major projects that pre-date the 2005 BRAC decisions. These projects were already needed for overall regional growth, but are also needed to support access to Maryland’s BRAC-impacted military installations.

Short-term BRAC projects include intersection improvements (see pp. SHA-SW-7 to SHA-SW-10), transit improvements and the evaluation of direct transit services, operating and maintenance needs, and system preservation projects. Under the BRAC Intersection Improvement Program, SHA analyzed projected near-term traffic impacts at 107 heavily impacted intersections near BRAC-impacted installations. Sixteen (16) intersections were identified for potential improvement based on level of service, relative cost, environmental and socio-economic impacts, and proximity to the installations. Improvements at those 16 intersections were advanced to the 30% design stage, funded in part with federal assistance. Following continued development of regional priorities and in consideration of limited resources given prevailing economic conditions, priority intersections were then selected by stakeholders to advance toward implementation in synchronization with BRAC consolidation in 2011. Certain priority projects identified at Aberdeen Proving Ground and Fort George G. Meade commenced construction activities in 2010 and continue in construction in 2012; priority initiatives at National Naval Medical Center also commenced construction in 2011, and have been selected for additional grant funding through a Department of Defense program created to support critical transportation improvements at military medical facilities impacted by BRAC. Priority projects identified at Joint Base Andrews and Fort Detrick advanced in design through 2011.

Beyond the BRAC timeframe, MDOT and SHA will continue to work with local stakeholders and federal partners to advance priority projects in accordance with available funding. MDOT and MTA will also continue collaborations with the installations, their tenants, DoD, and local officials to advance and expand successful Transportation Demand Management programs developed in support of BRAC. These efforts include modified peak hour MARC schedules and added transit service; the growth and marketing of car and van pool programs; Ridesharing, and the Guaranteed Ride Home program; promotion of telework and flexible work hours, where possible, as well as bicycle and pedestrian uses.

In the FY 2013-2018 CTP, \$121 million has been programmed for SHA’s Intersection Improvement Program, and is structured to allow for flexibility; current available funding ensures that priority intersections will continue to advance in project development, to the point where phased construction could begin once additional funding is identified.

MARYLAND DEPARTMENT OF TRANSPORTATION BRAC ACTIVITIES

Long-term BRAC-related projects include several major highway projects, such as the MD 175 and MD 198 Project Planning Studies, and MD 32 Corridor Feasibility Study at Fort George G. Meade, and the Branch Avenue Metro Access Project in Prince George's County. In addition, the MARC commuter rail system is also part of MDOT's "high" strategy. MARC serves an important role in Maryland's response to BRAC, serving both Fort George G. Meade and Aberdeen Proving Ground. At Governor O'Malley's direction, the MTA produced the "MARC Growth and Investment Plan" in 2007, an ambitious plan to triple MARC ridership by the year 2035. This Plan includes near-term and long-term projects in support of BRAC and regional mobility to be implemented over the next 25 years, which require the cooperation of both AMTRAK and CSX who own and operate the lines and will ultimately require significant money - \$3.9 billion in federal, State and private funding.

MDOT's BRAC strategy is in keeping with its commitment to Transit-Oriented Development (TOD) and Smart Growth. MDOT will aggressively promote TOD projects around the State's transit stations to accommodate growth in a more efficient and sustainable way by marketing property surrounding MARC, Metro, Light Rail, and other transit stations for development. Through 2012, MDOT and MTA have worked closely with the City of Aberdeen to develop a Station Area Master Plan in support of TOD efforts at the Aberdeen MARC station. Stakeholder collaboration will continue in 2013, and integrate with overall Demand Management programming implemented in support of BRAC consolidations at APG.

New funding approved by the General Assembly at the request of the Governor in 2007 allowed for additional investments in a balanced transportation system to be more responsive to the specific transportation needs around the BRAC-impacted Maryland military installations. Though requested projects continue to outstrip resources, requiring careful prioritization and staging of projects, the FY 2013-2018 CTP demonstrates MDOT's ongoing commitment to Maryland's BRAC-impacted communities.

MARYLAND DEPARTMENT OF TRANSPORTATION BRAC ACTIVITIES

STATEWIDE – TRANSPORTATION		
ACTION	RESPONSIBLE STATE AGENCY	Status/CTP Page Reference
I. Promote Transportation Alternatives - Transit, Carpool, And Vanpool		
1) Implement the MARC Growth and Investment Plan, improving service for existing customers and providing for capacity and service.	MTA	MTA-7
2) Promote seamless transit connections and customer convenience to and on military installations.	MTA	Ongoing
a. Develop MOUs to address security issues of direct service		
b. Work with APG and Ft. Meade on internal mobility for transit riders.		
3) Complete Smart Card implementation to provide seamless connections between MTA transit services, WMATA, and LOTS.	MTA	MTA-27-52
4) Provide continual ride-share coordination, promoting transit options, cost-effective carpooling and van pooling.	MTA	Ongoing
a. Add temporary coordinators for one-on-one support during BRAC influx.		
b. Explore "Flex-car" service options		
5) Assess feasibility in BRAC corridors for revitalizing communities through transportation improvements with emphasis on mass transit.	MDP, DHCD, DBED, MDOT	Ongoing
II. Encourage Smart Growth with Transportation Policies and Projects		
1) Revive the Community Safety and Enhancement Program	MDOT	SHA-SW-2
2) Expand pedestrian and bicycle access	MDOT	Ongoing
a. Emphasize inclusion of sidewalks and bicycle lanes in SHA projects.		
b. Target potential BRAC transportation enhancement program funding for bicycle and pedestrian improvements		
3) Promote Transit-Oriented Development (TOD) projects along MARC and WMATA system, targeting mixed-use and walkable, vibrant communities.	MDOT, MDP	Ongoing
4) Promote growth in targeted municipalities and growth areas through marketing and investments such as evaluation of additional MARC stations.	MTA	Ongoing

	ARRA - Total	50,262,297			as of 11/30/12

NOTE: In addition to the ongoing projects shown in the table another 135 ARRA Projects Completed at a total of \$111,387,175 (\$72,984,395 in ARRA MTA Projects and \$38,402,780 in ARRA LOTS Projects.)

American Recovery and Reinvestment Act

Summary of Discretionary Grants to MDOT

<u>FEMA Port Security Grant</u>	<u>Cost</u> <u>(In million \$'s)</u>	<u>Status</u>
Port of Baltimore security improvements	subtotal	\$1.3 Construction Underway
High Speed Intercity Passenger Rail Grants		
Preliminary Design of BWI Rail Station new platform, station building and fourth track (funded through 30% design only).		Reached 30% design \$9.4 milestone
Design of a replacement to the Baltimore & Potomac Tunnel		\$60.0 Design to begin FY13
subtotal		\$69.4
Transportation Investment Generating Economic Recovery (TIGER) Grants		
Takoma/Langley Park Transit Center (construction funding only)		Design Complete. Construction advertised and awaiting Notice-to- Proceed
Bus priority Improvements in the Washington Region		\$2.5 Design Complete
subtotal		\$14.3
Total		\$85.0

Transportation grants awarded to other entities, include:

\$4.9 million for FAA small airport grants to make improvements to power systems, air traffic control towers and navigation and landing equipment;

\$3.5 million for EPA Diesel Emissions Reduction programs to Port of Baltimore businesses;

\$1.6 million for FHWA Ferry Boat Discretionary program to the City of Baltimore for pier improvements and vehicle purchases in Baltimore's Inner Harbor;

NOTE: In addition to the ongoing projects shown in the table, 2 grants have been fully expended at a total of \$15.2 million (1 FEMA Port Security Grant for the Rehabilitate the C/D Apron at BWI Thurgood Marshall Airport at a total of \$15 million and 1 FHWA On the Job Training/Support Services Grant at a total of \$0.2 million.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|---|
| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Safety & Security |
| <input checked="" type="checkbox"/> System Preservation & Performance | <input checked="" type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> Connectivity for Daily Life | |

EXPLANATION: Transportation enhancement projects will improve connectivity by enhancing pedestrian and bicycle mobility. In addition to environmental improvements such as treatment of roadway runoff, tree planting and preservation of historical structures.

PROJECT: Transportation Enhancement Program

DESCRIPTION: Projects that may be considered include: pedestrian or bicycle facilities; provision of safety and educational activities for pedestrians and bicyclists; acquisition of scenic easements and scenic or historic sites; scenic or historic highway programs; landscaping and other beautification; historic preservation; rehabilitation and operation of historic transportation buildings, structures or facilities - including historic railroad facilities and canals; preservation of abandoned railway corridors - including conversion for use as bicycle or pedestrian trails; archaeological planning and research. Project sponsors are required to provide matching funds.

PURPOSE & NEED SUMMARY STATEMENT: Transportation enhancements are projects that will add community and environmental value to the transportation system. The Moving Ahead for Progress in the 21st Century Act's (MAP-21) Transportation Alternatives Program provides that 2% of the apportioned funds be set aside for the program. This new program now includes eligibility for most projects that used to be funded under the Transportation Enhancement Program, as well as Recreational Trails and Safe Routes to School programs.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

- | | |
|--|---|
| <input type="checkbox"/> Project Inside PFA | <input type="checkbox"/> Grandfathered |
| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

ASSOCIATED IMPROVEMENTS: Enhancements activities must be directly related to transportation.

STATUS: Projects approved for funding appear in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added funding in FY 18

STIP REFERENCE #State6

PROJECT: Transportation Emission Reduction Program

DESCRIPTION: The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

JUSTIFICATION: The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. Worsening traffic congestion in the Baltimore/Washington metropolitan area negatively impacts the quality of life for Maryland citizens. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and to help reduce Greenhouse Gas emissions.

PROJECT: Bikeways Network Program

DESCRIPTION: Planning, design and construction of on-road and off-road bicycle facilities that fill priority missing links and create a safe, functional bicycle network.

JUSTIFICATION: Infrastructure for walking and biking is a core element of Maryland's multimodal transportation system. Walking and biking are clean, green and healthy transportation options. This program will help to implement MDOT's Bicycle and Pedestrian Master Plan and Strategic Trails Plan by filling priority missing links in the statewide bicycling network, connecting and extending on-road and off-road bicycle facilities and improving connections to transit, work, schools, shopping and other destinations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service
- ☐ System Preservation & Performance
- ☒ Connectivity for Daily Life
- ☐ Safety & Security
- ☐ Environmental Stewardship

EXPLANATION: The new interchange at I-95 and Contee Road Relocated and Virginia Manor Road Relocated will facilitate enhanced access and improved circulation to an area that is planned for growth and economic development.

PROJECT: Virginia Manor Road Relocated, Old Gunpowder Road to the InterCounty Connector

DESCRIPTION: A Secretary's grant to Prince George's County for construction/reconstruction of Relocated Virginia Manor Road between the InterCounty Connector and Old Gunpowder Road (approximately 2.8 miles). Connections will be made to both the InterCounty Connector and the new I-95/Contee Road Interchange. Bicycle and pedestrian access will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will enable Prince George's County to construct a critical roadway connection to the InterCounty Connector and I-95/Contee Road Interchange. This will enhance the supporting roadway network east and west of I-95 in the area that is planned for significant growth and development.

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|---|
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Safety & Security |
| <input checked="" type="checkbox"/> System Preservation & Performance | <input checked="" type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> Connectivity for Daily Life | |

EXPLANATION: Enabling the use of double-stack trains will result in fewer long distance truck movements, reduce fuel consumption and lower overall transportation costs. These efficiencies will alleviate congestion and increase safety on our highways, reduce roadway maintenance costs, improve regional air quality and lower the cost of doing business in the State of Maryland.

PROJECT: Baltimore Rail Intermodal Facility

DESCRIPTION: A capital grant to CSX for the construction of a new intermodal container transfer facility (ICTF) in Southwest Baltimore City.

PURPOSE & NEED SUMMARY STATEMENT: The purpose of the project is to facilitate and support intermodal freight transportation to relieve highway congestion and to address current and future regional infrastructure and freight distribution needs.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- | | |
|--|---|

| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

ASSOCIATED IMPROVEMENTS: The project will relocate CSX's existing ICTF from the Port of Baltimore's Seagirt Marine Terminal to a location south of the Howard Street Tunnel where it will have access to CSX's emerging double-stack rail network. Specific improvements include redeveloping CSX's underutilized Mount Clare Yard into an ICTF where zero-emission crane technology will be used to transfer shipping containers between trains and trucks.

STATUS: The project is expected to complete all planning and preliminary engineering tasks by the spring of 2013. At that point, the project will enter into the permitting phase. Construction is expected to begin in Fiscal Year 14.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added to Construction.

PROJECT: Northeast Corridor Bridge; Susquehanna River Bridge

DESCRIPTION: This project will provide preliminary engineering (PE) and National Environmental Policy Analysis (NEPA) studies that will advance the Amtrak Susquehanna Bridge toward replacement construction. The funding is part of the federal High Speed Intercity Passenger Rail Program (HSIPR) and was awarded to MDOT on Amtrak's behalf in 2011. MDOT is coordinating with Amtrak to complete the work and to identify construction funding.

JUSTIFICATION: The bridges on the Amtrak Northeast Corridor (NEC) in Maryland (Gunpowder, Bush and Susquehanna) are nearing the end of their useful life and require additional capacity for future passenger and freight operations. Funding for the Susquehanna Bridge to advance was provided under HSIPR. MDOT and Amtrak will pursue necessary funding to advance the replacement of the three bridges in totality.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS: High Speed Intercity Passenger Rail Grant (TSO-7)

STATUS: Funds for this project are provided by the federal High Speed Intercity Passenger Rail Program (HSIPR) and American Recovery and Reinvestment Act (ARRA). MDOT is the recipient of the funds and is contracting with Amtrak to manage the Preliminary Engineering and National Environmental Policy Act. The grant funds were obligated in 2011, procurement is currently underway by Amtrak for the engineering and environmental services. All work is scheduled to be completed by 2017.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The MVA implemented business and functional requirements to comply with the passage of Lawful Presence Legislation, and systems changes to account for the need to capture an individual's full legal name during the Driver License and Identification Card application process. There are several additional requirements pertaining to electronic verification of information that will be implemented, once the verification system being developed by DHS/AAMVA is operational.

PROJECT: Real ID Act

DESCRIPTION: This project will verify identification documents presented to the MVA in connection with driver license and ID card transactions. The project will develop a more secure driver license and ID card, and a means to archive identity documents.

PURPOSE & NEED SUMMARY STATEMENT: This project will upgrade systems and policies within MVA in order to comply with federal regulations mandated in May 2005 by the signing of The Real ID Act. Proof of lawful presence in the United States is now required before an individual can be granted a new MD driver's license, learner's permit or ID card.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

- ☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Security System Preservation & Improvement (Line 4, Item No. 23)
 DLS/POS Migration (Line 4, Item No. 21)

STATUS: All federally mandated benchmarks within MVA's control have been attained. Benchmarks pending are contingent on the verification system being developed by DHS/AAMVA to be operational. Remaining special and federal funds are to be used to cover the costs associated with connecting to the verification system.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service
- ☐ System Preservation & Performance
- ☐ Connectivity for Daily Life
- ☐ Safety & Security
- ☐ Environmental Stewardship

EXPLANATION: The implementation of new Kiosks will provide customers with the ability to receive real-time registration stickers, the option to pay in-cash or with a credit card, and the capability to receive certified and non-certified driving records, as well as the option to order scenic and personalized license plates. Providing this advanced functionality is a benefit to the public and will enhance customer satisfaction.

0534

PROJECT: Alternative Service Delivery Systems

DESCRIPTION: This project includes the design and implementation of electronic delivery of MVA services through the Internet, kiosks and telephone Interactive Voice Response (IVR) systems.

PURPOSE & NEED SUMMARY STATEMENT: Alternative delivery systems provide MVA customers with the ability to conduct transactions electronically. Web-based services, customer service kiosks, interactive voice recognition systems and other advancements not only make interaction with the MVA an efficient and pleasant experience, they will in turn reduce customer wait time and increase overall customer satisfaction.

- SMART GROWTH STATUS:** ☒ Project Not Location Specific ☐ Not Subject to PFA Law
- ☐ Project Inside PFA ☐ Grandfathered
- ☐ Project Outside PFA ☐ Exception Will Be Required
- ☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS: Project Core (Line 3)

STATUS: Ongoing.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Cost increase of \$2.1 million for additional enhancements and planned spending in FY 2018.

PROJECT: Project Core (Enterprise Management System)

DESCRIPTION: Project Core planning to modernize, standardize and integrate core MVA business systems to enable outstanding customer service, safety, and security. The current project phase will lead to development of an RFP to move MVA to a modernized Information Technology platform. This platform would define how components of an IT architecture are assembled, communicate, store/secure data, and interact with both MVA staff and customers, in order to create a core service infrastructure. Project Core would also serve as the base architecture for replacing existing legacy systems such as Titling and Registration System (TARIS).

JUSTIFICATION: Many existing business systems were developed over the years as independent applications in response to separate business unit needs, and have become outdated in meeting the needs of today's operating environment. These systems need to be more efficient for improved customer service and increased employee productivity, and must be re-engineered to allow MVA to maximize service using electronic commerce and a network of branch locations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
☐ System Preservation & Performance
☐ Connectivity for Daily Life
☐ Safety & Security
☒ Environmental Stewardship

EXPLANATION: This program enhances the environment of neighboring communities by providing noise mitigation through the purchase of residential properties from people living within designated noise zones near BWI Marshall.

PROJECT: Noise Zone Land Acquisition Program

DESCRIPTION: This program promotes compatible land use around Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall). This is accomplished through the purchase of residential properties offered voluntarily for sale by owners within designated impacted noise areas.

PURPOSE & NEED SUMMARY STATEMENT: The Maryland Environmental Noise Act requires the Maryland Aviation Administration (MAA) to minimize the impact of aircraft related noise on people living near BWI Marshall. The purpose of this program is to purchase, at fair market value, the most severely impacted residential properties within the BWI Marshall Noise Zone, in accordance and consistent with local zoning.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined
☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
Homeowner Assistance Program -- Line 2

STATUS: MAA has acquired 250 properties through FY 2012.

EXPLANATION: This program enhances the environment of neighboring communities by providing homeowner noise mitigation for people living within designated noise zones near BWI Marshall.

PROJECT: Homeowner Assistance Program

DESCRIPTION: This voluntary program provides for the mitigation of aircraft noise and improvement of land-use compatibility around BWI Marshall. Homeowners may elect to either sell their home, with the State ensuring a fair market value, or have their house soundproofed to reduce interior noise levels. The State receives an aviation easement for each participating property.

PURPOSE & NEED SUMMARY STATEMENT: This program enhances the environment of neighboring communities by providing noise mitigation for homeowners residing within the BWI Marshall Airport Noise Zone starting with the most severely impacted communities.

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
☒ System Preservation & Performance
☐ Connectivity for Daily Life
- ☒ Safety & Security
☒ Environmental Stewardship

EXPLANATION: This project enhances compliance with FAA Part 139 regulations that require airfield pavement to be free of cracks and surface variations that could impair directional control of air carrier aircraft. New drainage and deicing structures will improve runoff collection and recycling of chemicals used for inclement weather.

PROJECT: Concourse C/D Apron Reconstruction at BWI Marshall Airport (ARRA)

DESCRIPTION: This project consists of the reconstruction of the aircraft ramp area between Concourses C and D. The work includes pavement removal and reconstruction, improvements to drainage structures, upgrades to deicing collection facilities, communications infrastructure, and ramp lighting.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance airfield safety and operations through reconstruction of pavement and apron grade, drainage structures, and upgrade of airfield lighting to meet Federal Aviation Administration (FAA) standards. The areas identified for upgrades were determined through independent pavement analysis as required by the FAA.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: Runway Safety Area, Standards and Pavement Improvements Phase 1 at BWI Marshall

DESCRIPTION: The project represents the initial phase of the Runway Safety Area (RSA) and Pavement Management Program (PMP) Improvements. Interim pavement repairs necessary to support changing aircraft traffic patterns during the construction phasing include Runway 4-22 and multiple taxiways, plus construction access and vehicle service road repairs. Also, included is the pavement rehabilitation and standards compliance improvements necessary at the intersection of Runways 10-28 and 15R-33L.

PURPOSE & NEED SUMMARY STATEMENT: FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. The proposed work will allow MAA to meet the RSA mandate and address Pavement Condition Index ratings of fair or lower. This project will preserve existing airfield capacity by ensuring the continued long-term use of runways, aprons, taxiways and taxilanes located at the busiest areas of airfield operations and minimize the exposure of aircraft to Foreign Object Debris (FOD).

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. RSA improvements enhance safety by reducing the risk of aircraft damage and personal injury in the event of runway overruns. Part 139 pavement improvements and FAA standards will ensure airfield pavement is free of cracks and surface variations that could impair directional control of the air carrier aircraft.

PROJECT: Runway Safety Area, Standards and Pavement Improvements Phase 2 at BWI Marshall

DESCRIPTION: The project represents the second phase of the Runway Safety Area (RSA), Standards Compliance and Pavement Management Program (PMP) Improvements. This project consists of the design and construction of the Runway 10-28 RSA compliance, standards and PMP improvements to meet Federal Aviation Administration (FAA) standards. Runway improvements will include grading, pavement rehabilitation, pavement markings, and lighting relocation, as well as, connecting taxiways, and property acquisitions.

PURPOSE & NEED SUMMARY STATEMENT: FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. The proposed work will allow MAA to meet the RSA mandate and address Pavement Condition Index ratings of fair or lower. EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. RSA improvements enhance safety by reducing the risk of aircraft damage and personal injury in the event of runway overruns. Part 139 pavement improvements and FAA standards will ensure airfield pavement is free of cracks and surface variations that could impair directional control of the air carrier aircraft.

PROJECT: Runway Safety Area, Standards and Pavement Improvements Phase 3 at BWI Marshall

DESCRIPTION: This project consists of the design and construction of the Runway Safety Area (RSA), and Pavement Management Program (PMP) improvements, other Facility Airport Layout Plan (ALP) improvements, and airfield pavement reconstruction to meet Federal Aviation Administration (FAA) standards. Improvements will include Runways 15R-33L, 4-22 and 15L-33R, as well as, connecting taxiways, taxilanes, and adjacent deicing pads.

PURPOSE & NEED SUMMARY STATEMENT: FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. The proposed work will allow MAA to meet the RSA mandate and address Pavement Condition Index ratings of fair or lower. This project will preserve existing airfield capacity by ensuring the continued long-term use of runways, aprons, taxiways and taxilanes located at the busiest areas of airfield operations and minimize the exposure of aircraft to Foreign Object Debris (FOD).

7724, 7732, 7733, 7738, 7748, 7767

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Cost decrease of \$321 million results from transferring \$300 million to Phases 2 and 3 on Lines 5 and 6, and \$21 million of cost reductions from environmental assessment solutions.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost will be recovered through airport user fees.

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
☒ System Preservation & Performance
☐ Connectivity for Daily Life
☒ Safety & Security
☐ Environmental Stewardship

EXPLANATION: Replacement of the aged security monitoring and dispatching systems improves compliance with FAA Part 139 and TSA security regulations. These modern security monitoring and response alert systems will enhance the safety and security of all airport users.

PROJECT: Integrated Life-Safety and Security Systems at BWI Marshall Airport

DESCRIPTION: These projects provide for the replacement of numerous, disparate, end of life cycle facility monitoring, emergency response and security systems. The use of new technologies will allow the integration of Consolidated Dispatch Center (CDC) systems with Closed Circuit Television (CCTV) and Controlled Access Security System (CASS). Improvements will include replacement of the MODUCOM fire alert and fire alarm system, terminal-wide CCTV and CASS systems, automation of the dispatching system, monitoring/control workstations, access detection, and event monitoring.

PURPOSE & NEED SUMMARY STATEMENT: Federal Aviation Administration (FAA) and Transportation Security Administration (TSA) regulations require BWI Marshall to provide adequate safeguards to prevent unauthorized entry to secure areas, maintain event records, and meet standards for incident response.

7200, 7402, 7403, 7404

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP:

Completion schedule extended to integrate the new systems with the B/C Connector project improvements.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost will be recovered through airport user fees.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service
☒ System Preservation & Performance
☒ Connectivity for Daily Life
☒ Safety & Security
☐ Environmental Stewardship

EXPLANATION: Passenger ease of movement and security is a primary focus of the airport. These improvements provide the flexibility and capacity to rebalance security screening needs between Concourses A, B and C, as well as capacity for new or expanding airline service by eliminating aircraft restrictions due to current holdroom sizes. Brings concourses up to current fire/life safety codes.

PROJECT: B/C Connector at BWI Marshall Airport

DESCRIPTION: The terminal improvements in this project include the relocation of the Concourse C passenger screening checkpoint to the B/C terminal zone, the addition of a secure-side connector between Concourses B and C, the widening of Concourse C, the conversion of the existing Concourse C entrance into egress space, provision for moving walkways, reconfigured holdrooms and improved passenger amenities.

PURPOSE & NEED SUMMARY STATEMENT: The project will significantly reduce congestion in the passenger security screening checkpoints, bring existing terminal facilities in compliance with current fire/life safety codes, enhance baggage handling capacity, and provide passengers with ease of movement between multiple concourses without the need to exit and return through security.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Outside PFA
☐ PFA Status Yet to Be Determined
☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATUS: B/C Connector and Security Checkpoint construction began in Spring 2012. Construction of Concourse C Widening began December 2012. Project completions in 2013.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Cost increase of \$5.6 million in additional planning, design and construction costs to accommodate the needs of the airlines/tenants. Project cashflow revisions based on construction starts and work schedules.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost will be recovered through airport user fees.

PROJECT: Parking Revenue Control System at BWI Marshall Airport

DESCRIPTION: The project provides for the replacement of the existing parking system that tracks revenues and parking lot usage for management of the facilities and issues tickets to patrons using the various surface and garage facilities. The new system will bring the latest parking technology including varying payment and ticket options to each of the two garages and surface lots.

PURPOSE & NEED SUMMARY STATEMENT: A reliable system is an inherent necessity to efficiently monitor and control revenue in a parking operation. The end of life age of the current system infrastructure, need for dependable revenue control, and the availability of cost efficient new technologies will help safeguard BWI Marshall's largest revenue generator.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: Airport Layout Plan Environmental Assessment at BWI Marshall Airport

DESCRIPTION: This project provides for the study and design work necessary for the environmental impact assessment of all capital projects shown on the Airport Layout Plan (ALP) and Master Plan. Projects include: runway safety areas, airfield pavement, terminal improvements, perimeter roadway, and other ancillary facilities.

JUSTIFICATION: In accordance with Federal Aviation Administration Order 5050.4A, Airport Environmental Handbook, MAA must determine the environmental consequences of capital project development as proposed by the Airport Layout Plan.

PROJECT: Hart-Miller Island Related Projects

DESCRIPTION: Hart-Miller Island is a 1,140 acre, two-cell containment island, off-shore from Baltimore County. The island operated as a dredge material placement site since 1984. The southern part of the island is developed for use as a wildlife habitat. On December 31, 2009 Hart Miller Island ceased accepting dredge material. The MPA is currently designing a wildlife habitat for the North cell of the island.

PURPOSE & NEED SUMMARY STATEMENT: The capacity of the island was needed to allow dredging of the Port's harbor and shipping channels. Hart-Miller Island represented one of the most cost efficient dredge disposal options available.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☒ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Dredge Material Placement Monitoring -- Line 2
 Dredge Material Program -- Line 9

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service ☐ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: The dredge material placed in the Hart Miller Island facility was collected from Harbor and Bay channels and berths. The placement of this material at Hart Miller Island allowed vessels to transport cargo to and from the Port of Baltimore.

STATUS: The facility ceased in-flow operations December 31, 2009. Maintenance and monitoring will continue until the final configuration of the cell is determined.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The program was increased by \$1.9 million due to the addition of FY 18. This increase of \$4.2 million was offset by DMCF operating cost savings.

POTENTIAL FUNDING SOURCE:

☐ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

5002, 5003

PROJECT: Dredge Material Placement and Monitoring

DESCRIPTION: This project involves the placement and monitoring of material dredged from the Port of Baltimore channels. Costs associated with this program are for construction of containment sites; monitoring during placement; dredge placement site operations; and beneficial use projects.

JUSTIFICATION: The Governor's Strategic Plan for Dredge Material Management identified either specific sites and projects, or types of sites or projects for future dredge material placement. This program will fund the construction and monitoring during the development of selected sites. With approximately 2,000 ships a year calling on the Port of Baltimore's shipping lanes, there is a need to maintain the channels for the Port to remain competitive and increase economic development.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Hart-Miller Island Related Projects -- Line 1
 Dredge Material Program -- Line 9
 Masonville Vessel Berth - Line 8

STATUS: The MPA continues to evaluate alternative dredge material placement sites. The Corp cost/share arrangement with the MPA has changed from 25/75 to 35/65. Masonville Dredge Material Placement Facility is accepting dredge material.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Total program increased by \$74.6 million due to planned sited development of Coke Point DMCF.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Funding of this project allows vessels with deeper drafts to make future calls at the Dundalk Marine Terminal. These vessels will be larger than current-day ships and carry more cargo. Rehabilitation of these berths will enable the movement of additional cargo across the terminal.

PROJECT: Reconstruction Berths 1- 6 at Dundalk Marine Terminal, Phase II

DESCRIPTION: The western bulkhead at Dundalk Marine Terminal was part of the original Harbor Municipal Airport dating back to the 1930's; the marginal wharf was constructed in the early 1960s. This project will (in a phased approach) replace and deepen the berths to meet future cargo and vessels needs. Heavy cargo vessels have grounded on the bottom at low tides. The berths will be designed to allow dredging to an eventual depth of 50 feet. The first phase funded reconstruction of Berths 5 and 6. The current reconstruction phase funds activity at Berth 4.

PURPOSE & NEED SUMMARY STATEMENT: Berths 1-6 are essential to the Port because they handle a variety of cargoes, i.e. automobiles, forest products, roll-on/roll-off and other break-bulk (van packs). Age and harsh marine environment require these berths be rehabilitated before they become unstable. The other berths at Dundalk Marine Terminal (7-13) are not viable alternatives since they are too distant from the warehouses and automobile lots.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

None.

STATUS: Construction for Phase I was completed in December 2006. The Berth 4 Reconstruction project was added to program.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The program increased by \$28.8 million due to the addition of funds for Berth 4 Reconstruction.

USAGE: Increase in larger, deeper vessel calls.

POTENTIAL FUNDING SOURCE:

1025, 3143, 3158

PROJECT: Terminal Security Program

DESCRIPTION: The Terminal Security Program uses state-of-the-art technologies to secure MPA cargo terminals against unauthorized intrusions. Current projects include: Baltimore Area CCTV Integration, South Locust Point Security Infrastructure; ARRA iCCTV coverage expansion; South Locust Point Cruise Terminal CCTVs and intrusion detection; TWIC reader expansion; mobile sonar detection; thermal imaging recognition; intrusion beam barrier; improvised explosive devices and vapor detection.

JUSTIFICATION: Federal Regulations enacted under the Maritime Transportation Security Act of 2002 require the MPA to develop a security plan for MPA terminals that handles foreign cargo or passengers. These projects are being developed to comply with this act. The Security Program will allow the MPA to enhance its capability to prevent unauthorized intrusions onto its terminals and facilities. A large portion of the Federally approved project's cost is funded by Federal Port Security Grants.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 None.

STATUS: Contracts were awarded for Round 7 and 8, and ARRA funded Federal Security grant projects. The Transportation Security Administration released projects under the 2012 security grant.

POTENTIAL FUNDING SOURCE:										
					<input checked="" type="checkbox"/> SPECIAL	<input checked="" type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input type="checkbox"/> OTHER

PROJECT: South Locust Point Cruise Terminal

DESCRIPTION: Cruise lines operate international excursions out of MPA facilities. A total of 98 departures are scheduled for the 2013 cruise season. The passenger gangway was recently installed. Current projects include installing a redundant electrical feeder, storm bollard and new restrooms; upgrading the public address system and enclosing the existing canopy. The MPA will implement a new Cruise Terminal Upgrade program which will include projects such as the replacement of flooring, check-in counters, furniture and carpeting.

PURPOSE & NEED SUMMARY STATEMENT: This facility is close to tourist attractions located at the Inner Harbor and has excellent visibility and access to I-95. This facility was converted from a lumber warehouse and can accommodate one cruise embark per day.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
 ☐ Safety & Security
☐ System Preservation & Performance
 ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: The improvements made at the South Locust Point Marine Terminal are for the comfort and convenience of cruise line passengers. These improvements spurred an increase in passenger demand and voyages from MPA facilities in the Port of Baltimore.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
 ☐ Grandfathered
☐ Project Outside PFA
 ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined
 ☐ Exception Granted

ASSOCIATED IMPROVEMENTS: None

STATUS: The terminal started operations in FY 2006. The remaining funds will be used for facility improvements.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☐ FEDERAL ☒ GENERAL ☐ OTHER

PROJECT: Marine Terminal Property Acquisition

DESCRIPTION: Purchase parcel(s) of land adjacent to or in the vicinity of existing Marine Terminals at the Port of Baltimore.

PURPOSE & NEED SUMMARY STATEMENT: The desired parcels will allow for greater capacity at existing Marine Terminals and will be used to store autos and RoRo equipment for security processing or other space needs. Expanding existing terminals is more cost effective than building new terminals.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Purchase of property adjacent to existing terminal allows the MPA to increase RoRo and automobile activity in the Port of Baltimore. The increase activity will have a positive impact on local and statewide jobs.

STATUS: The MPA is engaged in negotiations and performing environmental remediation.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:

PROJECT: Chrome Ore Processing Residue Remediation (COPR)

DESCRIPTION: After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis, MDE directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal. This requires relining storm drains in the COPR areas and installing enhanced long-term monitoring and maintenance of the site.

PURPOSE & NEED SUMMARY STATEMENT: Originally chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium remediation. A Corrective Measures Alternatives Analysis (CMAA) was approved by MDE in July 2012.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☒ Connectivity for Daily Life

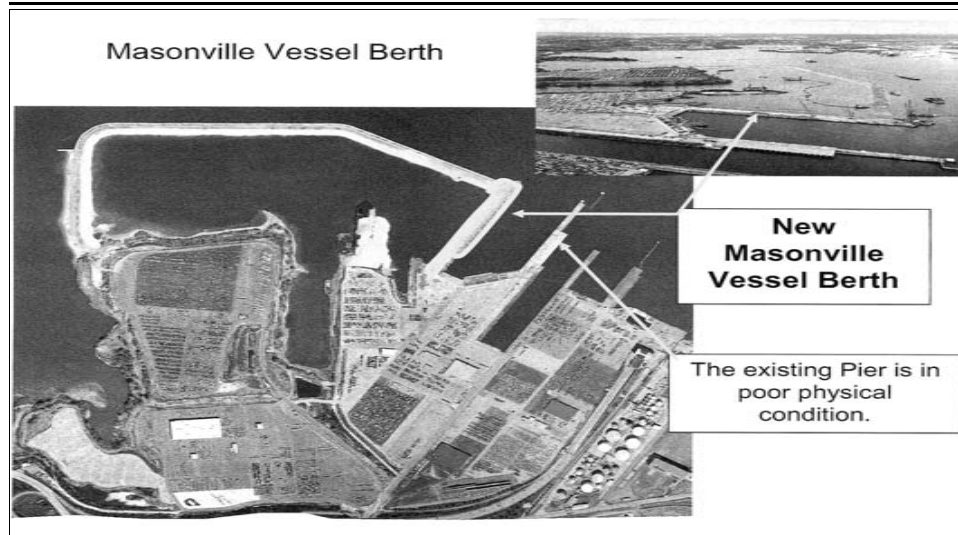

EXPLANATION: Remediation of the affective areas located at the Dundalk Marine Terminal will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor. The application of Corrective Measure will enable the reclamation of chrome affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

STATUS: The Corrective Measures Alternative Analysis was approved by MDE in July 2012.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The program decreased by \$16.3 million due to the implementation of operating procedures specified in the July 2012 CMAA.

POTENTIAL FUNDING SOURCE: <input type="checkbox"/> SPECIAL <input type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

☒ Connectivity for Daily Life

EXPLANATION: Development of the Masonville DCMF will have a positive impact on the creation of local jobs in the Baltimore area. The indirect impact of those local jobs will generate related economic benefits to the state of Maryland.

PROJECT: Masonville Vessel Berth Construction

DESCRIPTION: This project will construct a 968-foot long and 130-foot wide berth, capable of accommodating the world's fleet of Auto and Roll-on/Roll-off ships. The new berth will have a deck load rating of 1000 psf, allowing for flexibility in loading heavy cargo or military equipment. Being a wharf, it will be much less susceptible to damage due to vessel strike, ice movement or debris. Masonville Vessel Berth will not have the wind restrictions of the existing pier. This berth will be dredged to 42 feet.

PURPOSE & NEED SUMMARY STATEMENT: This new structure will replace Fairfield Marine Terminal Pier 4, a deficient pier of World War II vintage that is currently at the end of its useful life. Pier 4 is the sole MPA berth for two large auto terminals (146 acres). Baltimore finished calendar year 2011 as # 1 in the nation for auto exports. Within 20 years of the Masonville Vessel Berth construction, auto movements over the Berth are predicted to grow from 120,000 to 230,000 units.

PROJECT: Dredge Material Management Program

DESCRIPTION: This project conducts detailed studies with the US Army Corp of Engineers to identify and assess potential dredged material placement sites consistent with Maryland's Dredge Material Management program emphasizing beneficial uses of dredged material for projects such as island and shoreline reclamation.

JUSTIFICATION: Available placement capacity for sediment dredged from navigational channels serving the Port of Baltimore is completely committed. The MPA must identify placement sites and uses for future dredge material. Studies and investigations are necessary to meet the requirements of the Dredge Material Management Act of 2001.

| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Safety & Security |
| <input checked="" type="checkbox"/> System Preservation & Performance | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> Connectivity for Daily Life | |

EXPLANATION: This project provides commuter rail service between the Frederick area, the I-270 Corridor and Washington.

PROJECT: MARC Frederick Extension

DESCRIPTION: Service extension from Point of Rocks to City of Frederick, includes downtown Frederick and suburban stations which connect to the Brunswick Line and provide access to Washington, D.C.

PURPOSE & NEED SUMMARY STATEMENT: This extension assists in meeting travel demands of the I-270 corridor by providing additional MARC stations. The Frederick downtown station supports the revitalization of the downtown area in conjunction with the Carroll Creek Project and office development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

Federal-Aid	47,691	47,691	0	0	0	0	0	0	0	0	0

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

USAGE: There was an average of 368 MARC boardings per day on the MARC Frederick Extension in FY 2012.

PROJECT: MARC Maintenance, Layover & Storage Facilities

DESCRIPTION: Funding for planning, environmental documentation, design, property acquisition and construction of maintenance, layover and storage facilities. Funding includes construction for the Washington Mid-Day Storage Yard as well as planning and environmental documentation for a new MARC Layover and Maintenance Facility in Harford County.

PURPOSE & NEED SUMMARY STATEMENT: Projects will provide critically needed storage and maintenance facilities for the MARC fleet. The Washington Mid-Day Storage Yard will reduce interference with Amtrak operations in Washington and provide urgently needed fleet storage away from the passenger platforms at Washington Union Station.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Safety & Security |
| <input checked="" type="checkbox"/> System Preservation & Performance | <input type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> Connectivity for Daily Life | |

EXPLANATION: Additional storage capacity at Union Station enables MARC trains to be stored away from passenger platforms, minimizing disruptions and delays caused by congestion around the platforms.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- | | |

EXPLANATION: Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

PROJECT: MARC Improvements on Camden, Brunswick and Penn Lines (ARRA)

DESCRIPTION: Ongoing improvement program of the MARC Camden, Brunswick and Penn lines to ensure safety and quality of service. Program is implemented through CSX and Amtrak construction agreements. CSX efforts include projects such as interlocking replacements at the Cloppers and Pepco sites and other track improvements. Amtrak efforts include projects such as passenger upgrades at Baltimore Penn Station and Washington Union Station as well as other track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

- | | |

| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

ASSOCIATED IMPROVEMENTS:
None.

STATUS: Construction of the Pepco and Cloppers interlockings is complete. Ongoing projects on the Penn Line include Hanson Interlocking, Penn Station stairway and canopy rehab, public address system and low-level platform rehabilitation in Union Station.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost increased by \$1.4M due to the addition of FY 2018. FY 2018 includes \$19.8M of previously programmed funding.

EXPLANATION: This project includes railcar purchases and overhauls of MARC coaches to refurbish and update mechanical systems and car bodies.

PROJECT: MARC Coaches - Overhauls and Replacement

DESCRIPTION: Minor overhaul of 34 MARC IIB coaches, minor overhaul of 63 MARC III coaches; and purchase of 54 MARC IV multi-level coaches.

PURPOSE & NEED SUMMARY STATEMENT: The overhauls will extend the life cycle of mechanical systems and car bodies providing safe and reliable vehicles for MARC service. The 54 new railcars will replace 26 IIA and 12 Gallery coaches scheduled for retirement, while 16 of the new vehicles will be used for expanded service.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

| <input type="checkbox"/> Project Outside PFA | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted |

ASSOCIATED IMPROVEMENTS:
None.

STATUS: Delivery of overhauled MARC IIB vehicles completed in FY 2012. Production phase of the 54 MARC IV coaches is underway. Procurement is underway for the overhaul of MARC III vehicles.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The overhaul of MARC IIA vehicles has been cancelled and removed as these vehicles will be retired. Additionally, project cost increased by \$1.4M due to modification to the MARC IV coaches needed to comply with federal mandates.

EXPLANATION: Locomotive overhauls and replacements are needed to maintain a state of good repair.

PROJECT: MARC Locomotives - Overhauls and Replacements

DESCRIPTION: Procure 26 re-manufactured diesel locomotives and overhaul 6 high-horsepower (HHP) electric locomotives.

PURPOSE & NEED SUMMARY STATEMENT: Overhaul of locomotives in accordance with the manufacturer's schedule is needed to maintain safe and reliable operation and to comply with federally-mandated maintenance regulations. Replacement diesel locomotives have higher horsepower and meet EPA air quality emissions standards.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

ASSOCIATED IMPROVEMENTS:

None.

STATUS: Twenty-six diesel locomotives have been delivered and are in service. Specification development for the electric locomotive overhaul is currently underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost decreased by \$10.8M due to completion of the overhaul of AEM7 locomotives. Project is complete and has been removed.

EXPLANATION: This project includes an improved station environment for customers and provides access in compliance with the Americans with Disabilities Act (ADA).

PROJECT: MARC Edgewood Station

DESCRIPTION: Phase I of the project included expanded parking and ADA platform improvements. Phase II improvements include replacement of the existing station trailer with a permanent building and site enhancements to improve customer service and ADA access. This is a BRAC-related project.

PURPOSE & NEED SUMMARY STATEMENT: Current ridership and anticipated growth due to BRAC will be better accommodated in a permanent facility.

☐ Environmental Stewardship

EXPLANATION: Ensure the safe of operation of MARC service.

PROJECT: MARC Positive Train Control

DESCRIPTION: Support implementation and development of Positive Train Control for MARC as required by the Federal Railroad Administration and Code of Federal Regulations. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. If the on-board computer determines the train cannot operate safely within the restrictions, it applies the brakes thus preventing any potential accidents. All locomotives will be upgraded to operate the Positive Train Control system.

PURPOSE & NEED SUMMARY STATEMENT: Positive Train control for MARC will create a safeguard against train collision through proper train spacing on the tracks and active speed limit oversight. Federal Railroad Administration requires the system be operational by 2015.

EXPLANATION: This transit center project will expand and improve the multimodal connectivity of MARC, Metrorail and Bus for Silver Spring passengers.

PROJECT: Paul S. Sarbanes Transit Center

DESCRIPTION: Construct a transit center at the Silver Spring Metrorail Station under a transit-oriented development (TOD) agreement between WMATA and a private developer, with a portion of the site reserved for future high-rise office, residential and hotel towers. It includes the construction of bus bays for Metrobus and Ride On, an intercity bus facility, a taxi queuing area, kiss and ride parking, and MARC platforms with connecting pedestrian bridge and elevator towers. Provision is also made for a future Purple Line Station and a hiker/biker trail.

PURPOSE & NEED SUMMARY STATEMENT: Consolidating transit services at a single location in Silver Spring will improve efficiency and ease of use. Proposed high density TOD should increase ridership of MARC, Metrorail and Bus. The project will support the ongoing revitalization of downtown Silver Spring.

☐ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: This project includes expanded parking capacity to accommodate MARC ridership growth.

PROJECT: MARC West Baltimore Station Parking Expansion (ARRA)

DESCRIPTION: Demolition in Phase I cleared the way for parking expansion. Phase II will more than double MARC commuter parking capacity from 316 to 638 spaces. In addition, the project will reconnect divided communities by rebuilding the 400 block of North Payson Street, introducing streetscape features, a community garden, and station artwork. The project will also provide parking for the future Red Line/MARC interchange station.

PURPOSE & NEED SUMMARY STATEMENT: Parking demand regularly exceeds the capacity of the existing lot. Expanded lot will accommodate ridership growth and reduce overflow parking in adjacent communities. Lot will be designed to accommodate the proposed Red Line as well as transit oriented development.

☐ Connectivity for Daily Life

EXPLANATION: This project overhauls the Metro railcars truck assemblies to extend their useful life.

PROJECT: Metro Railcar Truck Assembly Overhaul (ARRA)

DESCRIPTION: Five-year overhaul cycle of major equipment to ensure safe and reliable operation of railcars. Truck assemblies, which consist of critical equipment such as traction motors, gearboxes, axles and wheels require overhaul to ensure safe operation and to prevent high failure rate.

PURPOSE & NEED SUMMARY STATEMENT: Obsolete parts and defective components are in need of repair or replacement to ensure proper operation.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
☒ System Preservation & Performance
☐ Connectivity for Daily Life
☒ Safety & Security
☐ Environmental Stewardship

EXPLANATION: This project provides up-to-date fire detection and management system for the safe operation of Metro.

PROJECT: Metro Fire and Security Management Systems

DESCRIPTION: The project will modernize the entire passenger station Life Safety and Supervisory Control and Data Acquisition (SCADA) systems and replace the obsolete control center systems required to manage the overall Metro SCADA function. This effort will affect the existing fire detection and management system with the associated station ventilation and smoke removal systems, the SCADA system for the primary control of passenger station security, smoke and fire suppression systems, and the motor controls for the ventilation and smoke removal electric fan motors.

PURPOSE & NEED SUMMARY STATEMENT: The existing SCADA system is nearing the end of its useful life. A new system will provide enhanced life safety functionality.

EXPLANATION: This project overhauls and improves the power supply for the Metro.

PROJECT: Metro Electrical Substation Improvements

DESCRIPTION: Overhaul and improvements to electrical substations used to supply power to Metro trains. Includes equipment compartments, switch gear controls, flooring, power supply panels and electrical connections.

PURPOSE & NEED SUMMARY STATEMENT: Operational environment and normal wear have degraded the condition of electrical power supply equipment. The service life of the existing equipment has been met. Repair, refurbishment or replacement is necessary to ensure reliability and safety.

EXPLANATION: This project rebuilds interlockings as part of Metro's system preservation program.

PROJECT: Metro Interlocking Renewals

DESCRIPTION: Complete rebuild of track interlockings on the Metro system, at locations such as Rogers Avenue, Reisterstown Plaza West, and Portal stations. Interlockings allow trains to cross from one track to another using a special track work turnout and a series of switches.

PURPOSE & NEED SUMMARY STATEMENT: Interlockings allow trains to cross from one track to another using turnouts and are important for operations. Replacements are necessary to correct general degradation and wear and to ensure safety.

PROJECT: Kirk Bus Facility Replacement

DESCRIPTION: Construct replacement for the existing Kirk Bus Division. Phase I of the project will construct a new maintenance facility on an expanded site and Phase II will construct an enclosed storage/operations facility.

PURPOSE & NEED SUMMARY STATEMENT: The existing Kirk facility is 65 years old, severely constrained, and cannot adequately maintain MTA's growing fleet of hybrid diesel-electric buses. MTA employees must park off-site on the surrounding neighborhood streets. By replacing the existing Kirk facility with two new "Green" buildings, substantial operational efficiencies will be realized, employees will be able to park on-site, and the community's environmental justice concerns will be addressed.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service ☐ Safety & Security
☒ System Preservation & Performance ☒ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The project enables the MTA to service hybrid diesel-electric and articulated buses at the Kirk Bus Division and incorporates sustainable design practices in the new Kirk facilities.

STATUS: Construction of Phase I of the project will be advertised in FY 2013 with construction expected to begin in FY 2014. Construction of Phase II will proceed when funding becomes available.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: \$53.0M has been added to the project budget due to an award of \$40.0M from the FTA State of Good Repair program and \$13.0M in additional state matching funds to construct Phase I. The project moved from the D&E program to the Construction program.

PROJECT: Bus Procurement

DESCRIPTION: Annual purchase of clean hybrid diesel-electric buses to replace those that have been in service for 12 or more years. The MTA has more than 700 buses in its Active Fleet.

JUSTIFICATION: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses are hybrid diesel-electric which reduce emissions, fuel consumption, and noise levels.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATUS: 57 40-foot hybrid diesel-electric buses were received in FY 2012 and are in revenue service. 53 40-foot hybrid diesel-electric and 10 60-foot articulated hybrid diesel-electric buses will be purchased in FY 2013.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost increased by \$72.0M due to the addition of \$34.0M for FY 18 and an additional \$38.0M to meet the fleet needs plan for FY 13 - 17.

USAGE: Average weekday bus ridership was 242,730 in FY 2012.

EXPLANATION: This project will provide a new facility for major repair and improve the use of existing maintenance facility by freeing space for additional bus bays and other areas designated for repairs.

PROJECT: Bus New Main Shop

DESCRIPTION: Design and construct a new bus maintenance shop within MTA's Washington Boulevard maintenance complex. The new facility will be utilized to perform major bus repairs including engine replacement, transmission repairs, and HVAC repairs. The facility will be designed with "Green" design principles.

PURPOSE & NEED SUMMARY STATEMENT: Major bus repairs will be done in a new shop freeing space in existing maintenance areas and will improve utilization of the existing maintenance facilities, and allow an increased number of articulated and alternative energy buses to be added to the existing fleet.

EXPLANATION: This project upgrades for the bus fleet communication systems, enabling better tracking of buses and improves the quality of information available to patrons.

PROJECT: CAD/AVL Systems

DESCRIPTION: The Computer-Aided Dispatch and Automated Vehicle Location (CAD/AVL) project provides radio data channel expansion to improve bus fleet's voice and data communication. It includes upgrades to the existing CAD/AVL system hardware and software as well as upgrading obsolete vehicle equipment with state of the art replacements. The vehicle location systems will be used to provide real-time vehicle arrival information to patrons.

PURPOSE & NEED SUMMARY STATEMENT: The procurement of an updated and enhanced CAD/AVL system, together with the expanded data channel, will improve the operational efficiency of the bus fleet. These efforts will improve customer service by providing real time management and scheduling adherence as well as providing real-time information to patrons.

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The ability to monitor the operation of four modes from one location will improve on-time performance and establish consistency within the operation modes.

PROJECT: Central Control Center

DESCRIPTION: A newly expanded facility integrating the operations of Bus, Metro, Light Rail and MARC control centers. Facility improvements include air handling units and heating and cooling systems replacements.

PURPOSE & NEED SUMMARY STATEMENT: The ability to operate four modes from one location, while replacing obsolete equipment. The centralized operation will enable MTA to more quickly respond to incidents and emergencies, limiting disruptions, enhancing passenger safety and improving service quality.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATUS: Information systems installation and facility renovations are underway.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost increased by \$1.7M to accommodate additional facility improvement needs.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
☐ System Preservation & Performance
☐ Connectivity for Daily Life
- ☒ Safety & Security
☐ Environmental Stewardship

EXPLANATION: This project enhances surveillance capabilities to improve safety.

PROJECT: Closed Circuit Television (CCTV) Improvements

DESCRIPTION: Installation of CCTV equipment in stations and maintenance facilities in four phases:

Phase I - 1 Light Rail and 10 Metro locations

Phase II - 5 Light Rail, 1 MARC, and 4 Metro Stations as well as the Metro Portal

Phase III - 3 Light Rail, 4 MARC, and 6 Metro Stations as well as an administrative complex

Phase IV - 3 Light Rail and 8 MARC Stations and 1 Metro location

PURPOSE & NEED SUMMARY STATEMENT: The CCTV system will provide effective surveillance of MTA stations and maintenance facilities for Homeland Security-related purposes. Sites are prioritized on a system wide threat vulnerability assessment.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

- ☒ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined
- ☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Homeland Security - Line 13

STATUS: Phases I and II are complete. Construction of Phases III and IV is underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost increased by \$1.2M to complete funding for Phase IV.

EXPLANATION: This effort supports multiple parking expansion projects for Southern Maryland Commuter Bus services, addressing demand for increased commuter parking.

PROJECT: Southern Maryland Commuter Bus Initiative

DESCRIPTION: Construction of Commuter Bus Park and Ride lots at Dunkirk, Prince Frederick, Waldorf, New Market, and Charlotte Hall in Southern Maryland.

PURPOSE & NEED SUMMARY STATEMENT: Southern Maryland is one of the fastest growing regions in Maryland. The project will assist in keeping up with demand for commuter parking which continues to grow as more people move into the region.

1035, 1036, 1037, 1038, 1041

PROJECT: Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions) (ARRA)

DESCRIPTION: Funding to rural and small jurisdictions for transit vehicles, equipment and facilities. In addition, the MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MTA facilitates federal funds for locally-sponsored projects.

JUSTIFICATION: Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Locally Operated Transit Systems - Line 51

STATUS: Funds are awarded based on an annual application cycle. Several projects, including the ARRA-funded vehicles and facilities for the Baltimore and Washington regions and Cecil County were completed in FY 2012.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost increased by \$16.1M due to the addition of FY 18. Of the additional funding, \$3.0M has been accelerated to prior program years.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

#8002 is an ARRA project.
 0300, 8002

PROJECT: Takoma/Langley Park Transit Center (ARRA)

DESCRIPTION: Construction of an off-street covered transit center at the intersection of MD 193 and MD 650 in the Takoma/Langley Park community. Associated SHA improvements include roadway and intersection improvements, pedestrian safety measures, and new sidewalks and crosswalks. Project includes 12 bus bays to provide service for 11 bus routes, passenger shelters, public restroom facilities, a canopy over the entire facility and transit information services. The project will accommodate a future Purple Line station.

PURPOSE & NEED SUMMARY STATEMENT: This area is the busiest transit transfer point, outside a rail station in the region, with 11 Metrobus, Ride On, The Bus and shuttle van routes. The project will also address pedestrian safety issues.

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Safety & Security |
| <input type="checkbox"/> System Preservation & Performance | <input type="checkbox"/> Environmental Stewardship |

Federal-Aid	76,976	21,783	24,377	30,816	0	0	0	0	55,193	0

STATUS: Preliminary engineering and preparation of Final Environmental approvals are underway. Subject to a revenue increase and federal approval, Final Design could begin in the budget year. Without a revenue increase in the 2013 legislative session, the project will be put on hold and FY 14 funding will be reallocated within MTA's budget.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost decreased by \$32.4M due to no longer available federal funding previously programmed.

USAGE: Average daily ridership in 2030 is estimated to be 57,000.

JUSTIFICATION: The Purple Line will serve a highly congested corridor in Prince George's and Montgomery Counties connecting the Metrorail Red, Green and Orange lines to key employment, residential and institutional destinations. This transit line also connects the MARC Brunswick, Camden and Penn lines and to Amtrak at New Carrollton as well as to regional and local bus services.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

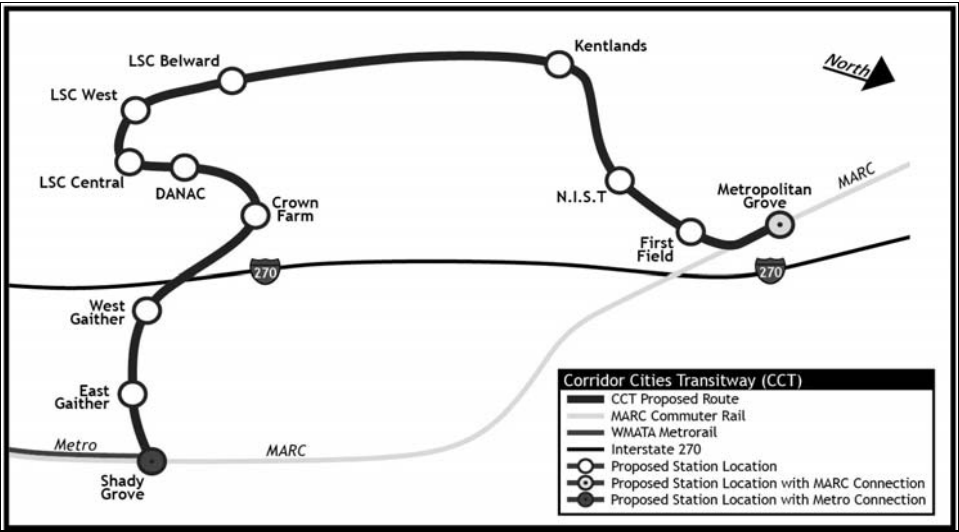

<input checked="" type="checkbox"/>	Project Inside PFA	<input type="checkbox"/>	Grandfathered
<input type="checkbox"/>	Project Outside PFA	<input type="checkbox"/>	Exception Will Be Required
<input type="checkbox"/>	PFA Status Yet to Be Determined	<input type="checkbox"/>	Exception Granted

Paul S. Sarbanes Transit Center -- Line - 9
Takoma/Langley Park Transit Center -- Line 38

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Project cost decreased by \$49.4M due to no longer available federal funding previously programmed.

USAGE: Ridership for 2030 is estimated at approximately 60,000 daily boardings.

[illegible]

PROJECT: Corridor Cities Transitway (CCT)

DESCRIPTION: The Corridor Cities Transitway (CCT) will be a new 15 mile bus rapid transit (BRT) transitway in Montgomery County. The project will provide new intra-County transit service running northwest along existing and proposed transit-oriented land uses from the Shady Grove Metro Station in northern Rockville through Gaithersburg, Germantown and terminating just south of Clarksburg at COMSAT. The CCT will provide modal transfers to the existing MTA MARC Line at Metropolitan Grove and WMATA Metro Red Line at Shady Grove, as well as a supporting bus network.

JUSTIFICATION: The purpose and need for the project is to relieve congestion and improve safety due to existing and projected growth within the I-270/US 15 Corridor. The CCT would also enhance mobility by serving existing and future transit-oriented land uses in the corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

SHA - I-70/I-270 Interchange
SHA - I-70, MD 85 Extended and MD 355 Relocated
SHA - MD 80 and MD 355 Relocated
SHA - I-70, Mt. Phillip Road to MD 144

STATUS: The Locally Preferred Alternative alignment and mode (BRT) were selected in FY 2012. Subject to a revenue increase, preliminary engineering could begin in FY 14 for Phase I. Without a revenue increase in the 2013 legislative session, the project will be put on hold and FY 14 funding will be reallocated within MTA's budget.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: FY 2014 anticipated federal aid of \$4.0M has been replaced with State Funds.

PROJECT: Southern Maryland Mass Transportation Analysis

DESCRIPTION: Planning activities to identify and protect an alignment for future development of high-capacity transit services in the US 301/MD 5 corridor from White Plains to the Branch Avenue Metrorail Station.

JUSTIFICATION: Continued growth in Southern Maryland has created high levels of traffic congestion in the US 301/MD 5 corridor. Planning is needed to determine the role of a high capacity transit service in the corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered

☐ Project Outside PFA ☐ Exception Will Be Required

☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
None.

STATUS: Corridor preservation study completed. Grant funding requested from FTA to examine future transit opportunities in the corridor.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

PROJECT: MARC Growth and Investment Plan

DESCRIPTION: The MARC Growth and Investment Plan project includes environmental and preliminary engineering for nine miles of 4th track between Odenton and Halethorpe, a crossover bridge interlocking, and a new platform and station building at BWI Rail station.

JUSTIFICATION: MARC Train service is at capacity and expansion is needed to accommodate future growth in the MARC corridors.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MARC BWI Rail Station (ARRA) - Line 12

Assessment of Transit needs for Maryland Base Realignment and Closure - Line 40

STATUS: Planning and Engineering underway for BWI Station improvement Projects. The MARC Growth and Investment Plan is being updated in FY 2013.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

Federal Funds - WMATA *	91.1	90.1	93.3	96.4	100.1	104.1	575.2

* These federal funds are received by WMATA directly and are not included in the MDOT budget.

PROJECT: Metrorail Debt Service

DESCRIPTION: Maryland Department of Transportation's share of Metrorail debt service payments, which supplement the 103-mile rail system's construction.

JUSTIFICATION: Payments required to retire revenue bonds previously issued by the Washington Metropolitan Area Transit Authority to supplement construction costs of the Metrorail system.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
WMATA Capital Improvement Program -- Line 2

STATUS: The final maturity for the Metrorail construction bonds is FY 2015. Maryland's final payment to WMATA for Maryland's share of the Metrorail construction bonds will occur in FY 2014.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE: <input checked="" type="checkbox"/> SPECIAL <input checked="" type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

PROJECT: WMATA Capital Improvement Program

DESCRIPTION: The program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects.

JUSTIFICATION: WMATA's FY 2013-2018 CIP is focused on infrastructure rehabilitation, replacement and maintaining the Washington region's primary transit system in a state of good repair. WMATA's FY 2013-2018 CIP includes, but is not limited to, projects to replace rail cars, rehabilitate some of the oldest segments of the Metrorail system, replace vehicles for Metrobus and Metro Access, and implement recommendations from the National Transportation Safety Board. The projects included in WMATA's CIP are priority projects selected from WMATA's Capital Needs inventory, a detailed assessment of WMATA's capital needs over the next ten years.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Metrorail Debt Service -- Line 1
 Matching Funds -- Line 4

STATUS: the FY 2013 - 2018 CIP was adopted by the WMATA Board of Directors on May 24, 2012.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

PHASE	TOTAL		CURRENT YEAR 2013	BUDGET YEAR 2014	PROJECTED CASH REQUIREMENTS FOR PLANNING PURPOSES ONLY				SIX YEAR TOTAL	BALANCE TO COMPLETE

Federal-Aid	79,880	79,880	0	0	0	0	0	0	0	0

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The project cost increased by \$118.0 million due to the addition of \$183.4 million in FY 2018 and an adjustment to match WMATA's current funding requirement forecast.

9003, 9004, 9005, 9006

PROJECT: Rail Cars/Capital Improvement Program

DESCRIPTION: This program funds Maryland's allocated share of the Washington Metropolitan Area Transit Authority's Project Development Program. Another portion of this program funded Maryland's share of 48 new rail cars that were ordered in FY 2003.

JUSTIFICATION: WMATA's Project Development Program provides for planning and preliminary design of projects within the WMATA region. The addition of new rail cars provided significant relief to certain severe overcrowding conditions.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 None.

STATUS: Project Development Program planning studies are ongoing. All of the rail cars purchased through this program are in service.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The project cost increased \$1.1 million due to the addition of FY 2018.

8011, 8013, 8014

PROJECT: Matching Funding for "Passenger Rail Investment and Improvement Act of 2008" - P.L. 110-432

DESCRIPTION: The Passenger Rail Investment and Improvement Act of 2008 authorizes new federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority. The federal legislation also requires matching funds from Maryland, Virginia, and the District of Columbia. This program provides Maryland's share of the match to the federal funds.

JUSTIFICATION: Maryland is committed to providing its annual share of the match to the federal funds as part of the dedicated funding package for WMATA.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

WMATA Capital Improvement Program -- Line 2

STATUS: Congress is expected to appropriate \$150.0 million in Federal Fiscal Year 2013 and Maryland will provide \$50.0 million in matching funds to WMATA. The funds will be used for capital improvements including, but not limited to, the purchase of new rail cars to replace WMATA's 1000 series vehicles.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost increased \$50.0 million due to the addition of FY 2018.

POTENTIAL FUNDING SOURCE: <input checked="" type="checkbox"/> SPECIAL <input type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

PROJECT: WMATA American Recovery and Reinvestment Act (ARRA) Capital Program

DESCRIPTION: The American Recovery and Reinvestment Act (ARRA), signed into law by President Obama on February 17, 2009, provides federal funding for infrastructure projects around the nation. WMATA will receive \$201.8 million directly from the federal government; no local match required. Approximately \$72.4 million of the federal funds are attributable to Maryland.

JUSTIFICATION: The funds are being used for capital projects which include the procurement of replacement buses and support equipment, rehabilitation of passenger and maintenance facilities, and upgrades to various operational and information technology systems. WMATA's ARRA projects were selected based on WMATA's agency goals and the ability to meet the requirements of the federal law.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

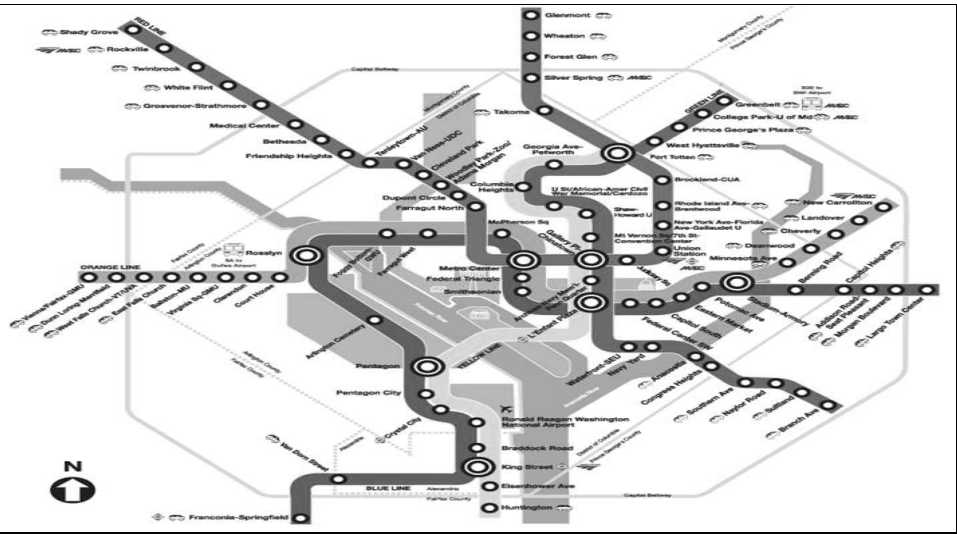

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 None.

STATUS: WMATA's ARRA projects are forecasted to be complete in FY 2013.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

PROJECT: Metro Matters Program

DESCRIPTION: Metro Matters is a regionally funded program of capital improvements for the Washington Metropolitan Area Transit Authority . This program provides Maryland's share of the required contributions under the terms of the Metro Matters Funding Agreement.

JUSTIFICATION: The Metro Matters program was initiated in FY 2005 with a multi-year budget of approximately \$3.9 billion. A majority of Metro Matters project work was completed during FY 2005-2010. Repayment of long-term bonds issued by WMATA to fund the Metro Matters program will extend through FY 2034.

SMART GROWTH STATUS:

☒ Project Not Location Specific

☐ Project Inside PFA

☐ Project Outside PFA

☐ PFA Status Yet to Be Determined

☐ Grandfathered

☐ Exception Will Be Required

☐ Exception Granted

☐ Not Subject to PFA Law

ASSOCIATED IMPROVEMENTS:
None.

STATUS: Maryland's share of the annual contributions to the Metro Matters program is approximately \$10.5 million during the FY 2013-2018. The final maturity date of the Metro Matters Bonds is in FY 2034.

SHA

SHA STATEWIDE

PROJECT: Coordinated Highway Action Response Team (CHART)

DESCRIPTION: Install advanced traffic management system (ATMS) and advanced traffic information system (ATIS) technologies on Interstate highways and arterials statewide. Technologies include cameras, traffic detectors, weather sensors, dynamic message signs, highway advisory radios, web sites and telecommunication networks. CHART is comprised of five major components: 1) Traffic and Roadway Monitoring; 2) Incident Management; 3) "511" - Traveler's Information; 4) System Integration and Communication; 5) Traffic Management.

PURPOSE & NEED SUMMARY STATEMENT: Heavy volumes of traffic, stop-and-go commuter peaks, and lack of comprehensive information regarding current, real-time conditions on available alternatives contribute to and compound the effects of unexpected incidents. With the growth in traffic outpacing any realistic hope of expanding capacity through building new highways, or expanding existing ones, it is imperative to operate the existing system more efficiently through the application of Intelligent Transportation System technologies and interagency teamwork.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Projects in the CHART program will aid in the reduction of travel time, reduce congestion and provide critical traffic information for the traveling public. Messages on dynamic message boards provide information to aid in the safety and security of travelers.

STATUS: Engineering and Construction underway. This represents a summary of the Statewide CHART program. Individual corridor work is shown in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added funding in FY18.

PROJECT: Community Safety and Enhancement Program

DESCRIPTION: This is the SHA element of the Statewide Neighborhood Conservation Program. Funds will be made available for highway transportation projects in designated revitalization areas. Areas will be designated by local jurisdictions, taking into account factors such as the age and number of abandoned and substandard structures, the extent of unemployment, and the redevelopment plans and strategies of the local jurisdiction. Project improvements include roadway reconstruction, lighting and drainage improvements, streetscaping and roadway improvements.

PURPOSE & NEED SUMMARY STATEMENT: Some of Maryland's older urban areas contain significant investments in physical infrastructure that are underutilized due to their inability to attract new investment. MDOT is joining with other State agencies to target resources for these areas with the goal of increasing their attractiveness to private investment.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

| <input checked="" type="checkbox"/> Connectivity for Daily Life | |

EXPLANATION: This program targets transportation improvements in older urban areas with physical infrastructure that is in need of repair to support economic development and revitalization. Provides/promotes bike and pedestrian access to commercial centers, transit facilities, schools and other public facilities. Encourages other State Agencies to target resources for those areas with the goal of increasing their attractiveness for private investment.

STATUS: Engineering, Right-of-way and Construction underway. This sheet represents a summary of this program. Individual projects are shown in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added funding in FY18.

**PROJECT:** Sidewalk Program

DESCRIPTION: This program will provide matching funds for the construction of sidewalks adjacent to State highways. Fifty percent of project costs will be required from local and municipal project sponsors, except in urban revitalization areas where projects are eligible for 100 percent state funding, and in priority funding areas where projects are eligible for 75 percent state funding.

PURPOSE & NEED SUMMARY STATEMENT: Program will support community revitalization efforts and efforts to encourage pedestrian usage along State highways consistent with the intent of the "Access 2000" legislation.

PROJECT: Sound Barrier Program

DESCRIPTION: Funding to implement retrofit sound barrier projects that meet eligibility criteria.

PURPOSE & NEED SUMMARY STATEMENT: Mitigating highway noise is an essential element of the Department's programs for environmental stewardship and community conservation.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet To Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service
☒ System Preservation & Performance
☐ Connectivity for Daily Life

☐ Safety & Security
☒ Environmental Stewardship

EXPLANATION: This program provides mitigation of highway noise to those communities that qualify for noise abatement. Improves quality of life for eligible communities adjacent to access controlled facilities.

STATUS: Engineering, Right-of-way and Construction underway. This consolidates the total dollars available for sound barriers that meet eligibility criteria. Individual projects are shown in SHA's Safety, Congestion Relief, Highway and Bridge Preservation Program.

PROJECT: Total Maximum Daily Load (TMDL)

DESCRIPTION: Plan, design, and construct stormwater controls and alternative water quality improvement strategies in Maryland Phase I and Phase II Counties in order to meet the US Environmental Protection Agency's (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements by the year 2025. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland commitment in its Watershed Implementation Phase I Plan (WIP I).

PURPOSE & NEED SUMMARY STATEMENT: SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollution Elimination Discharge System (NPDES) Phase I and Phase II Municipal Separate and Storm Sewer System Permit (MS4) permits. This programmatic effort is needed for compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☐ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: Implement strategies through the year 2025 that will primarily reduce nitrogen, phosphorus and sediment loads in waters that drain to the Chesapeake Bay from SHA-owned roads and coverage areas. Implementation Strategies to include: Structural and Non-Structural Best Management Practices; Environmentally Sensitive Designs; Stream and Wetland Restoration; and Afforestation.

STATUS: Engineering underway. Construction to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added funding in FY14 thru FY18.

PROJECT: Pedestrian Access To Transit

DESCRIPTION: Install ADA-compliant sidewalk connections to provide access to transit facilities. Specific work elements include constructing new sidewalk or reconstructing existing sidewalk; installing curb and gutter, ADA-compliant curb ramps and driveway crossings; upgrading pedestrian signals to accessible pedestrian signals (APS); enhancing pavement markings and pedestrian signage; and providing concrete pads for bus shelters.

PURPOSE & NEED SUMMARY STATEMENT: The primary purpose of the Pedestrian Access to Transit Program is to provide barrier-free access to public transportation facilities for pedestrians and bicyclists. Efforts are targeted toward locations within one-half mile of an existing transit station and will provide enhanced transit access, pedestrian amenities, and the promotion of transit-oriented development. SHA coordinates with the Maryland Transit Administration, WMATA, local transit providers, and the counties and municipalities to identify needed improvements.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Projects in the Pedestrian Access to Transit program will provide barrier-free access to public transportation, promoting the use of alternative forms of transportation and potentially reducing vehicle miles traveled (VMT) and congestion on state roadways.

STATUS: Engineering and Construction Underway. Projects constructed or under construction include MD 185 (Connecticut Avenue) in Montgomery County, MD 212 (Riggs Road) in Prince Georges County, MD 542 (Loch Raven Boulevard) and MD 45 (York Road) in Baltimore County.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added funding in FY14 and FY15.

PROJECT: BRAC Intersections near Aberdeen Proving Grounds

DESCRIPTION: Design and construct intersection improvements at key locations along access routes to Aberdeen Proving Grounds. Bicycle and pedestrian facilities will be provided where appropriate.

JUSTIFICATION: Improved access to Aberdeen Proving Grounds is a vital component needed to accommodate the increase of employment as a result of BRAC. These intersection improvements will improve safety, capacity and operations in the near-term.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 40, Interchange at MD 715 (Harford County Line 3)
 Perryman, Access Study (Harford County Line 5)

STATUS: Engineering and Right-of-Way underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added \$8.6 million to Right-of-Way for MD 22 at MD 462 and Utilities for MD 22 at Old Post Road. Moved \$8.6 million to Harford County Line 1 (MD 22) for right-of-way and construction.

POTENTIAL FUNDING SOURCE:

SAFETY, CONGESTION RELIEF, HIGHWAY AND BRIDGE PRESERVATION PROGRAM

STATE HIGHWAY ADMINISTRATION -- STATE WIDE LINE 12

ITEM NO.	ROUTE NO.	DESCRIPTION AND IMPROVEMENT TYPE	TOTAL ESTIMATED COST (\$000's)	CONSTRUCTION START Status as of December 1, 2012
		<u>Fiscal Year 2012 Completions</u>		
		<u>Bridge Replacement/Rehabilitation</u>		
1		Cleaning and Painting of 7 bridges in Wicomico and Worcester County	1,619	Completed
		<u>Safety/Spot Improvement</u>		
2		Replace/Upgrade Traffic Barriers at various locations in District 5; guardrails	938	Completed
3		Various locations in District 1 along MD 90, US 113 and US 13 Bus.; guardrails	2,998	Completed
		<u>Environmental Preservation</u>		
4	US 301	Blue Star Memorial Highway; MD 301/US 50 split to Delaware State Line; landscaping (ARRA PROJECT)	433	Completed
		<u>Enhancements</u>		
		<u>Environmental Mitigation</u>		
5		Statewide tree planting; Fifty to one hundred acres, plant approximately 200 trees per acre	415	Completed
		<u>Fiscal Years 2013 and 2014</u>		
		<u>Resurface/Rehabilitate</u>		
6		Various locations in District 3 and 5; thermoplastic thinline striping	1,000	FY 2014
7		Various locations in District 4 and District 7; pavement marking	1,042	FY 2013
8		Various locations in Gaithersburg Shop area of Montgomery County; mill/grind, patch and resurface pavements	4,541	FY 2014

SAFETY, CONGESTION RELIEF, HIGHWAY AND BRIDGE PRESERVATION PROGRAM

ALLEGANY COUNTY

PROJECT: I-68, National Freeway

DESCRIPTION: Rehabilitation of Bridge 01092 on MD 51 over CSX, Canal Parkway and Bridge 01096 on I-68 (Cumberland Thruway) over Wills Creek/CSX/Municipal Streets including ramps 01107, 01108, 01109, 01110, 01111 and 01112 which connect to the Cumberland Thruway Structure.

PURPOSE & NEED SUMMARY STATEMENT: Bridge rehabilitation including cleaning, painting, lighting, superstructure and substructure repairs.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: I-68 provides a critical link through Western Maryland. Maintaining these structures supports this east/west movement.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

STATE SYSTEM: Primary

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 13,400

PROJECTED (2030) - 19,000

PROJECT: US 220, McMullen Highway

DESCRIPTION: Replaced Bridge 1060 over the Potomac River. Shoulders and sidewalks will accommodate bicycles and pedestrians. Existing structure will be removed. (ARRA)

PURPOSE & NEED SUMMARY STATEMENT: The existing bridge was structurally deficient.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The existing bridge is structurally deficient. The bridge provides a critical link from Maryland to West Virginia.

STATUS: The new bridge is Open to Service, the project will remain active through FY14 to remove the old bridge. The cost shown is the estimated cost for Maryland's share only (which is approximately 35% of the total cost).

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: US 220, McMullen Highway

DESCRIPTION: Study to upgrade and/or relocate US 220 from I-68, via MD 53, to the West Virginia State Line (15.0 miles). This represents Maryland's portion of a larger joint study from I-68 to Corridor H in West Virginia.

JUSTIFICATION: Improvements along the US 220 South corridor would enhance accessibility and promote economic development in the Appalachian Region.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 219, I-68 to Pennsylvania State Line (Garrett County - Line 2)

STATUS: Project Planning corridor studies underway. The cost shown is SHA share only. West Virginia is the lead in performing this study.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

BALTIMORE COUNTY

PROJECT: I-83, Harrisburg Expressway

DESCRIPTION: Replace Bridge 03214 on Middletown Road over I-83

PURPOSE & NEED SUMMARY STATEMENT: The bridge is nearing the end of its structural life and needs to be replaced. An additional lane is required to accommodate traffic volumes through the interchange during peak hours.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The Bridge serves as a major link along the Interstate 83 commuter freight route. The I-83 corridor links points in southern Pennsylvania to points in northern Baltimore County such as Hunt Valley, Towson and Baltimore City.

STATUS: Engineering Underway. Construction to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost increase of \$1.9 million is due to a unfavorable bid.

POTENTIAL FUNDING SOURCE:				<input checked="" type="checkbox"/> SPECIAL <input checked="" type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

☐ Environmental Stewardship

EXPLANATION: The MD 139 (Charles Street) bridge was nearing the end of its structural life. The bridge serves as a major link connecting Lutherville and West Towson neighborhoods. The new bridge provides additional capacity for safety, improved operation and enhanced pedestrian and bicycle accommodations. The bridge has been lengthened to allow future widening of I-695, which serves as the main emergency and freight transport interstate for the Baltimore Region.

STATUS: Open to Service.**SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP:** None.**POTENTIAL FUNDING SOURCE:**

EXPLANATION: The Baltimore Beltway bridge over MD 26 (Liberty Road) is nearing the end of its structural life. The new bridge will provide critical capacity needed for improved safety and operations on I-695, a vital emergency, freight carrier and connecting route for the Baltimore Region. Lengthening of the bridge deck will allow for pedestrian and bicycle accommodations along MD 26 (Liberty Road).

CURRENT (2012) - 201,450

PROJECTED (2030) - 248,400

PROJECT: US 40, Baltimore National Pike

DESCRIPTION: Replace Bridge 0310900 over Patapsco River. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: This project will rehabilitate the deteriorating 1936 historic bridge structure over the Patapsco River at the Baltimore/Howard County Line.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: This deteriorating bridge is a major link along the US 40 corridor. US 40 is a major commerce route for the transportation of goods and freight. In emergencies, the US 40 corridor serves as a back up route for I-70. The bridge will be rehabilitated to preserve the historic nature of the structure and to blend in with its Patapsco State Park setting. The bridge will be widened 5' to provide for bicycle/pedestrian compatible shoulders.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost decrease of \$2.8 million is due to moving Transportation Enhancement Program to the System Preservation Program.

DAILY TRAFFIC : (USAGE IMPACTS)
CURRENT (2012) - 185,250
PROJECTED (2030) - 231,000

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: Reconstruct Ramp at I-695 and Leeds Ave. to provide direct access to US 1 (Southwest Boulevard).

JUSTIFICATION: The new ramp connection would greatly reduce the commuter cut-through traffic in the Arbutus neighborhood, thereby improving traffic safety and operations in the residential area.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-695, MD 144 Bridge Replacement (Line 4)
 I-695, MD 372 Bridge Replacement (Line 5)
 Francis Avenue Noise Barrier (System Preservation Program)

STATUS: Engineering underway. Right-of-Way to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added \$0.7 million to Engineering and \$1.4 million to Right-of-Way.

POTENTIAL FUNDING SOURCE:				<input checked="" type="checkbox"/> SPECIAL	<input checked="" type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input type="checkbox"/> OTHER

PROJECT: US 40, Pulaski Highway

DESCRIPTION: This project will include improvements along US 40 from Middle River Road to MD 43 and is consistent with local corridor plans that promote mixed-use development along US 40 within the White Marsh/ Nottingham area of Baltimore County. The US 40 and Mohr's Lane intersection improvements, required for the extension of the County's Campbell Boulevard project are included within the project limits. (1.86 miles).

JUSTIFICATION: This project will provide improved safety and traffic operations along with beautification of this segment of the corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATUS: Engineering underway. Right-of-Way to begin during current fiscal year. The County is contributing \$360K towards Engineering for US 40 at Mohr's Lane. The cost shown is SHA share only.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added \$8.0 million for Right-of-Way for the US 40 at Mohr's Lane intersection improvements.

CALVERT COUNTY

PROJECT: MD 261, Willows Road

DESCRIPTION: Replace Bridge 0401101 over Fishing Creek. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridge is structurally deficient.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: The existing structure is structurally deficient. MD 261 is an important north-south link in Calvert County.

STATUS: Engineering Underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added to the Construction Program.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

SECONDARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: MD 331, Dover Road

DESCRIPTION: Replace Bridge 20023 over Choptank River. The new span, which will be located south of the existing roadway and will provide a 50 foot river clearance. Shoulders will accommodate bicycles and pedestrians.

JUSTIFICATION: Constructing a new bridge will provide a safe and dependable MD 331 crossing of the Choptank River that will accommodate both vehicular and marine traffic. The old span has had mechanical difficulties with the drawbridge in the past that affected commerce and emergency services in Caroline and Talbot counties. This bridge is functionally obsolete.

CECIL COUNTY

PROJECT: MD 272, Mauldin Ave

DESCRIPTION: Replace Bridge 7036 over Amtrak. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: The existing structure is structurally deficient and functionally obsolete.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: The existing bridge is structurally deficient and does not meet current design standards making it functionally obsolete. The new bridge will have sidewalks for pedestrians and wide shoulders for bicycles.

STATUS: Engineering Underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added to the Construction Program.

CHARLES COUNTY

PROJECT: US 301, South Corridor Transportation Study

DESCRIPTION: Multi-modal corridor study to consider highway/transit improvements from the Potomac River to the US 301/US 50 interchange in Bowie (45.5 miles). Includes preparing appropriate environmental approvals for recommended alternates. Bicycle and pedestrian access will be considered in the study.

JUSTIFICATION: This study will address transportation needs and alternatives, and consider related environmental and growth management issues.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet To Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 301, Waldorf Area Project (Line 2)
 Southern Maryland Mass Transportation Analysis (MTA)
 MD 3, US 50 to MD 32 (Prince George's Line 9)
 MD 5, US 301 at T.B. to North of I-95/I-495 (Prince George's Line 12)
 MD 5, Interchange at MD 373 and Brandywine Road Relocated (Prince George's Line 13)

STATUS: Project Planning on hold. Protective Right-of-way funding to be used to preserve viability of alternatives under study.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost increase of \$3.0 million is due to adding protective Right-of-way funds in FY18..

POTENTIAL FUNDING SOURCE:

FREDERICK COUNTY

PROJECT: I-70, Baltimore National Pike

DESCRIPTION: Widen I-70 east of MD 355 to east of MD 144, (1.57 miles) replace the I-70 bridge over Reich's Ford Road. The existing ramps to Monocacy Blvd. and Reich's Ford are reconstructed (Phase 2D).

PURPOSE & NEED SUMMARY STATEMENT: Signed as I-70, this section was constructed as US 40 Relocated and does not meet current Interstate highway standards. Existing interchanges have short acceleration and deceleration lanes, very sharp curves, short merging and weaving sections and missing movements. Improvements include widening of the 4 lane section and reconstruction of the interchanges. This project will enhance access to the City of Frederick and improve Interstate travel.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 I-70, Mt. Phillip Road to MD 144FA (Line 7)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: By improving the geometry of the existing interchange ramps between I-70 and Monocacy Boulevard and Reich's Ford Road, this project will improve operations along I-70 through Frederick and reduce collision and injury rates.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

PROJECT: I-270, Eisenhower Highway, and US 15, Frederick Freeway

DESCRIPTION: Multi-modal corridor study to consider highway and transit improvements in the I-270/US 15 corridor in Montgomery and Frederick counties from Shady Grove Metro Station to north of Biggs Ford Road (27.90 miles).

JUSTIFICATION: Poor levels of traffic service and safety problems are experienced throughout I-270 and on US 15 through the City of Frederick. Traffic conditions will continue to deteriorate due to rapid development along this corridor. Transportation route and transportation improvements are needed to relieve existing and future traffic and to support planned economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered

GARRETT COUNTY

PROJECT: US 219 Relocated, Oakland Bypass

DESCRIPTION: Relocate US 219 from north of Oakland to MD 135 (2.40 miles). Sidewalks will be included where appropriate and shoulders will accommodate pedestrians in open sections. Shoulders and wide curb lanes will accommodate bicycles.

JUSTIFICATION: Existing US 219 through Oakland experiences congestion because of the frequency of entrances and intersections along with restricted roadway width. The bypass will divert through traffic including heavy trucks from downtown Oakland, improving safety and reducing congestion.

HARFORD COUNTY

PROJECT: MD 22, Aberdeen Thruway

DESCRIPTION: Intersection improvements at Old Post Road.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety and operations at MD 22 and Old Post Road. It will also improve access to Aberdeen Proving Grounds (APG) supporting BRAC expansion.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 40, Interchange at MD 715 (Line 3)
 BRAC Intersection Improvements at APG (Statewide Line 9)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: This project includes intersection capacity improvements. The improvements will address operational and safety concerns and provide improved access to APG.

STATUS: Right-of-Way underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Moved \$8.6 million from Statewide Line 8 (BRAC Intersections near Aberdeen Proving Grounds) for utilities and construction.

POTENTIAL FUNDING SOURCE:

EXPLANATION: The project includes capacity and MD 715/Old Philadelphia Road intersection improvements to accommodate growth from BRAC. The improvements will address operational and safety concerns, support freight movement and provide improved access to the APG main gate. The proposed improvements will also eliminate the current dangerous u-turns for large commercial trucks accessing the industrial park area.

STATUS: Construction underway.

CURRENT (2012) - 26,000

PROJECTED (2030) - 30,800

PROJECT: US 40, Baltimore National Pike

DESCRIPTION: Replace Bridge 0310900 over Patapsco River. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: This project will rehabilitate the deteriorating 1936 historic bridge structure over the Patapsco River at the Baltimore/Howard County Line.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: This deteriorating bridge is a major link along the US 40 corridor. US 40 is a major commerce route for the transportation of goods and freight. In emergencies, the US 40 corridor serves as a back up route for I-70. The bridge will be rehabilitated to preserve the historic nature of the structure and to blend in with its Patapsco State Park setting. The bridge will be widened 5' to provide for bicycle/pedestrian compatible shoulders.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost decrease of \$2.8 million is due to moving Transportation Enhancement Program to the System Preservation Program.

POTENTIAL FUNDING SOURCE:

INTERSTATE DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: I-70

DESCRIPTION: Study to address current and future capacity needs on I-70 between MD 32 and US 29 (6.0 miles)

JUSTIFICATION: This project would ease increasing congestion and improve safety along this segment of I-70.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 Marriottsville Road, US 40 to MD 99 (County Project)

STATUS: Project on hold.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

PROJECTED (2030) - 116,300

PROJECT: MD 32, Patuxent Freeway

DESCRIPTION: Study to upgrade existing MD 32 from MD 108 to I-70 to address safety concerns (9.06 miles). Shoulders will accommodate bicycles.

JUSTIFICATION: This project would address safety problems which have been experienced as a result of increasing traffic volumes on the existing 2 lane roadway.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:
MD 32, Interchange at Linden Church Road (Line 2)
MD 32, Wellworth Way Access Management (Line 3)

STATUS: Project Planning complete. Engineering underway for the improvements at Rosemary Lane. Protective Right-of-way funding to be used as properties become available.

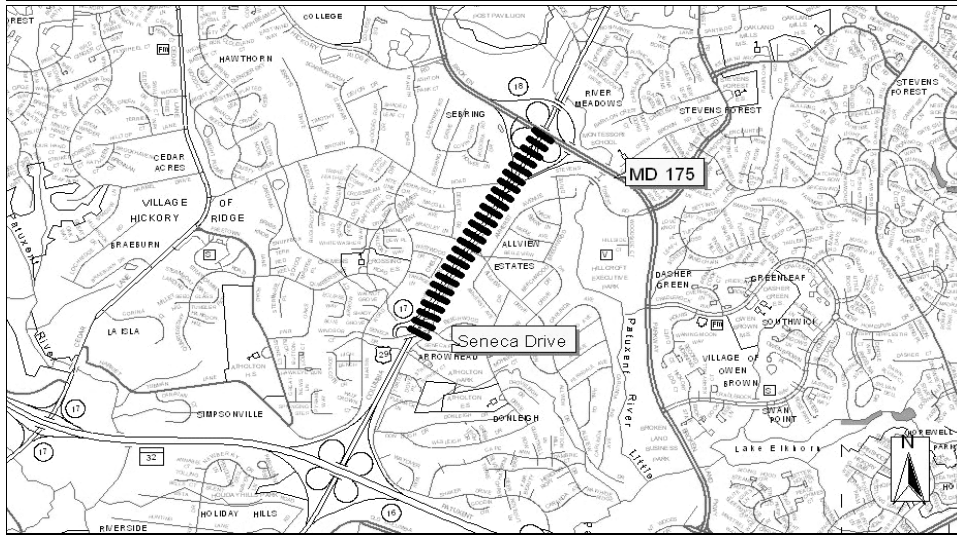

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added \$3.0 million for protective Right-of-Way acquisitions in FY18. Transferred \$6.0 million from Right-of-Way to Engineering for Rosemary Lane.

STATE HIGHWAY ADMINISTRATION -- Howard County -- Line 10

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: US 29, Columbia Pike

DESCRIPTION: Widen the northbound section of US 29 from Seneca Drive to MD 175 from 2 to 3 lanes (2.8 miles).

JUSTIFICATION: This project will improve safety and reduce congestion by upgrading northbound US 29 to match the southbound section, which is currently 3 lanes.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 29, Access Improvements at Gales Lane and Old Columbia Road (Line 4)
 US 29, Middle Patuxent River to Seneca Drive (Line 11)

STATUS: Engineering underway. Right-of-Way to begin during current fiscal year. Howard County is funding \$2.0 million for Engineering. The cost shown is SHA share only.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added \$1.8 million for Right-of-Way. The remaining Federal High Priority Project Funds will be programmed as the project progresses.

PROJECT: MD 200, InterCounty Connector

DESCRIPTION: Construct a new East-West multi-modal highway in Montgomery and Prince George's counties between I-270 and I-95/US 1.

PURPOSE & NEED SUMMARY STATEMENT: This transportation project is needed to increase community mobility and safety; to support development and local land-use plans; to improve access between economic growth centers; to advance home land security measures; and to help restore the natural, human and cultural environments from past development impacts in the project area.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 29 Interchanges (Lines 10,11)
 MD 28/MD 198, MD 97 to I-95 (Line 12)
 I-95/Contee Road Interchange (Prince George's County - Line 1)
 MD 201 Extended/US 1, I-95/I-495 to N. of Muirkirk Road (Prince George's County - Line 21)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: MD 200 will provide an east/west connection to facilitate movement of freight and people. It provides an improved route for emergency vehicles and improved security during a state of emergency. The new access will support master plan development in Montgomery and Prince George's counties. The project includes numerous environmental features such as wildlife crossings and stream restorations.

STATUS: Construction underway. The section from I-270 to I-95 is Open to Service.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Additional project funds are shown in MdTA's portion of the CTP. The funding shown in SHA's Program is due to the Federal Appropriation Acts of 2004, 2005 and Federal High Priority/NC11P Project Funds.

POTENTIAL FUNDING SOURCE:

CURRENT (2012) - 27,500

PROJECTED (2030) - 96,500

PROJECT: MD 97, Georgia Avenue

DESCRIPTION: Construct interchange improvements at Randolph Road. Sidewalks will be included where appropriate. Wide curb lanes will accommodate bicycles.

PURPOSE & NEED SUMMARY STATEMENT: This project would relieve congestion at the existing intersection.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 InterCounty Connector (Line 2)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: This grade-separation project will result in a reduction in travel times along both Randolph Road and Georgia Avenue and improve safety by separating the through movements. The new interchange will also provide new sidewalks and wide curb lanes to safely accommodate all users of the road.

STATUS: Engineering and Right-of-way underway. Advanced utility work underway. Construction for the overall project to begin during budget fiscal year. County to provide \$14.4 million for Right-of-way and Advanced Utilities. The cost shown is SHA share only.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 52,000

PROJECTED (2030) - 59,100

PROJECT: MD 185, Connecticut Ave.

DESCRIPTION: Construct intersection improvements on MD 185 at Jones Bridge Road (Phases 1 & 2). Bicycle and Pedestrian facilities will be provided where appropriate. (BRAC Intersection Improvements).

PURPOSE & NEED SUMMARY STATEMENT: Improved access to Naval Support Activity Bethesda is a vital component to accommodate the increase of employment as a result of BRAC. It will improve safety, capacity and operation in the near term.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

BRAC Intersection Improvements near Bethesda (Statewide Line 8)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Improvements to this intersection in the vicinity of the National Naval Medical Center is vital in support of the congressionally authorized BRAC initiative. This improvement will provide congestion relief and safety improvements as well as provide for the safe and efficient movement of freight.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost decrease of \$3.1 million is due to a favorable bid price.

STATE SYSTEM: Secondary

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 44,100

PROJECTED (2030) - 48,475

PROJECT: MD 355, Rockville Pike

DESCRIPTION: Construct utilities on MD 355 at Cedar Lane and Jones Bridge Road (Phases 1 & 2). Construct Dynamic Lane Controls on MD 355 at Cedar Lane (BRAC Intersection Improvements).

PURPOSE & NEED SUMMARY STATEMENT: Improved access to the Naval Support Activity Bethesda is a vital component to accommodate the increase of employment as a result of BRAC. It will improve safety, capacity and operation in the near term.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 BRAC Intersection Improvements near Bethesda (Statewide Line 8)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: Improvements to this intersection in the vicinity of the National Naval Medical Center is vital in support of the congressionally authorized BRAC initiative. This improvement will provide congestion relief and safety improvements as well as provide for the safe and efficient movement of freight.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 61,625

PROJECTED (2030) - 69,750

PROJECT: I-270, Eisenhower Highway, and US 15, Frederick Freeway

DESCRIPTION: Multi-modal corridor study to consider highway and transit improvements in the I-270/US 15 corridor in Montgomery and Frederick counties from Shady Grove Metro Station to north of Biggs Ford Road (27.90 miles).

JUSTIFICATION: Poor levels of traffic service and safety problems are experienced throughout I-270 and on US 15 through the City of Frederick. Traffic conditions will continue to deteriorate due to rapid development along this corridor. Transportation route and transportation improvements are needed to relieve existing and future traffic and to support planned economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

InterCounty Connector (Line 2)

I-270/Watkins Mill Road Extended Interchange (Line 8)

I-70, Mt. Phillip Road to MD 144 (Frederick County - Line 7)

US 15, Interchange at Monocacy Boulevard (Frederick County - Line 10)

STATUS: Project Planning on hold, proceeding with transit options in corridor first.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

FEDERAL - Major Collector

STATE SYSTEM: Secondary

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 20,675

PROJECTED (2030) - 48,000

PROJECT: MD 355, Rockville Pike

DESCRIPTION: Construct a CSX Railroad grade separated crossing and interchange improvements at Parklawn Drive. Sidewalks will be included where appropriate. Wide curb lanes will accommodate bicycles.

JUSTIFICATION: This project would improve safety and relieve traffic congestion that occurs at the Parklawn Drive intersection and at the CSX Railroad crossing.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Montrose Parkway East (Montgomery County Project)

STATUS: Engineering underway. County is contributing \$9.0 million to engineering. The cost shown is SHA share only.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:

PRINCE GEORGE'S COUNTY

STATE HIGHWAY ADMINISTRATION -- Prince George's County -- Line 1

INTERSTATE CONSTRUCTION PROGRAM

PROJECT: I-95/Contee Road (Virginia Manor Road) Interchange

DESCRIPTION: Construct a new interchange with collector-distributor roads at I-95 and Contee Road Relocated (Virginia Manor Road Relocated)(2.0 miles). Bicycle and pedestrian access will be provided on Contee Road.

PURPOSE & NEED SUMMARY STATEMENT: This interchange and collector-distributor road would relieve congestion on the mainline of I-95, improve traffic flow at the I-95/MD 198 interchange and provide access for planned development east and west of I-95.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

InterCounty Connector (Line 5)
 MD 28/MD 198, MD 97 to I-95 (Line 19)
 MD 201 Extended/US 1, I-95/I-495 to N. of Muirkirk (Line 21)
 Virginia Manor Road Relocated (TSO Program Line 4)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Quality of Service ☐ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: The new Interchange at I-95 and Contee Road Relocated will facilitate enhanced access and improved circulation to an area that is planned for growth and economic development.

STATUS: Construction underway. The cost shown is SHA share only.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 63,050

PROJECTED (2030) - 90,050

PROJECT: MD 200, InterCounty Connector

DESCRIPTION: Construct a new East-West multi-modal highway in Montgomery and Prince George's counties between I-270 and I-95/US 1.

PURPOSE & NEED SUMMARY STATEMENT: This transportation project is needed to increase community mobility and safety; to support development and local land-use plans; to improve access between economic growth centers; to advance homeland security measures; and to help restore the natural, human and cultural environments from past development impacts in the project area.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-95/Contee Road Interchange (Line 1)

 MD 201 Ext/US 1, I-95/495 to N. of Muirkirk Road (Line 21)
 Virginia Manor Road Relocated (TSO Line 4)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☒ Environmental Stewardship
☒ Connectivity for Daily Life

EXPLANATION: MD 200 will provide an east/west connection to facilitate movement of freight and people. It provides an improved route for emergency vehicles and improved security during a state of emergency. The new access will support master plan development in Montgomery and Prince George's counties. The project includes numerous environmental features such as wildlife crossings and stream restorations.

STATUS: Construction underway. The section from I-270 to I-95 is Open to Service.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Additional project funds are shown in MdTA's portion of the CTP. The funding shown in SHA's Program is due to the Federal Appropriation Acts of 2004, 2005 and Federal High Priority/NC11P Project Funds.

DAILY TRAFFIC : (USAGE IMPACTS)

CURRENT (2012) - 62,100 (Charles) -
87,375 (Prince George's)

PROJECTED (2030) - 75,000 (Charles) -
116,000 (Prince George's)

PROJECT: MD 28 (Norbeck Road)/MD 198 (Spencerville Road)

DESCRIPTION: Study to construct capacity improvements in the MD 28 and MD 198 corridors in Montgomery and Prince George's Counties (10.50 miles). Sidewalks will be included where appropriate. Wide curb lanes to accommodate bicycles will be included where appropriate.

JUSTIFICATION: This project would accommodate travel safety along the MD 28/MD 198 corridor between MD 97 and the US 29/I-95 corridor. This project would also provide relief to present and future traffic congestion and improve traffic operations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 I-95/Contee Road Interchange (Line 1)
 InterCounty Connector (Line 5)

STATUS: Project on hold.

 36,875 - 62,250 (MD 198)

PROJECT: MD 197, Collington Road

DESCRIPTION: Study to upgrade and widen existing MD 197 to a multi-lane divided highway from Kenhill Drive to MD 450 Relocated (1.4 miles). Sidewalks will be included where appropriate. Wide curb lanes will accommodate bicycles.

JUSTIFICATION: Additional lanes are needed to accommodate increasing volumes of traffic. This improvement would provide better access to the City of Bowie.

QUEEN ANNE'S COUNTY

STATE HIGHWAY ADMINISTRATION -- Queen Anne's County -- Line 1

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: MD 404, Shore Highway

DESCRIPTION: Upgrade existing MD 404 to a 4 lane divided highway with access controls from US 50 to MD 404 Business (11.83 miles). Shoulders will accommodate bicycles and pedestrians.

JUSTIFICATION: This project is needed to reduce traffic congestion caused by high seasonal peaks associated with summer resort traffic and to improve safety and operations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☒ Project Outside PFA ☒ Grandfathered
☐ PFA Status Yet To Be Determined ☐ Exception Will Be Required ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 US 50, US 301 to MD 404 (Line 2)

STATUS: Partial Engineering underway. Right-of-Way underway for the segment from MD 309 to Tuckahoe Creek.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: None.

POTENTIAL FUNDING SOURCE:				<input checked="" type="checkbox"/> SPECIAL <input checked="" type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

PROJECT: MD 331, Dover Road

DESCRIPTION: Replace Bridge 20023 over Choptank River. The new span, which will be located south of the existing roadway and will provide a 50 foot river clearance. Shoulders will accommodate bicycles and pedestrians.

JUSTIFICATION: Constructing a new bridge will provide a safe and dependable MD 331 crossing of the Choptank River that will accommodate both vehicular and marine traffic. The old span has had mechanical difficulties with the drawbridge in the past that affected commerce and emergency services in Caroline and Talbot counties. This bridge is functionally obsolete.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: I-70, Eisenhower Memorial Highway

DESCRIPTION: Widen and rehabilitate Bridge 21106 over Concocheague Creek.

PURPOSE & NEED SUMMARY STATEMENT: Bridge rehabilitation for cleaning, painting, superstructure and substructure repairs. Deck will be widened to provide full shoulders.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☐ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: I-70 provides a critical link through Western Maryland. Maintaining this bridge supports this east/west movement.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: The cost decrease of \$2.3 million is due to a favorable bid price.

CURRENT (2012) - 45,450

PROJECTED (2030) - 63,000

PROJECT: I-70, Eisenhower Memorial Highway

DESCRIPTION: Total replacement of the existing dual bridge 2110802 and 2110804 on I-70 over MD 63.

PURPOSE & NEED SUMMARY STATEMENT: The existing bridge is being replaced because it has a structurally deficient deck and superstructure. Deck will be widened to provide full shoulders.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service ☒ Safety & Security
☒ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: I-70 provides a critical link through central and Western Maryland. Replacing this bridge supports this east/west connection for travel and goods movement.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Added to the Construction Program.

WORCESTER COUNTY

PROJECT: US 113, Worcester Highway

DESCRIPTION: Upgrade existing US 113 as a 4 lane divided highway from Goody Hill Road to Massey Branch (1.8 miles). Project will include access control improvements. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: The US 113 corridor is experiencing deterioration in safety and service due to increasing seasonal traffic volumes coupled with local, commercial/residential development along this highway. This project will improve the highway's safety and servability.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☒ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 113, Public Landing Road to Massey Branch (Line 3)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service ☒ Safety & Security
☐ System Preservation & Performance ☐ Environmental Stewardship
☐ Connectivity for Daily Life

EXPLANATION: This project will decrease travel time and delay for local and seasonal traffic and improve safety.

STATUS: Open to Service.

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP:

POTENTIAL FUNDING SOURCE:

STATE HIGHWAY ADMINISTRATION -- Worcester County -- Line 2

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: US 50, Ocean Gateway

DESCRIPTION: Study to replace Bridge 23007 over the Sinepuxent Bay. The study will investigate options to eliminate/upgrade the drawspan structure. Shoulders or wide curb lanes and sidewalks will accommodate bicycles and pedestrians.

JUSTIFICATION: The 67 year old draw span is estimated to have 15 to 20 years of life span left. This high traffic volume arterial has experienced mechanical problems with the drawbridge during peak seasonal traffic. This project would improve the highway's safety and operations.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: I-95 John F. Kennedy Memorial Highway - Express Toll Lanes (ETL)

DESCRIPTION: Construct two Express Toll Lanes in each direction from I-895 North to north of MD 43 (8.0 miles) and improve the interchanges with I-895, I-695 and MD 43. (BRAC related.)

PURPOSE & NEED SUMMARY STATEMENT: This segment of I-95 is the most congested section of I-95 in Maryland north of Baltimore City. Currently, I-95, south of MD 43, operates at Level of Service (LOS) F (lowest level of efficiency) during morning and evening rush hours. By 2025, this section is also expected to operate at LOS E (irregular flow with speed variations) and LOS F (lowest level of efficiency, frequent slowing required) during weekend peak periods. I-95 is the backbone of the east coast's transportation network and is essential to the movement of people and freight.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service
- ☐ System Preservation & Performance
- ☒ Connectivity for Daily Life
- ☐ Safety & Security
- ☐ Environmental Stewardship

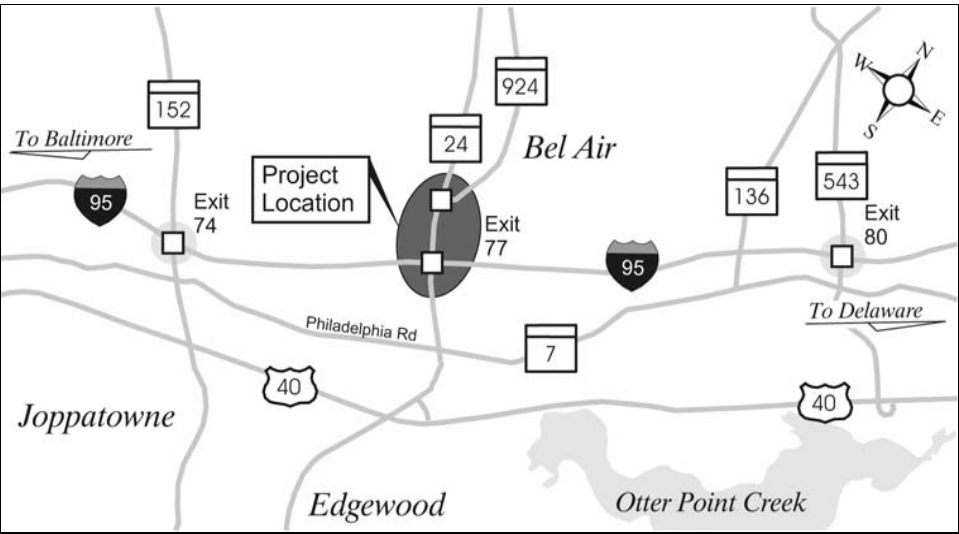

EXPLANATION: I-95, south of MD 43, experiences congestion during the morning and evening rush hours. By 2025, this section is also expected to experience congestion during weekend peak periods.

ASSOCIATED IMPROVEMENTS:

- I-95 Interchange Improvements at MD 24 - Construction Program (Line 2)
- I-95 John F. Kennedy Memorial Highway - Resurfacing (Phase I)
- I-95 Ft. McHenry Tunnel - Moravia Road to the Tunnel Modifications - Construction Program (Line 6)

STATUS: Engineering, right-of-way acquisition and construction are underway.

PROJECT: I-95 John F. Kennedy Memorial Highway - MD 24 Interchange Improvements (Phase I)

DESCRIPTION: Constructed improvements to the I-95/MD 24 interchange, including upgrades to MD 24 and the reconstruction of the MD 24/MD 924/Tollgate Road intersection to a grade separated interchange. (BRAC related.)

PURPOSE & NEED SUMMARY STATEMENT: This project provides improved capacity, operation and safety for the I-95/MD 24 interchange and the MD 24/MD 924/Tollgate Road intersection, which is in close proximity and integral to the I-95/MD 24 interchange operation.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☒ Quality of Service
- ☐ System Preservation & Performance
- ☐ Connectivity for Daily Life
- ☒ Safety & Security
- ☐ Environmental Stewardship

EXPLANATION: The project improves capacity and safety for the I-95/MD 24 interchange and the MD 24/MD 924/Tollgate Road intersection. This improvement addresses weaving movements on I-95 and MD 24 and improves traffic flow.

ASSOCIATED IMPROVEMENTS:
I-95 Express Toll Lanes - Construction Program (Line 1)
I-95 John F. Kennedy Memorial Highway - Resurfacing (Phase I) (Line 4)

STATUS: Open to service.

PROJECT: I-95 John F. Kennedy Memorial Highway - Resurfacing (Phase I)

DESCRIPTION: Resurface I-95 northbound and southbound from MD 43 to the Maryland/Delaware state line. Phase I is I-95 from MD 43 to MD 24.

PURPOSE & NEED SUMMARY STATEMENT: The I-95 roadway north of MD 43 is in need of resurfacing. Phase I is I-95 from MD 43 to MD 24, Phase II will be MD 24 to the Tydings Bridge and Phase III will be from the Tydings Bridge to the Maryland/Delaware state line. Only Phase I is funded at this time.

CONSTRUCTION PROGRAM

PURPOSE & NEED SUMMARY STATEMENT: The Maryland House and Chesapeake House Travel Plazas have aged to the point in which redesign and/or reconstruction is necessary to adequately meet public demand over the next 30 years.

<input type="checkbox"/>	Quality of Service	<input type="checkbox"/>	Safety & Security
<input checked="" type="checkbox"/>	System Preservation & Performance	<input type="checkbox"/>	Environmental Stewardship
<input type="checkbox"/>	Connectivity for Daily Life		

None.

STATUS: Right-of-way acquisition and construction are underway.

POTENTIAL FUNDING SOURCE: ☐ SPECIAL ☐ FEDERAL ☐ GENERAL ☒ OTHER

2055

DESCRIPTION: The project limits extend from the southern end of the I-95 ETL Project (Moravia Road) to the Fort McHenry Tunnel Toll Plaza. Phase 1 modifications from Moravia Road to Eastern Avenue include grinding and overlaying to provide four continuous through lanes (lane continuity); Phase 2 from Eastern Avenue to Fort McHenry Tunnel includes re-striping to provide four continuous through lanes (lane continuity). Construction funding is only included for Phase 1 southbound.

PURPOSE & NEED SUMMARY STATEMENT: The existing typical section of I-95 from Moravia Road to the FMT is as follows: three lanes per direction from I-895 to Moravia Road; four lanes per direction from Moravia Road to O'Donnell Street; three lanes per direction from O'Donnell Street to Boston Street; and four lanes per direction from Boston Street to the Fort McHenry Tunnel. This project will provide southbound lane continuity from the southern limits of the ETL's to the tunnel.

<input checked="" type="checkbox"/> Quality of Service	<input type="checkbox"/> Safety & Security
<input type="checkbox"/> System Preservation & Performance	<input type="checkbox"/> Environmental Stewardship
<input type="checkbox"/> Connectivity for Daily Life	

EXPLANATION: This project will provide southbound lane continuity from the southern limits of the ETL's to the Fort McHenry Tunnel. This will improve traffic flow on this segment of I-95.

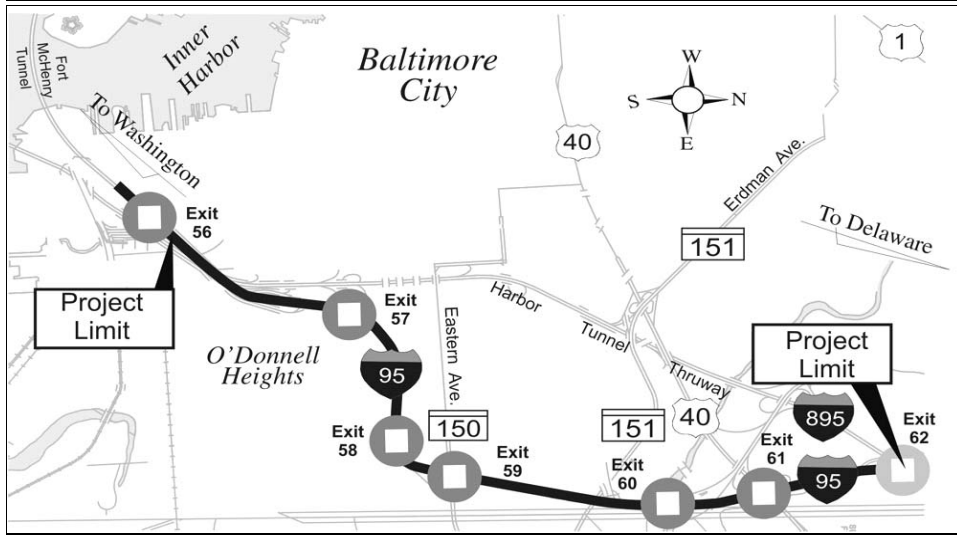

ASSOCIATED IMPROVEMENTS:

I-95 Express Toll Lanes - Construction Program (Line 1)
I-95 Ft. McHenry Tunnel - Rehabilitate North of Tunnel - Construction Program (Line 7)
I-95 Ft. McHenry Tunnel - Rehabilitate Concrete Tunnel Deck - Construction Program (Line 9)

STATUS: Phase 1 southbound is open to service.

Federal-Aid	0	0	0	0	0	0	0	0	0	0

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: Cost increased by \$19.5 million due to increased scope resulting from the addition of repairs and painting of forty-four bridges and the addition of drainage troughs under the joints.

PROJECT: MD 695 Francis Scott Key Bridge - Improve Interchange at Quarantine Road

DESCRIPTION: Improvements to Quarantine Road interchange included widening of the ramps and upgraded traffic signals; permanent closure of the ramp from Quarantine Road to the Outer Loop and redirection of traffic to the Fort Armistead ramp; widening of the approach roadways and restriping the Quarantine Road bridge to four lanes; a new storm water management facility to control storm water pollution; new roadway signing, lighting, pavement markings, landscaping and reforestation.

PURPOSE & NEED SUMMARY STATEMENT: This project has improved safety by addressing constraints at the existing MD 695 - Quarantine Road interchange that result in ramp queues that extend onto MD 695.

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |

PROJECT: US 50/301 Bay Bridge - Clean and Paint Structural Steel Westbound Bridge

DESCRIPTION: Partial painting of all structural steel surfaces on the westbound bridge of approximately 3 million square feet including girder spans, deck trusses, overhead truss members and suspension spans. Construction funding only included for Phases 1 (painting west girder spans), 2 (cleaning and painting the suspension towers, spot painting the remainder of the suspension span and zone painting the deck truss spans) and 3 (cleaning and painting the deck truss spans and steel rail posts and rehabilitating the steel barrier). Phase 4 (cleaning and painting the east girder and through truss spans) construction funding will be addressed as engineering progresses.

PURPOSE & NEED SUMMARY STATEMENT: The bridge has not been fully painted since it opened in 1973. Limited spot painting has been done as needed. The paint is showing signs of wear. This improvement will protect the steel components of the bridge and extend the useful life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
- ☒ System Preservation & Performance
- ☐ Connectivity for Daily Life
- ☐ Safety & Security
- ☐ Environmental Stewardship

EXPLANATION: The paint is showing signs of wear. This improvement will address existing wear and extend the useful life of the steel components of the bridge.

PROJECT: Authority-Wide - Upgrade MDTA Radio Communication Systems (700 MHz System)

DESCRIPTION: The State of Maryland purchased an integrated statewide wireless communications system. The system operates with the 700/800 MHz band frequencies. The implementation of the system incorporated a phased deployment methodology. The Maryland Transportation Authority is the first agency to work within this statewide project. MDTA is in Phase 1 Region 1-A which consists of BWI, ICC, Tunnel Command, Nice Bridge, Bay Bridge, and JFK North.

PURPOSE & NEED SUMMARY STATEMENT: The upgraded radio communications systems provide state, local, and regional public first responders' real time operable and interoperable voice and data services that support Day-to-Day, Mutual Aid, and Task Force operations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Quality of Service
 ☒ Safety & Security

SIGNIFICANT CHANGE FROM FY 2012 - 17 CTP: New project.

SYSTEM PRESERVATION MINOR PROJECTS PROGRAM

MARYLAND TRANSPORTATION AUTHORITY - LINE 30

ITEM NO.	DESCRIPTION AND IMPROVEMENT TYPE	TOTAL ESTIMATED COST (\$000's)	CONSTRUCTION START
	<u>FY 2013 and Prior</u>		
	<u>BALTIMORE HARBOR TUNNEL</u>		
1	Rehabilitate Tunnel Lighting and Control System (0264)	2,482	Complete
2	Replace Drainage Pipe in Fresh Air Duct (Code 1 System Preservation) (2213)	4,746	Complete
3	Replace Dynamic Message Signs & Lane Use Signals with LED Based Technology (0281)	1,491	Underway
4	Study Sound Barriers (2233)	214	Underway
5	Canton and Fairfield Vent Building Envelope Repair (Engineering only) (2306)	300	Underway
6	Clean and Paint Structural Steel - Phase I (2253)	3,229	Underway
7	Deck and Superstructure Replacement of Bridge on I-895 over Patapsco Flats (Engineering only) (2292)	5,230	Underway
8	HVAC Replacement at Administration Building (Engineering only) (2308)	75	Underway
9	Rehabilitate K-Truss Bridge Deck (Code 1 System Preservation) (2210)	5,452	Underway
10	Replace Vent Fans (Engineering only) (2263)	380	Underway
11	BHT Toll Booth Replacement (Engineering only) (2307)	66	Underway
12	Clean and Paint Structural Steel on Various Bridges - Phase II (2255)	4,422	Underway
13	Rehabilitation of K-Truss Approach Spans (Engineering only) (2334)	1,000	Underway
14	Repaint Harbor Tunnel Switchgear Enclosures (Engineering only) (2330)	60	Underway
15	Zone Painting Various Bridges (2279)	2,412	Spring, 2013
	<u>F.S.KEY BRIDGE</u>		
16	Replace Light Poles on Bridge (2150)	1,226	Underway
17	Clean and Paint Structural Steel on Various Bridges - Phase I (2258)	1,575	Underway
18	All Electronic Tolling Conversion and Virtual Weigh Station (Engineering only) (2304)	2,800	Underway
19	Bridge Deck Overlay to Bridges over Dock Road (inner loop) & over CSXT(outer loop) (Engineering only) (2327)	400	Underway
20	Clean and Paint Structural Steel at Bear Creek Bridges (2252)	3,988	Underway
21	Cleaning and Painting of Approach Spans on I-695 Bridge over Curtis Creek (Engineering only) (2331)	100	Underway
22	New Salt Bin (Engineering only) (2309)	75	Underway
23	Replace HVAC at Engineering and Administration Buildings (Engineering only) (2319)	68	Underway
24	Superstructure Fatigue Retrofits at Curtis Creek Bridge (Code 2 System Preservation) (2214)	1,692	Underway

SYSTEM PRESERVATION MINOR PROJECTS PROGRAM

MARYLAND TRANSPORTATION AUTHORITY - LINE 30 (cont'd)

ITEM NO.	DESCRIPTION AND IMPROVEMENT TYPE	TOTAL ESTIMATED COST (\$000's)	CONSTRUCTION START
	<u>FY 2013 and Prior (cont'd)</u>		
	<u>FORT MCHENRY TUNNEL</u>		
25	Upgrade Central Utility Plant (1477)	1,304	Underway
26	FMT East Vent Building Police Detention Area (1402)	2,532	Underway
27	Replace Weathering Steel High Mast Light Poles - Code 2 System Preservation (Engineering only) (2206)	1,000	Underway
28	Repair Hanover Street Ramp (2157)	1,617	Underway
29	Replace Administration Building Generator (2138)	363	Underway
30	Replace Dynamic Message Signs and Lane Use Signals with LED Based Technology (1463)	2,913	Underway
31	Repair or Rehabilitate Vent Fans (Engineering only) (2251)	300	Underway
32	Replace or Rehabilitate Tunnel Lighting System (Engineering only) (2269)	500	Underway
33	Salt Barn Replacement (Engineering only) (2299)	16	Underway
34	Dewatering Pad (2310)	480	Underway
35	Rehab of 4 Bridges on I-95 over Herring Run and CSX (Engineering only) (2333)	1,500	Underway
36	Replace Roof at the Maintenance Building (2301)	974	Spring, 2013
37	Zone Painting Various Bridges North of Tunnel (2256)	5,791	Spring, 2013
	<u>HATEM BRIDGE</u>		
38	HVAC Replacement at Administration Building and Scale Houses (Engineering only) (2303)	123	Underway
39	Rehabilitate Approach Roadways (Engineering only) (2273)	1,516	Underway
40	Remove UST's and Add One 1,000 Gallon Diesel Aboveground Tank for Winter Ops (Engineering only) (2222)	100	Underway
41	Toll Modification (2293)	500	Underway
	<u>KENNEDY HIGHWAY</u>		
42	Section 200: I-95 from North of MD 43 to North of MD 22 (1119)	7,359	Complete
43	New Maintenance Facility (Equipment, Vehicle Acquisition & ROW only) (2136)	6,185	Underway
44	I-95/MD 222 Concept Study (Planning only) (2237)	425	Underway
45	Modify Drainage to Hand Boxes (2057)	338	Underway
46	Salt Barn at MD 7 and I-695 (Joint project with SHA) (2181)	1,557	Underway

SYSTEM PRESERVATION MINOR PROJECTS PROGRAM

MARYLAND TRANSPORTATION AUTHORITY - LINE 30 (cont'd)

ITEM NO.	DESCRIPTION AND IMPROVEMENT TYPE	TOTAL ESTIMATED COST (\$000's)	CONSTRUCTION START
	<u>FY 2013 and Prior (cont'd)</u>		
	<u>KENNEDY HIGHWAY (cont'd)</u>		
47	Clean and Paint Structural Steel on Various Bridges (Code 1 System Preservation) (2238)	3,257	Underway
48	Modify Expansion Joints on the Tydings Bridge (SB) and Miscellaneous Structural Repairs (2182)	4,605	Underway
49	Replace Administration Building 230kW Generator (2239)	290	Underway
50	Replace Underground Storage Tank with Aboveground Storage Tank-Maintenance 1 (Engineering only) (2218)	150	Underway
51	Clean and Paint Structural Steel - Phase II (2257)	6,000	Underway
52	Clean and Zone Paint Tydings Bridge (Engineering only) (2313)	150	Underway
53	Dewatering Pad at Maintenance 1 (2314)	180	Underway
54	Light Pole Replacement (Engineering only) (2323)	100	Underway
55	Phase II Resurfacing from MD 24 to Tydings Bridge (Engineering only) (2312)	250	Underway
56	Replace Navigational Lighting on the MET Bridge (Engineering only) (2332)	100	Underway
57	Toll Booth Replacement (Engineering only) (2311)	110	Underway
58	Overlay Deck & Repair - Bouchelle Road & MD 213 Bridges over I-95 (2275)	1,506	Spring, 2013
59	Zone Painting Various Bridges - Phase III (2281)	3,551	Spring, 2013
	<u>MULTI-AREA</u>		
60	Evaluate and Upgrade Security Related Plans (1467)	171	Underway
61	Install Radio Rebroadcast Systems in Fort McHenry and Harbor Tunnels (1963)	913	Underway
62	Install Highway Advisory Radio Transmitters and Signs - JFK and WPL (2008)	1,183	Underway
63	Law Enforcement IT Systems Plan - Multi-Area (2060)	3,147	Underway
64	Replace Electronic Toll Collection and Operating System - 3rd Gen. (Engineering only) (2147)	3,897	Underway
65	Comprehensive Building Inspection Program (2177)	628	Underway
66	Miscellaneous Paving Repairs (2142)	4,697	Underway
67	Right-of-Way and General Fencing at Various Locations (2144)	282	Underway
68	All Electronic Tolling Authority-Wide Feasibility Study (2183)	733	Underway
69	Design of E-ZPass Back-Up Site (2225)	100	Underway
70	Evaluate Condition of Deck, Superstructure & Substructures All Facilities (Engineering only) (2083)	1,804	Underway
71	Furnish and Install Radiac Cable within Tunnels (2156)	1,929	Underway

SYSTEM PRESERVATION MINOR PROJECTS PROGRAM

MARYLAND TRANSPORTATION AUTHORITY - LINE 30 (cont'd)

ITEM NO.	DESCRIPTION AND IMPROVEMENT TYPE	TOTAL ESTIMATED COST (\$000's)	CONSTRUCTION START
	<u>FY 2013 and Prior (cont'd)</u>		
	<u>MULTI-AREA (cont'd)</u>		
72	Miscellaneous Roadway Lighting Repairs and Modifications (1913)	4,911	Underway
73	Replace Navigational Lighting Systems to Francis Scott Key, Nice Memorial Bridge and Bay Bridge (2074)	2,553	Underway
74	Study of Commercial Vehicle Inspections Facilities Authority-Wide (2073)	330	Underway
75	Study Unified Operations Center (2250)	10	Underway
76	Design & Construct Security Fencing at Shores of Major Bridges (TJH, FSK, HWN, Tydings & WPL) (2130)	2,041	Underway
77	Replace Generators (Engineering only) (2265)	331	Underway
78	Allocated Long Range Capital Needs Reserve (2325)	3,077	Underway
79	Bridge Deck Overlay and Misc. Repairs of I-895A Ramp over I-895B and Quarantine Road over I-695 (2270)	3,341	Underway
80	Deck Sealing of Various Bridges on I-95, I-695 and I-895 (JFK, FSK, BHT) (Engineering only) (2326)	400	Underway
81	Energy Lease Program (2078)	1,546	Underway
82	Equipment Budget (1702)	3,465	Underway
83	Law Enforcement CAD/RMS/AFR/AVL System Plan (2324)	6,952	Underway
84	Miscellaneous Paving Repairs (Code 1 System Preservation) (2193)	2,487	Underway
85	On-Call Facility/Building Repairs (2240)	692	Underway
86	On-Call Furnishing and Installation of Camera and CODEC Equipment (2014)	2,066	Underway
87	On-Call Miscellaneous Electrical Repairs (5-year) (2236)	298	Underway
88	On-Call Miscellaneous Paving Repairs (2335)	122	Underway
89	On-Call Shotcrete Repairs and Miscellaneous Modifications (2227)	4,485	Underway
90	On-Call Shotcrete Repairs and Miscellaneous Modifications (2297)	2,382	Underway
91	On-Call Structural Repairs and Miscellaneous Modifications (2171)	500	Underway
92	On-Call Structural Repairs and Miscellaneous Modifications (2176)	1,881	Underway
93	On-Call Structural Repairs and Miscellaneous Modifications (2254)	5,406	Underway
94	On-Call Structural Repairs and Miscellaneous Modifications (2291)	3,889	Underway
95	On-Call Structural Repairs and Miscellaneous Modifications (2296)	2,366	Underway
96	On-Call TMDL Stormwater Retrofits on JFK and BHT (2290)	1,311	Underway
97	Program Management Services for System Preservation (2235)	3,000	Underway
98	Remove, Replace and Upgrade Sign Structures - Northern Region (Engineering only) (2289)	850	Underway
99	Replace Roofs at the Baltimore Harbor Tunnel and Francis Scott Key Campuses (2247)	195	Underway

SYSTEM PRESERVATION MINOR PROJECTS PROGRAM

148	Replace Roof at 2310 Point Breeze Building (2242)	1,204	Summer, 2013
	<u>W. P. LANE BRIDGE</u>		
149	Furnish and Install Uninterruptible Power Supply (UPS) (2268)	805	Summer, 2013

GLOSSARY

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY

State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP) and the Consolidated Transportation Program (CTP).
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland’s program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity.
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Remaining Cost to Complete	Amount of funds required after the budget year to complete a project.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project.
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service.
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated.
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements.
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements.
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources.
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area.
(PP)	Project Planning: The state in the planning process where detailed studies and analysis are conducted to establish the scope and location of proposed transportation facilities.
(PE)	Preliminary Engineering: The state in project development when surveys, soil conditions, elevations, right-of-way plats, and detailed design plans and specifications are prepared.
(RW)	Right-of-Way: Acquisition of land for transportation projects.
(CO)	Construction.
(IN)	Inflated Cost.
(FA)	Federal-aid.
(STP)	Surface Transportation Program category of federal aid
(NHS)	National Highway System category of federal aid.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

(IM)	Interstate Maintenance category of federal aid.
(BR)	Bridge Replacement/Rehabilitation category of federal aid.
(CMAQ)	Congestion Mitigation/Air Quality category of federal aid.
(DEMO)	Specific projects identified in federal legislation for demonstration purposes.
