

# CONSOLIDATED TRANSPORTATION PROGRAM FY 2015–2020

# MARYLAND’S CONSOLIDATED TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland’s six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation (“MDOT” or “Department”), its modal agencies – the Maryland Aviation Administration (MAA), Maryland Port Administration (MPA), Motor Vehicle Administration (MVA), State Highway Administration (SHA), Maryland Transit Administration (MTA) – and related authorities to the Department, including the Maryland Transportation Authority (MDTA) and Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find a Project Information Form (PIF) for every major project, which includes project details, financial information and construction status as well as a list of minor capital projects. MDOT works together with residents, local jurisdictions, and local and State elected officials to include projects in the CTP that preserve investments, enhance transportation services, and improve accessibility throughout the State. In order to help Maryland’s citizens review this document, the CTP includes a summary of the Department’s financing and budgeting process and instructions for reading PIFs.

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT’s Office of Diversity and Equity at **410-865-1397**.

**For the hearing impaired, Maryland Relay 711.**

## MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Maryland Department of Transportation (“MDOT” or “Department”) is pleased to present the State’s six-year capital investment program for transportation, the Final FY 2015-2020 Consolidated Transportation Program (CTP).

The CTP is the capital budget outlook and a key part of the State Report on Transportation (SRT) that MDOT publishes each year. The SRT contains three important documents: the Maryland Transportation Plan (MTP), Consolidated Transportation Program (CTP), and annual Attainment Report (AR) on Transportation System Performance. MDOT last updated the MTP, a 20-year vision for Maryland’s transportation system, and released it in January 2014. The MTP is updated every four to five years through an extensive outreach effort with the public, local jurisdictions, and State agencies to ensure it reflects the needs and priorities of Marylanders. To learn more, visit the MTP website at [www.mdot.maryland.gov/MTP](http://www.mdot.maryland.gov/MTP). The CTP contains projects and programs across the Department. It includes capital projects that are generally new, expanded or significantly improved facilities or services that may involve planning, environmental studies, design, right-of-way acquisitions, construction, or the purchase of essential equipment related to the facility or service.

## ESTABLISHING PRIORITIES

This year’s CTP reflects the priorities of the Department as embodied in the updated goals of the MTP and defined by studies, evaluation and analysis. These priorities must address federal and State requirements; local government mandates, interests, and concerns; and the public travel needs. Guided by these considerations, MDOT has a clear set of priorities that represent the core focus of the State’s investments in its transportation system.

The 2035 MTP provides a framework for transportation investments in Maryland based on the priorities and needs of the State, local jurisdictions and Maryland’s citizens. The vision and mission of the MTP is to provide a well-maintained, sustainable and multimodal transportation system that facilitates the safe, convenient, affordable, and efficient movement of people, goods, and services within and between population and business centers.

Determined to create a sustainable funding source and make transportation work for all Marylanders, the General Assembly passed the Transportation Infrastructure Investment Act of 2013. This historic initiative has generated revenue that enabled MDOT to add new projects and reintroduce projects to address long-standing transportation issues across the State. The Department is in the fortunate position to move these projects forward to address many of the State’s needs and invest public dollars in the most efficient and cost effective way. While the expected revenues will go a long way towards addressing many needs, MDOT recognizes that these revenues cannot address *every* need. Consequently, MDOT will use these resources strategically to ensure investments help implement the MTP vision and address the following priorities:

### Priority: Supporting Economic Development and Jobs

Transportation infrastructure provides value, and investing in Maryland’s transportation system, creates jobs and supports Maryland industries and businesses. Maryland employers depend upon high quality access to remain productive and competitive. By making investments in the transportation system, Maryland retains and enhances access to markets across the globe, and supports jobs within the State. MDOT’s goal is to ensure its investments support a healthy and competitive State economy. It will do this by undertaking projects that improve freight and commodity flows and the movement of goods and services in and through Maryland.

## Priority: Safety & Security

Public safety and security is a top priority for MDOT. The Department works with our federal and local law enforcement partners on a daily basis to constantly evaluate and implement measures to reduce the vulnerability of Maryland citizens and facilities. With federal and State investments, progress is being made on a variety of fronts.

Reducing highway fatalities and serious injuries on all public streets and highways is a priority of the Department. Despite increases in vehicle miles traveled, reported traffic crashes declined in Maryland, dropping to a historic low of 89,638 in 2012. Also preliminary numbers from 2013 show the number of fatalities at 466, the lowest since 1966. The State Highway Administration is continuing its tradition of using data and other techniques to identify, and then systematically address safety concerns that arise from congestion and operational issues.

Recent investments to enhance public safety and security include projects at BWI Marshall Airport to create state-of-the-art passenger security screening areas between Concourses B and C and between Concourses D and E. These projects will widen a portion of Concourse C to increase the width of the main egress corridor, provide for a post-security connection between concourses A, B and C, as well as between concourses D and E (the International Terminal). BWI Marshall Airport also recently completed a \$48 million replacement of its emergency response systems and security network including enhancements to its video monitoring capability and access control system.

MDTA is investing \$12 million to upgrade security and surveillance at its five major bridge facilities including enhancements to its video monitoring capability on the Bay Bridge, Key Bridge, Hatem Bridge, Nice Bridge, and Tydings Bridge.

MDOT has been a primary source of funding for the State's 700 MHz radio system to connect Maryland's first responders on one secure radio network. The first and second phases of the implementation have been completed, which covers central Maryland and the entire eastern shore and key infrastructure operated by the MDTA. With the implementation of Phase II, 55% of the population is covered and 70% of the critical infrastructure is covered, which means emergency responders can communicate more efficiently and securely during emergency situations.

The security of customers and highly visible transit infrastructure is the focus of a \$102 million anti-terrorism and emergency preparedness program being implemented by the MTA. This program has been funded primarily by the Department of Homeland Security (DHS) Transit Security Grant Program funds awarded to MTA from FY 2005 to FY 2014. Enhancements include improved video monitoring of transit stations and vehicles, communication improvements and public education efforts to involve MTA's hundreds of thousands of daily customers in the security effort based on the premise that, "If you see something, say something."

MDOT has supported the Statewide Computer Aided Dispatch, Record Management System (CAD/RMS) and Automated Field Reporting (AFR) systems. This project allows interoperability (use of the same software) and also facilitates timely information sharing with all of the participating State-level law enforcement agencies. Efficiencies are gained in crime analysis, trend analysis, report generation and general law enforcement activities. Through its financial support of WMATA, MDOT also supports security enhancements to the Washington region's bus and Metro subway system with new police officers, a new District II Substation and training facility, and a new Security Operations Control Center.

The Port of Baltimore is one of the safest ports in the nation and is working to stay that way with a \$44 million Terminal Security Program. With the assistance of our federal partners, the latest state-of-the-art technology is being integrated into a comprehensive port security network that includes enhancements to video monitoring, access controls and other security infrastructure. This comprehensive approach to port security has earned the Port of Baltimore an "Excellent" evaluation rating from the United States Coast Guard for six years in a row. The Port was also named as the top port security program in the United States by Government Security News magazine in 2014.

## Priority: Freight

Freight activity in Maryland and throughout the East Coast is expected to double by 2030. Maryland's location at the crossroads of the I-95 corridor and significant rail and marine corridors means that the infrastructure in Maryland is critical to the State, regional, and national economy. As much of Maryland's freight network is shared with passenger or vehicle operations, both freight and passenger growth will exacerbate already congested infrastructure throughout the State. The resulting chokepoints create significant challenges for freight and passenger movement in the region. It is imperative that MDOT work with local officials and freight stakeholders to plan and facilitate the necessary improvements to accommodate freight demand and allow for the cost-effective and safe movement of goods by all modes.

To meet these needs, MDOT is taking an aggressive approach to implement multimodal freight solutions in Maryland and the greater multi-state region. Through planning activities, MDOT is working to cultivate partnerships with neighboring states, freight stakeholders and non-profits. MDOT also participates in freight efforts regionally with groups such as the I-95 Corridor Coalition. Please refer to the CTP Freight Summary Section on page FR - 1 of the CTP. In addition, a full list of freight related projects is on MDOT's website at [www.mdot.maryland.gov](http://www.mdot.maryland.gov), click on Freight.

## Priority: Transit Improvements

Maryland citizens, businesses and visitors need a dependable and affordable means to get to and from work, school, or other activities each day. Public transit investment can help working families save more money by providing less expensive transportation options while also addressing environmental and growth-related issues. When people choose public transportation, it translates into fewer cars on the road, less air pollution, and a healthier environment. This year's CTP provides funding for transit in a variety of Maryland contexts, including rural areas, cities and metropolitan regions. For longer commutes, MDOT provides MARC train and commuter bus services. Maryland is committed to providing easily accessible, high quality public transportation. In today's economy, transit is a wise and often necessary service that helps create opportunities and supports a better future for hundreds of thousands of people in Maryland. New revenue is supporting the advancement of new transit projects to meet current and future demand in the Washington and Baltimore regions, while also improving transit services and providing assistance to locally operated transit systems across the State.

Major initiatives at the MTA are the Transit Modernization Program (TMP) update, and the Bus Network Improvement Program (BNIP).

Following nearly a decade since the last thorough review of Local Bus, Light Rail, Metro Subway, MARC Train, and Commuter Bus in Central Maryland, the MTA conducted a comprehensive review of the region's transit network. The TMP assesses the needs and financial resources of the system as well as guides recommendations and implementation strategies.

The MTA study is designed to ensure that job centers are adequately served by public transit; families of all socioeconomic backgrounds have access to important resources like hospitals and educational centers; and that future transit service aligns with housing and job growth. The TMP will guide the strategic efforts that the MTA is taking to deliver quality services to the public. While the TMP has a variety of capital projects planned, the first major initiative is looking at how to improve the operation of our largest passenger carrying mode, Bus, through the BNIP. BNIP looks at how MTA can make the bus network provide better connections between key destinations and the fixed rail system. The ultimate goal is to deliver a system in which every mode of the system operates as an integral part of a comprehensive and connected network, while increasing ridership.

BNIP is designed to involve the public in extensive engagement and input by reviewing local bus service and providing recommendations for local bus, quick bus, and express bus. The study also will include recommendations on local bus connectivity to light rail, Metro and MARC. BNIP is proposed to be completed within a five-year implementation timeframe. BNIP will make recommendations for physical improvements – layover locations, transfer centers and bus prioritization. The study will provide implementation plans and costs. The goals of BNIP are as follows:

- Improve service quality
  - Reduce overcrowding
  - Improve on-time performance
  - Improve system-wide travel speed
  - Decrease passenger trip times
- Maximize transit access and connectivity
  - Increase percentage of population within walking distance of transit
  - Increase the number of jobs accessible by transit
  - Align network with travel patterns and land use
- Increase network efficiency and effectiveness
  - Improve connections between buses and between modes
  - Increase passengers per hour
  - Reduce cost per passenger

The first recommendations were implemented during fall 2014.

## Priority: Public Private Partnership (P3)

Over the past several years, Maryland has been working to enhance the State's capacity and framework to implement innovative financing and project delivery mechanisms for vital infrastructure projects. A key tool for innovative project delivery is the Public-Private Partnership (P3), which leverages the expertise and efficiencies of the private sector for the delivery of large infrastructure projects. Existing transportation P3s include the Seagirt Marine Terminal and the I-95 Travel Plazas.

Maryland HB 560 (Chapter 5, Acts of 2013), established State P3 policy and expressly authorized specified state agencies, including MDOT and MDTA, to enter into P3s. The legislation created a clear, streamlined, and transparent P3 process and associated reporting requirements for state oversight. MDOT's P3 regulations (COMAR 11.01.17) also became effective in 2013.

Under the new P3 framework, MDOT is currently conducting a P3 delivery method process for the Purple Line. MDOT is also considering a range of P3 delivery options for the Baltimore Red Line.

The **Purple Line** is a 16-mile double-track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Purple Line meets MDOT policy objectives by providing faster, more reliable transportation access to existing radial Metrorail lines, increasing transit capacity in congested corridors, supporting economic development consistent with regional long range transportation plans and local master plans, and reducing overall environmental impacts.

MDOT/MTA is currently in the solicitation process for the Purple Line P3; a preferred proposer is scheduled to be selected in spring 2015. This delivery method will involve a long-term, performance-based agreement between MDOT/MTA and a private entity where appropriate risks and benefits will be allocated in a cost-effective manner between the contractual partners. The private entity will perform some functions normally undertaken by the government, but MDOT/MTA remains ultimately accountable for the Purple Line and its public function, including fare policy and environmental commitments. MDOT/MTA is anticipating a 35-year contract, including approximately five years of construction and 30 years of operations. The private entity will be responsible for finishing the design, constructing, operating, and maintaining the asset, and financing a portion of construction. In return, MDOT/MTA will pay the private entity periodic payments during the operating period. The payments will be subject to performance deductions, which will provide strong incentives for the private entity to deliver high-quality service similar to operating contracts MTA has in place for MARC Train, Commuter Bus, and Mobility paratransit services.

In the P3, MDOT/MTA will be responsible for completing federal environmental documentation, acquiring rights-of-way, and providing quality control and oversight. These elements are included in the capital cost as MDOT/MTA-retained costs. MDOT/MTA also will fund a portion of construction in the form of construction progress payments.

The cost estimate for the design/build phase of the Purple Line is \$2.4 billion (Year of Expenditure). In addition to Transportation Trust Funds, the Purple Line is funded with federal funds, regional contributions and investments by the private entity. The funding plan assumes that federal Section 5309 New Starts funds would fund 37 percent of the total Purple Line cost. In 2014, FTA recommended the Purple Line for a \$900 million New Starts Full Funding Grant Agreement.

In recognition of both regional and local benefits of the project, MDOT is receiving regional contributions. Regional contributions may be county funds or in-kind contributions such as rights-of-way, utility relocations, construction of supporting facilities or environmental mitigation that serves the purpose of reducing the project cost. For the Purple Line, regional contributions are to total \$240 million. Investments by the private entity are also assumed to finance the balance of the project cost. This amount will be determined through the solicitation process.

The **Baltimore Red Line** is a 14-mile double track light rail line between Woodlawn in Baltimore County and Bayview Medical Center in Baltimore City. The Red Line will provide faster, more reliable transportation between residential and major employment areas. The new east west line will enhance access to existing rail lines and bus service, increase transit capacity in congested corridors, support economic development consistent with local master plans, and reduce overall environmental impacts.

MDOT/MTA is currently assessing opportunities for a range of delivery approaches for the Red Line. MTA is advancing the downtown tunnel and a track bed needed for vehicle testing with a design-bid-build delivery approach, and is considering a range of P3 options for other project elements, including design-build-finance (DBF), design-build-finance-maintain (DBFM), and design-build-finance-operate-maintain (DBFOM) delivery methods. The design-bid-build elements would be completed first and handed over to the P3 concessionaire in an unfinished form. Similar to the Purple Line, a P3 on the Red Line will be a performance-based agreement between MDOT/MTA and a private entity where appropriate risks and benefits will be allocated in a cost-effective manner between the contractual partners.

The cost estimate for the design/build phase of the Red Line is \$2.9 billion (Year of Expenditure). In addition to Transportation Trust Funds, the Red Line is funded with federal funds, regional contributions and investments by the private entity. The funding plan assumes that federal Section 5309 New Starts funds would fund 31 percent of the total Red Line cost. In 2014, FTA recommended the Red Line for a \$900 million New Starts Full Funding Grant Agreement.

In recognition of both regional and local benefits of the project, MDOT is receiving regional contributions. Regional contributions may be local funds or in-kind contributions such as right of way, utility relocations, or environmental mitigation that serves the purpose of reducing the project cost. For the Red Line, regional contributions are to total \$290 million.

Investments by the private entity are assumed to finance the balance of the project cost. This amount will be determined through the solicitation process.

### Priority: System Preservation

MDOT continues to place a high priority on allocating funds toward system preservation. The CTP reflects significant investments in the bridge program, road and runway resurfacing, rail car overhauls and replacements, bus replacements, and general facility rehabilitation, replacement and upkeep.

A key focus area is the condition of bridges across Maryland. SHA continues to make significant progress in reducing the number of structurally deficient bridges (bridges are safe but need repairs/replacement) on the State's highway system to ensure safe travel for Maryland motorists and users of our system. Over the last eight years, SHA has repaired or rehabilitated 152 State-owned bridges that had been classified as structurally deficient. By April 2014, SHA had reduced the total number of State-owned structurally deficient bridges to 81 out of 2,570 structures statewide. This effort has reduced the number of State-owned structurally deficient bridges in Maryland to its lowest number in more than a generation. In addition MDTA is now down to only one deficient bridge on their system.

On the transit side, the MTA is currently purchasing 54 new MARC bi-level coaches which are now going into service, overhauling 63 MARC III coaches, performing a mid-life overhaul on the entire Light Rail fleet, and repairing and replacing the Metro Signal System and rail cars to name just a few of the major system preservation efforts. MTA is also developing an Asset Management Plan, which will analyze asset information currently collected to provide insight into long term maintenance and capital replacement needs.

### Priority: Transit-Oriented Development (TOD)

Transit can be most efficient and effective when it serves to connect relatively dense clusters of houses, jobs, and destinations. A development that is "transit-oriented" typically comprises a mixture of land uses configured and oriented to maximize visibility and access to the transit station. TOD projects design street networks and parking to ensure the safety and comfort of pedestrians and bicyclists, while ensuring efficient traffic flow to automobiles, buses and carpoolers. TOD can help ensure that Maryland residents achieve maximum benefit for their investment in transit and related transportation infrastructure. By helping to increase transit ridership, TOD can help reduce highway congestion, greenhouse gas emissions, and sprawl for the benefit of all Maryland residents.

MDOT works with State, local and private partners to support TOD through: pre-development planning, policy and program support; joint development partnerships; infrastructure investments; and other project support. MDOT has an active program of TOD planning and joint-development projects, spanning multiple jurisdictions and station types. MDOT also works with other agencies and local jurisdictions to help identify additional TOD opportunities and promote transit-supportive land-use policies.

MDOT has officially named 16 transit stations as designated TODs. These station areas are the focus of coordinated efforts to plan for and implement appropriate transit-supportive development. They also will benefit from legislation that makes it easier for both State and local agencies to coordinate and advance their respective

TOD agendas. Under the 2010 Sustainable Communities Act, these designated TODs are considered "Sustainable Communities" and are thereby eligible for enhanced support from State programs and potential local Tax Increment Finance (TIF) initiatives.

### Priority: Bicycle & Pedestrian Travel

MDOT works to provide safe infrastructure so that people can choose to walk or bike to meet their daily needs. Maryland was recently ranked among the Nation's Top 10 Bicycle Friendly States by the League of American Bicyclists. Working with local partners to support walking and bicycling is an essential element of Cycle Maryland initiatives, and was a key concern driving SHA's 2012 adoption of a Complete Streets Policy. Promoting biking and walking as transportation modes holds many benefits for Maryland residents, including the potential to reduce congestion and emissions associated with auto-travel, while promoting activity for a healthier Maryland. Several recent studies have also highlighted strong rates of economic return that bicycle and pedestrian projects can have, supporting job-creation, tourist activity and cost-savings for household transportation budgets.

In 2014, MDOT updated the statewide Bicycle and Pedestrian Master Plan, which was released alongside the updated Maryland Transportation Plan. The new Plan establishes goals, strategies and initiatives to guide investments and to enhance bicycle and pedestrian travel throughout Maryland.

MDOT seeks to integrate accommodations for walking and bicycling into all appropriate projects, and has several programs specifically directing additional funding to walking and biking. This Final CTP includes nearly \$190 million for bicycle and pedestrian projects. These investments include continued commitment for the Bikeways Program that supports local bicycle transportation projects, providing necessary funding to implement the Statewide Trails Plan and the Bicycle and Pedestrian Master Plan. Maryland has also devoted almost \$2.5 million in grants to local governments to promote the development of bicycle sharing infrastructure. The first Bikeshare stations in Maryland opened last fall in Montgomery County.

## Priority: Environment

MDOT recognizes that transportation infrastructure can have a strong influence on the natural environment. MDOT's commitment to Environmental Stewardship is one aspect of a larger commitment to use innovative and forward-looking strategies to ensure our transportation system protects our natural, cultural and community resources.

By coordinating land-use, transportation, and resource planning with partners in other agencies and local governments, MDOT helps to ensure that the investments made will meet multiple needs for the citizens of Maryland. Using the State's Green Infrastructure Plan and Chesapeake Bay Restoration priorities as a guide, MDOT agencies are minimizing negative impacts and using project mitigation to support the State's broader conservation goals. This six-year budget includes more than \$750 million in projects to improve air and water quality, which includes projects that support the Environmental Protection Agency's Total Maximum Daily Loads (TMDLs) to lower nutrients and sediment from entering the Chesapeake Bay and its tributaries. To help decrease pollution from entering our waterways, the CTP supports a three-pronged approach. Retrofitting older parts of the transportation network with the latest stormwater management technology; restoring natural filters

through stream restoration, forest establishment and wetland creation; and adopting protective operational practices will move the State closer to meeting the mandated water quality targets.

MDOT is working to reduce air emissions and managing energy consumption related to the transportation industry. These issues are being addressed by continued efforts to improve the public transportation network and provide alternatives to traveling by single occupant vehicles. MDOT chairs the Maryland Electric Vehicle Infrastructure Council, created by legislation in 2011, which has recommended a series of strategies to facilitate the successful integration of electric vehicles and electric vehicle infrastructure into Maryland's existing transportation system. MDOT has installed electric vehicle recharging stations for public use at several locations including MDOT headquarters, BWI Marshall Airport, and at park and ride lots throughout the State. Through a partnership with the Maryland Energy Administration, additional charging infrastructure will be installed at transit stations in the Baltimore-Washington Metropolitan Area. MDOT is also working with other states' transportation and environmental agencies across the Northeast in support of the Zero Emission Vehicle Action Plan. Meanwhile, the State continues to transition its bus fleet to cleaner technology and expand the acquisition of hybrid, plug-in electric and flex-fuel fleet vehicles. With the passage of the Clean Car legislation in 2007, the State has adopted the cleaner California car standards beginning with the 2011 model year.

MDOT uses a variety of Travel Demand Management (TDM) strategies to support alternatives to driving alone and limit emissions from the transportation sector. TDM efforts can also help reduce congestion, lower commuting costs, and improve air quality. Some of these efforts are: carpooling, car sharing, transit, teleworking, and variable pricing infrastructure.

MDOT is implementing these strategies in cooperation with our partners in the metropolitan planning organizations (MPOs), the Maryland Department of the Environment, local governments, and the private and not-for-profit sectors. Additionally, MDOT is working closely with the Maryland Department of the Environment and other agencies to implement the Final Green House Gas Reduction Act Plan.

# Process for CTP Development

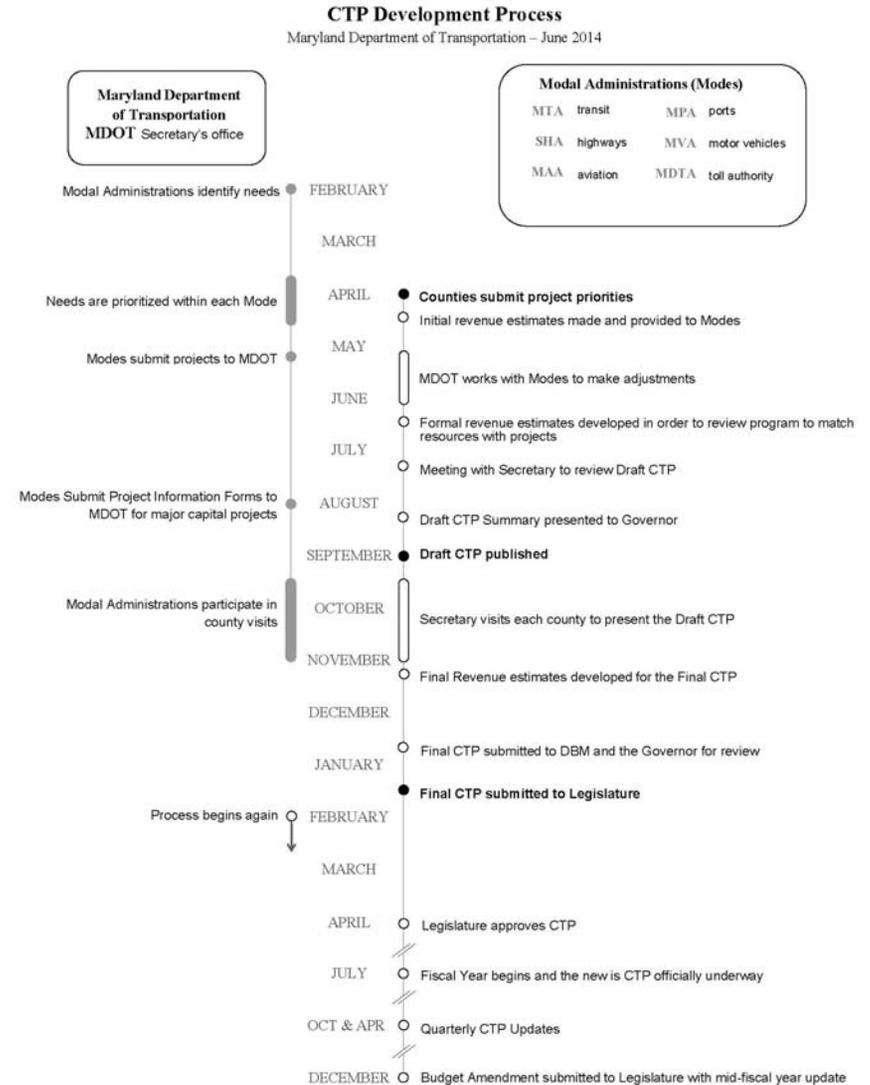

The CTP takes nearly a full year to create and includes extensive public outreach. The criteria used to prioritize program and project investment and its milestones are outlined generally below.

These criteria include:

- Meets all federal and other legal mandates (e.g. Total Maximum Daily Load (TMDL) compliance, Positive Train Compliance (PTC) requirement by 2015, Federal Aviation Administration (FAA) regulations to maintain airport permits);
- Supports the Department’s program priorities and MTP goals,(safety, system preservation, economic development, etc.);
- Meets all federal match requirements to maximize federal revenue sources;
- Supports State plans and objectives, such as priority revitalization area (e.g. TOD or a designated Sustainable Community);
- Supports existing project commitments and uphold intergovernmental agreements; and
- Supports alternative modes of transportation (transit, bike and pedestrian);

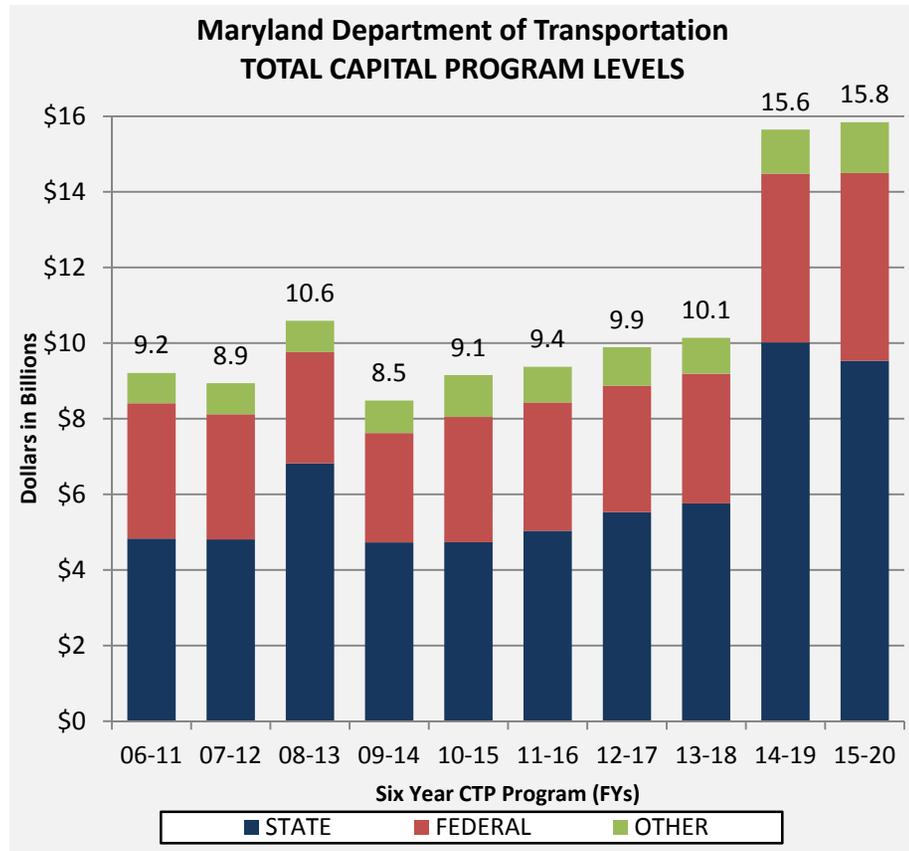

Also,

- Request is the single top priority within a local priority letter;
- Consistent with local plans; and
- Included in the regional Metropolitan Planning Organization (MPO) long-range plan (if the project is located within an MPO boundary).

# FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

In developing the CTP and establishing funding levels, MDOT must account for State and local economic growth, fluctuations in State transportation revenue, and allocations of federal funding. The State's Transportation Trust Fund supports MDOT investments through a dedicated account. The Transportation Infrastructure Investment Act of 2013 (Transportation Act) phases in a variety of revenue increases, which when fully implemented, will provide more than \$4 billion in new transportation funding from FY 2014 through FY 2019. This new revenue has enabled MDOT to address important capital and operating needs including congestion relief, safety improvements, transit availability; and maintain the competitiveness of the Port of Baltimore and BWI Marshall Airport.

## State Revenue Projections

As Maryland's economy continues to recover from the national economic downturn, the new revenues provided by the Transportation Act are a welcome "shot in the arm" enabling MDOT to ready Maryland's transportation network for the 21st century. Total projected revenues amount to \$28.5 billion for the six-year period. This estimate is based on the revenue sources used by MDOT and includes bond proceeds and federal funds that will be used for operating, capital and debt payment expenses. The projection does not assume any future State tax or fee increases beyond those changes enacted to date.

Pertinent details are as follows:

- **Opening Balance:** MDOT's goal is to transition to a \$150 million fund balance over the program period to accommodate working cash flow requirements throughout the year.
- **Motor Fuel Tax:** This revenue is projected to be \$5.8 billion over the six-year period. As of January 1, 2015, the motor fuel taxes were 30.3 cents per gallon gasoline and the 31.05 cents per gallon diesel fuel. These rates include the revenue components provided by the Transportation Act. The

Consumer Price Index (CPI) effect is estimated to average 2.2 cents per gallon over the program period. The sales and use tax equivalent piece will be phased in. The rate for fiscal year 2015 is 6 cents per gallon. When fully implemented July of 2015, the sales and use tax is estimated to average 9.6 cents per gallon.

- **Motor Vehicle Titling Tax:** This source is projected to yield \$4.7 billion. The titling tax of 6 percent of the fair market value of motor vehicles, less an allowance for trade-in vehicles, is applied to new and used vehicles sold and to vehicles of new residents. This revenue source follows the cycle of auto sales with periods of decline and growth. Following the recent national down cycle, vehicle sales have stabilized and titling tax revenues are starting to recover. It is projected that this six-year planning period will follow a normal business cycle around an underlying upward trend.
- **Motor Vehicle Registration/Miscellaneous, and Other Fees:** These fees are projected to generate \$3.6 billion. This forecast assumes revenues will increase an average of 1.5 percent every two-year cycle.
- **Corporate Income Tax:** The transportation share of corporate income tax revenues is estimated to be \$917 million. Legislation enacted during the 2011 session of the General Assembly altered the portion of the State's 8.25 percent corporate income tax that MDOT receives. MDOT's share will be 16.6 percent for fiscal years 2014-2016, and 14.6 percent for each fiscal year thereafter.
- **This plan assumes passage of the federal Marketplace Fairness Act,** which enables states to require internet sellers to collect sales taxes. MDOT is slated to receive 4 percent of the State's sales and use tax revenue, after certain required distributions, beginning in fiscal year 2016. Revenue from this source is projected to be \$847 million. If federal legislation does not pass, the Transportation Act provides for additional increases to the sales and use tax equivalent rate applied to motor fuel. When fully phased in, this contingent revenue stream is estimated to be approximately equal to the 4 percent sales tax distribution.
- **Federal Aid:** This source is projected to contribute \$5.5 billion for operating and capital programs. This amount does not include \$643 million received directly by the WMATA. The majority of federal aid is capital; only \$569 million is for operating assistance. Since federal aid supports a significant portion of the capital program, a more detailed discussion of federal aid assumptions is presented in the next section of this summary.
- **Operating Revenues:** These revenues are projected to provide a six-year total of \$2.7 billion, with \$1.1 billion from MTA, \$300 million from MPA, and

\$1.3 billion from MAA. MTA revenues primarily include rail and bus fares, which will be indexed to inflation beginning in fiscal year 2015, as provided by the Transportation Act. MPA revenues include terminal operations, the World Trade Center, and other Port related revenues. MAA revenues include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.

- **Bond Proceeds:** It is projected that \$3.6 billion of bonds will be sold in the six-year period. The level of bonds that could be issued is dependent on the net revenues of MDOT. This level of bonds is affordable within the financial parameters used by MDOT.
- **Other Sources:** The remaining sources are projected to provide \$743 million. These sources include earned interest from trust funds, reimbursements, and miscellaneous revenues.

## FEDERAL AID ASSUMPTIONS

Enacted in July 2012, the Moving Ahead for Progress in the 21st Century Act (MAP-21) authorized federal funding for highway, transit and other multimodal projects through September 30, 2014. MAP-21 included policy changes, consolidated program funding categories, and provided funding certainty through September 2014. Congress extended MAP-21 until May 31, 2015 at existing funding levels.

Since federal fiscal year (FFY) 2008, Congress has transferred approximately \$65 billion in general funds to the Federal Highway Trust Fund (FHTF) to address the continuing imbalance in the FHTF between revenues and spending. MAP-21 did not address the long-term solvency of the FHTF, which continues to constrain MDOT's ability to plan for future State investment. Under MAP-21, and appropriated through the FFY 2015 Consolidated Appropriations Act, MDOT is expected to receive approximately \$580 million in highway formula funding and \$200 million in transit formula funding. According to the Congressional Budget Office, if Congress does not provide a long term solution to the current gap between FHTF revenues and planned outlays, the threat of drastic reductions in the amount of federal highway and transit aid provided to states will continue in FFY 2015 and beyond.

Federal aid, representing 20 percent of the total funding in Maryland's Transportation Trust Fund (TTF), supports the multimodal investments in the State's FY 2015 - FY 2020 Final Consolidated Transportation Program (CTP). Given the fiscal concerns regarding the soundness of the FHTF, MDOT will continue to assess this risk and work with the Maryland Congressional Delegation to address the potential impact on Maryland transportation projects. The continued support of the federal highway trust fund is critical to our ability to enhance, improve and rebuild our infrastructure to compete in a modern economy.

## Highways and Transit

Most of the federal funds received by MDOT come from the FHTF, which provides transportation investment for projects in the following areas: highways and transit, multimodal freight, safety and security, system preservation, bike and pedestrian, and congestion mitigation.

The CTP allocates these federal funds to projects in the program based on conservative projections for future federal funding. Because MAP-21 did not increase federal funding, the majority of funds authorized by MAP-21 are being used for projects already committed in our capital program and for previously undesignated system preservation needs.

MDOT expects to receive approximately \$580 million in highway formula funding and \$200 million in transit formula funding in FFY 2015, the same funding levels provided in FFY 2014. Both the Red Line and the Purple Line have received strong ratings from the Federal Transit Administration and are moving through the process to be eligible for New Starts funding. The FFY 2015 Consolidated Appropriations Act supports the Obama Administration's request for \$900 million each for Maryland's Red Line and Purple Line, with \$100 million each in FFY 2015 if the Full Funding Grant agreements are signed in FFY 2015.

With the support of Senators Mikulski and Cardin and Maryland's US House Delegation, MDOT also benefited from a \$10 million U.S. Department of Transportation (USDOT) Transportation Investment Generating Economic Recovery (TIGER) grant in FFY 2014. This grant will be used to widen Route 175 between Disney and Reece roads. This project, which is part of a greater corridor improvement project along MD 175, would address current and future congestion along MD 175 between the two intersections and improve access to Ft. Meade for both motorized and non-motorized travel. Baltimore City also benefited from a \$1.1 million TIGER grant to create the Hanover Street Bridge Multimodal Corridor plan.

Federal highway program funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the authorized money can be obligated in any given year. This ceiling is referred to as Obligational Authority (OA) and is imposed by Congress annually in response to prevailing economic policy. Since FFY 2004, OA has ranged from 84 percent to 95 percent. The OA level received in FFY 2014 was 94.7 percent. Given fiscal concerns with the soundness of the FHTF, this CTP assumes an OA level of 94.0 percent for FFY 2015, 87.5 percent for FFY 2016 and 80.0 percent for FFYs 2017 through 2020. If Congress does not act by the end of May 2015 to fully fund the FHTF, these amounts will need to be reduced, possibly dramatically.

## Washington Metropolitan Area Transit Authority — WMATA

WMATA receives a significant amount of MAP-21 federal formula funds for bus and rail preservation activities. In FFY 2015, WMATA expects to receive approximately \$337 million, the same funding level provided in FFY 2014. Additionally, FFY 2015 funding of \$150 million is provided through the 2008 Passenger Rail Investment and Improvement Act (PRIIA) that authorizes federal funding of up to \$1.5 billion over ten years. The combined federal funding of nearly \$500 million is a critical complement to WMATA's largest single source of funding – the \$1.2 billion in combined operating and capital subsidies provided by the region's State and local jurisdictions each year. The region's jurisdictions created WMATA through an interstate compact as an agency of the State of Maryland, District of Columbia and Commonwealth of Virginia. The jurisdictions demonstrate their commitment by providing more than forty percent of the funding for WMATA's \$2.8 billion annual budget.

MDOT supports improving the state of good repair and safety of the nation's transit system. To this end, this CTP includes a total of \$300 million (\$50 million each year in FFY 2015 through 2020) as Maryland's matching contribution required by the federal PRIIA legislation. To date, the signatory parties have fulfilled their promise by providing funds from FFY 2010 through FFY 2014. Additionally, Maryland led the effort towards a regional commitment of \$75 million to Metro's 2025 initiative.

Due to sequestration, the federal FFY 2013 funds were subject to a five percent reduction, amounting to \$7.8 million. WMATA continued to receive the full State and local portion in FFY 2013.

The impact of the Federal Transit Administration's (FTA) 2014 audit of WMATA's financial management and procurement practices and the resulting drawdown restrictions on WMATA's federal aid have impacted the agency's ability to deliver on its capital projects. The FFY 2015 Consolidated Appropriations Act requires future funding for WMATA to be tied to their ability to successfully address the audit findings. MDOT will work with WMATA and regional partners to deliver on the region's current commitments while ensuring that WMATA implements adequate controls and properly manages the public funds it relies upon.

## Aviation

The Federal Aviation Administration (FAA), through the Airport Improvement Program (AIP), is authorized to provide federal entitlement and discretionary funding for airport projects. The MAA estimates annual AIP entitlement funding will range from \$3.5 million to \$4.0 million for the BWI Marshall Airport during the six-year period. Entitlement funding is calculated using enplanement and cargo-based formulas for the BWI Marshall Airport and adjusted based on the airport's authority to collect Passenger Facility Charges (PFC). Future year entitlement and discretionary AIP funding of \$15 million or more is expected in FFY 2015 and FFY 2016. The MAA received \$30 million of federal discretionary funds in FFY 2014, and \$21 million in FFY 2013.

## Port of Baltimore

The Water Resources Reform and Development Act (WRRDA) reauthorization bill, enacted by Congress in May 2014, authorizes U.S. Army Corps of Engineers (COE) projects. This bill includes the authorization for funding to dredge Maryland's 135 miles of federal navigation channels leading into the Port of Baltimore. This legislation is necessary to support high priority projects such as maintaining deepened navigation channels and harbor maintenance, as well as key dredge placement projects such as Poplar Island and Mid-Chesapeake Bay Island. MDOT continues to work with the Maryland Congressional Delegation to ensure this critical funding is available to maintain access to the thriving Port of Baltimore.

The Port also benefited from a \$10 million TIGER grant in FFY 2013. This grant will increase the Port's cargo handling capacity and provide rail access at its Fairfield Marine Terminal. The \$29 million project will use dredged material from the Port's main access channel to fill an aging basin and create a 7.6-acre cargo

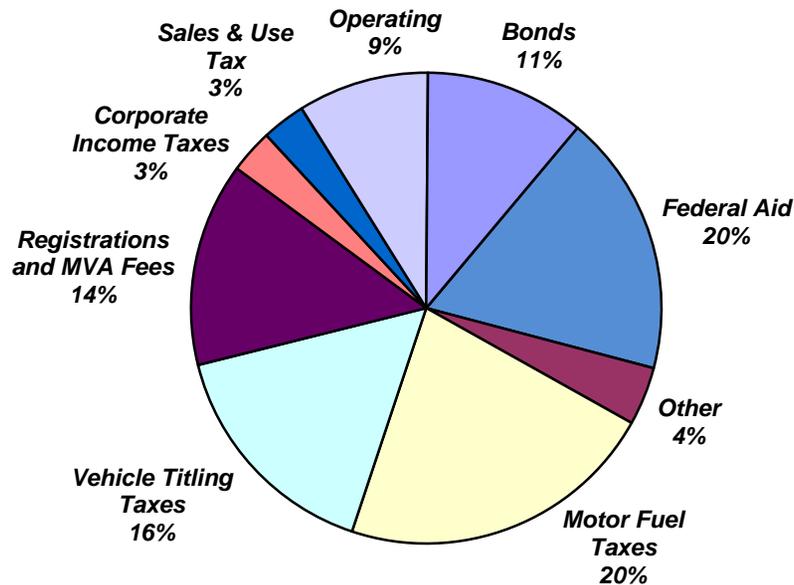

staging area in a prime location near the vessel berth. Rail access will also be added at Fairfield to improve the Port's handling of autos and roll on / roll off equipment.

## WHERE THE MONEY COMES FROM...

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the State's General Fund, which pays for most other State government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, operating revenues, and corporate income taxes. The motor fuel tax and vehicle titling tax are two of the largest sources of MDOT revenue. Operating revenues include transit fares and usage fees generated at the Port of Baltimore and BWI Marshall Airport. In addition to collecting revenue within the State, Maryland also receives federal aid for its transportation program. These federal funds must be authorized by a congressional act. The United States Congress last enacted federal surface transportation authorizing legislation in July 2012, which provides investment in transportation infrastructure through FFY 2014. Most recently, in July 2014, Congress enacted an 8 month extension until May 31<sup>st</sup> of 2015.

### Where The Money Comes From

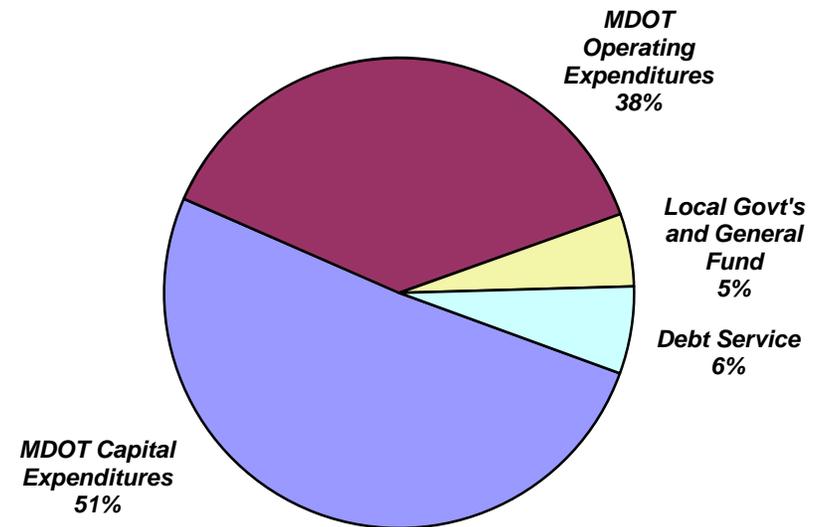

Total projected Trust Fund revenues amount to \$28.5 billion for the six-year period covered by this CTP. These amounts incorporate estimates for the additional revenues provided by the Transportation Infrastructure Investment Act of 2013 and are based on the assumption that the economy will continue along a moderate growth scenario for the next six years.

## WHERE THE MONEY GOES...

The MDOT program is fiscally constrained, meaning that the list of projects is tied to estimates of future revenue. The Trust Fund supports operation and maintenance of State transportation systems, administration, debt service, and capital projects. A portion of these funds is directed to the General Fund and a share is also dispersed among Maryland's counties and Baltimore City for local transportation needs. After operating costs, debt service, and local distributions, the remaining money goes toward funding capital projects. This document, Maryland's CTP, is the six-year capital budget for all State transportation projects. This FY 2015 - 2020 CTP totals about \$15.8 billion, \$14.5 billion of which comes through the Trust Fund and \$1.3 billion from "Other" fund sources, including local contributions, WMATA direct funding, PFC airport fees, etc.

### Where The Money Goes

## Capital Expenditures

FY 2015 – 2020 FINAL CTP SUMMARY (\$ MILLIONS)					
	STATE FUNDS	FEDERAL AID	OTHER*	TOTAL	PERCENT OF TOTAL
TSO	197.9	81.8	1.0	280.7	1.8
MVA	122.3	2.8	0.0	125.2	0.8
MAA**	328.0	76.5	246.6	651.1	4.1
MPA	959.5	11.8	0.0	971.3	6.1

WMATA	936.4	0.0	642.7	1,579.1	10.0
SHA	4,445.6	2,743.2	0.0	7,188.9	45.4
<b>TOTAL</b>	<b>9,533.3</b>	<b>4,964.5</b>	<b>1,345.5</b>	<b>15,843.3</b>	<b>100.0</b>

Note: Figures may not add perfectly due to rounding.

\* Funds not received through the Trust Fund. Includes some funds from Maryland Transportation Authority (MDTA), Passenger Facility Charges (PFC), Customer Facility Charges (CFC) and federal funds received directly by WMATA.

\*\* Projects using non-trust fund financing sources are included in the total.

TSO – Transportation Secretary’s Office

MVA – Motor Vehicle Administration

MAA – Maryland Aviation Administration

MPA – Maryland Port Administration

MTA – Maryland Transit Administration

WMATA – Washington Metropolitan Area Transit Authority

SHA – State Highway Administration

## EVALUATING OUR PERFORMANCE

In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop an Annual Attainment Report (AR) on Transportation System Performance. The main objectives of the AR are:

- to report on progress toward achieving the goals and objectives in the MTP and the CTP;
- to establish performance indicators that quantify achievement of these objectives; and
- to set long-term and intermediate-term performance targets.

The performance measures were developed in a collaborative effort between the Secretary’s Office, Modal Administrations, Maryland Transportation Authority, and AR-Advisory Committee. These performance measures were last updated January 2014. The AR documents how MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

Since 1996, MDOT has undertaken Managing for Results (MFR) as part of the budget process. MFR is a strategic planning, performance measurement, and budgeting process that emphasizes use of resources to achieve measurable results, accountability, efficiency, and continuous improvement in State government programs.

MAP-21 requires the Secretary, in consultation with states, metropolitan planning organizations (MPOs), and other stakeholders, to establish performance measures in the areas listed below. USDOT was to establish such measures within 18 months of enactment of MAP-21, but is behind schedule. The emphasis areas are:

- Pavement condition on the Interstate System and on the remainder of the National Highway System (NHS);
- Performance of the Interstate System and the remainder of the NHS;
- Bridge condition on the NHS;
- Fatalities and serious injuries (both number and rate per vehicle mile traveled) on all public roads;
- Traffic congestion;
- On-road mobile source emissions; and
- Freight movement on the Interstate System.

MDOT expects to be working with USDOT, the regional MPOs, and other stakeholders to respond to these new requirements once the regulations and guidance are promulgated and demonstrate the effectiveness of MDOT’s programs. To the extent these measures can be combined they will, but MDOT may be required to develop multiple reporting and metrics to address these requirements.

# HOW TO READ THIS DOCUMENT

The Maryland Department of Transportation (MDOT) is organized into agencies responsible for different modes of travel. These are referred to as MDOT's Modal Administrations (also called agencies and modes). Projects in the Consolidated Transportation Program (CTP) are listed under the mode responsible for the project's delivery.

For each major project, there is a Project Information Form (PIF). Each PIF contains a description of the project, its status, its justification, its compliance status with smart growth, and a brief explanation of how it fits with the goals of the Maryland Transportation Plan (MTP). It also shows any significant change in the project since the previous year's CTP, as well as the funding for the project over the six-year cycle. The information in each PIF is meant to provide a general description of the project along with some specifics such as alignments, status of environmental permitting, or alternatives under study.

## Funding Phases

**Planning** – Once a proposal is funded for project planning, detailed studies and analyses are conducted to evaluate the need for the project, to establish the scope and location of proposed transportation facilities and to obtain environmental approvals.

**Engineering** – Engineering projects involve detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase, these projects are candidates for future addition to the Construction Program.

**Right-of-Way** – This funding is to provide the necessary land for the project or to protect corridors for future projects.

**Construction** – This last stage includes the costs of actually building the designed facility.

**Total** – This is the sum of any funding shown for Planning, Engineering, Right-of-Way, and Construction.

**Federal-Aid** – This is the amount of the total that will utilize federal funding.

Construction does not begin until a project receives necessary environmental permits, the State meets air and water quality requirements and the contracts are bid. PIFs can include specific facilities and corridor studies that examine multimodal solutions to transportation needs. One example is the I-270/US15 multimodal corridor study, which is evaluating highway and transit improvements in Montgomery and Frederick counties.

The CTP also contains information on minor projects. These projects are smaller in scope and cost. They also can include road resurfacing, safety improvements, and sidewalk and bicycle trail construction. Following this introduction is an explanation of some of the significant changes from last year's CTP. This section lists major projects added to the CTP or projects that have advanced to a new stage of development. It also lists changes in construction schedules and projects removed from the CTP. The CTP also includes information regarding the economic trends and assumptions and future revenue projects that inform the capital programming process.

**MAJOR PROJECT SIGNIFICANT CHANGES TO THE FY 2014-2019 CTP**

Significant project changes consist of additions to, or deletions from, the Construction Program or the Development and Evaluation Program; changes in the construction start year; significant cost increases or decreases, and changes in the scope of a project.

In total, \$541.8 million worth of projects have been added to the CTP. Of that amount fifteen projects at a cost of \$494.7 million were added to the Construction Program. Ten projects at a cost of \$47.1 million were added to the Development and Evaluation Program (D&E). In addition, two projects were moved from the D&E Program to the Construction Program at a cost of \$103.4 million. Two projects were moved from the Construction Program to the D&E Program at a cost of \$9.1 million. These projects are listed below by category.

**PROJECTS ADDED TO THE CONSTRUCTION PROGRAM**

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>TOTAL COST (\$ MILLIONS)</u></b>
<b>Maryland Aviation Administration</b>	
International Checked Baggage Inspection System at BWI Marshall Airport	16.0
<b>Maryland Port Administration</b>	
Pearce Creek Waterline Project	14.2
<b>Maryland Transit Administration</b>	
Union Payroll System Procurement	12.0
Purple Line: Montgomery County Funded Projects	160.5
<b>State Highway Administration</b>	
MD 175, Annapolis Road; Disney Road to Reece Road (Anne Arundel)	46.7
MD 295, Baltimore Washington Parkway; Riverview/Baltimore Highlands Community (Noise Abatement) (Baltimore)	14.9
MD 25, Falls Road; Bridge to Georges Run (Baltimore)	3.2
MD 75, Green Valley Road; Replace Bridge over Haines Branch (Frederick)	2.3

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>JUSTIFICATION</u></b>	<b><u>TOTAL COST (\$ MILLIONS)</u></b>
<b>State Highway Administration</b>		
BRAC Intersections near Fort Meade; BRAC Intersections Improvements near Fort Meade. (State Wide)	Remaining construction funds moved to construction projects on MD 175 in Anne Arundel County.	7.7
<b>Maryland Transportation Authority</b>		
US 40 Thomas J. Hatem Memorial Bridge - Convert to All Electronic Tolling (AET) and Rehabilitate Approach Roadways	Construction funding removed to allow AET follow-up study required by HB389 passed during the 2014 legislative session.	1.4
		<hr/>
		<b>Total                    9.1</b>

**PROJECTS REMOVED FROM THE CONSTRUCTION PROGRAM**

The following projects have been removed from the Construction Program:

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>PHASE</u></b>	<b><u>JUSTIFICATION</u></b>
<b>The Secretary's Office</b> Baltimore Rail Intermodal Facility	CO	Project removed by MDOT
<b>Maryland Aviation Administration</b> Runway Safety Area, Standards and Pavement Improvements Phase 5 at BWI Marshall	PE, CO	Phases removed from program scope.

**CONSTRUCTION SCHEDULE DELAYS**

The start of construction has been postponed from the schedule shown in the FY 2014-2019 CTP, for the following three major projects:

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>JUSTIFICATION</u></b>	<b><u>FISCAL YEAR</u></b>
<b>Maryland Aviation Administration</b>		
Homeowner Assistance Program	Federal funding usage requires noise map update.	FY 2014 to FY 2015
Exit Lane Technology at BWI Marshall Airport	Driven by changes to TSA regulations.	FY 2014 to FY 2015
<b>State Highway Administration</b>		
MD 185, Connecticut Avenue;at Jones Bridge (Phase 3) (Montgomery)	Due to property impacts and utilities relocation.	FY 2015 to FY 2018

## **COST & SCOPE CHANGES**

In total, one-hundred and sixty-six major construction projects experienced significant changes in project cost or scope, for a net increase of \$434.0 million. One-hundred projects increased in cost by a total of \$1.07 billion, while fifty-five projects experienced decreases totaling \$709.1 million. The scope of five projects changed, which caused a net increase totalling \$81.1 million, while one project experienced a reduction in scope totalling \$8.7 million. There are many reasons for these changes, including legislated changes in program participation rates, more refined cost estimates, changes in design and environmental requirements. The specific reasons for significant changes to individual projects are noted on their respective Project Information Forms (PIF's).

**FY 2014 ACCOMPLISHMENTS**  
**MAJOR PROJECT COMPLETIONS**

The Department completed nineteen major projects in FY 2014, at a total cost of \$1.01 billion. These projects are listed below:

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>TOTAL COST</u></b> <b><u>(\$ MILLIONS)</u></b>
<b>Maryland Aviation Administration</b>	
Runway Safety Area, Standards and Pavement Improvements Phase 1 at BWI Marshall	19.8
Noise Zone Land Acquisition Program	33.9
<b>Maryland Transit Administration</b>	
MARC Halethorpe Station Improvements	36.6
<b>Washington Metropolitan Area Transit</b>	
Metro Debt Service	638.7

**FY 2014 ACCOMPLISHMENTS**  
**MAJOR PROJECT COMPLETIONS (Cont'd.)**

<b><u>PROJECT DESCRIPTION</u></b>	<b><u>TOTAL COST</u></b> <b><u>(\$ MILLIONS)</u></b>
<b>State Highway Administration</b>	
MD 175, Annapolis Road; BRAC Intersection Improvements at Rockenbach/Disney Roads (Anne Arundel)	14.6
I-695, Baltimore Beltway; Replace Bridge on MD 144 over I-695 (Baltimore)	17.3
I-83, Harrisburg Expressway; Replace Bridge on Middletown Road over I-83 (Baltimore)	7.5
US 40, Baltimore National Pike; Replace Bridge over Patapsco River (Baltimore, Howard)	20.8
I-695, Baltimore Beltway; Replace Bridge over MD 372 (Wilkens Ave.) (Baltimore)	17.0
MD 287, Sandtown Road; Replace Bridge over the Choptank River (Caroline)	6.7

## **MAJOR BRIDGE PROJECTS**

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIF's as referenced.

<b><u>PIF LINE#</u></b>	<b><u>PROGRAM/PROJECT</u></b>	<b><u>DESCRIPTION</u></b>
<b><u>Allegheny County</u></b>		
<b><u>Construction Program</u></b>		
1.	I-68, National Freeway -- Interstate	Rehabilitate Bridge on I-68 over Willis Creek/CSX/Cumberland Thruway and Bridge #01092 on MD 51.
2.	I-68, National Freeway -- Interstate	Replace Bridge decks over Kelley Ave., CSXT & Patterson Ave.
<b><u>Anne Arundel County</u></b>		
<b><u>Construction Program</u></b>		
4.	MD 648, Baltimore Annapolis Boulevard -- Secondary	Replace Bridge over Cattail Creek
<b><u>Baltimore County</u></b>		
<b><u>Construction Program</u></b>		
1.	I-83, Harrisburg Expressway -- Interstate	Replace Bridge on Middletown Road over I-83
3.	I-695, Baltimore Beltway -- Interstate	Replace Bridge on MD 144 over I-695
4.	I-695, Baltimore Beltway -- Interstate	Replace Bridge over Milford Mill Road
6.	I-695, Baltimore Beltway -- Interstate	Replace Bridge over Benson Ave./Leeds Ave./US 1/Amtrak
9.	MD 25, Falls Road -- Secondary	Replace Bridge to Georges Run
<b><u>Calvert County</u></b>		
<b><u>Construction Program</u></b>		
1.	MD 261, Willows Road -- Secondary	Replace Bridge over Fishing Creek

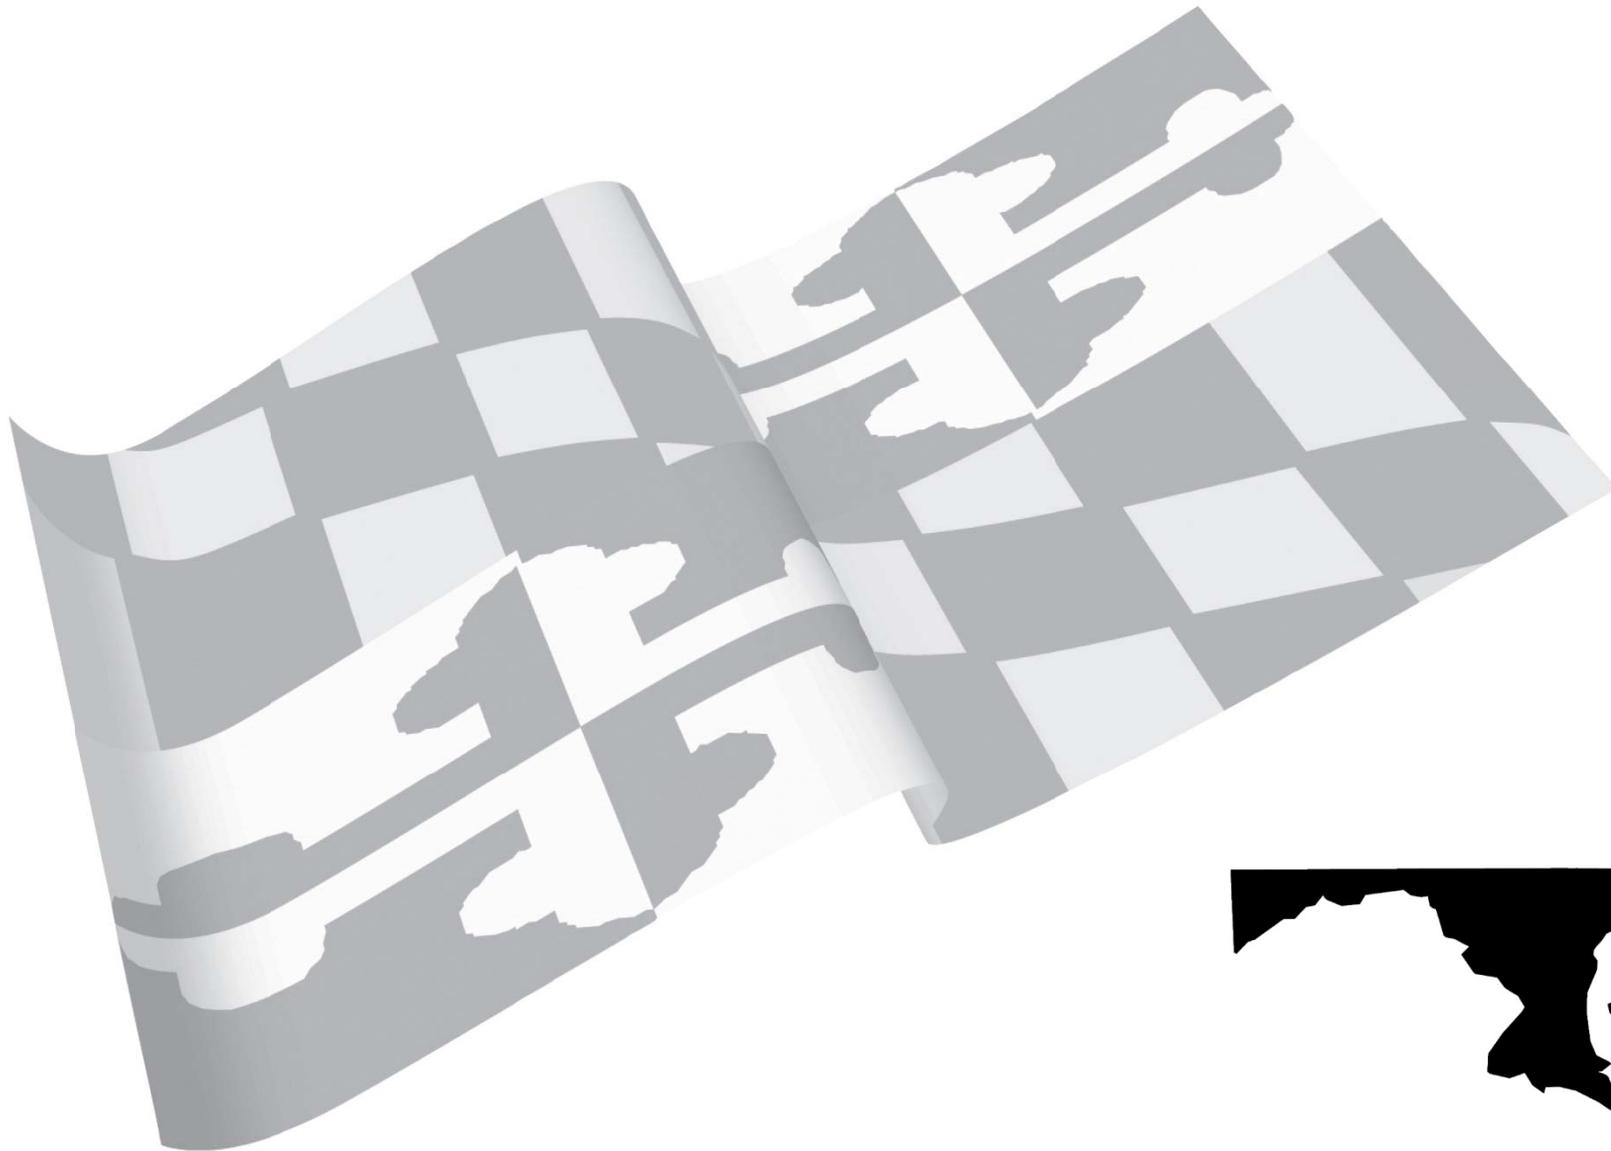

**MAJOR BRIDGE PROJECTS (Cont'd.)**

<b><u>PIF LINE#</u></b>	<b><u>PROGRAM/PROJECT</u></b>	<b><u>DESCRIPTION</u></b>
<b><u>Caroline County</u></b>		
	<b><u>Construction Program</u></b>	
2.	MD 331, Dover Road -- Secondary	Replace Bridge over Choptank River
<b><u>Cecil County</u></b>		
	<b><u>Construction Program</u></b>	
1.	MD 272, Mauldin Ave -- Secondary	Replace Bridge over Amtrak
<b><u>Charles County</u></b>		
	<b><u>Construction Program</u></b>	
1.	MD 234, Budds Creek Road -- Secondary	Replace Bridge over Allens Fresh Run
<b><u>Frederick County</u></b>		
	<b><u>Construction Program</u></b>	
3.	US 15, Catoctin Mountain Highway -- Primary	Replace Bridge on Motter Ave.
4.	MD 140, Taneytown Pike -- Primary	Replace Bridge over Monocacy River
5.	MD 75, Green Valley Road -- Secondary	Replace Bridge over Haines Branch
<b><u>Garrett County</u></b>

**BICYCLE & PEDESTRIAN PROJECTS**

## **BICYCLE AND PEDESTRIAN RELATED PROJECTS**

The Maryland Department of Transportation has various funding programs for bicycles and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners. Funds that have been awarded through these programs, but not yet spent are identified below as "ongoing grant awards and earmarks".

### TOTAL ESTIMATED FUNDS PROGRAMMED FOR BICYCLE AND PEDESTRIAN IMPROVEMENTS

	Ongoing Grant Awards and Earmarks	Projects currently funded for construction as of September 2014	FY15-20 Ped/Bike Program Funding <sup>^</sup>
<b>New Sidewalk Construction for Pedestrian Access</b>		5,355,000	21,800,000
<b>Sidewalk Reconstruction for Pedestrian Access</b>		28,300,000	59,700,000
<b>Bicycle Retrofit</b>		5,737,000	17,500,000
<b>Community Safety and Enhancement Primary/Secondary Program</b>		2,491,641	18,525,000*
<b>Bikeways Program</b>	11,362,000	--	15,369,000
<b>Bikeshare Program</b>	1,356,300	--	0
<b>Transportation Enhancements/Alternatives</b>	28,127,500		44,150,000***
<b>Recreational Trails</b>	4,373,500	--	5,610,000***
<b>Safe Routes to School Program</b>	7,932,556		0^^
<b>Federal Earmark Projects</b>	18,390,700		0^^^
<b>Total</b>	<b>71,542,556</b>	<b>48,166,781</b>	<b>188,937,140</b>

<sup>^</sup>Includes planning, design and construction funds

\*Funding is estimated as a portion of total program funding based on recent bike/ped expenditures

\*\*Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

\*\*\*Funding is estimated based on projected federal appropriations and historic program spending on bicycle and pedestrian projects

^^ This program was consolidated into Transportation Alternatives under the federal transportation bill, MAP-21

^^^ No additional earmark projects are expected at this time

## **BICYCLE AND PEDESTRIAN RELATED PROJECTS**

### **PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION AS OF SEPTEMBER 2014**

The following projects, funded for construction as of September 2014, are typical of projects that will be developed through the bicycle and pedestrian programs.

#### **STATE HIGHWAY ADMINISTRATION**

##### **New Sidewalk Construction for Pedestrian Access Program** (Fiscal years 15 - 16)

###### Calvert County

Calvert Beach Rd to Wood Rd, Lore Rd to Holiday Rd 900,000

###### Charles County

MD 210 - Ruth B Swann Dr to Wooster Dr 540,000

###### Montgomery County

MD 355 - Grafton Street to Bradley Lane 1,400,000

###### Statewide

Various locations in District 7 2,515,000

**TOTAL 5,355,000**

##### **Sidewalk Reconstruction for Pedestrian Access** (Fiscal years 15 - 16)

###### Statewide

Areawide Contracts **TOTAL 28,300,000**

##### **Retrofit Bicycle Program** (Fiscal years 15 - 16)

###### Anne Arundel County

MD 170 - MD 648 to Andover Road 1,522,000

###### Baltimore County

US 1 - US 1 Alt. to Baltimore City Line 4,215,000

**TOTAL 5,737,000**

## **BICYCLE AND PEDESTRIAN RELATED PROJECTS**

### **Community Safety and Enhancements** (Fiscal year 2015)

#### Baltimore County

US 40 - Intersection improvements at Mohr's Lane 364,800  
(\$6,400,000 total construction cost, estimated \$364,800 for ped/bike elements)

#### Calvert County

MD 231 - Heritage Blvd to MD765A, MD 765A from Old Fields Lane to Armory Road 193,002  
(\$3,386,000 total construction cost, estimated \$193,002 for ped/bike elements)

#### Charles County

MD 5 Business at MD 925, Waldorf 54,777  
(\$961,000 total construction cost, estimated \$54,777 for ped/bike elements)

#### Frederick County

MD 144 FB - through Town of New Market to Bye Alley 458,280  
(\$8,040,000 total construction cost, estimated \$458,280 for ped/bike elements)

#### Harford County

MD 755 - Willoughby Beach Road to MARC Station 312,303  
(\$5,479,000 total construction cost, estimated \$312,303 for ped/bike elements)

#### Prince George's County

MD 5 - Curtis Lane and Branch Avenue to south of Suitland Parkway 563,730  
(\$9,890,000 total construction cost, estimated \$563,730 for ped/bike elements)

MD 201 - Kenilworth Towers to Riverdale Road 544,749  
(\$9,557,000 total construction cost, estimated \$544,749 for ped/bike elements)

**TOTAL 2,491,641**

## **BICYCLE AND PEDESTRIAN RELATED PROJECTS**

### **Primary/Secondary Program** (FY2015-20)

The following lists the estimated costs for pedestrian and bicycle elements associated with major projects currently funded for construction

#### Anne Arundel County

MD 175 - Disney Road to Reece Road	shoulders	1.1 miles	165,000
	sidewalks	1.1 miles	151,008

#### Calvert County

MD 261 - Bridge over Fishing Creek	shoulders	0.1 miles	15,000
------------------------------------	-----------	-----------	--------

#### Caroline County

MD 404 - MD 309 to Cemetery Road	shoulders	1.1 miles	163,500
----------------------------------	-----------	-----------	---------

MD 331 - Bridge over Choptank River	shoulders	0.1 miles	15,000
-------------------------------------	-----------	-----------	--------

#### Carroll County

MD 30 Bus. - Hampstead Streetscape	wide curb lanes	1.6 miles	240,000
	sidewalks	1.6 miles	219,648

#### Cecil County

MD 272 - Bridge over Amtrak	shoulders	0.1 miles	15,000
	sidewalks	0.1 miles	13,728

#### Frederick County

US 15 - Monocacy Boulevard	sidewalks	1.0 miles	137,280
	wide curb lanes	1.0 miles	150,000

MD 140 - Bridge over Monocacy River	shoulders	0.1 miles	15,000
-------------------------------------	-----------	-----------	--------

#### Harford County

MD 7 - Bridge over James Run	shoulders	0.1 miles	15,000
------------------------------	-----------	-----------	--------

#### Montgomery County

I-270 - Watkins Mill Road Extended	sidewalks	0.5 miles	75,000
------------------------------------	-----------	-----------	--------

**BICYCLE AND PEDESTRIAN RELATED PROJECTS**

MD 97 - Randolph Rd.	wide curb lanes	1.0 miles	150,000
	sidewalks	1.0 miles	137,280
MD 97 - Brookeville	shoulders	0.7 miles	105,000
MD 185 - At Jones Bridge Road Phase 1 & 2	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000
MD 185 - At Jones Bridge Road Phase 3	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000
MD 320 - Anacostia Tributary	pedestrian bridge		1,500,000
MD 355 - Cedar Lane	shoulders	1.0 miles	150,000
MD 355 - Woodmont Ave. to South Wood Road	wide curb lanes	0.5 miles	75,000
	sidewalks	0.5 miles	68,640
<u>Prince George's County</u>			
I-95 - At Contee Road Relocated	sidewalks	2.0 miles	274,560
	wide curb lanes	2.0 miles	300,000
I 95/495 - Branch Avenue Metro	sidewalks	0.5 miles	68,640
	wide curb lanes	0.5 miles	75,000
MD 4 - at Suitland Parkway	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000
MD 4 - Forestville Road to MD 458	sidewalks	2.1 miles	288,288
	wide curb lanes	2.1 miles	315,000
MD 5 - at MD 373 and Brandywine Road Relocated	sidewalks	1.0 miles	137,280
MD 210 - at Kerby Hill Road/ Livingston Road	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000

**BICYCLE AND PEDESTRIAN RELATED PROJECTS**

MD 337 - at I-495 NB off ramp	sidewalks	0.2 miles	27,456
	wide curb lanes	0.2 miles	30,000
MD 500 - MD 208 to MD 410	sidewalks	1.0 miles	137,280
<u>Queen Anne's County</u>			
US 301 - at MD 304	shoulders	0.1 miles	15,000
MD 404 - west of MD 309 to Cemetery Rd (Ph. 1B)	shoulders	1.1 miles	165,000
<u>Somerset County</u>			
MD 822 - at MD 675	sidewalks	0.5 miles	68,640
<u>Worcester County</u>			
US 113 - Massey Branch to Five Mile Branch	shoulders	4.6 miles	690,000

wide curb lanes	9.3 miles	sub-total	1,395,000
shoulders	10.2 miles	sub-total	1,528,500
pedestrian bridge	1.0 bridge	sub-total	1,500,000
sidewalks	13.5 miles	sub-total	1,859,640

**TOTAL 6,283,140**

**ONGOING GRANT AWARDS AND EARMARKS**

The following bicycle and pedestrian projects have been awarded grant or earmark funds. Projects are in various stages of design and construction.

**Bikeways Program**

Typical projects, awarded FY2015

Baltimore City Bike-Friendly Drainage Grate Replacement	90,000
City of Laurel, Van Dusen Road Sidepath	200,000
Town of Berlin, Berlin to Assateague Trail Assessment	30,000

**TOTAL ONGOING AWARDS 11,362,000**

## **BICYCLE AND PEDESTRIAN RELATED PROJECTS**

### **Bikeshare Program**

Howard County feasibility study	40,000
Baltimore City bikeshare	881,300
University of Maryland	187,500
City of College Park	187,500
Prince George's County/Greenbelt feasibility study	60,000

**TOTAL ONGOING AWARDS                      1,356,300**

### **Transportation Enhancements/Alternatives Program**

<u>Allegany County</u>	
Amtrak Station Entryway Improvement	243,000
<u>Anne Arundel County</u>	
Broadneck Peninsula Trail II	1,808,900
<u>Baltimore City</u>	
Baltimore Waterfront Promenade Inner Harbor East	2,000,000
Baltimore Downtown Bicycle Network	1,220,000
Jones Falls Greenway Phase V	2,050,000
Herring Run Greenway	1,980,000
<u>Calvert County</u>	
Solomons Island Road Sidewalks	731,400
<u>Cecil County</u>	
Bohemia Trail	1,354,600
East High Street and Locust Lane Sidewalk Improvements	65,000
<u>Frederick County</u>	
Ballenger Creek Trail Phase IV	360,000
Carroll Creek Park Trail Phase II	5,959,000

**BICYCLE AND PEDESTRIAN RELATED PROJECTS**

Montgomery County

Ethan Allen Gateway Streetscape	1,255,100
Flower Avenue Green Street Project	1,040,300

Prince George's County

Bowie Heritage Trail, Phase 1	404,300
-------------------------------	---------

St. Mary's County

Three Notch Trail Phase VI	1,788,600
MD Route 5 Pedestrian and Bicycle Trail	1,741,000

Talbot County

Easton Rail Spur Line	827,000
Dutchman's Lane Sidewalk	600,000
Easton Sidewalk Retrofit Design Project	24,300

Washington County

Western Maryland Rail Trail Phase IV	2,450,000
--------------------------------------	-----------

Wicomico County

Northeast Collector Road Bikepath Phase II	225,000
--	---------

**TOTAL 28,127,500**

**Recreational Trails Program**

Typical projects, awarded FY2014

Tuckahoe State Park Trail Connector	30,000
Bowie Heritage Trail - Jericho Park	40,000
Baltimore County Farm Park Trail	14,000
DNR Green Ridge Trail Maintenance	30,000
DNR St. Clements Island State Park Composting	27,500

**TOTAL ONGOING AWARDS 4,128,000**

**BICYCLE AND PEDESTRIAN RELATED PROJECTS**

**Safe Routes to School**

Typical projects

Hagerstown Sidewalk Improvements in Vicinity of Bester Elementary	233,000
Dorchester County Health Department	215,945
Garrett County municipalities	247,109
Takoma Park	23,114

**TOTAL ONGOING AWARDS                    7,932,556**

**Federal Earmark Projects**

Allegany County

Allegany Highlands Trail	738,500
--------------------------	---------

Anne Arundel Co

South Shore Trail	1,600,000
-------------------	-----------

Baltimore City

Gwynns Falls Trail/CSX Bridge	335,000
Reconstruct East North Avenue (US 1)	4,000,000
MLK Blvd & West Baltimore Street	2,000,000

St. Mary's Co

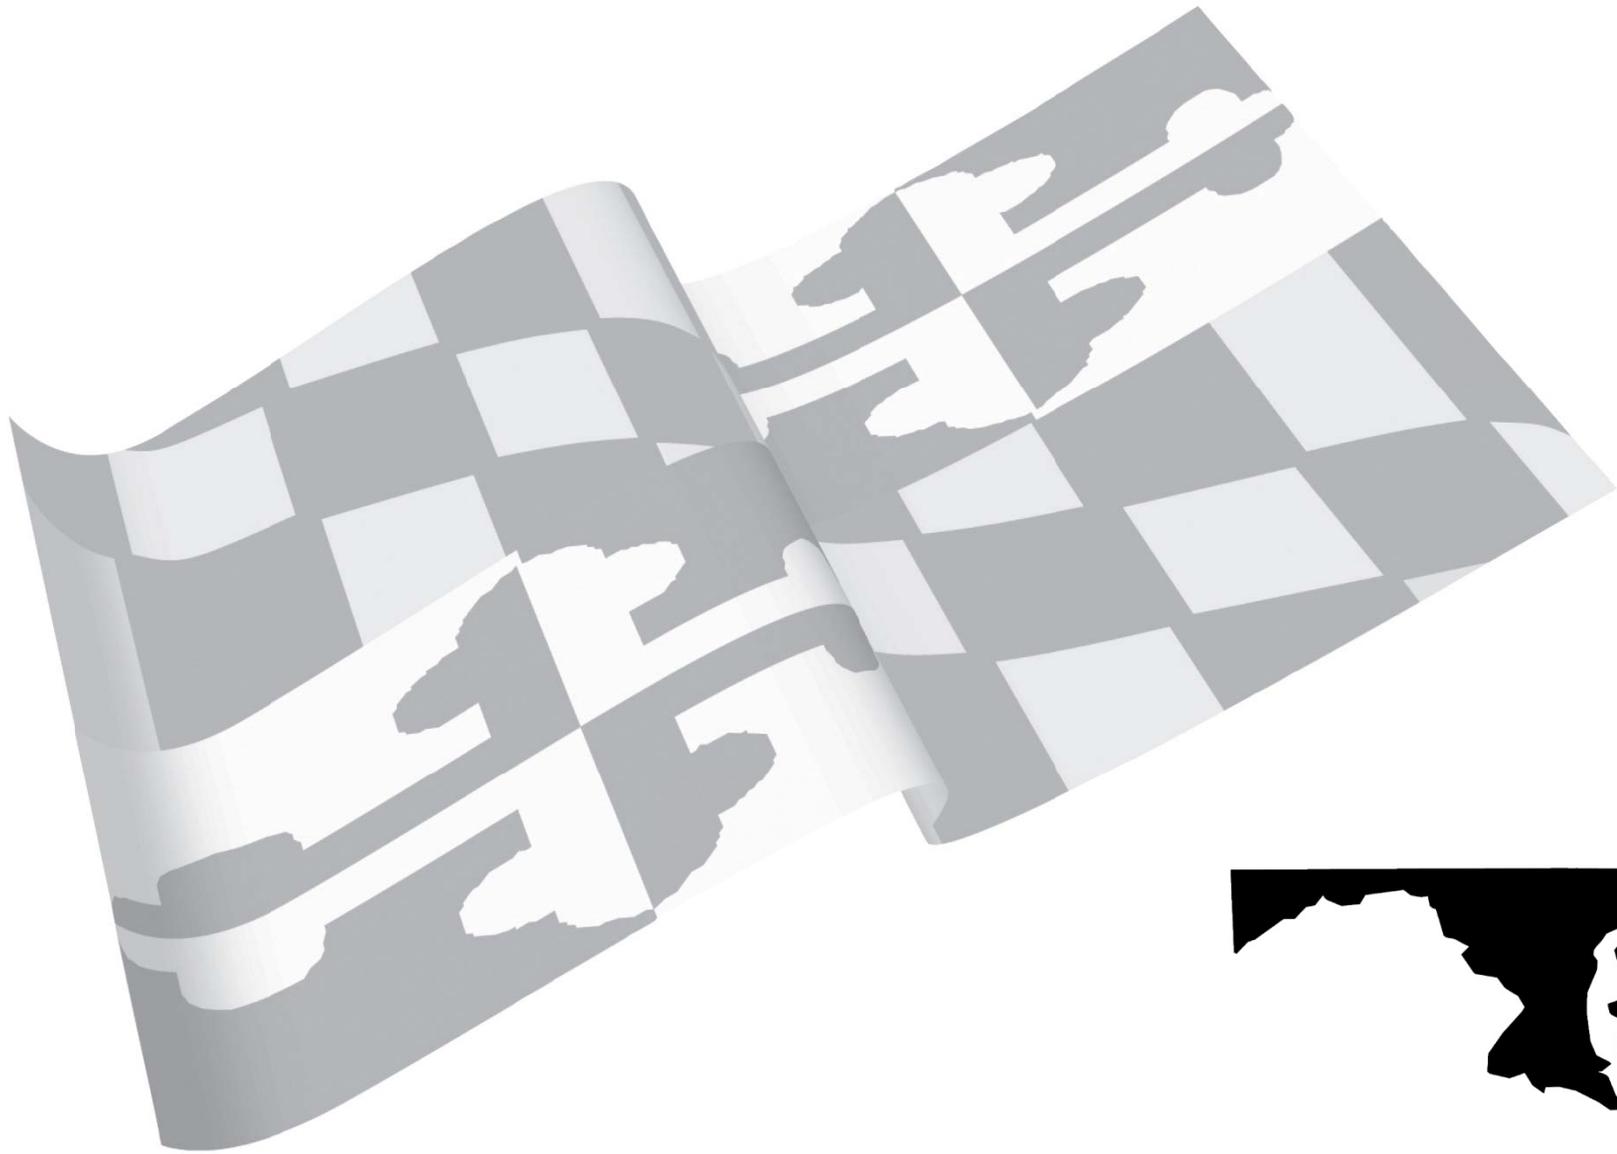

St. Mary's College Safety and Traffic Calming Improvements	1,500,000
--	-----------

Montgomery County

Rockville Intermodal Access, Maryland Avenue and Market Street	3,200,000
Rockville Intermodal Access, pedestrian safety improvements and Baltimore Rd	800,000
Complete Streets Near Metro Stations	827,200
Long Branch Village Center Access Improvements	750,000
Coppin State University ADA Improvements	2,640,000

**TOTAL ONGOING AWARDS                    18,390,700**

**REGIONAL AVIATION GRANTS**

**GENERAL AVIATION GRANTS-IN-AID**  
**Fiscal Year 2015**

The following is a list of General Aviation Airport Grants in the Consolidated Transportation Program. Additional information can be found under the respective Maryland Aviation Administration section.

**MARYLAND AVIATION ADMINISTRATION**

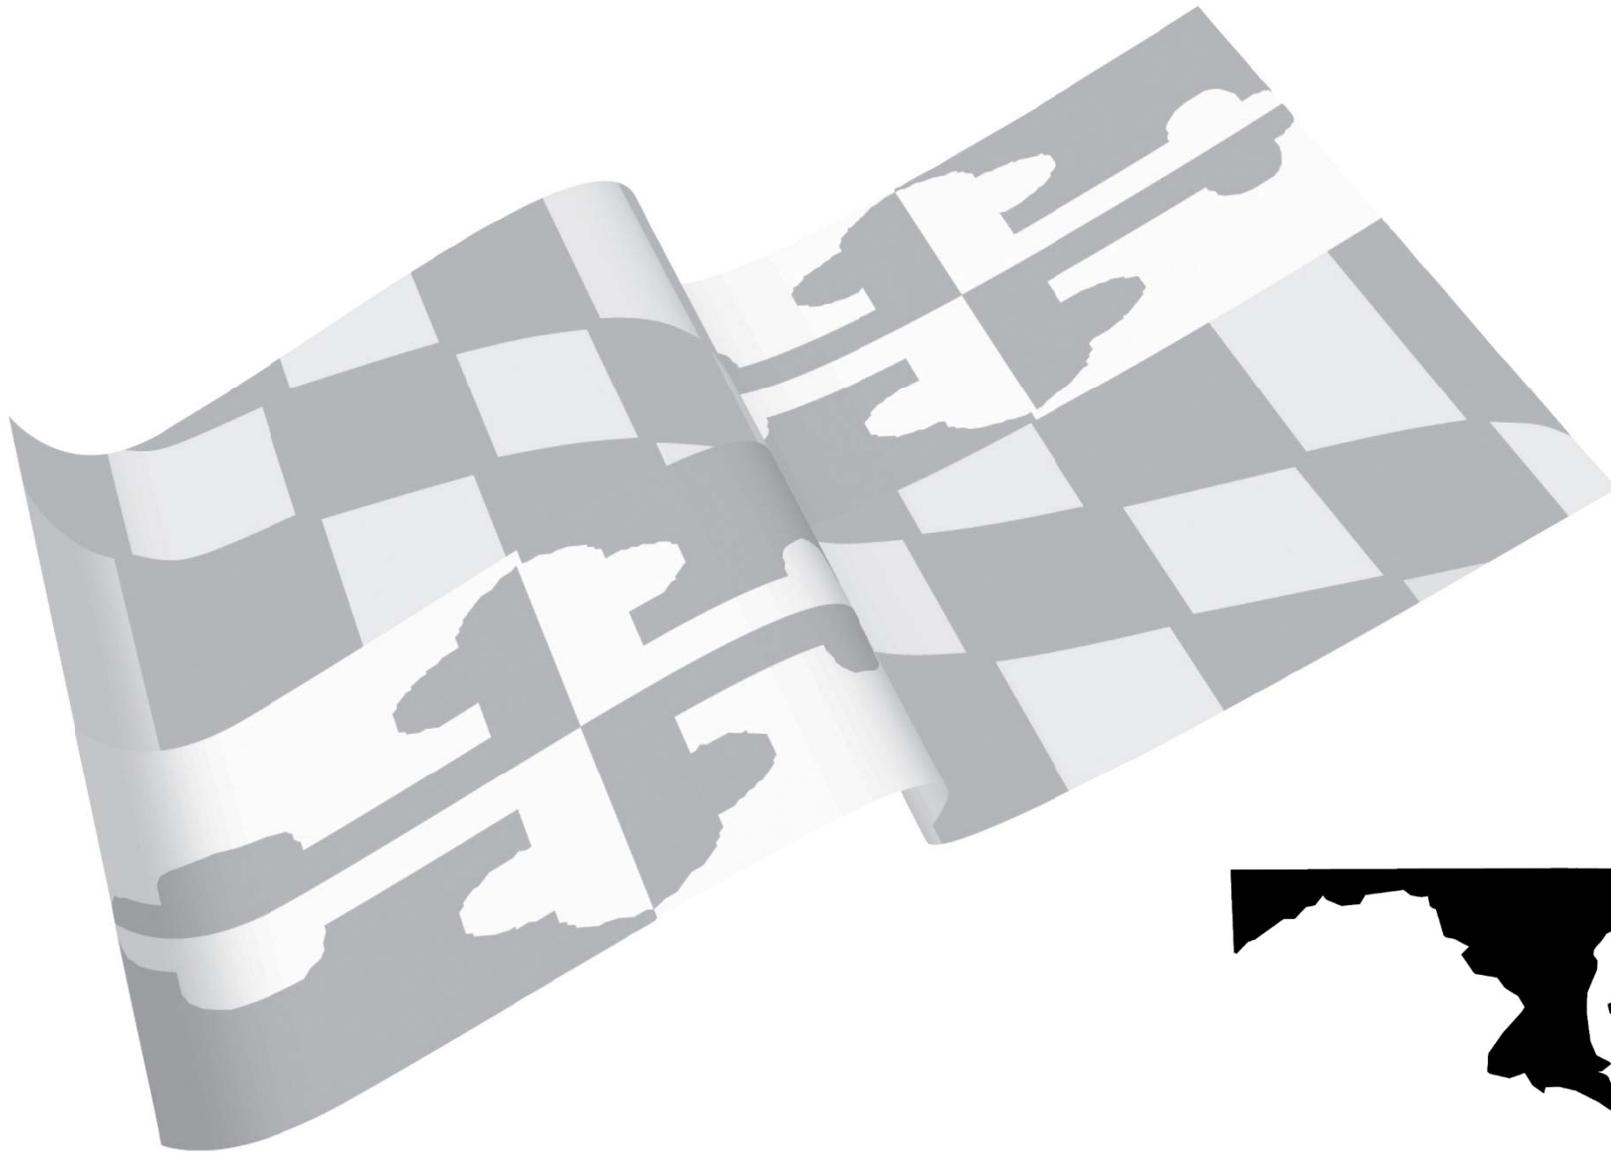

<b><u>COUNTY</u></b>	<b><u>AIRPORT</u></b>	<b>GRANT AMOUNT (\$000's)</b>			<b>Total</b>
		<b>Federal</b>	<b>State</b>	<b>Local/Owner</b>	
Allegany	Greater Cumberland Regional	150	106	41	297
Anne Arundel	Tipton Airport	-	360	120	480
Charles	Maryland Airport	1,649	123	102	1,874
Frederick County	Frederick Municipal Airport	252	14	14	280
Garrett County	Garrett County Airport	-	9	3	12
Harford County	Harford County	-	1,551	172	1,723
Montgomery County	Montgomery County Airpark	36	77	27	140

Worcester	Ocean City Municipal Airport	-	<u>266</u>	89	355
	Total		3,588		

**MULTIMODAL FREIGHT PROJECTS**

## **MARYLAND DEPARTMENT OF TRANSPORTATION**

### **MULTIMODAL FREIGHT PROJECTS**

Maryland's economy benefits when goods movement is safe, efficient, and reliable over the State's freight network. Highways, rail, marine and airport infrastructure must be in good working condition and free flowing. Unpredictable congestion and delays lower the reliability of delivery times, which leads to costlier freight movement. Tonnage and value indicate the demand freight places on the system, and the economic activity associated with freight, respectively. Last year, about 356 million tons of freight was transported to, from, within, and through Maryland, accounting for approximately \$430 billion in value.

Ensuring that the network of highways, railways, waterways, and airports are ready to handle the current level and anticipated growth of goods movement is a priority of the Maryland Department of Transportation (MDOT). MDOT is working to implement multimodal freight mobility solutions, advance supply chains through transportation improvements, and expand freight transportation options throughout the state. With freight activity projected to double by 2030, the multimodal transportation system will come under increasing pressure. The goal of investing in freight related projects is to help improve Maryland's economy by making the goods movement system more efficient, reliable, and safe.

#### **How is Maryland accommodating goods movement today?**

Multiple plans and programs being undertaken by MDOT and the modes include freight projects in various stages of development from concept to construction. Highway improvement, maintenance, and capacity projects run the gamut of Intelligent Transportation Systems (ITS) applications for protecting roadways from damage to increasing safe havens for truck drivers. Education, testing and licensing programs have also been implemented for highway freight operations. Investments in landside improvements and harbor dredging at the Port of Baltimore keep the inbound and outbound supply chains flowing. Partnerships with short line, switching, and Class I railroads are beneficial for increasing capacity and improving operations to provide alternatives for Maryland shippers.

## **How is Maryland accommodating goods movement for the future?**

MDOT is developing a Strategic Goods Movement Plan that will contain specific policy recommendations and provide guidance for development of freight programs at the Port, on rails, highways, and in the air. The Plan identifies areas where MDOT needs to make transportation investments to move goods efficiently and safely. MDOT will partner with carriers, shippers, and freight network users to develop a strategy that works for the entire transportation system and the State as a whole. Once the Plan is complete, Maryland will have a guide for selecting multimodal transportation projects that impact freight. This will be important for State funding priorities and help improve Maryland's ability to meet the national freight goals established in federal surface transportation authorization.

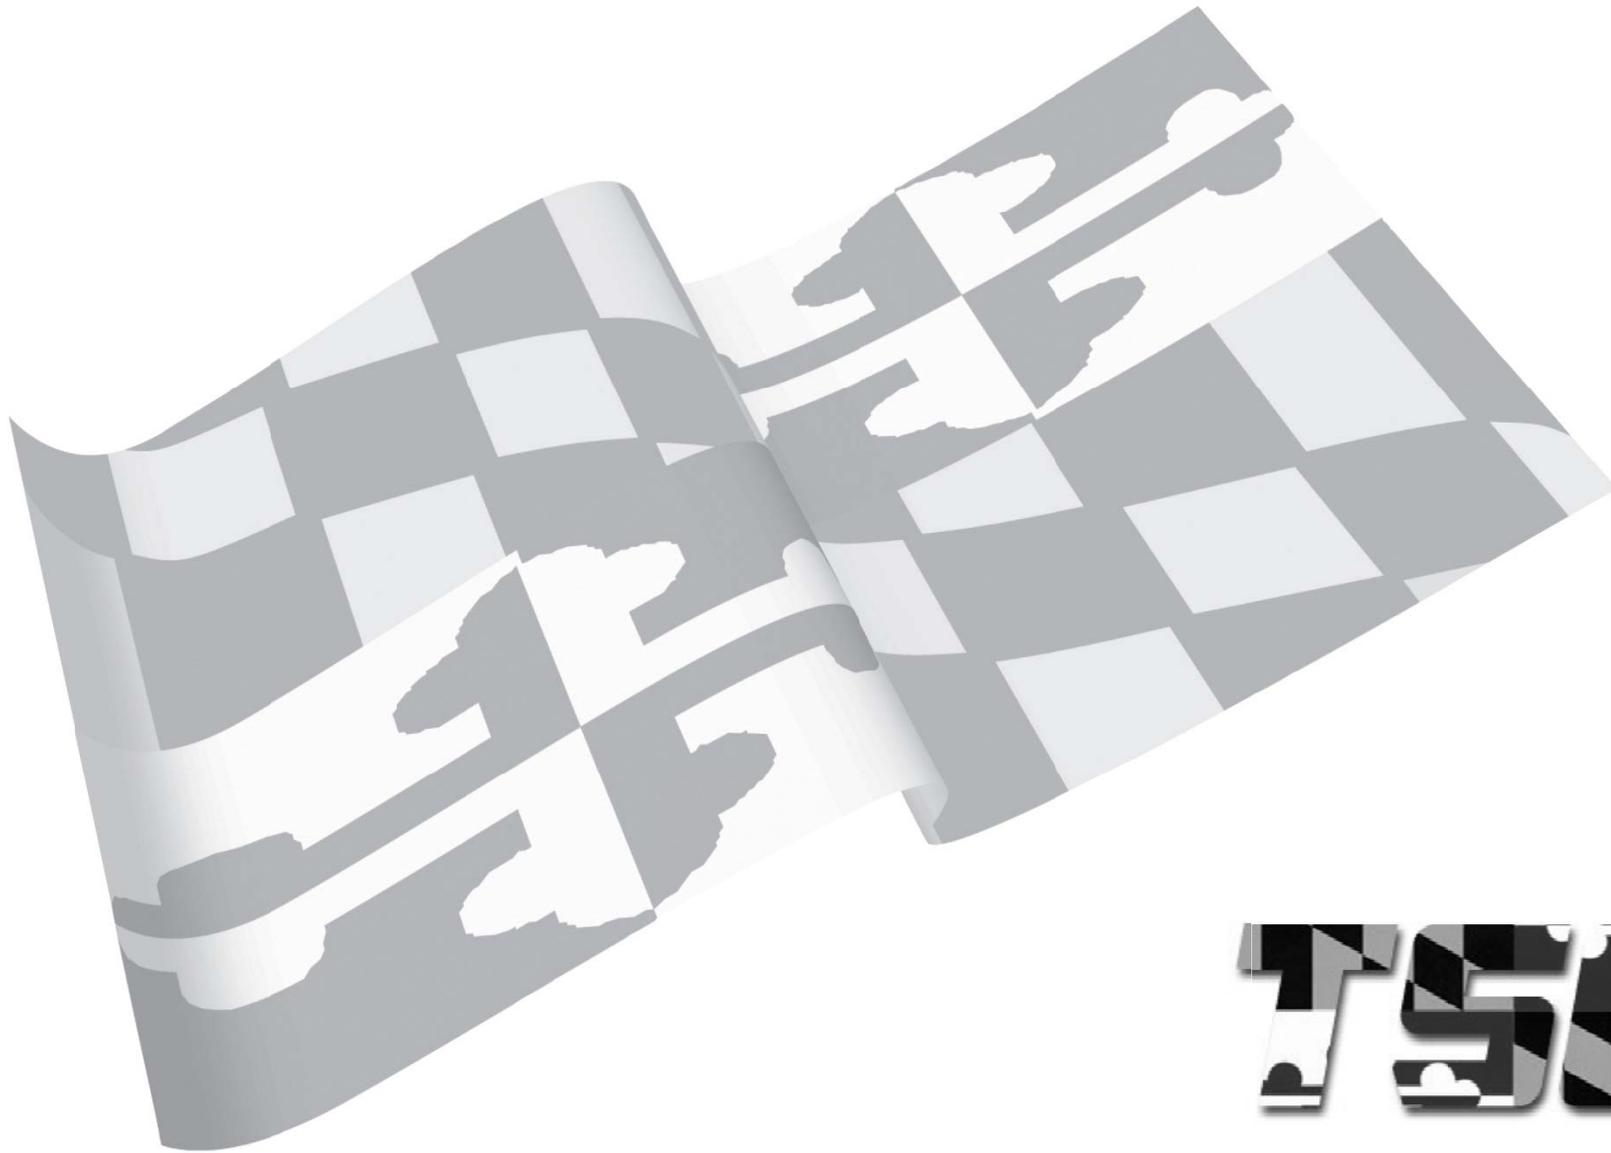

The list below highlights projects that have significant freight impacts and are funded for planning, design, and construction activities in this Consolidated Transportation Program, for approximately \$1.9 billion. The list also identifies costs for Port projects by marine terminal and costs for highway freight related projects in each county. Additional information on individual projects can be found under the respective modal sections later in this document.

<b><u>THE SECRETARY'S OFFICE</u></b>	
<b>PROJECT</b>	<b>ESTIMATED TOTAL 6-YEAR COSTS (\$000'S)</b>
High Speed Intercity Passenger Rail Grant Funding for Baltimore and Potomac Tunnel	60,000
High Speed Intercity Passenger Rail Grant Funding for Susquehanna River Bridge	18,850
Intermodal Rail Incentive Program	6,000
Baltimore Rail Study	1,468
Canton Railroad Grant	3,729
MEA/MDOT Electric Truck Voucher MOU	500
<b><u>MARYLAND TRANSIT ADMINISTRATION</u></b>	
Freight Bridge Rehabilitation	9,588
Grade Crossing Rehabilitation Fund	2,852
Freight Rail Capital Improvement Fund	2,627

**PROJECT:** Transportation Enhancement Program

**DESCRIPTION:** Projects that may be considered include: pedestrian or bicycle facilities; provision of safety and educational activities for pedestrians and bicyclists, acquisition of scenic easements and scenic or historic sites; scenic or historic highway programs; landscaping and other beautification; historic preservation; rehabilitation and operation of historic transportation buildings, structures or facilities - including historic railroad facilities and canals; preservation of abandoned railway corridors - including conversion for use as bicycle or pedestrian trails; archaeological planning and research. Project sponsors are required to provide matching funds.

**PURPOSE & NEED SUMMARY STATEMENT:** Transportation enhancements are projects that will add community and environmental value to the transportation system. The Moving Ahead for Progress in the 21st Century Act's (MAP-21) Transportation Alternatives Program provides that 2% of the apportioned funds be set aside for the program. This new program now includes eligibility for most projects that used to be funded under the Transportation Enhancement Program, as well as Recreational Trails and Safe Routes to School programs.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Enhancement activities must be directly related to transportation.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Transportation enhancement projects will improve connectivity by enhancing pedestrian and bicycle mobility. In addition to environmental improvements such as treatment of roadway runoff, tree planting and preservation of historical structures.

**STATUS:** Projects approved for funding appear in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added FY20 funding.

**PROJECT:** Transportation Emission Reduction Program

**DESCRIPTION:** The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

**JUSTIFICATION:** The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. Worsening traffic congestion in the Baltimore/Washington metropolitan area negatively impacts the quality of life for Maryland citizens. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and to help reduce Greenhouse Gas emissions.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATUS:** Underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The program was increased by \$4.9M due to the addition of FY 2020.

**PROJECT:** Bikeways Network Program

**DESCRIPTION:** Planning, design and construction of on-road and off-road bicycle facilities that fill priority missing links and create a safe, functional bicycle network.

**JUSTIFICATION:** Infrastructure for walking and biking is a core element of Maryland's multimodal transportation system. Walking and biking are clean, green and healthy transportation options. This program will help to implement MDOT's Bicycle and Pedestrian Master Plan and Strategic Trails Plan by filling priority missing links in the statewide bicycling network, connecting and extending on-road and off-road bicycle facilities and improving connections to transit, work, schools, shopping and other destinations.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

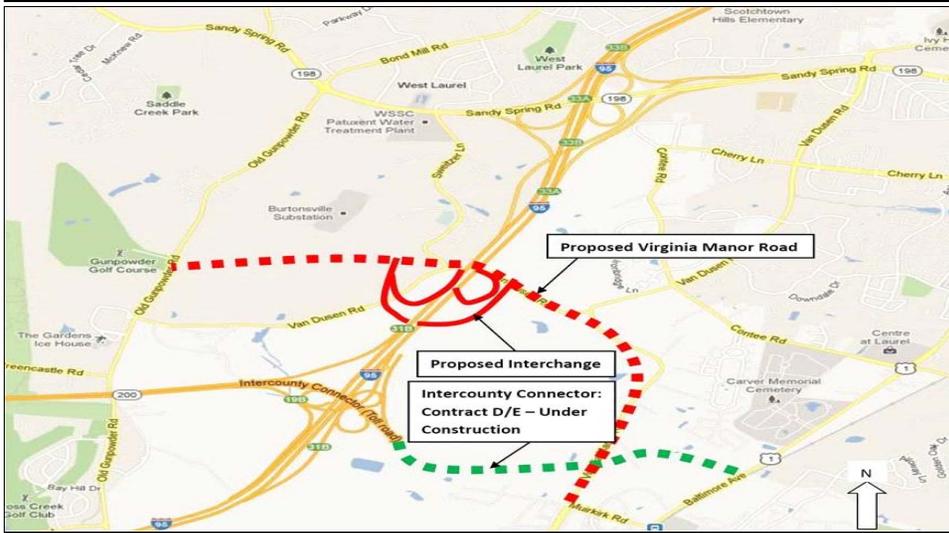

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Sidewalk Program (SHA Line SW-3), Transportation Enhancements Program (TSO Line - 01)

**STATUS:** A total of 95 bikeway projects have been awarded in four grant cycles. Approximately 20 are complete. Additional projects will be solicited through annual grant cycles.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** Virginia Manor Road Relocated, Old Gunpowder Road to the InterCounty Connector

**DESCRIPTION:** A Secretary's grant to Prince George's County for construction/reconstruction of Virginia Manor Road Relocated between the InterCounty Connector and Old GunPowder Road (Approximately 2.6 miles). Connections will be made to both the InterCounty Connector and the new I-95/Contee Road Interchange. Bicycle and Pedestrian access will be provided.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will enable Prince George's County to construct a critical roadway connection to the InterCounty Connector and I-95/Contee Road interchange. This will enhance the supporting roadway network east and west of I-95 in the area that is planned for significant growth and development.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

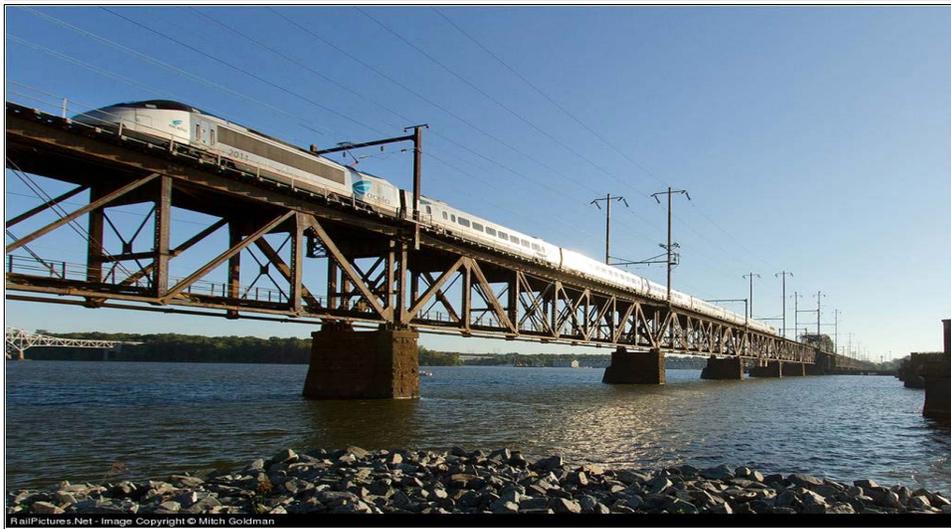

**ASSOCIATED IMPROVEMENTS:** InterCounty Connector (Prince George's County Line - 10)

**EXPLANATION:** The new interchange at I-95 and Contee Road Relocated and Virginia Manor Road Relocated will facilitate enhanced access and improved circulation to an area that is planned for growth and economic development.

**STATUS:** Construction of Virginia Manor Road Relocated is complete and open for service. The relocation of a Washington Suburban Sanitary Commission (WSSC) water line along Virginia Manor Road Relocated is underway and expected to be completed in FY 15. The \$12M in cost savings on Virginia Manor Road Relocated is available for other projects to be determined in the Konterra Development Area.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** Amtrak's Susquehanna River Bridge

**DESCRIPTION:** The purpose of this project is to complete preliminary engineering and National Environmental Policy Act (NEPA) documentation for the replacement of Amtrak's Susquehanna River Bridge between Harford and Cecil Counties. This project is funded by a High Speed Intercity Passenger Rail grant from the Federal Railroad Administration.

**JUSTIFICATION:** The Susquehanna River Bridge is located along the Northeast Corridor (NEC), a busy rail network between Washington D.C. and Boston, Massachusetts, and carries approximately 110 Amtrak, MARC commuter and Norfolk Southern freight trains per day. The existing two-track bridge was constructed in 1906 and is currently owned and maintained by Amtrak. Due to its age and design, the bridge creates a capacity and speed bottleneck along the heavily traveled NEC.

**PROJECT:** Amtrak's Baltimore and Potomac (B&P) Tunnel

**DESCRIPTION:** The purpose of this project is to complete preliminary engineering and National Environmental Policy Act (NEPA) documentation for the replacement of Amtrak's B&P Tunnel in Baltimore City. This project is funded by a High Speed Intercity Passenger Rail grant from the Federal Railroad Administration.

**JUSTIFICATION:** The B&P Tunnel is located along the Northeast Corridor (NEC), a busy rail network between Washington D.C. and Boston, Massachusetts, and carries approximately 142 Amtrak, MARC commuter and Norfolk Southern freight trains per day. The existing two-track tunnel was constructed in 1873 and is currently owned and maintained by Amtrak. Due to its age and design, the tunnel creates a capacity and speed bottleneck along the heavily traveled NEC.

**PROJECT:** Real ID Act

**DESCRIPTION:** This project will verify identification documents presented to the MVA in connection with driver license and ID card transactions. The project will develop a more secure driver license and ID card, and a means to archive identity documents.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will upgrade systems and policies within MVA in order to comply with federal regulations mandated in May 2005 by the signing of The Real ID Act. Proof of lawful presence in the United States is now required before an individual can be granted a new MD driver's license, learner's permit or ID card.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The MVA implemented business and functional requirements to comply with the passage of Lawful Presence Legislation, and systems changes to account for the need to capture an individual's full legal name during the Driver License and Identification Card application process. There are several additional requirements pertaining to electronic verification of information that will be implemented, once the verification system being developed by DHS/AAMVA is operational.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

Security System Preservation & Improvement (Line 4, Item No. 23)  
 DLS/POS Migration (Line 4, Item No. 22)

**STATUS:** All federally mandated benchmarks within MVA's control have been attained. Benchmarks pending are contingent on the verification system being developed by DHS/AAMVA to be operational. Remaining special and federal funds are to be used to cover the costs associated with connecting to the verification system.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** New Kiosks provide customers with the ability to receive real-time registration stickers, the option to pay in-cash or with a credit card, and the capability to receive certified and non-certified driving records, as well as the option to order scenic and personalized license plates. Providing this advanced functionality is a benefit to the public and enhances customer satisfaction.

**PROJECT:** Alternative Service Delivery Systems

**DESCRIPTION:** This project includes the design and implementation of electronic delivery of MVA services through the Internet, kiosks and telephone Interactive Voice Response (IVR) systems.

**PURPOSE & NEED SUMMARY STATEMENT:** Alternative delivery systems provide MVA customers with the ability to conduct transactions electronically. Web-based services, customer service kiosks, interactive voice recognition systems and other advancements not only make interaction with the MVA an efficient and pleasant experience, they will in turn reduce customer wait time and increase overall customer satisfaction.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:** Project Core (MVA Line - 3)

**STATUS:** MVA customers currently complete more than 40% of core service transactions by using US mail, telephone, internet, kiosk, mobile office or County Treasurer office. A MVA web site redesign and additional options for renewing and obtaining a driver license via alternative service delivery systems are recent and current initiatives.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Total cost increased by \$2.3 million for performance monitoring, website enhancements and planned spending in FY 2020.

<u>POTENTIAL FUNDING SOURCE:</u>		<input checked="" type="checkbox"/> SPECIAL	<input type="checkbox"/> FEDERAL	<input type="checkbox"/> GENERAL	<input type="checkbox"/> OTHER					SIX	BALANCE

Federal-Aid	0	0	0	0	0	0	0	0	0	0	

**PROJECT:** Project Core (Enterprise Management System)

**DESCRIPTION:** Project Core is an enterprise-wide IT project with an emphasis on modernizing the MVA IT infrastructure, replacing legacy systems and enhancing the agency's ability to provide customers and employees with a 360 degree view of their services and needs.

**JUSTIFICATION:** Many existing business systems were developed over the years as independent applications in response to separate business unit needs, and have become outdated in meeting the needs of today's operating environment. These systems need to be more efficient for improved customer service and increased employee productivity, and must be re-engineered to allow MVA to maximize service using electronic commerce and a network of branch locations.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:** Alternative Service Delivery Systems (MVA Line - 2)

**STATUS:** Project is currently in the early procurement phase. Operational governing boards were deployed--Program Management Office (PMO), Functional Governance, Enterprise Architecture, and Quality Management--to help the organization manage the life cycle of the project and provide organizational infrastructure for its success.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Total cost increased by \$2.1 million due to the addition of FY 2016 funding for planning.

**PROJECT:** Noise Zone Land Acquisition Program

**DESCRIPTION:** This program promotes compatible land use around Baltimore/Washington International Thurgood Marshall Airport (BWI Marshall). This is accomplished through the purchase of residential properties offered voluntarily for sale by owners within designated impacted noise areas.

**PURPOSE & NEED SUMMARY STATEMENT:** The Maryland Environmental Noise Act requires the Maryland Aviation Administration (MAA) to minimize the impact of aircraft related noise on people living near BWI Marshall. The purpose of this program is to purchase, at fair market value, the most severely impacted residential properties within the BWI Marshall Noise Zone, in accordance and consistent with local zoning.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
 Homeowner Assistance Program -- Line 2

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

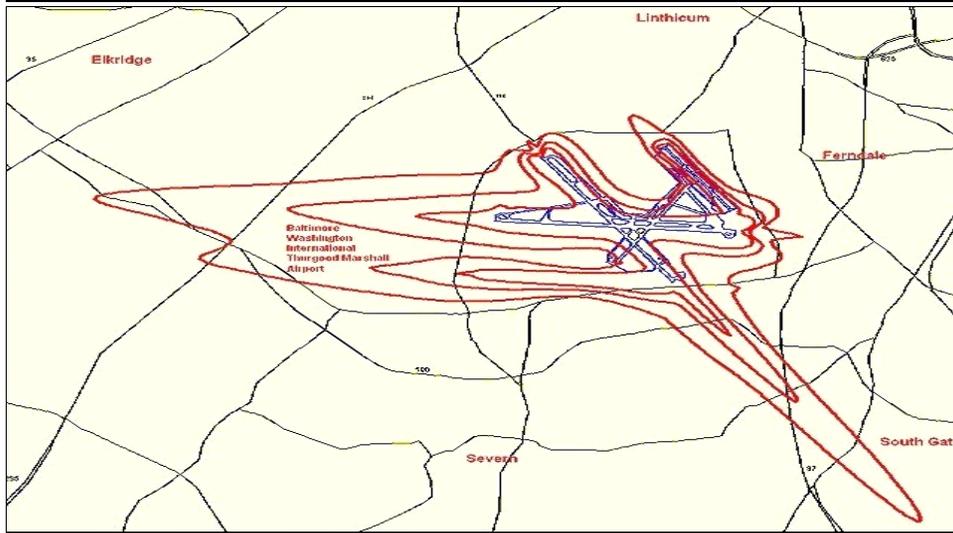

**EXPLANATION:** This program enhances the environment of neighboring communities by providing noise mitigation through the purchase of residential properties from people living within designated noise zones near BWI Marshall.

**STATUS:** Historical acquisition of properties completed several years ago.

POTENTIAL FUNDING SOURCE:  SPECIAL  FEDERAL  GENERAL  OTHER

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Overall estimated cost decrease of \$5.6 million is the result of MAA reimbursing the federal share of two Noise Land Re-Use Plan properties and offsetting credit to federal funding.

**PROJECT:** Homeowner Assistance Program

**DESCRIPTION:** This voluntary program provides for the mitigation of aircraft noise and improvement of land-use compatibility around BWI Marshall. Homeowners may elect to either sell their home, with the State ensuring a fair market value, or have their house soundproofed to reduce interior noise levels. The State receives an aviation easement for each participating property.

**PURPOSE & NEED SUMMARY STATEMENT:** This program enhances the environment of neighboring communities by providing noise mitigation for homeowners residing within the BWI Marshall Airport Noise Zone starting with the most severely impacted communities.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This program enhances the environment of neighboring communities by providing homeowner noise mitigation for people living within designated noise zones near BWI Marshall.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered

**ASSOCIATED IMPROVEMENTS:**

Noise Zone Land Acquisition Program -- Line 1

**STATUS:** MAA has participated in the soundproofing of 676 properties and sales assistance for 113 homes through FY 2014.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project delayed from FY 14 to FY 15 pending FAA approval of updated noise maps.

**PROJECT:** Runway Safety Area, Standards and Pavement Improvements Phase 2 at BWI Marshall

**DESCRIPTION:** The project represents the second phase of the Runway Safety Area (RSA), Standards Compliance and Pavement Management Program (PMP) Improvements. This project consists of the design and construction of the Runway 10-28 RSA compliance, standards and PMP improvements to meet Federal Aviation Administration (FAA) standards. Runway improvements will include grading, pavement rehabilitation, pavement markings, and lighting relocation, as well as, connecting taxiways, and property acquisitions.

**PURPOSE & NEED SUMMARY STATEMENT:** FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. The proposed work will allow MAA to meet the RSA mandate and address Pavement Condition Index ratings of fair or lower. This project will preserve existing airfield capacity by ensuring the continued long-term use of runways, aprons, taxiways and taxilanes located at the busiest areas of airfield operations and minimize the exposure of aircraft to Foreign Object Debris (FOD).

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Runway Safety Area, Standards and Pavement Improvements Phase 3 at BWI Marshall -- Line 4.  
 Runway Safety Area, Standards and Pavement Improvements Phase 4 at BWI Marshall -- Line 5.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. RSA improvements enhance safety by reducing the risk of aircraft damage and personal injury in the event of runway overruns. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and surface variations that could impair directional control of the aircraft. BWI Marshall supports the movement of people, goods and State economy.

**STATUS:** Construction began Summer 2012. Runway 10-28 RSA and pavement rehabilitation complete August 2013. Amtrak obstructions modifications, property acquisitions, Runway 10-28 NAVAIDS and a portion of Taxiway C will continue into 2016.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Cost increase of \$6.3 million results from a \$1.5 million cost reduction for Runway 10-28 completion, and bid increases for NAVAID infrastructure (\$3.0 million) and Taxiway C (\$4.8 million).

**USAGE:** Accommodate projected annual passenger growth.

**OPERATING COST IMPACT:** Operating cost fully recovered through airport user fees.

**PROJECT:** B/C Connector at BWI Marshall Airport

**DESCRIPTION:** The terminal improvements in this project include the relocation of the Concourse C passenger screening checkpoint to the B/C terminal zone, the addition of a secure-side connector between Concourses B and C, the widening of Concourse C, the conversion of the existing Concourse C entrance into egress space, roof replacement, provision for moving walkways, reconfigured holdrooms and improved passenger amenities.

**PURPOSE & NEED SUMMARY STATEMENT:** The project will significantly reduce congestion in the passenger security screening checkpoints, bring existing terminal facilities in compliance with current fire/life safety codes, enhance baggage handling capacity, and provide passengers with ease of movement between multiple concourses without the need to exit and return through security.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Passenger ease of movement and security is a primary focus of the airport. These improvements provide the flexibility and capacity to rebalance security screening needs between Concourses A, B and C, as well as capacity for new or expanding airline service by eliminating aircraft restrictions due to current holdroom sizes. Brings concourses up to current fire/life safety codes. BWI Marshall supports the movement of people, goods and State economy.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered

9862, 9863, 9865, 9866, 9867, 9868, 9869, 9870, 9878, 9879, 9880, 9882, 9883, 9885, 9886, 9887, 9888, 9889

**PROJECT:** D/E Connector at BWI Marshall Airport

**DESCRIPTION:** The terminal improvements in this project include the relocation and consolidation of the Concourses D and E passenger screening checkpoints, the addition of a secure-side connector between Concourses D and E, the conversion of the existing Concourse D and E entrances into egress space, baggage screening improvements, and improved passenger amenities.

**PURPOSE & NEED SUMMARY STATEMENT:** The project will significantly reduce congestion in the passenger security screening checkpoints, bring existing terminal facilities in compliance with current fire/life safety codes, enhance baggage handling capacity, and provide passengers with ease of movement between concourses without the need to exit and return through security.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |   |
|---|---|
| <input checked="" type="checkbox"/> Safety & Security   | <input type="checkbox"/> Environmental Stewardship      |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality             |
| <input checked="" type="checkbox"/> Quality of Service  | <input checked="" type="checkbox"/> Economic Prosperity |

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> Project Inside PFA   | <input type="checkbox"/> Grandfathered              |
| <input type="checkbox"/> Project Outside PFA             | <input type="checkbox"/> Exception Will Be Required |
| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted          |

**ASSOCIATED IMPROVEMENTS:**  
None.

**EXPLANATION:** Passenger ease of movement and security is a primary focus of the airport. These improvements provide the flexibility and capacity to rebalance security screening needs between Concourses D and E, as well as capacity for new international or expanding airline service by eliminating aircraft restrictions due to current holdroom sizes. Brings concourses up to current fire/life safety codes. BWI Marshall supports the movement of people, goods and State economy.

**STATUS:** Enabling projects are underway. Construction to start January 2015.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**USAGE:** Accommodate projected annual passenger growth.

**OPERATING COST IMPACT:** Operating cost mostly recovered through airport user fees.

Other funding sources are Passenger Facility Charge (PFC) revenue and revenue bonds supported by PFC revenue. 2007, 2009, 9702, 9703, 9705

**PROJECT:** Parking Revenue Control System at BWI Marshall Airport

**DESCRIPTION:** The project provides for the replacement of the existing parking system that tracks revenues and parking lot usage for management of the facilities and issues tickets to patrons using the various surface and garage facilities. The new system will bring the latest parking technology including varying payment and ticket options to each of the two garages and surface lots.

**PURPOSE & NEED SUMMARY STATEMENT:** A reliable system is an inherent necessity to efficiently monitor and control revenue in a parking operation. The end of life age of the current system infrastructure, need for dependable revenue control, and the availability of cost efficient new technologies will help safeguard BWI Marshall's largest revenue generator.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship     |
| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service  | <input type="checkbox"/> Economic Prosperity           |

**EXPLANATION:** Replacement of the aged parking revenue system provides ease of access and enhanced payment options for airport users. An updated parking system will improve space management, provide for flexible pricing and enhance financial reporting. BWI Marshall supports the movement of people, goods and State economy.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

**PROJECT:** Loading Bridge Replacement Program at BWI Marshall Airport

**DESCRIPTION:** This project consists of the purchase and installation of 13 new passenger loading bridges. All new passenger loading bridges on common use gates are being equipped with PCAir, 400 HZ power units and bag slides.

**PURPOSE & NEED SUMMARY STATEMENT:** These passenger loading bridges are designated as replacements of existing loading bridges which have reached or exceeded their useful life, as well as those required for ongoing capital improvements. The replacement of the loading bridges is essential to supporting the safe movement of passengers on and off aircraft using terminal facilities.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Replacement of the aged passenger loading bridges supports the safe movement of passengers on and off aircraft. The addition of PCAir and 400 HZ power units will facilitate alternative fuel usage and improve air quality. BWI Marshall supports the movement of people, goods and State economy.

**STATUS:** Construction began Fall 2014.

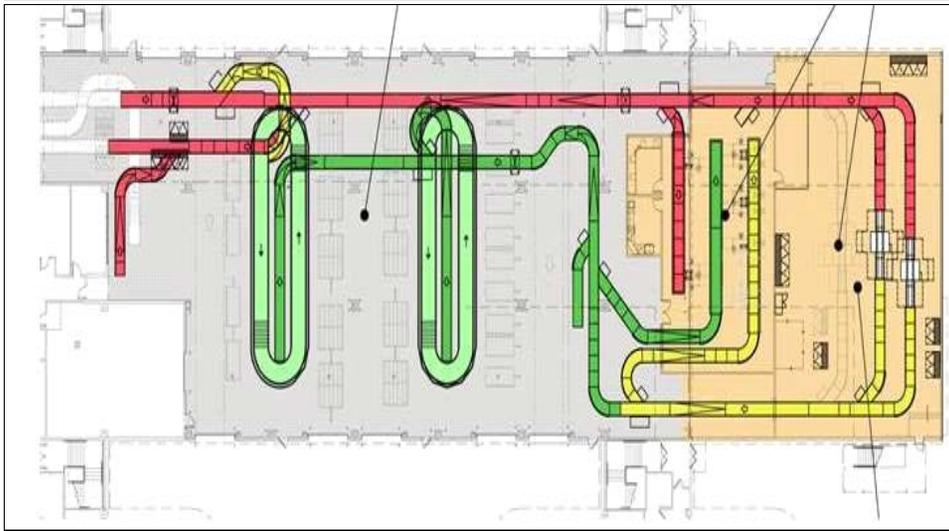

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**USAGE:** Accommodate projected annual passenger growth.

**OPERATING COST IMPACT:** Operating cost mostly recovered through airport user fees.

**PROJECT:** International Checked Baggage Inspection System at BWI Marshall Airport

**DESCRIPTION:** This project will reconfigure the existing baggage screening and baggage make-up system to a more integrated baggage security and handling system. Improvements will include changes to the baggage system configuration, equipment, and baggage makeup area.

**PURPOSE & NEED SUMMARY STATEMENT:** The ability to maintain 100 percent electronic baggage screening, while achieving the necessary capacity to meet projected international airline departure flight schedules is dependent upon attaining the maximum utilization of bag screening technology.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input checked="" type="checkbox"/> Safety & Security   | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality        |
| <input checked="" type="checkbox"/> Quality of Service  | <input type="checkbox"/> Economic Prosperity       |

**EXPLANATION:** This project enhances compliance with Federal Aviation Administration Part 139 SIDA and safety regulations through modernization of baggage screening processes. In addition, the improvements provide the ability to maintain 100 percent electronic baggage screening while achieving the necessary capacity to meet projected airline departure flight schedules. BWI Marshall supports the movement of people, goods and State economy.

**PROJECT:** International Concourse Extension at BWI Marshall Airport

**DESCRIPTION:** This project consists of extending the Concourse E international terminal by two gates to accommodate up to five aircraft arrivals. The work includes constructing a new aircraft parking apron; adding passenger boarding bridges with PC Air/400 HZ capability; stormwater management improvements; extending the existing building and IT systems; and connecting arriving passengers to the Customs and Border Protection facilities. The project also includes demolition and replacement of the Commuter Concourse with remain overnight aircraft parking positions.

**JUSTIFICATION:** The greatest potential growth in airline service at BWI Marshall is in international markets. While domestic services continue to thrive at BWI Marshall, US based airlines are looking to expand their business into international markets, and international carriers are seeking more access to US destinations. While the D/E Connector project offers some additional gate capacity to handle expected growth, projections for peak period gate utilization indicate the need for the extension of the international concourse.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATUS:** Preliminary planning and design underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added to the D&E Program

**USAGE:** Accommodate projected annual passenger growth.

**OPERATING COST IMPACT:** Operating cost mostly recovered through airport user fees.

**PROJECT:** Exit Lane Technology at BWI Marshall Airport

**DESCRIPTION:** This project provides for the evaluation, planning and preliminary engineering of potential options for automating deplaning passenger exit lane monitoring across the airport.

**JUSTIFICATION:** Under the Aviation and Transportation Security Act, Public Law 107-71 of November 2001, the Transportation Security Administration (TSA) assumed responsibility for staffing exit lanes at airports across the country. TSA has proposed an amendment to the Airport Security Program that would require airport operators to assume access control responsibility at exit lanes controlled by TSA. This project will identify technology to assist BWI Marshall in providing adequate safeguards to prevent unauthorized entry to secure areas.

**PROJECT:** Hart-Miller Island Related Projects

**DESCRIPTION:** Hart-Miller Island is a 1,140 acre, two-cell containment island, off-shore from Baltimore County. The island operated as a dredge material placement site since 1984. The southern part of the island is developed for use as a wildlife habitat. On December 31, 2009 Hart-Miller Island ceased accepting dredge material. The MPA is currently designing wildlife habitat for the North cell of the island.

**PURPOSE & NEED SUMMARY STATEMENT:** The capacity of the island was needed to allow dredging of the Port's harbor and shipping channels. Hart-Miller Island represented one of the most cost efficient dredge disposal options available.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Dredge Material Placement Monitoring -- Line 2  
 Dredge Material Program -- Line 11

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The dredge material placed in the Hart Miller Island facility was collected from Harbor and Bay channels and berths. The placement of this material at Hart-Miller Island allowed vessels to transport cargo to and from the Port of Baltimore.

**STATUS:** The facility ceased in-flow operations December 31, 2009. Maintenance and monitoring will continue until the final configuration of the cell is determined.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The program was increased by \$3.7 million due to the addition of FY 20. Funds are added to the program to meet future operating costs.

POTENTIAL FUNDING SOURCE:		<input checked="" type="checkbox"/> SPECIAL		<input type="checkbox"/> FEDERAL		<input type="checkbox"/> GENERAL		<input type="checkbox"/> OTHER

5002, 5003

**PROJECT:** Dredge Material Placement and Monitoring

**DESCRIPTION:** This program involves the placement and monitoring of material dredged from the Port of Baltimore channels. Costs associated with this program are for construction of containment sites; monitoring during placement; dredge placement site operations; and beneficial use projects.

**JUSTIFICATION:** The Governor's Strategic Plan for Dredge Material Management identifies either specific sites and projects, or types of sites or projects for future dredge material placement. This program will fund the construction and monitoring during the development of selected sites. With approximately 1,900 ships a year calling on the Port of Baltimore's shipping lanes, there is a need to maintain the channels for the Port to remain competitive and increase economic development.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

- Hart-Miller Island Related Projects -- Line 1
- Dredge Material Program -- Line 11
- Masonville Vessel Berth - Line 8

**STATUS:** The MPA continues to evaluate alternative dredge material placement sites. Masonville Dredge Material Placement Facility is accepting dredge material.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The total program decreased by \$45.8 million due to a revised dredging schedule.

1900, 5101, 5103, 5105, 5206, 5207, 5208, 5211, 5215, 5218, 5221, 5231, 5232, 5233, 5235, 5237, 5238, 5241, 5242, 5260, 5305, 5309, 5418

**PROJECT:** Reconstruction Berths 1- 6 at Dundalk Marine Terminal, Phase II (Berth 4) and Phase III (Berth 3).

**DESCRIPTION:** The western bulkhead at Dundalk Marine Terminal was part of the original Harbor Municipal Airport dating back to the 1930's; the marginal wharf was constructed in the early 1960s. This project will (in a phased approach) replace and deepen the berths to meet future cargo and vessels needs. Heavy cargo vessels have grounded on the bottom at low tides. The berths will be designed to allow dredging to an eventual depth of 50 feet. The first phase funded reconstruction of Berths 5 and 6. Phase II funds activity at Berth 4; Phase III funds Berth 3 (and a portion of Berth 2).

**PURPOSE & NEED SUMMARY STATEMENT:** Berths 1-6 are essential to the Port because they handle a variety of cargoes, i.e. automobiles, forest products, roll-on/roll-off and other break-bulk (van packs). Age and harsh marine environment require these berths be rehabilitated before they become unstable. The other berths at Dundalk Marine Terminal (7-13) are not viable alternatives since they are too distant from the warehouses and automobile lots.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |   |
|---|---|
| <input checked="" type="checkbox"/> Safety & Security   | <input checked="" type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality        |
| <input type="checkbox"/> Quality of Service             | <input checked="" type="checkbox"/> Economic Prosperity       |

**EXPLANATION:** Funding of this project allows vessels with deeper drafts to make future calls at the Dundalk Marine Terminal. These vessels will be larger than current-day ships and carry more cargo. Rehabilitation of these berths will enable the movement of additional cargo across the terminal.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- |  |   |
|--|---|
| <input checked="" type="checkbox"/> Project Inside PFA   | <input type="checkbox"/> Grandfathered              |

| <input type="checkbox"/> PFA Status Yet to Be Determined | <input type="checkbox"/> Exception Granted          |

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATUS:** Construction for Phase I was completed in December 2006. Berths 1- 4 recently received urgent repairs. Berth 4 rehabilitation is underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** This program increased by \$29.7 million due to the addition of Phase III for the Berth 3 Reconstruction project.

**USAGE:** Increase in larger, deeper vessel calls.

POTENTIAL FUNDING SOURCE:		<input checked="" type="checkbox"/> SPECIAL		<input type="checkbox"/> FEDERAL		<input type="checkbox"/> GENERAL		<input type="checkbox"/> OTHER

1025, 3143, 3158, 3181

**PROJECT:** Terminal Security Program

**DESCRIPTION:** The Terminal Security Program uses state-of-the-art technologies to secure MPA cargo terminals against unauthorized intrusions. Current projects include: iCCTV coverage expansion and upgrades; intrusion beam barrier installation; access control installation at North Locust Point Terminal; and the placement of mobile security booths.

**PURPOSE & NEED SUMMARY STATEMENT:** Federal Regulations enacted under the Maritime Transportation Security Act of 2002 require the MPA to develop a security plan for MPA terminals that handles foreign cargo or passengers. These projects are being developed to comply with this Act. The Security Program will allow the MPA to enhance its capability to prevent unauthorized intrusions onto its terminals and facilities. A large portion of the Federally approved project's cost is funded by Federal Port Security Grants.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** These projects will enhance the security of MPA terminals as required by the Maritime Transportation Security Act of 2002

**STATUS:** The MPA was awarded two federal FY 14 Port Security Grants. The grants are CCTV Video Analytics and Cyber Vulnerability Assessment.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

POTENTIAL FUNDING SOURCE:		<input checked="" type="checkbox"/> SPECIAL		<input checked="" type="checkbox"/> FEDERAL		<input type="checkbox"/> GENERAL		<input type="checkbox"/> OTHER

**PROJECT:** South Locust Point Cruise Terminal

**DESCRIPTION:** Cruise lines operate international excursions out of MPA facilities. A total of 91 departures are scheduled for the 2014 cruise season. Current projects include installing a redundant electrical feeder, new restrooms; upgrading the public address system; enclosing the existing canopy; purchase new check-in counters, furniture and carpeting; and erect new cruise entrance which will improve vehicular circulation

**PURPOSE & NEED SUMMARY STATEMENT:** This facility is close to tourist attractions located at the Inner Harbor and has excellent visibility and access to I-95. This facility was converted from a lumber warehouse and can accommodate one cruise embark per day.

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |   |
|---|---|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship      |
| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality  |
| <input checked="" type="checkbox"/> Quality of Service  | <input checked="" type="checkbox"/> Economic Prosperity |

**EXPLANATION:** The improvements made at the South Locust Point Marine Terminal are for the comfort and convenience of cruise line passengers. These improvements spurred an increase in passenger demand and voyages from MPA facilities in the Port of Baltimore.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- |  |   |

1628, 1635, 1637, 1640, 1641, 1644

**PROJECT:** Chrome Ore Processing Residue Remediation (COPR)

**DESCRIPTION:** After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis (CMAA), MDE directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal (DMT). This requires relining storm drains in the COPR areas and installing enhanced long-term monitoring and maintenance of the site.

**PURPOSE & NEED SUMMARY STATEMENT:** Originally chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium remediation. The CMAA was approved by MDE in July 2012.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

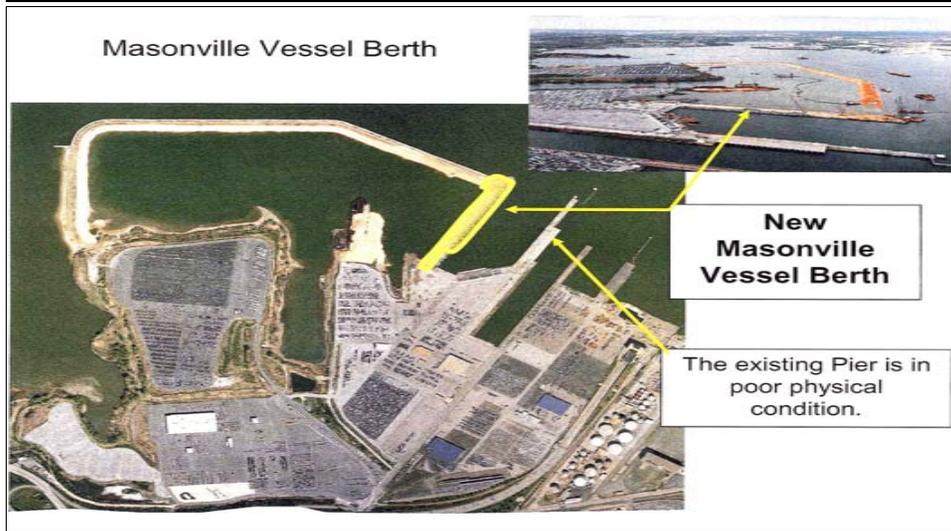

**EXPLANATION:** Remediation of the affective areas located at the DMT will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor. The application of Corrective Measures will enable the reclamation of chrome affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

**STATUS:** The Corrective Measures Alternative Analysis was approved by Maryland Department of the Environment in July 2012. Corrective actions are underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The program increased by \$5.0 million due the change in the scope of the COPR related projects.

**PROJECT:** Masonville Vessel Berth Construction

**DESCRIPTION:** This project will construct a 968-foot long and 130-foot wide berth, capable of accommodating the world's fleet of Auto and Roll-on/Roll-off ships. The new berth will have a deck load rating of 1000 psf, allowing for flexibility in loading heavy cargo or military equipment. Being a wharf, it will be much less susceptible to damage due to vessel strike, ice movement or debris. Masonville Vessel Berth will not have the wind restrictions of the existing pier. This berth will be dredged to 42 feet.

**PURPOSE & NEED SUMMARY STATEMENT:** This new structure will replace Fairfield Marine Terminal Pier 4, a deficient pier of World War II vintage that is currently at the end of its useful life. Pier 4 is the sole MPA berth for two large auto terminals (146 acres). Baltimore finished calendar year 2013 as # 1 in the nation for auto exports. Within 20 years of the Masonville Vessel Berth construction, auto movements over the Berth are predicted to grow from 120,000 to 230,000 units.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Dredge Material Placement and Monitoring - Line 2  
 Port of Baltimore Export Expansion Project -- Line 9

**STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:**

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The dredging component of this project will allow larger ships to access Port of Baltimore marine terminals. Cargo storage and rail capacity will be enhanced at Fairfield and Seagirt Marine Terminals. The filling of the Fairfield Wet Basin will avoid the cost of replacing the basin's bulkhead.

**STATUS:** Construction will be completed during FY 15.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

POTENTIAL FUNDING SOURCE: <input checked="" type="checkbox"/> SPECIAL <input type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

**PROJECT:** Port of Baltimore Export Expansion Project

**DESCRIPTION:** MPA's TIGER project has three portions: provide rail access to Fairfield Marine Terminal; widening and straightening the navigation channel to Seagirt Marine Terminal; and filling the Fairfield Basin to develop seven acres of new land for cargo storage. The scope of the contract has increased to accomplish similar additional work at the Fairfield (Beverly Slip) and South Locust Point terminals (Fruit Slip).

**PURPOSE & NEED SUMMARY STATEMENT:** The current access channel to Seagirt is deep enough; however, it has several turns and is too narrow for the next generation of container ships that will be able to transit the Panama Canal when it is expanded in 2016. The suitable material dredged from this widening will be used as fill in the WWII-era shipbuilding basin to create new land at Fairfield Marine Terminal, which is needed for cargo storage (and cost avoidance to replace failing bulkheads). Rail access to Fairfield will allow more efficient cargo movement.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:** Masonville Vessel Berth Construction -- Line 8

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |   |
|---|---|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship      |
| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality  |
| <input type="checkbox"/> Quality of Service             | <input checked="" type="checkbox"/> Economic Prosperity |

**EXPLANATION:** The dredging component of this project will allow larger ships to access Seagirt Marine Terminal. Cargo storage and rail capacity will be enhanced at Fairfield Terminals. The filling of Fruit Slip and the Fairfield Wet Basin will avoid the cost of replacing those bulkheads.

**STATUS:** Environmental impact statements are being prepared as the final grant requirement before construction is approved. Dredging should start in early 2015.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** This program increased by \$9.7 million due to expanded configuration of this project.

2711, 2712, 5239

**PROJECT:** Pearce Creek Waterline Project

**DESCRIPTION:** The project will construct a waterline from Cecilton to communities near the Pearce Creek Dredged Material Containment Facility (DMCF) in Cecil County. The waterline provides potable water to areas adversely affected by Corps of Engineers dredged material placement in the Pearce Creek DMCF. The Pearce Creek Waterline Project is constructed with the assistance of an MDOT Secretary's Grant.

**PURPOSE & NEED SUMMARY STATEMENT:** A liner for the Pearce Creek DMCF is to be funded and constructed by the Corps of Engineers. The waterline is needed to support reopening of the DMCF for material taken from the C&D Canal and approach channels.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project plays an integral role in the reactivation of the Pearce Creek DMCF. Dredge material collected from the C&D Canal and placed in the Pearce Creek DMCF will save the State millions of dollars of its share of transportation cost to alternative placement locations such as Poplar Island.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:** Dredge Material Management Program - Line 10

**STATUS:** The waterline is in the design and permitting phase. This project is expected to be advertised in late calendar year 2015.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added to the Construction Program.

**PROJECT:** Dredge Material Management Program

**DESCRIPTION:** This project conducts detailed studies with the US Army Corp of Engineers to identify and assess potential dredged material placement sites consistent with Maryland's Dredge Material Management program emphasizing beneficial uses of dredged material for projects such as island and shoreline reclamation.

**JUSTIFICATION:** Available placement capacity for sediment dredged from navigational channels serving the Port of Baltimore is completely committed. The MPA must identify placement sites and uses for future dredge material. Studies and investigations are necessary to meet the requirements of the Dredge Material Management Act of 2001.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

- Hart Milller Island Related Projects - Line 1
- Dredge Material Placement and Monitoring - Line 2

**STATUS:** Feasibility studies are underway.

**MARC**

**Freight**

**Light Rail**

**Baltimore Metro**

**Bus**

**Multi-Modal**

**Locally Operated Transit Systems**

**MTA CONSTRUCTION PROGRAM**

**PROJECT:** MARC Maintenance, Layover, & Storage Facilities

**DESCRIPTION:** Funding for planning, environmental documentation, design, property acquisition, and construction of maintenance, layover, and storage facilities. Funding includes construction for the Washington Mid-Day Storage Yard as well as design and construction funding for storage tracks at the MARC Martin Airport facility.

**PURPOSE & NEED SUMMARY STATEMENT:** Projects will provide critically needed storage and maintenance facilities for the MARC fleet. The Washington Mid-Day Storage Yard will reduce interference with Amtrak operations at Washington Union Station and provide urgently needed fleet storage away from the passenger platforms at the station.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

MARC Growth and Investment Program - Line 38  
 MARC Northeast Maintenance Facility - Line 40

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality        |
| <input checked="" type="checkbox"/> Quality of Service  | <input type="checkbox"/> Economic Prosperity       |

**EXPLANATION:** Additional storage capacity enables MARC trains to be stored away from passenger platforms, minimizing disruptions and delays caused by congestion around the platforms.

**STATUS:** Construction is underway for the Washington Mid-Day Storage Yard and will be complete in FY 2015. Design is underway for the Martin State Airport storage tracks.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project cost decreased by \$3.1M due to moving the MARC Northeast Maintenance Facility to the D&E program as well as the addition of the improvements at the MARC Martin State Airport facility.

**PROJECT:** MARC Improvements on Camden, Brunswick, and Penn Lines

**DESCRIPTION:** Ongoing improvement program of the MARC Camden, Brunswick, and Penn lines to ensure safety and quality of service. Program is implemented through CSX and Amtrak construction agreements. CSX efforts include projects such as interlocking replacements at Carroll and other track improvements. Amtrak efforts include projects such as passenger upgrades at Baltimore Penn Station and Washington Union Station, interlocking work at the Hanson site and other track improvements.

**PURPOSE & NEED SUMMARY STATEMENT:** Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

MARC Growth and Investment Program - Line 38

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

**STATUS:** Penn Station restroom renovations completed in FY 2014. Ongoing projects on the Penn Line include Hanson Interlocking, an ADA compliant public address system, and low-level platform rehabilitation at Union Station. Track improvements on the Camden Line are ongoing.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project cost decreased by \$9.1M due to the completion and removal of the ARRA projects.

**PROJECT:** MARC Coaches - Overhauls and Replacement

**DESCRIPTION:** Minor overhaul of 63 MARC III coaches, purchase of 54 MARC IV multi-level coaches, and mid-life overhaul of 26 MARC IIA coaches.

**PURPOSE & NEED SUMMARY STATEMENT:** The overhauls will extend the life cycle of mechanical systems and car bodies, providing safe and reliable vehicles for MARC service. The 54 new railcars will replace 12 Gallery coaches scheduled for retirement. The remainder of the new vehicles will be used for expanded service.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined

None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project includes railcar purchases and overhauls of MARC coaches to refurbish and update mechanical systems and car bodies.

**STATUS:** The 54 MARC IV coaches will be put in service in FY 2015. Procurement is underway for the overhaul of MARC III vehicles. Specification development for the MARC IIA coaches will begin in FY 2018.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Cost increased by \$17.2M due to the addition of the MARC IIA Coaches overhaul in FY 2020 and a cost increase for the MARC III Coaches Overhaul.

**PROJECT:** MARC Locomotives - Overhauls and Replacements

**DESCRIPTION:** Procure 8 new diesel MP-36 locomotives and repower 6 GP-39 diesel locomotives.

**PURPOSE & NEED SUMMARY STATEMENT:** Overhaul of locomotives in accordance with the manufacturer's schedule is needed to maintain safe and reliable operation and to comply with federally-mandated maintenance regulations. Replacement diesel locomotives have higher horsepower and meet EPA air quality emissions standards.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

**PROJECT:** MARC Positive Train Control

**DESCRIPTION:** Implementation and development of Positive Train Control for MARC as required by the Federal Railroad Administration. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. If the on-board computer determines the train cannot operate safely within the restrictions, it applies the brakes thus preventing any potential accidents. All locomotives will be upgraded to operate the Positive Train Control system.

**PURPOSE & NEED SUMMARY STATEMENT:** Positive Train control for MARC will create a safeguard against train collisions through proper train spacing on the tracks and active speed limit oversight.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input checked="" type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |

**PROJECT:** Paul S. Sarbanes Transit Center

**DESCRIPTION:** Construct a transit center at the Silver Spring Metrorail Station. It includes the construction of bus bays for Metrobus and Ride On, an intercity bus facility, a taxi queuing area, kiss and ride parking, and MARC platforms with connecting pedestrian bridge and elevator towers. Provision is also made for a future Purple Line Station and a hiker/biker trail.

**PURPOSE & NEED SUMMARY STATEMENT:** Consolidating transit services at a single location in Silver Spring will improve efficiency and ease of use. The project will support the ongoing revitalization of downtown Silver Spring.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project costs increased by \$3.7M in FY 2014 and FY 2015 due to unanticipated site conditions.

**USAGE:** In FY 2014 MARC annual ridership was 8.9 million.

**PROJECT:** MARC West Baltimore Station Parking Expansion

**DESCRIPTION:** Demolition in Phase I cleared the way for parking expansion. Phase II will more than double MARC commuter parking capacity from 316 to 638 spaces. In addition, project will reconnect divided communities by rebuilding the 400 block of North Payson Street, introducing streetscape features, a community garden, and station artwork. The project will also provide parking for the future Red Line/MARC interchange station.

**PURPOSE & NEED SUMMARY STATEMENT:** Parking demand regularly exceeds the capacity of the existing lot. Expanded lot will accommodate ridership growth and reduce overflow parking in adjacent communities. Lot will be designed to accommodate the proposed Red Line as well as potential transit oriented development.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project includes expanded parking capacity to accommodate MARC ridership growth.

**PROJECT:** Light Rail Vehicle Overhaul

**DESCRIPTION:** Perform a mid-life overhaul of the Light Rail fleet. A 15-year inspection and overhaul of the major and sub-assemblies of the vehicles will be performed. The effort will also involve identifying and replacing obsolete parts to improve vehicle performance. Project also supports ongoing overhauls of systems to ensure reliability and safety.

**PURPOSE & NEED SUMMARY STATEMENT:** Major overhaul of the Light Rail vehicles and upgrades of selected systems will ensure safe operation, reduce ongoing maintenance costs, increase vehicle reliability and availability, and increase passenger comfort and security.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality        |
| <input checked="" type="checkbox"/> Quality of Service  | <input type="checkbox"/> Economic Prosperity       |

**EXPLANATION:** Projects include an ongoing and major overhaul of the Light Rail fleet to ensure safe, reliable service to the end of the cars' useful life.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- |  |   |
|--|---|
| <input type="checkbox"/> Project Inside PFA              | <input type="checkbox"/> Grandfathered              |

**PROJECT:** Metro Railcar Overhauls and Replacement

**DESCRIPTION:** Procurement of replacement fleet vehicles and repair of critical equipment such as traction motors, gearboxes, axles, and wheels.

**PURPOSE & NEED SUMMARY STATEMENT:** On-going overhauls for Metro vehicle subsystems is required to reduce system failures and improve reliability. The new vehicles will replace the existing fleet which is nearing the end of its useful life. The replacement of the Railcar Fleet will enhance passenger comfort and conveniences, ensure better reliability, and offer improved safety.

**PROJECT:** Metro Interlocking Renewals

**DESCRIPTION:** Complete rebuild of track interlockings on the Metro system, at locations such as Rogers Avenue, Reisterstown Plaza West, and portal stations. Interlockings allow trains to cross from one track to another using a special track work turnout and a series of switches.

**PURPOSE & NEED SUMMARY STATEMENT:** Interlockings allow trains to cross from one track to another using turnouts and are important for operations. Replacements are necessary to correct general degradation and wear and to ensure safety.

**PROJECT:** Kirk Bus Facility Replacement

**DESCRIPTION:** Construct replacement for the existing Kirk Bus Division. Phase I of the project will construct a new maintenance facility on an expanded site. Phase II will construct an enclosed storage/operations facility.

**PURPOSE & NEED SUMMARY STATEMENT:** The existing Kirk facility is 65 years old, severely constrained, and cannot adequately maintain MTA's growing fleet. MTA employees must park off-site on the surrounding neighborhood streets. By replacing the existing Kirk facility with two new sustainable buildings, substantial operational efficiencies will be realized and the community's environmental justice concerns will be addressed.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The project enables the MTA to service hybrid diesel-electric and articulated buses at the Kirk Bus Division and incorporates sustainable design practices in the new Kirk facilities.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA

**PROJECT:** Bus Procurement

**DESCRIPTION:** Annual purchase of buses to replace those that have been in service for 12 or more years. The MTA has more than 700 buses in its Active Fleet.

**JUSTIFICATION:** Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project cost increased by \$3.8M due to the addition of new buses to MTA's fleet.

**PROJECT:** Bus New Main Shop

**DESCRIPTION:** Design and construct a new bus maintenance shop within MTA's Washington Boulevard maintenance complex. The new facility will be utilized to perform major bus repairs including engine replacement, transmission repairs, and HVAC repairs. The facility is designed with sustainable design principles.

**PURPOSE & NEED SUMMARY STATEMENT:** Major bus repairs will be done in a new shop, freeing space in existing maintenance areas and improving utilization of the existing maintenance facilities.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|

**PROJECT:** CAD/AVL Systems

**DESCRIPTION:** The Computer-Aided Dispatch and Automated Vehicle Location (CAD/AVL) project provides radio data channel expansion to improve the bus fleet's voice and data communication. It includes upgrades to the existing CAD/AVL system hardware and software as well as upgrading obsolete vehicle equipment with state-of-the-art replacements. The vehicle location systems will be used to provide real-time vehicle arrival information to patrons.

**PURPOSE & NEED SUMMARY STATEMENT:** The procurement of an updated and enhanced CAD/AVL system, together with the expanded data channel, will improve the operational efficiency of the bus fleet. These efforts will improve customer service by providing real-time management and scheduling adherence as well as providing real-time information to patrons.

**PROJECT:** Closed Circuit Television (CCTV) Improvements

**DESCRIPTION:** Installation of CCTV equipment in stations and maintenance facilities in four phases:

- Phase I - 1 Light Rail and 10 Metro locations
- Phase II - 5 Light Rail, 1 MARC, and 4 Metro Stations as well as the Metro Portal
- Phase III - 6 Light Rail, 4 MARC, and 6 Metro Stations as well as an administrative complex
- Phase IV - 7 Light Rail and 10 MARC Stations and 1 Metro location

**PURPOSE & NEED SUMMARY STATEMENT:** The CCTV system will provide effective surveillance of MTA stations and maintenance facilities for Homeland Security-related purposes. Sites are prioritized on a systemwide threat vulnerability assessment.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

**PROJECT:** Southern Maryland Commuter Bus Initiative

**DESCRIPTION:** Construction of Southern Maryland Commuter Bus Park and Ride lots at Dunkirk and Waldorf.

**PURPOSE & NEED SUMMARY STATEMENT:** Southern Maryland is one of the fastest growing regions in Maryland. The project will assist in keeping up with demand for commuter park and ride facilities which continues to grow as more people move into the region.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet to Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This effort supports multiple parking expansion projects for Southern Maryland Commuter Bus services, addressing demand for increased commuter parking.

**STATUS:** Dunkirk construction is underway and project is scheduled to complete in FY 2015. Waldorf construction began in FY 2015 with completion expected in FY 2016.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project cost decreased by \$7.4M due to the successful completion of the Charlotte Hall Park and Ride.

**USAGE:** Commuter Bus annual ridership was 4.0 million in FY 2014.

**PROJECT:** Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions)

**DESCRIPTION:** Funding to rural and small urban jurisdictions for transit vehicles, equipment, and facilities. In addition, the MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties, and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MTA facilitates federal funds for locally-sponsored projects.

**JUSTIFICATION:** Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

**PROJECT:** Takoma/Langley Park Transit Center (ARRA)

**DESCRIPTION:** Construction of an off-street covered transit center at the intersection of MD 193 and MD 650 in the Takoma/Langley Park community. Associated SHA improvements include roadway and intersection improvements, pedestrian safety measures, and new sidewalks and crosswalks. Project includes 12 bus bays to provide service for 11 bus routes, passenger shelters, public restroom facilities, a canopy over the entire facility and transit information services. The project will accommodate a future Purple Line station.

**PURPOSE & NEED SUMMARY STATEMENT:** This area is the busiest bus transit transfer point in the region, with 11 Metrobus, Ride On, The Bus, and shuttle van routes. The project will also address pedestrian safety issues.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |  |   |

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Moved to the Construction Program from the System Preservation Minors Program.

**PROJECT:** Baltimore Red Line

**DESCRIPTION:** The Baltimore Red Line is a 14-mile double track light rail line between Woodlawn in Baltimore County and Bayview Medical Center in Baltimore City. The line will include direct connections to the existing Metro Subway and Light Rail lines and the MARC Train Penn Line. The project includes track, two tunnels, stations, railcars, and an operations and maintenance facility.

**PURPOSE & NEED SUMMARY STATEMENT:** The Red Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing rail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The Red Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times will be reduced compared to No Build.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

MARC West Baltimore Station Parking Expansion - Line 8

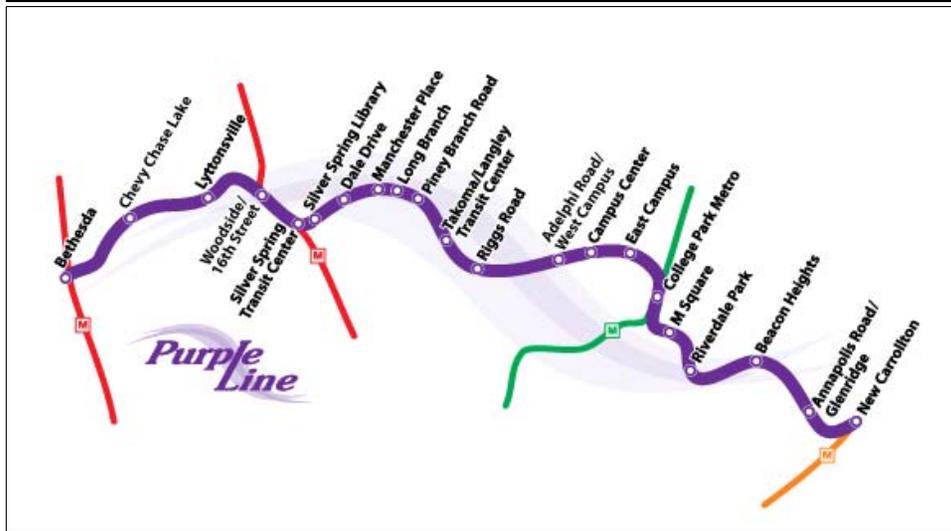

**STATUS:** Final design and right-of-way acquisition underway. Analysis of scope of public-private-partnership underway. Advanced environmental mitigation under construction in FY 2015.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Total Estimated Cost decreased by \$184.0M due to assumed expansion of public-private partnership. Funding for project cost of \$2.9B includes federal funds (\$900.0M), local contributions (\$290.0M), Special funds, and private investment through a public-private partnership to design, build, finance, and maintain elements of the project.

**USAGE:** Daily ridership estimated at 54,000 in 2035.

Note: Total estimated cost does not include investments by concessionaire or future availability payments.

**PROJECT:** Purple Line

**DESCRIPTION:** The Purple Line is a 16-mile double track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Bethesda to Silver Spring segment will include a parallel hiker/biker trail. The line will include direct connections to Metrorail in four locations, all three MARC Train lines, and Amtrak. The project includes track, stations, railcars, and two operation and maintenance facilities.

**PURPOSE & NEED SUMMARY STATEMENT:** The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced compared to No Build.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Total Estimated Cost increased by \$176.5M due to escalation of right of way and professional services costs. Funding for project cost of \$2.4B includes federal funds (\$900.0M), local contributions (\$240.0M), Special funds, and private investment through a public-private partnership to design, build, finance, operate, and maintain the project.

**USAGE:** Daily ridership estimated at 72,000 in 2040.

Note: Total estimated cost does not include investments by concessionaire or future availability payments.

**PROJECT:** Purple Line: Montgomery County Funded Projects

**DESCRIPTION:** Montgomery County has elected to fund a program of projects that will be implemented through and associated with the Purple Line. Projects include a new southern entrance to the Bethesda Red Line station, Capital Crescent Trail, and the Silver Spring Green Trail along Wayne Avenue.

**PURPOSE & NEED SUMMARY STATEMENT:** To further enhance the transportation and quality of life benefits of the Purple Line and Capital Crescent Trail, Montgomery County is adding additional access features.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. **SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project added to reflect Montgomery County's contributions to the Purple Line. Project is entirely County funded.

**PROJECT:** Corridor Cities Transitway (CCT)

**DESCRIPTION:** The Corridor Cities Transitway (CCT) is a 16-mile bus rapid transit line between Shady Grove Metrorail Station and the former COMSAT facility in Montgomery County. The line would be constructed in two phases: from Shady Grove to Metropolitan Grove and from Metropolitan Grove to COMSAT. The project includes a grade separated busway, stations, rapid transit vehicles, and a maintenance facility.

**PURPOSE & NEED SUMMARY STATEMENT:** The CCT will provide faster, more direct transportation between residential and major employment areas in the I-270 corridor. It will enhance access to Shady Grove station and employment areas, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required

**ASSOCIATED IMPROVEMENTS:**

- Montgomery County Local Bus Program - Line 27
- SHA-M-1 - I-270/Watkins Mill Road Extended
- SHA-F-8/M-13 - I-270 and US 15 Corridor Study (D&E)
- SHA-F-9 - MD 85 (D&E)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

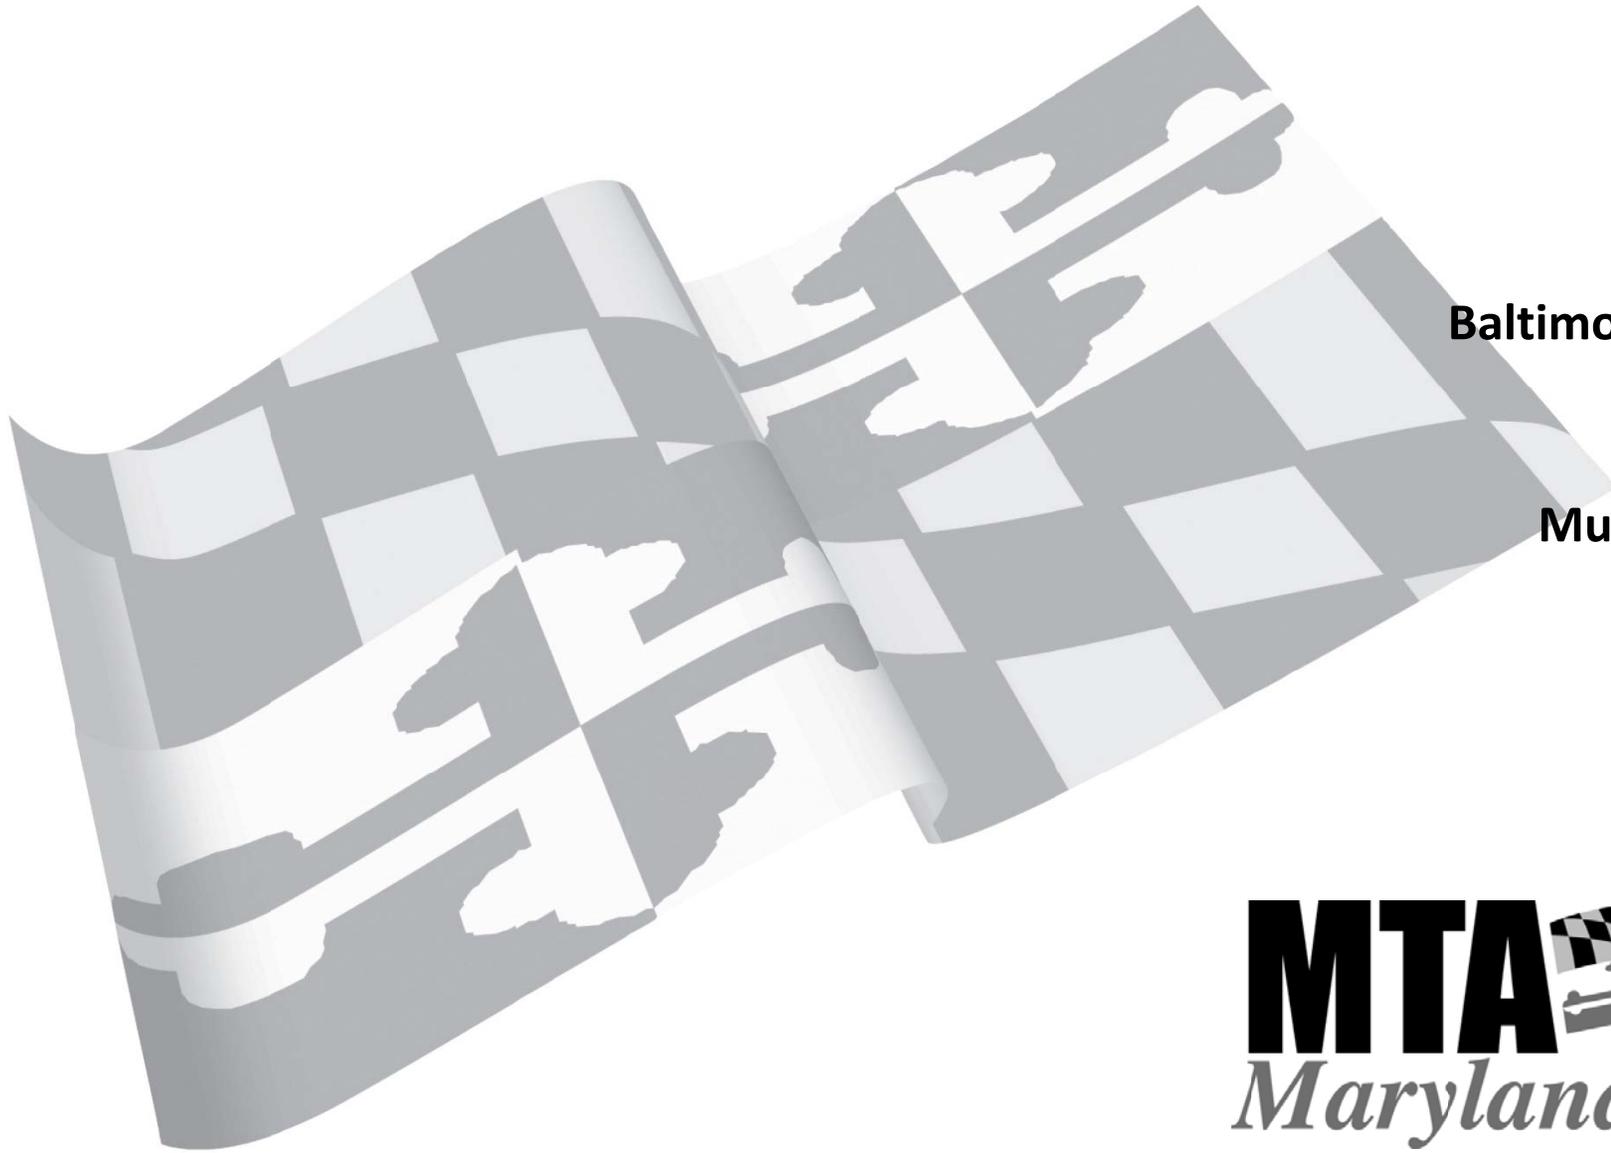

**EXPLANATION:** The CCT will serve a corridor with rapidly developing residential and employment sites, particularly in the Life Sciences Center in Rockville and Gaithersburg.

**STATUS:** Preliminary engineering for Phase 1 scheduled to begin in FY 2015. Phase 2 activities include updates to natural resource inventories, station area planning, and development tracking.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Total estimated cost increased \$20.0M. Advancement to construction would require additional federal or regional funding.

**PROJECT:** MARC Northeast Maintenance Facility

**DESCRIPTION:** Preliminary Engineering and Environmental Assessment for a new MARC Northeast Maintenance Facility north of Baltimore. The new facility will support existing and expanded Penn Line operations at an MTA-controlled facility, enabling transfer of maintenance and layover of locomotives and rolling stock from Amtrak facilities in Baltimore and Washington. Storage of MARC equipment at an MTA-controlled facility will potentially allow contracting of maintenance functions currently performed by Amtrak.

**JUSTIFICATION:** The MARC Train Northeast Maintenance Facility project addresses the need for additional Penn Line storage, consolidates maintenance and inspection functions, supports 2035 ridership growth projections, and Amtrak's Northeast Corridor growth and planned expansion of freight and high speed rail. Expansion of Penn Line service to points north and east of Perryville is contingent upon construction of a maintenance facility north of Baltimore. Efforts are underway to evaluate additional capital improvements needed for expansion of Penn Line service in cooperation with local and regional stakeholders.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

**PROJECT:** WMATA Capital Improvement Program

**DESCRIPTION:** This program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects.

**JUSTIFICATION:** WMATA's FY 2015 - 2020 CIP is focused on safety, infrastructure rehabilitation and replacement and maintaining the Washington region's primary transit system in a state of good repair. WMATA's FY 2015 - 2020 CIP also includes investment to plan for and initiate projects necessary to meet key future system capacity needs. WMATA's FY 2015 - 2020 CIP includes, but is not limited to, projects to replace rail cars, rehabilitation of track and rail structures, replacement vehicles for Metrobus and Metro Access, and implementing recommendations from the National Transportation Safety Board.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**

- Metro Debt Service -- Line 1
- Matching Funds -- Line 4

**STATUS:** The FY 2015 - 2020 CIP was adopted by the WMATA Board of Directors on May 22, 2014.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The project cost increased \$206.0M due to the addition of \$25.0M for Maryland's contribution to the regional \$75.0M commitment for the Metro 2025 initiative as well as the addition of \$181.0M in new FY 2020 funding. Of the full \$218.1M shown in FY 2020, \$37.1M was previously programmed in prior years but is now forecast in FY 2020.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Project cost decreased by \$57.3 million due to the removal of funding for the 6000-Series railcars, all of which are now in service.

**PROJECT:** Matching Funding for "Passenger Rail Investment and Improvement Act of 2008" - P.L. 110-432

**DESCRIPTION:** The Passenger Rail Investment and Improvement Act of 2008 authorizes new federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority. The federal legislation also requires matching funds from Maryland, Virginia, and the District of Columbia. This program provides Maryland's share of the match to federal funds.

**JUSTIFICATION:** Funding is used for capital improvements to improve safety and state of good repair of the rail system, including the replacement of all 1000 series railcars and other investments called for in recommendations made by the National Transportation Safety Board (NTSB).

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

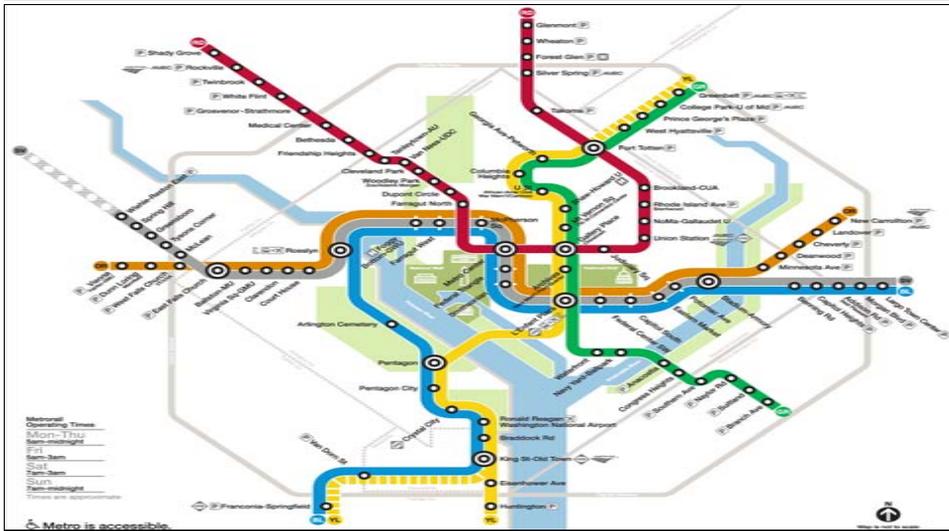

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
WMATA Capital Improvement Program -- Line 2

**STATUS:** The Federal Transit Administration (FTA) dedicated funding allocation for WMATA in FY 2014 is \$148.5M. Maryland will provide \$50.3M in FY 2015 for its portion of the match.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** Metro Matters Program

**DESCRIPTION:** Metro Matters is a regionally funded program of capital improvements for the Washington Metropolitan Area Transit Authority. This program provides Maryland's share of the required contributions under the terms of the Metro Matters Funding Agreement.

**JUSTIFICATION:** The Metro Matters program was initiated in FY 2005 with a multi-year budget of approximately \$3.9B. A majority of Metro Matters project work was completed during FY 2005-2010. This program includes funding for debt service for long-term bonds issued by WMATA to fund the Metro Matters program.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law

- Project Inside PFA
- Project Outside PFA
- PFA Status Yet to Be Determined
- Grandfathered
- Exception Will Be Required
- Exception Granted

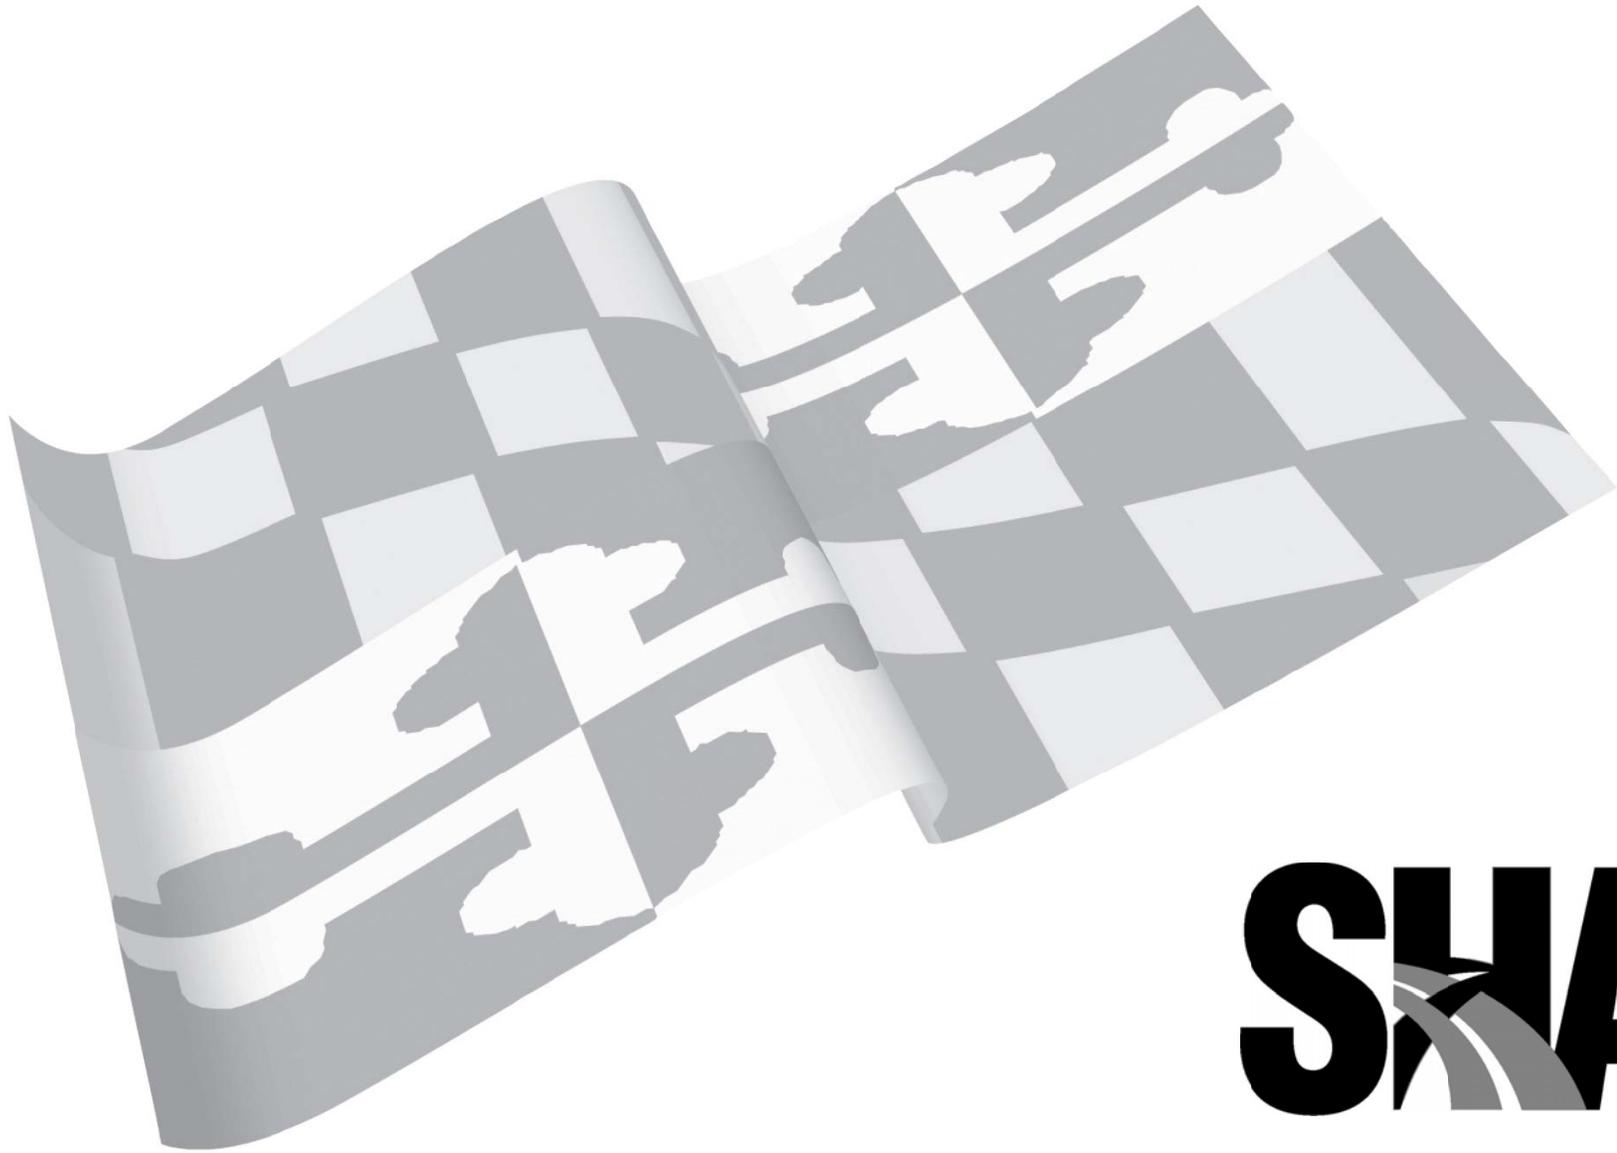

**ASSOCIATED IMPROVEMENTS:**  
None.

**STATUS:** Maryland's share of the annual contributions to the Metro Matters program is approximately \$10.5M during the FY 2015-2020. The final maturity date of the Metro Matters Bonds is in FY 2034.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The project cost increased \$10.5M annually due to the addition of FY 2020.

**SHA**

**SHA STATEWIDE**

**PROJECT:** Coordinated Highway Action Response Team (CHART)

**DESCRIPTION:** Install advanced traffic management system (ATMS) and advanced traffic information system (ATIS) technologies on Interstate highways and arterials statewide. Technologies include cameras, traffic detectors, weather sensors, dynamic message signs, highway advisory radios, web sites and telecommunication networks. CHART is comprised of five major components: 1) Traffic and Roadway Monitoring; 2) Incident Management; 3) "511" - Traveler's Information; 4) System Integration and Communication; 5) Traffic Management.

**PURPOSE & NEED SUMMARY STATEMENT:** Heavy volumes of traffic, stop-and-go commuter peaks, and lack of comprehensive information regarding current, real-time conditions on available alternatives contribute to and compound the effects of unexpected incidents. With the growth in traffic outpacing any realistic hope of expanding capacity through building new highways, or expanding existing ones, it is imperative to operate the existing system more efficiently through the application of Intelligent Transportation System technologies and interagency teamwork.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Projects in the CHART program will aid in the reduction of travel time, reduce congestion and provide critical traffic information for the traveling public, which improves movement of both passengers and freight. Messages on dynamic message boards provide information to aid in the safety and security of travelers.

**STATUS:** Engineering and Construction underway. This represents a summary of the Statewide CHART program. Individual corridor work is shown in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added funding in FY20.

**CLASSIFICATION:**

STATE - N/A

FEDERAL - N/A

STATE SYSTEM: N/A

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - N/A

PROJECTED (2030) - N/A

**PROJECT:** Community Safety and Enhancement Program

**DESCRIPTION:** This is the SHA element of the Statewide Neighborhood Conservation Program. Funds will be made available for highway transportation projects in designated revitalization areas. Areas will be designated by local jurisdictions, taking into account factors such as the age and number of abandoned and substandard structures, the extent of unemployment, and the redevelopment plans and strategies of the local jurisdiction. Project improvements include roadway reconstruction, lighting and drainage improvements, streetscaping and roadway improvements.

**PURPOSE & NEED SUMMARY STATEMENT:** Some of Maryland's older urban areas contain significant investments in physical infrastructure that are underutilized due to their inability to attract new investment. MDOT is joining with other State agencies to target resources for these areas with the goal of increasing their attractiveness to private investment.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Program targets transportation improvements in older urban areas with physical infrastructure including drainage and stormwater management that needs repair to support economic development and revitalization. Promotes bike and pedestrian access to commercial centers, transit facilities, schools, and public facilities. Encourages other State Agencies to target resources for those areas with the goal of increasing their attractiveness for private investment.

**STATUS:** Engineering, Right-of-way and Construction underway. This sheet represents a summary of this program. Individual projects are shown in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added funding in FY20.

**PROJECT:** Sidewalk Program

**DESCRIPTION:** This program will provide matching funds for the construction of sidewalks adjacent to State highways. Fifty percent of project costs will be required from local and municipal project sponsors, except in urban revitalization areas where projects are eligible for 100 percent state funding, and in priority funding areas where projects are eligible for 75 percent state funding.

**PURPOSE & NEED SUMMARY STATEMENT:** Program will support community revitalization efforts and efforts to encourage pedestrian usage along State highways consistent with the intent of the "Access 2000" legislation.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This program supports community revitalization and other efforts to encourage pedestrian usage along State Highways. Provides/promotes safer access to transit service for both surface bus and fixed rail systems.

**STATUS:** Engineering, Right-of-way and Construction underway. Working with local jurisdictions to identify projects. This sheet represents a summary of the Program. Individual projects are shown in SHA's Safety, Congestion Relief, Highway and Bridge Preservation Program.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added funding in FY20. Reallocated \$5.4 million to resurfacing program.

**PROJECT:** Sound Barrier Program

**DESCRIPTION:** Funding to implement retrofit sound barrier projects that meet eligibility criteria.

**PURPOSE & NEED SUMMARY STATEMENT:** Mitigating highway noise is an essential element of the Department's programs for environmental stewardship and community conservation.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This program provides mitigation of highway noise to those communities that qualify for noise abatement. Improves quality of life for eligible communities adjacent to access controlled facilities.

**STATUS:** Engineering, Right-of-way and Construction underway. This consolidates the total dollars available for sound barriers that meet eligibility criteria. Individual projects are shown in SHA's Safety, Congestion Relief, Highway and Bridge Preservation Program.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added funding in FY20.

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - N/A

PROJECTED (2030) - N/A

**PROJECT:** Total Maximum Daily Load (TMDL)

**DESCRIPTION:** Plan, design, and construct storm water controls and alternative water quality improvement strategies in Maryland Phase I and Phase II Counties in order to meet the US Environmental Protection Agency's (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements by the year 2025. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland commitment in its Watershed Implementation Phase I Plan (WIP I).

**PURPOSE & NEED SUMMARY STATEMENT:** SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollution Elimination Discharge System (NPDES) Phase I and Phase II Municipal Separate and Storm Sewer System Permit (MS4) permits. This programmatic effort is needed for compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** Implement strategies through the year 2025 that will primarily reduce nitrogen, phosphorus and sediment loads in waters that drain to the Chesapeake Bay from SHA-owned roads and coverage areas. Implementation Strategies to include: Structural and Non-Structural Best Management Practices; Environmentally Sensitive Designs; Stream and Wetland Restoration; and Afforestation.

**STATUS:** Engineering underway. Construction to begin during current fiscal year.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** This includes \$45.0 million in FY 15 General Obligation Bonds and \$350.0 million in FY16-FY19 of General Funds. Added funding in FY20.

***ALLEGANY COUNTY***

**PROJECT:** I-68, National Freeway

**DESCRIPTION:** Rehabilitation of Bridge 01092 on MD 51 over CSX, Canal Parkway and Bridge 01096 on I-68 (Cumberland Thruway) over Wills Creek/CSX/Municipal Streets including ramps 01107, 01108, 01109, 01110, 01111 and 01112 which connect to the Cumberland Thruway Structure.

**PURPOSE & NEED SUMMARY STATEMENT:** Existing bridge requires rehabilitation work including: cleaning, painting, lighting, superstructure and substructure repairs.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** I-68 provides a critical link through Western Maryland. Maintaining these structures supports this east/west movement.

**STATUS:** Construction underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost increase of \$1.7 million is due deteriorated bridge conditions which required additional concrete work.

***ANNE ARUNDEL COUNTY***

**PROJECT:** MD 175, Annapolis Road

**DESCRIPTION:** Constructed intersection capacity improvements from west of MD 713 (Rockenbach Road/Ridge Road) to east of Disney Road/26th Street. (BRAC intersection improvement)

**PURPOSE & NEED SUMMARY STATEMENT:** The project improved safety and operations along MD 175 and eased growing congestion resulting from BRAC expansion.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**ASSOCIATED IMPROVEMENTS:**

- MD 175, at Mapes and Reece Roads (Line 2)
- MD 175, Disney Road to Reece Road (Line 3)
- MD 175, MD 295 to MD 170 (Line 8)
- BRAC Intersection Improvements near Fort Meade (Statewide Line 7)

**EXPLANATION:** This project relieved traffic congestion on this failing intersection as a result of the projected volumes resulting from BRAC expansion.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost increase of \$1.6 million is due to a water and sewer line relocation.

***BALTIMORE COUNTY***

**PROJECT:** I-83, Harrisburg Expressway

**DESCRIPTION:** Replaced Bridge 03214 on Middletown Road over I-83.

**PURPOSE & NEED SUMMARY STATEMENT:** The bridge was nearing the end of its structural life and needed to be replaced. An additional lane was required to accommodate traffic volumes through the interchange during peak hours.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The Bridge serves as a major link along the I-83 commuter freight route. The I-83 corridor links southern Pennsylvania to Baltimore County and Baltimore City.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The bridges on I-695 Inner Loop over Benson and Leeds/US 1/AMTRAK/Herbert Run are structurally deficient. The new bridges will provide for future capacity improvements of I-695. The ramp is being realigned to provide improved and more direct local and commuter access to the I-695 Inner Loop and to reduce traffic on local streets particularly in Arbutus, including Leeds Ave. by relocating the entrance of it to US 1.

**STATUS:** Construction underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$13.0 million is due to a favorable bid price.

STATE - Principal Arterial

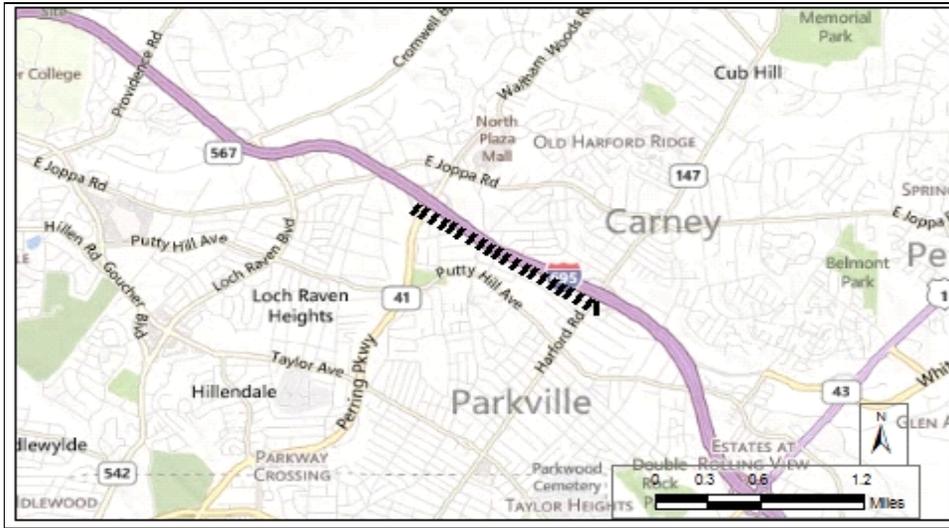

FEDERAL - Interstate

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

**CURRENT (2014) -** 202,200  
 4,500 (Leeds Ave. ramp)

**PROJECTED (2030) -** 247,800  
 6,400 (Leeds Ave. ramp)

**PROJECT:** I-695, Baltimore Beltway

**DESCRIPTION:** This project will provide a continuous auxiliary lane on both the Inner and Outer Loops of I-695 between MD 41 (Perring Parkway) and MD 147 (Harford Road). Other improvements include wider median shoulders on I-695; the replacement of the existing Old Harford Road bridge over I-695, and ramp modifications along on the Inner Loop of I-695 at the MD 147 interchange.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will improve safety and operations along this segment of I-695. The removal of the loop ramp will eliminate the existing weave maneuver along the Inner Loop of I-695, which in turn is expected to reduce crashes and delays.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project will improve safety and traffic flow on I-695 as this portion serves as a major connection between I-95 and I-83. This project will provide a continuous auxiliary lane and wider median shoulder on both the Inner and Outer Loops of I-695. The reconstruction of the Old Harford Road Bridge over I-695 will accommodate future widening along I-695. This project includes geometric improvements that will improve safety and operations at Harford Road.

**STATUS:** Construction underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$3.5 million is due to a favorable bid price.

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - 76,600

PROJECTED (2030) - 93,475

**PROJECT:** MD 25, Falls Road

**DESCRIPTION:** Replace Bridge #0301900 to Georges Run.

**PURPOSE & NEED SUMMARY STATEMENT:** The bridge is nearing the end of its structural life and needs to be replaced.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The bridge serves as an important link along the MD 25 corridor.

**STATUS:** Engineering underway. Right-of-Way to begin during current fiscal year. Construction to begin during budget fiscal year.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added to the Construction Program.

***FREDERICK COUNTY***

**PROJECT:** I-70, Baltimore National Pike

**DESCRIPTION:** Widened I-70 from east of MD 355 to east of MD 144FA (Phase 2D) (1.57 miles). Replaced I-70 bridge over South Street and replaced the existing ramps to Monocacy Boulevard and South Street.

**PURPOSE & NEED SUMMARY STATEMENT:** Signed as I-70, this section was constructed as US 40 Relocated and did not meet current Interstate highway standards. Existing interchanges had short acceleration and deceleration lanes, very sharp curves, short merging and weaving sections, and missing movements. Improvements included widening of the four-lane section and reconstruction of the interchanges. This project enhanced access to the City of Frederick and improved interstate travel.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
 I-70, Mount. Phillip Road to I-270 (Line 6)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** By improving the geometry of the existing interchange ramps between I-70 and Monocacy Boulevard and South Street, this project improved operations and safety along I-70 through Frederick.

**STATUS:** Open to Service

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost increase of \$2.0 million is due to additional drainage needs, guardrail, and footing excavation due to rocks.

POTENTIAL FUNDING SOURCE:		<input checked="" type="checkbox"/> SPECIAL <input checked="" type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

**CLASSIFICATION:**

STATE - Principal Arterial

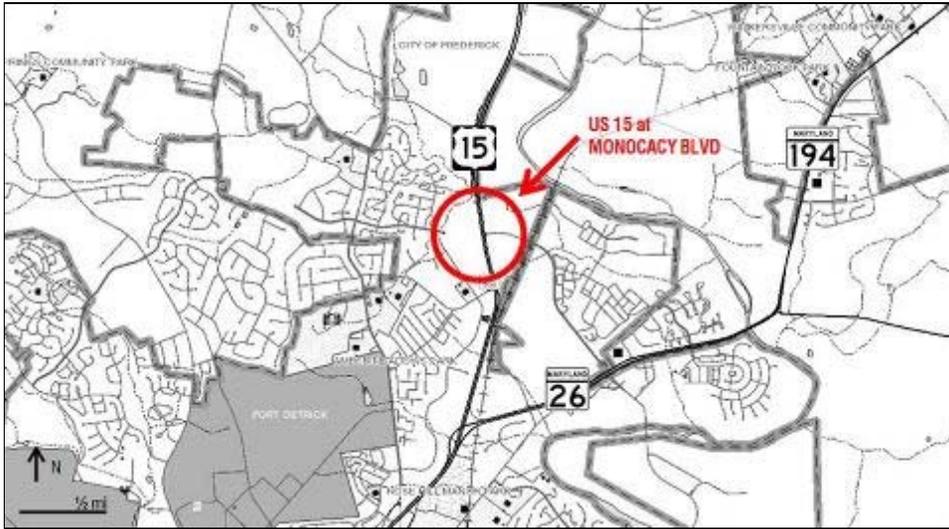

FEDERAL - Interstate

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - 85,750

PROJECTED (2030) - 102,900

**PROJECT:** US 15, Catocin Mountain Highway

**DESCRIPTION:** Construct a grade-separated interchange at Monocacy Boulevard including a park-and-ride lot. This project will include appropriate bicycle and pedestrian facilities. (BRAC Related)

**PURPOSE & NEED SUMMARY STATEMENT:** This project will add a new interchange and park-and-ride lot in the vicinity of US 15 and Monocacy Boulevard to safely accommodate future traffic volumes associated with planned development. The project will close the existing at-grade intersection at US 15 and Hayward Road.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
 I-270/US 15, Multimodal Corridor Study (Line 8)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The new interchange will improve safety and operations for all roadway users by closing existing at-grade intersections, providing new east-west access, and constructing a ride-share facility. This intersection will also support ongoing and planned growth.

**STATUS:** Engineering and Right-of-Way underway. Construction to begin during current fiscal year. The County is providing \$1.4 million for Engineering. The City has also committed \$1.4 million for Engineering.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$1.6 million is due to a revised engineer's estimate and reduced inflation. Due to a policy change the dollar amounts of the third party contributions are now being shown in the funding for the project.

***HARFORD COUNTY***

**PROJECT:** MD 7, Philadelphia Road

**DESCRIPTION:** Replaced the MD 7 (Philadelphia Road) bridge over James Run. Shoulders will accommodate bicyclists.

**PURPOSE & NEED SUMMARY STATEMENT:** This project replaced the existing deteriorated bridge and provided additional width for improved safety and operations. The wider shoulder will accommodate bicycles.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**  
 US 40, at MD 7/MD 159 (Phase 1) (Line 6)  
 US 40, at MD 7/MD 159 (Phase 2) (Line 7)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The deteriorated bridge is a major link along the MD 7 corridor. The MD 7 corridor serves as an alternate route to I-95 for the Abingdon and Belcamp communities in Harford County. The new structure provides 5' shoulders on both sides of the roadway to accommodate bicyclist.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$0.9 million is due to a favorable bid price.

***MONTGOMERY COUNTY***

**PROJECT:** I-270/Watkins Mill Road Extended

**DESCRIPTION:** Construct a new I-270 interchange at Watkins Mill Road. Bicycle and pedestrian improvements will be included as appropriate.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will support economic development and reduce existing congestion at the I-270/MD 124 interchange and the MD355/MD124 intersection. It will provide access from I-270 to Metropolitan Grove MARC Station.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**ASSOCIATED IMPROVEMENTS:**

MD 200, InterCounty Connector (Line 2)  
 I-270 and US 15 Multimodal Corridor Study (Line 14)

**EXPLANATION:** The new interchange will provide new access points to I-270 and provide for additional east-west access for all roadway users while reducing congestion on existing nearby interchange ramps and parallel roadways. This interchange also supports planned growth and economic development in the vicinity.

**STATUS:** Engineering and Right-of-Way underway. Construction to begin during budget fiscal year. The County is contributing \$4.9 million towards engineering.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$5.9 million is due to reduced inflation, and a revised engineer's estimate. Due to a policy change the dollar amounts of the third party contributions are now being shown in the funding for the project.

**CLASSIFICATION:**

STATE - Principal Arterial

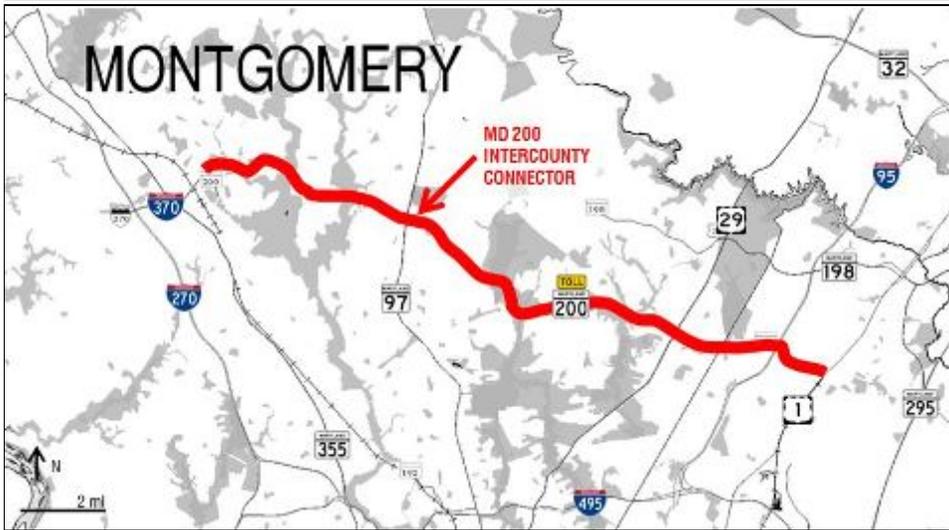

FEDERAL - Interstate

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - 167,300

PROJECTED (2030) - 191,500

**PROJECT:** MD 200, InterCounty Connector

**DESCRIPTION:** Constructed a new east-west multimodal highway in Montgomery and Prince George's Counties between I-270, I-95, and US 1.

**PURPOSE & NEED SUMMARY STATEMENT:** This transportation project was needed to increase community mobility and safety; to support development and local land-use plans; to improve access between economic growth centers; to advance homeland security measures; and to help restore the natural, human, and cultural environments affected by past development in the project area.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity       |

**ASSOCIATED IMPROVEMENTS:**

- US 29 Interchanges (Lines 16,17)
- MD 28/MD 198, MD 97 to I-95 (Line 19)
- I-95/Contee Road Interchange (Prince George's County - Line 1)
- MD 201 Extended/US 1, I-95/I-495 to North of Muirkirk Road (Prince George's County - Line 27)

**EXPLANATION:** MD 200, InterCounty Connector provided an east-west connection to facilitate movement of freight and people. It provided an improved route for emergency vehicles and improved security during a state of emergency. The new access supported master development in Montgomery and Prince George's counties. The project included numerous planned environmental features such as wildlife crossings and stream restorations.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Additional project funds are shown in MDTA's portion of the CTP. The funding shown in SHA's Program is due to the Federal Appropriation Acts of 2004 and 2005 and Federal High Priority/NC11P Project Funds.

***PRINCE GEORGE'S COUNTY***

**PROJECT:** I-95/Virginia Manor Road (Konterra Drive) Interchange

**DESCRIPTION:** Constructed a new interchange with collector-distributor roads at I-95 and Virginia Manor Road (Konterra Drive) (2.0 miles). Bicycle and pedestrian access were provided on Virginia Manor Road (Konterra Drive).

**PURPOSE & NEED SUMMARY STATEMENT:** This interchange and collector-distributor road relieved congestion on the mainline of I-95, improved traffic flow at the I-95/MD 198 interchange and provided access for planned development east and west of I-95.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

- MD 200, InterCounty Connector (Line 10)
- MD 28/MD 198, MD 97 to I-95 (Line 25)
- MD 201 Extended/US 1, I-95/I-495 to N. of Muirkirk (Line 27)
- Virginia Manor Road Relocated (TSO Program Line 4)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The new Interchange at I-95 and Virginia Manor Road (Konterra Drive) facilitates enhanced access and improved circulation to an area planned for growth and economic development.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost increase of \$8.7 million is due to increased Right-of-Way costs and a policy change where the dollar amounts of the third party contributions are now being shown in the funding for the project.

FEDERAL - Freeway - Expressway

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - 145,175

PROJECTED (2030) - 159,300

**PROJECT:** MD 5, Branch Avenue

**DESCRIPTION:** Construct a new interchange at MD 5, MD 373 and Brandywine Road Relocated. This project also includes a park and ride lot. Bicycle and pedestrian access will be included where appropriate.

**PURPOSE & NEED SUMMARY STATEMENT:** Significant traffic congestion occurs during peak hours and will increase as growth continues to occur in southern Prince George's County and Southern Maryland.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

MD 5, US 301 at T.B. to north of I-95/I-495 (Line 18)  
 US 301, South Corridor Transportation Study (Line 22)  
 US 301, Waldorf Area Project (Line 24)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This project reduces congestion at a major bottleneck along the MD 5 and US 301 corridor and removes at-grade conflict points at Brandywine Road and MD 373.

**STATUS:** Engineering and Right-of-Way underway. Construction to begin during budget fiscal year.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Moved from Development and Evaluation Program to the Construction Program.

STATE - Principal Arterial

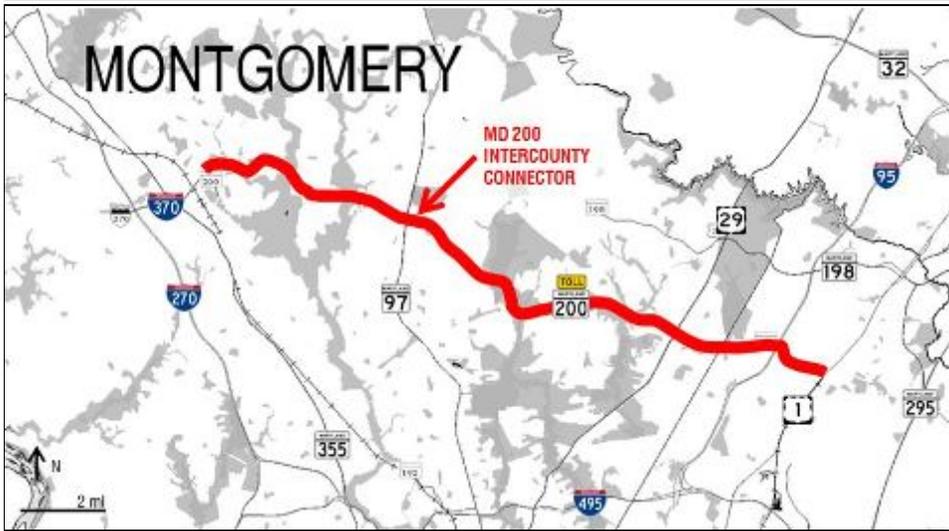

FEDERAL - Freeway - Expressway

STATE SYSTEM: Primary

**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2014) - 65,000

PROJECTED (2030) - 97,700

**PROJECT:** MD 200, InterCounty Connector

**DESCRIPTION:** Constructed a new east-west multimodal highway in Montgomery and Prince George's Counties between I-270, I-95, and US 1.

**PURPOSE & NEED SUMMARY STATEMENT:** This transportation project was needed to increase community mobility and safety; to support development and local land-use plans; to improve access between economic growth centers; to advance homeland security measures; and to help restore the natural, human, and cultural environments affected by past development in the project area.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

MD 28/MD 198, MD 97 to I-95 (Line 25)  
 MD 201 Ext/US 1, I-95/495 to N. of Muirkirk Road (Line 27)  
 Virginia Manor Road Relocated (TSO program Line 4)

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** MD 200, InterCounty Connector provided an east-west connection to facilitate movement of freight and people. It provided an improved route for emergency vehicles and improved security during a state of emergency. The new access supported master development in Montgomery and Prince George's counties. The project included numerous planned environmental features such as wildlife crossings and stream restorations.

**STATUS:** Open to Service.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Additional project funds are shown in MDTA's portion of the CTP. The funding shown in SHA's Program is due to the Federal Appropriation Acts of 2004 and 2005 and Federal High Priority/NC11P Project Funds.

***QUEEN ANNE'S COUNTY***

**PROJECT:** MD 404, Shore Highway

**DESCRIPTION:** Upgrade existing MD 404 from west of MD 309 to Cemetery Road (Phase 1B) (1.09 miles). Shoulders will accommodate bicycles and pedestrians.

**PURPOSE & NEED SUMMARY STATEMENT:** This project is needed to reduce traffic congestion caused by high seasonal peaks associated with summer resort traffic and to improve safety and service.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** This roadway expansion will improve safety and reduce traffic congestion caused by high seasonal peaks associated with summer resort traffic, helping to support Maryland tourism.

**STATUS:** Construction underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost decrease of \$8.7 million is due to a favorable bid price.

**DESCRIPTION:** Widen and rehabilitate the I-81 bridge over the Potomac River.

**PURPOSE & NEED SUMMARY STATEMENT:** Existing structure is functionally obsolete.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** I-81 provides a critical link through western Maryland. Maintaining this bridge supports this north-south movement of freight traffic from and to the Port of Baltimore to region destinations.

**STATUS:** Engineering underway. West Virginia funding the additional widening to the Maryland State Line.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** The cost increase of \$2.6 million is due to expanding the scope of work to include improvements at MD 63 and MD 68.

***WORCESTER COUNTY***

**PROJECT:** US 13, Ocean Highway

**DESCRIPTION:** Rehabilitation of Bridges 2301601 and 2301602 over Pocomoke River.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will improve safety and operations of the bridge. The project will also repair structural deficiencies within the substructure and superstructure.

**SMART GROWTH STATUS:**  Project Not Location Specific  Not Subject to PFA Law  
 Project Inside PFA  Grandfathered  
 Project Outside PFA  Exception Will Be Required  
 PFA Status Yet To Be Determined  Exception Granted

**ASSOCIATED IMPROVEMENTS:**

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

**EXPLANATION:** The northbound and southbound bridge decks have reached the end of their structural life and are in need of repairs. As the primary route over the Pocomoke River, replacing decks will help provide for the secure transportation of assets and operations for the safe movement of goods and people.

**STATUS:** Construction underway.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** I-95 John F. Kennedy Memorial Highway - Express Toll Lanes (ETL)

**DESCRIPTION:** Constructed two Express Toll Lanes in each direction from I-895 North to north of MD 43 (8.0 miles) and improved the interchanges with I-895, I-695 and MD 43. (BRAC related.)

**PURPOSE & NEED SUMMARY STATEMENT:** This segment of I-95 is the most congested section of I-95 in Maryland north of Baltimore City. Currently, I-95, south of MD 43, operates at Level of Service (LOS) F (lowest level of efficiency) during morning and evening rush hours. By 2025, this section is also expected to operate at LOS E (irregular flow with speed variations) and LOS F (lowest level of efficiency, frequent slowing required) during weekend peak periods. I-95 is the backbone of the east coast's transportation network and is essential to the movement of people and freight.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |  |   |
|--|---|
| <input type="checkbox"/> Safety & Security             | <input type="checkbox"/> Environmental Stewardship      |
| <input type="checkbox"/> System Preservation           | <input type="checkbox"/> Community Vitality             |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

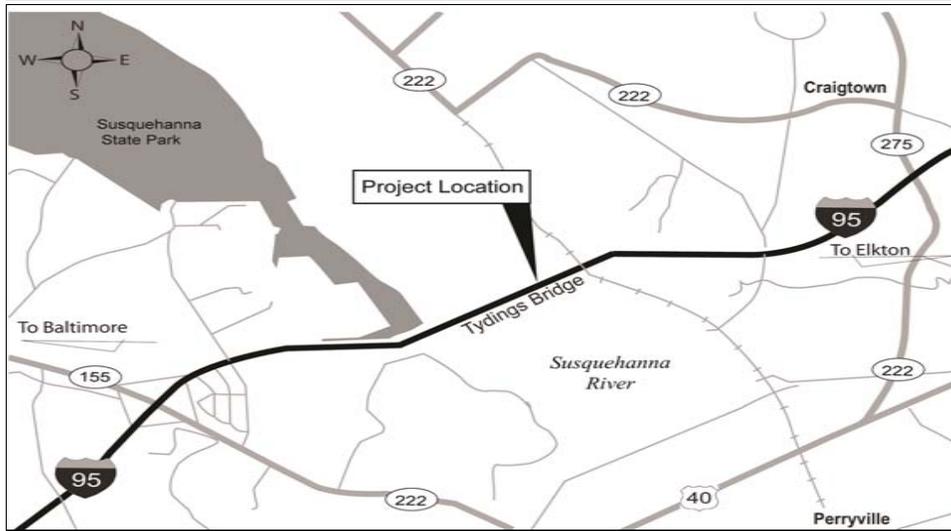

**ASSOCIATED IMPROVEMENTS:** None.

**EXPLANATION:** I-95, south of MD 43, experiences congestion during the morning and evening rush hours. By 2025, this section is also expected to experience congestion during weekend peak periods.

**STATUS:** Open to service.

**PROJECT:** I-95 John F. Kennedy Memorial Highway - Resurfacing

**DESCRIPTION:** Resurface I-95 northbound and southbound from MD 43 to the Maryland/Delaware state line. Phase I is from MD 43 to MD 24. Phase II is from MD 24 to the Tydings Bridge. Phase III is from the Tydings Bridge to the Maryland/Delaware state line.

**PURPOSE & NEED SUMMARY STATEMENT:** The I-95 roadway north of MD 43 is in need of resurfacing. Phase I is I-95 from MD 43 to MD 24, Phase II is from MD 24 to the Tydings Bridge and Phase III is from the Tydings Bridge to the Maryland/Delaware state line. Only Phases I and II are funded at this time.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

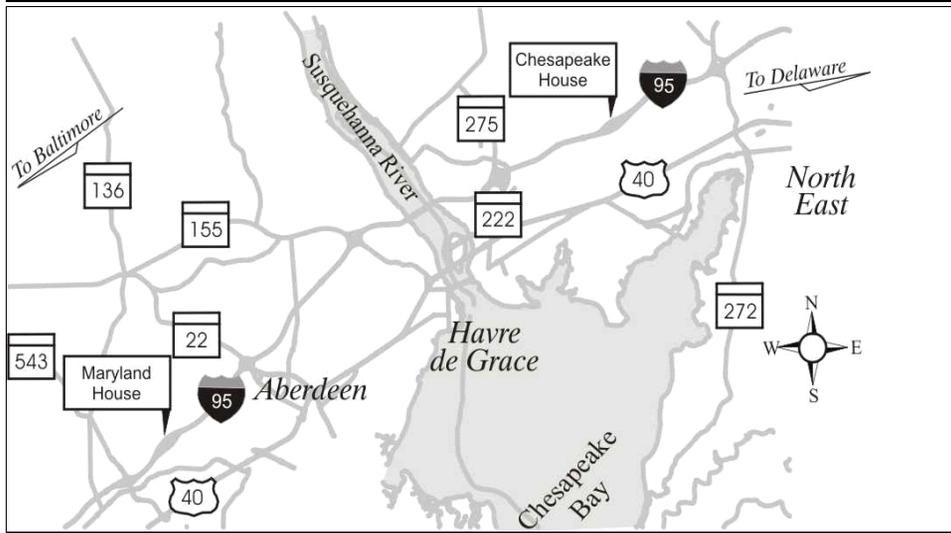

**ASSOCIATED IMPROVEMENTS:** None.

**EXPLANATION:** The I-95 roadway is in need of resurfacing from MD 43 to the Maryland/Delaware state line (northbound and southbound). Phase I is I-95 from MD 43 to MD 24, Phase II is from MD 24 to the Tydings Bridge and Phase III is from the Tydings Bridge to the Maryland/Delaware state line.

**STATUS:** Construction of Phase I is complete. Engineering is complete and construction is underway for Phase II.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Cost decreased by \$3.1 million due to revised cost estimating procedures.

**PROJECT:** I-95 Fort McHenry Tunnel - Replace Weathering Steel High Mast Light Poles North and South of the Tunnel

**DESCRIPTION:** Replace all weathering steel high mast light poles with galvanized steel poles on I-95 in Baltimore City, north and south of the Fort McHenry Tunnel. Also, replace foundations and associated conduits/controls. Most of these weathering steel poles represent the original lighting structures when the facility was first built in 1985.

**PURPOSE & NEED SUMMARY STATEMENT:** The weathering steel high mast light poles were part of the original construction in 1985 and are nearing the end of their useful life. They will be replaced with galvanized steel poles that have a longer life expectancy.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- Safety & Security
- System Preservation
- Quality of Service
- Environmental Stewardship
- Community Vitality
- Economic Prosperity

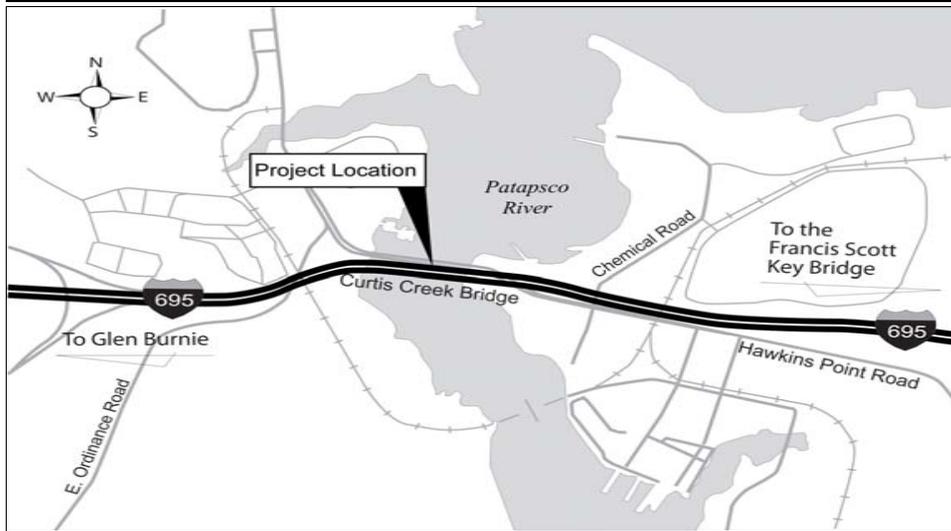

**ASSOCIATED IMPROVEMENTS:** None.

**EXPLANATION:** The weathering steel high mast light poles were part of the original construction in 1985 and are nearing the end of their useful life. They will be replaced with galvanized steel poles that have a longer life expectancy.

**PROJECT:** I-895 Baltimore Harbor Tunnel Thruway - Replace Vent Fans

**DESCRIPTION:** Replace 32 ventilation fans located in the Canton and Fairfield Ventilation Buildings.

**PURPOSE & NEED SUMMARY STATEMENT:** The ventilation system is an integral part of the Baltimore Harbor Tunnel. The fans are nearing the end of their useful life and need to be replaced.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship |

**PROJECT:** I-895 Baltimore Harbor Tunnel Thruway - Replace Deck and Superstructure of Bridge over Patapsco Flats

**DESCRIPTION:** Replace the deck and superstructure of the bridge over the Patapsco Flats.

**PURPOSE & NEED SUMMARY STATEMENT:** This project includes the replacement of the complete superstructure and deck. The concrete filled steel grid deck and steel superstructure are exhibiting signs of deterioration and warrant a complete superstructure replacement.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Added to the Construction Program.

**PROJECT:** US 50/301 Bay Bridge - Clean and Paint Structural Steel Westbound Bridge

**DESCRIPTION:** Partial painting of all structural steel surfaces on the westbound bridge of approximately three million square feet including girder spans, deck trusses, overhead truss members and suspension spans. Phase I is painting the west girder spans. Phase II is cleaning and painting the suspension towers, spot painting the remainder of the suspension span and zone painting the deck truss spans. Phase III is cleaning and painting the deck truss spans and steel rail posts and rehabilitating the steel barrier. Phase IV is cleaning and painting the east girder and through truss spans.

**PURPOSE & NEED SUMMARY STATEMENT:** The bridge has not been fully painted since it opened in 1973. Limited spot painting has been done as needed. The paint is showing signs of wear. This improvement will protect the steel components of the bridge and extend the useful life.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship |

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** US 50/301 Bay Bridge - Rehabilitate Suspension Spans Westbound Bridge

**DESCRIPTION:** Rehabilitate the suspension spans on the westbound Bay Bridge, including work on the suspension cables, the bridge superstructure, substructure and bearings.

**PURPOSE & NEED SUMMARY STATEMENT:** The main suspension cable investigation at the westbound Chesapeake Bay Bridge found areas with varying degrees of wear. The installation of supplemental cables will maintain long-term serviceability of the suspension system. Additionally, signs of wear were found during the routine inspections of structural components of the suspended spans that will be repaired to extend the useful life of the components.

**STATE GOALS:** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Cost increased by \$3.9 million due to scope changes including the addition of extensive shoring for the scale pits, a dynamic message sign, software, bonding and a higher mobilization rate to reflect number of sites.

**PROJECT:** Authority-Wide - Replace Electronic Toll Collection and Operating System - 3rd Generation

**DESCRIPTION:** The project will develop the framework and consequential contracts for the 3rd generation toll system. The project's contracts will replace the Electronic Toll Collection Next Generation (ETCNG) contracts currently deployed. Project is a multiyear project with major phases including a design/build phase, integration, testing and transition and an operations phase that may be 5-10 years depending on final project plan development.

**PURPOSE & NEED SUMMARY STATEMENT:** This project will update the Electronic Toll Collection and Operating System software and increase the capacity for handling video tolling and citations.

**STATE GOALS :** Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- |   |  |
|---|--|
| <input type="checkbox"/> Safety & Security              | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality        |
| <input checked="" type="checkbox"/> Quality of Service  | <input type="checkbox"/> Economic Prosperity       |

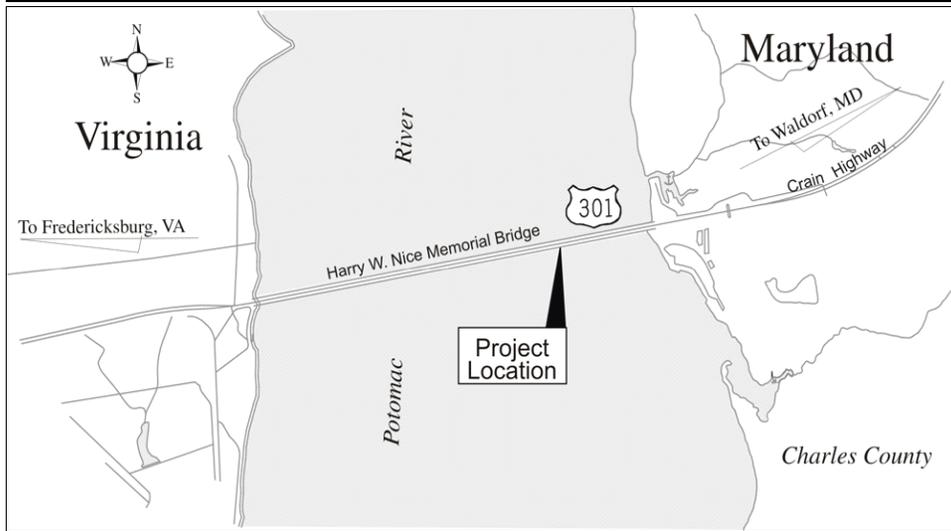

**ASSOCIATED IMPROVEMENTS:** None.

**EXPLANATION:** This project will update the Electronic Toll Collection and Operating System software and increase the capacity for handling video tolling and citations.

**STATUS:** Engineering is underway. Construction is scheduled to begin in FY 2017.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** Cost decreased by \$3.9 million to reflect revised engineering guidelines.

**PROJECT:** US 301 Harry W. Nice Memorial Bridge - Replace Nice Bridge

**DESCRIPTION:** Preliminary engineering and right-of-way acquisition for the replacement of the current bridge with a new 4-lane bridge.

**JUSTIFICATION:** The existing bridge does not meet current standards, i.e., narrow lanes, lack of shoulders, and steep grades with lack of truck climbing lanes. The existing bridge during peak periods is reaching capacity. Traffic is projected to increase by 45 percent on weekdays and 33 percent on weekends by 2025.

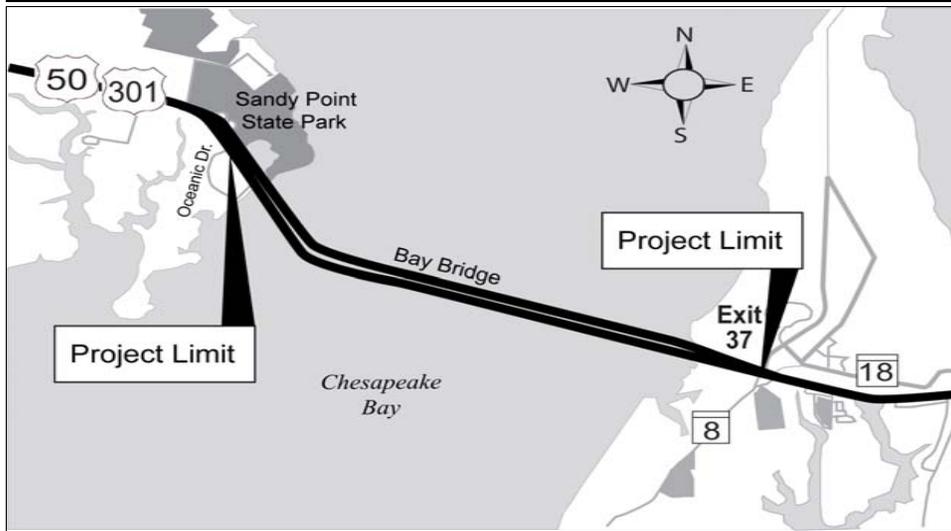

**ASSOCIATED IMPROVEMENTS:**

US 301 Harry W. Nice Memorial Bridge - Clean and Paint Structural Steel and Miscellaneous Structural Repairs - Construction Program (Line 20)

**STATUS:** Planning is complete. Engineering is underway. Right-of-way acquisition is scheduled to begin in FY 2015.

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** US 50/301 Bay Bridge - Rehabilitate Eastbound Bridge Deck

**DESCRIPTION:** Preliminary engineering for the rehabilitation and/or replacement of the eastbound bridge deck.

**JUSTIFICATION:** The eastbound deck is exhibiting various degrees of deterioration as it was last replaced in 1985. Industry standards indicate that the deck is nearing the end of its life cycle.

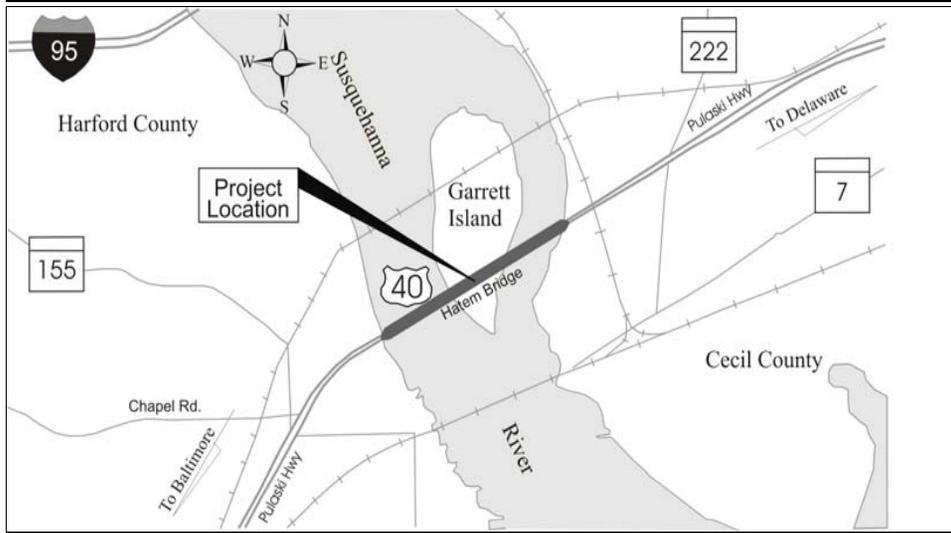

**ASSOCIATED IMPROVEMENTS:**

- US 50/301 Bay Bridge - Clean and Paint Structural Steel WB Bridge - Constr. Program (Line 14)

**SIGNIFICANT CHANGE FROM FY 2014 - 19 CTP:** None.

**PROJECT:** US 40 Thomas J. Hatem Memorial Bridge - Convert to All Electronic Tolling (AET) and Rehabilitate Approach Roadways

**DESCRIPTION:** Remove the toll plaza, realign the roadway, rehabilitate pavement, install AET gantry and toll collection equipment, overlay and restripe pavement.

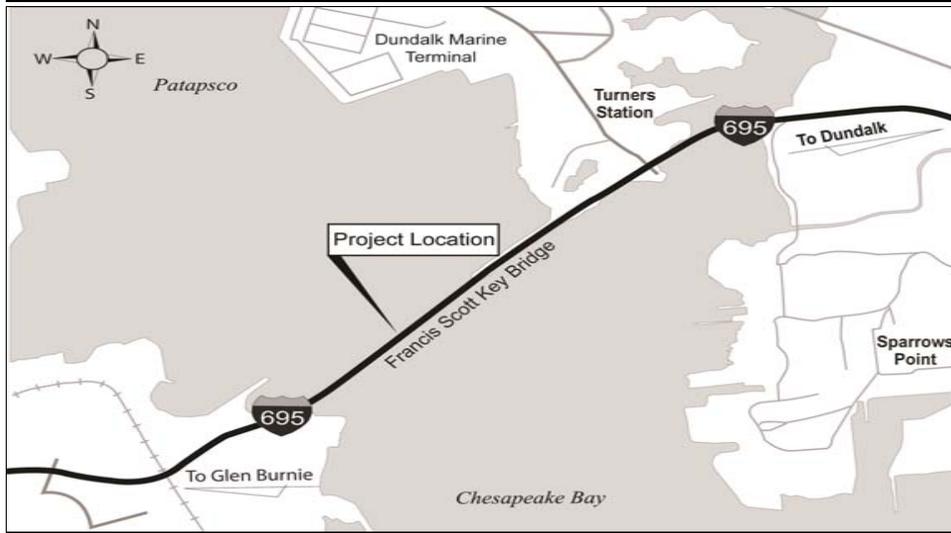

**JUSTIFICATION:** Conversion to All Electronic Tolling (AET) will reduce travel time, increase safety and provide a reduction in toll collection and maintenance costs. The rehabilitation of the approach roadways is needed based on the condition of the existing pavement.

**ASSOCIATED IMPROVEMENTS:** None.

**STATUS:** Engineering is on hold.

128	Replace Eastbound Bay Bridge Navigational Lighting (2347)	1,586	Fall, 2015

**GLOSSARY**

***CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY***

State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP) and the Consolidated Transportation Program (CTP).
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland’s program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity.
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Remaining Cost to Complete	Amount of funds required after the budget year to complete a project.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project.
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service.
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment.

***CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)***

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated.
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements.
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements.
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources.
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area.
(PP)	Project Planning: The state in the planning process where detailed studies and analysis are conducted to establish the scope and location of proposed transportation facilities.
(PE)	Preliminary Engineering: The state in project development when surveys, soil conditions, elevations, right-of-way plats, and detailed design plans and specifications are prepared.
(RW)	Right-of-Way: Acquisition of land for transportation projects.
(CO)	Construction.
(IN)	Inflated Cost.
(FA)	Federal-aid.
(STP)	Surface Transportation Program category of federal aid
(NHS)	National Highway System category of federal aid.

***CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)***

(IM)	Interstate Maintenance category of federal aid.
(BR)	Bridge Replacement/Rehabilitation category of federal aid.
(CMAQ)	Congestion Mitigation/Air Quality category of federal aid.
(DEMO)	Specific projects identified in federal legislation for demonstration purposes.
