

CONSOLIDATED TRANSPORTATION PROGRAM FY 2016 – FY 2021

2016 STATE REPORT ON TRANSPORTATION

Larry Hogan
Governor

Boyd K. Rutherford
Lt Governor

Pete K. Rahn
Secretary

MARYLAND’S CONSOLIDATED
TRANSPORTATION PROGRAM

The Consolidated Transportation Program (CTP) is Maryland's six-year capital budget for transportation projects. The Capital Program includes major and minor projects for the Maryland Department of Transportation ("MDOT" or "Department"), its transportation business units – the Maryland Aviation Administration (MAA), Maryland Port Administration (MPA), Motor Vehicle Administration (MVA), State Highway Administration (SHA), Maryland Transit Administration (MTA) – and related authorities to the Department, including the Maryland Transportation Authority (MDTA) and the Washington Metropolitan Area Transit Authority (WMATA).

In this document, you will find a Project Information Form (PIF) for every major project, which includes project details, financial information and construction status as well as a list of minor capital projects. MDOT works together with residents, local jurisdictions, and local and State elected officials to include projects in the CTP that preserve investments, enhance transportation services, and improve accessibility throughout the State. In order to help Maryland’s citizens review this document, the CTP includes a summary of the Department’s financing and budgeting process and instructions for reading PIFs.

MDOT ensures nondiscrimination and equal employment in all programs and activities in accordance with Title VI and Title VII of the Civil Rights Act of 1964. If you need more information or special assistance for persons with disabilities or limited English proficiency, contact MDOT’s Office of Diversity and Equity at 410-865-1397.

For the hearing impaired, Maryland Relay 711.

For further information about this document or to order a hard copy, please contact Ms. Melinda Gretsinger at the Maryland Department of Transportation, Office of Planning and Capital Programming toll free at 1-888-713-1414, or locally at 410-865-1288. This document also is available online at: www.ctp.maryland.gov.

For more information on Maryland transportation, please visit us on the web at www.mdot.maryland.gov.

MARYLAND'S CONSOLIDATED TRANSPORTATION PROGRAM

The Maryland Department of Transportation ("MDOT" or "Department") is pleased to present the State's six-year capital investment program for transportation, the FY 2016-2021 Consolidated Transportation Program (CTP).

The CTP is the capital budget outlook and a key part of the State Report on Transportation (SRT) that MDOT publishes each year. The SRT contains three important documents: the Maryland Transportation Plan (MTP), the Consolidated Transportation Program (CTP), and the annual Attainment Report (AR) on Transportation System Performance. MDOT last updated the MTP, a 20-year vision for Maryland's transportation system, and released it in January 2014. The MTP is updated every four to five years through an extensive outreach effort with the public, local jurisdictions, and state agencies to ensure it reflects the needs and priorities of Marylanders. To learn more, visit the MTP website at www.mdot.maryland.gov/MTP. The CTP contains projects and programs across the Department. It includes capital projects that are generally new, expanded or significantly improved facilities or services that may involve planning, environmental studies, design, right-of-way acquisitions, construction, or the purchase of essential equipment related to the facility or service.

ESTABLISHING PRIORITIES

This year's CTP reflects the priorities of the Department as embodied in the goals outlined in the MTP, our mission, and the results we aim to achieve. These priorities must address federal and state requirements; local government mandates, interests, and concerns; and customer needs. The mission of the Department of Transportation is to be a customer-driven transportation leader that delivers safe, efficient, intelligent and exceptional transportation solutions in order to connect our customers to life's opportunities.

While the existing revenues will go a long way towards addressing many needs, MDOT recognizes that these revenues cannot address every need. Consequently, MDOT will use these resources strategically and efficiently to ensure that transportation investments address the Department's mission and goals, as well as the Department wide results we strive to achieve, including, to:

- Facilitate economic opportunity in Maryland;
- Provide a safe and secure transportation experience;
- Provide exceptional customer service;
- Provide an efficient, well connected transportation experience;
- Use resources wisely;
- Deliver transportation solutions and services of great value;
- Communicate effectively with our customers;
- Be a good neighbor;
- Be a good steward of our environment; and
- Be fair and reasonable to our partners.

Facilitate Economic Opportunity in Maryland

Maryland's transportation system is essential to the State's economy. An efficient transportation system provides a competitive advantage to businesses in a regional, national and global marketplace. Transportation directly impacts the viability of a region as a place that people want to live, work and raise families, all critical to attracting a competent workforce. Transportation infrastructure provides value, and investing in Maryland's transportation system creates jobs and supports Maryland industries and businesses. MDOT works to ensure its investments support a healthy and competitive state economy. It will do this by undertaking projects that improve access to jobs as well as improve freight and commodity flows and the movement of goods and services in and through Maryland.

The Hogan-Rutherford Administration has declared Maryland “Open for Business” and has challenged MDOT to facilitate economic opportunity and to help create jobs. To do this, MDOT must focus on fixing our highways and bridges and addressing congestion issues all around the State by employing efficient and innovative transportation solutions. Toward that end, this year’s CTP adds several new projects to address long-standing transportation issues across the State. Cost savings and reallocation have allowed the Department to be in the fortunate position to move these projects forward to address many of the State’s needs and invest public dollars in the most efficient and cost effective way while supporting economic development and creating or supporting jobs.

Freight

Freight activity in Maryland and throughout the East Coast is expected to double by 2030. Maryland’s location at the crossroads of the I-95 corridor and significant rail and marine corridors means that the infrastructure in Maryland is critical to the state, regional, and national economy. As much of Maryland’s freight network is shared with passenger or vehicle operations, both freight and passenger growth will exacerbate already congested infrastructure throughout the State. The resulting chokepoints create significant challenges for freight and passenger movement in the region. It is imperative that MDOT work with local and state officials and freight stakeholders to plan and facilitate the necessary improvements to accommodate freight demand and allow for the cost-effective and safe movement of goods by all modes.

To meet these needs, MDOT is taking an aggressive approach to implement multimodal freight solutions in Maryland and the greater multi-state region. Through planning activities, MDOT is working to cultivate partnerships with neighboring states, freight stakeholders and non-profits. MDOT also participates in freight efforts regionally with groups such as the I-95 Corridor Coalition. Please refer to the CTP Freight Summary Section on page FRT-1 of the CTP. *In addition the 2015 Strategic Goods Movement Plan is on MDOT’s website at www.mdot.maryland.gov.*

Transit-Oriented Development (TOD)

Transit can be most efficient and effective when it serves to connect relatively dense clusters of houses, jobs, and destinations. A development that is “transit-oriented” typically comprises a mixture of land uses configured and oriented to maximize visibility and access to the transit station. TOD projects design street networks and parking to ensure the safety and comfort of pedestrians and bicyclists, while ensuring efficient traffic flow to automobiles, buses and carpoolers. TOD can help ensure that Maryland

residents achieve maximum benefit for their investment in transit and related transportation infrastructure. By helping to increase transit ridership, TOD can help reduce highway congestion, pollution, and sprawl for the benefit of all Maryland residents.

MDOT works with state, local and private partners to support TOD through: pre-development planning, policy and program support; joint development partnerships; infrastructure investments; and other project support. MDOT has an active program of TOD planning and joint-development projects, spanning multiple jurisdictions and station types. MDOT also works with other agencies and local jurisdictions to help identify additional TOD opportunities and promote transit-supportive land-use policies. *More information on TOD can be found on MDOT’s website.*

Provide a Safe & Secure Transportation Infrastructure

MDOT will not compromise on our commitment to continually improve the safety and security of our customers and partners in everything we do. It is critical that we commit to safety and security in our designs, in our construction, as well as how we operate and maintain the State’s transportation system. We promote a culture of safety in our business practices and educate our traveling public on good safety behavior and practices. The Department works with our federal and local law enforcement partners on a daily basis to constantly evaluate and implement measures to reduce the vulnerability of Maryland citizens and facilities. With federal and state investments, progress is being made on a variety of fronts.

Reducing highway fatalities and serious injuries on all public streets and highways is a priority of the Department. Despite increases in vehicle miles traveled, reported traffic crashes declined in Maryland to 442 in 2014, the lowest since 1948. This continues the trend seen between 2012 and 2013 when there were 45 less fatalities (a 9% decrease from 511 fatalities in 2012.) The State Highway Administration is continuing its tradition of using data and other techniques to identify, and then systematically address safety concerns that arise from congestion and operational issues.

Recent investments to enhance public safety and security include projects at BWI Marshall Airport to create state-of-the-art passenger security screening areas between Concourses B and C and between Concourses D and E. These projects are providing for a post-security connection between concourses A, B and C, as well as between concourses D and E (the International Terminal).

On June 25, 2015, Governor Larry Hogan announced construction funding for MD 404 from US 50 to the Denton Bypass, which includes widening of MD 404 from a two-lane road to a four-lane divided highway with a median to improve safety for a length of 11.3 miles. Procurement is anticipated to begin in Winter 2015/2016 with a construction start in Spring 2017 using one Design-Build contract. This is one example of how we are prioritizing important safety projects around the State.

Provide an Efficient, Well Connected Transportation Experience

MDOT will provide an easy, reliable transportation experience throughout the system including enhancing connections and developing world class transportation facilities and services. The users of Maryland highways face some of the nation's worst congestion. This fact has stifled economic development across the State. The Hogan-Rutherford Administration intends to change that and has directed MDOT to address long-standing congestion issues by initiating projects statewide that will serve to increase mobility and move traffic more efficiently. Construction of new highway capacity to accommodate travel has not kept pace with demand.

Congestion results when traffic demand approaches or exceeds the available capacity of the highway network. Traffic demands fluctuate significantly depending on the season of the year, the day of the week, and even the time of day. Further, the capacity, often mistaken as constant, can change because of weather, work zones, traffic incidents, or other non-recurring events. This means MDOT has to be vigilant and flexible and provide solutions that fit the nature of the problem in any given corridor. Projects within this CTP are intended to provide Maryland with the best possible solutions for the current situation and fit within the appropriate context for the problems they are trying to address.

Use Resources Wisely

MDOT receives resources from our customers and they expect excellent products and services in return. In order to better serve our customers, MDOT must maximize the value of every dollar we spend. MDOT continues to place a high priority on allocating funds toward system preservation. The CTP reflects significant investments in the bridge program, road and runway resurfacing, rail car overhauls and replacements, bus replacements, and general facility rehabilitation, replacement and upkeep.

A key focus area is the condition of bridges across Maryland. SHA continues to make significant progress in reducing the number of structurally deficient

bridges (bridges are safe but need repairs/replacement) on the State's highway system to ensure safe travel for Maryland motorists and users of our system. Over the last few years, SHA has reduced the number of structurally deficient bridges from 81 in April of 2014 to 69 in April of 2015, a 15% decrease and one of the lowest percentages (3%) of any State DOT in the United States. In addition, SHA spent more than \$287 million in FY 2015 on resurfacing roads, a 12% increase over FY 2014.

On the transit side, the MTA is continuing to invest in Automatic Vehicle Location (AVL) systems to obtain a more accurate picture of bus performance. MTA is also developing an Asset Management Plan, which will analyze asset information currently collected to provide insight into long term maintenance and capital replacement needs.

Deliver Transportation Solutions and Services of Great Value

MDOT will deliver transportation solutions on time and within budget. We will use strategies to ensure that the transportation solution meets the needs of our customers and eliminates unnecessary costs.

Transit

In June 2015 Governor Larry Hogan announced \$135 million in targeted investments to transform and improve transit throughout the Baltimore metropolitan area. The multi-phase plan will create an interconnected transit system, known as BaltimoreLink, and includes redesigning the entire local and express bus systems throughout the Baltimore Region and adding 12 new high-frequency, color-coded bus routes, CityLink, that improve connections to jobs and other transit modes. The BaltimoreLink system will deliver a unified transit network and includes renaming existing Maryland Transit Administration (MTA) modes: LocalLink (Local Bus), Light RailLink, Metro SubwayLink and MobilityLink to create an interconnected transit system. Other key elements of the BaltimoreLink system include transitways, transit hubs and transit signal priority.

A major component of the BaltimoreLink system is CityLink that will improve reliability and better connect riders to Amtrak, Commuter Bus lines, Light RailLink, MARC commuter trains, Metro SubwayLink and other services in Baltimore and the surrounding suburbs. In Baltimore City, new CityLink routes will run every 10 minutes during peak periods and every 15 minutes during the midday. The new CityLink buses will be specially branded and travel on color-coded routes with easy-to-read signage and detailed maps that will make the system easier to use. The CityLink bus routes, Light RailLink and Metro SubwayLink will form an interconnected, one-transfer system. On the new system, a rider will be able to get from any stop to any other stop with only one transfer.

Our plan will provide more people access to 745,000 jobs through an interconnected transit system:

- Over 130,000 more jobs will be accessible via high-frequency transit compared to the existing network – a 36.7% increase
- 205,000 more people will have access to high-frequency transit compared to the existing network – a 34% increase
- 30,000 more people will have access to transit by increasing the service area by approximately 18 square miles

To learn more about BaltimoreLink, visit the MDOT website.

In order to be more transparent and open, MTA posted a Transit Performance Improvement Plan on its website focusing on on-time performance, reliability and farebox recovery, which will be updated quarterly.

For more information, visit www.mta.maryland.gov/mta-performance-improvement

MDOT is currently implementing a Public-Private Partnership (P3) delivery method for the Purple Line. The Purple Line is a 16-mile light rail line that will extend from Bethesda in Montgomery County to New Carrollton in Prince George's County. It will provide a direct connection to the Metrorail Red, Green and Orange lines; at Bethesda, Silver Spring, College Park, and New Carrollton. The Purple Line will also connect to MARC, Amtrak, and local bus services.

A shortlist of four proposer teams was selected in January 2014, the Request for Proposals was released in July 2014, and P3 proposals were submitted and are currently under review. The expected outcome of the P3 process will be a 35-year, performance-based agreement between MDOT/MTA and the selected private partner. The private partner, also referred to as the concessionaire, will be responsible for key aspects of final design, construction, financing, operations, and maintenance of the Purple Line asset over the agreement term. In addition to state transportation funds, the Purple Line is funded with federal funds, local contributions, and investments by the private partner. *For more information, visit www.purplelinemd.com.*

Highway

MDOT is developing a Practical Design Strategy that is called Practical Transportation which takes the concept of Practical Design and applies it to more than the design of highway projects. The goal of Practical Design is to assess the value of an individual project to meet the specific purpose and needs of the project in the context of its surrounding environment considering project costs, the physical environment and the community. In addition to developing an approach on new projects, MDOT is also evaluating projects currently in the pipeline to identify Practical Transportation solutions that improve the quality of life (live, work, learn, and play) of the citizens of Maryland, and all users of the transportation system and support economic development. MDOT is also working to develop an engineering policy that incorporates Transportation Design Solutions into MDOT workflows.

Be a Good Neighbor

As the owner of statewide transportation facilities, MDOT must work with our neighbors to find solutions that work for our customers and is sensitive to our neighbors. This includes examining all of the modes of travel including flying, driving, riding transit and even freight coming into the port.

One way to connect better and work with our neighbors is to provide better bicycle and pedestrian connections. MDOT works to provide safe infrastructure so that people can choose to walk or bike to meet their daily

needs. Working with local partners to support walking and bicycling is an essential element of Cycle Maryland initiatives. Promoting biking and walking as transportation modes holds many benefits for Maryland residents, including the potential to reduce congestion and emissions associated with auto-travel, while promoting activity for a healthier Maryland. Several recent studies have also highlighted strong rates of economic return that bicycle and pedestrian projects can have, supporting job-creation, tourist activity and cost-savings for household transportation budgets.

MDOT seeks to integrate accommodations for walking and bicycling into all appropriate projects, and has several programs specifically directing additional funding to walking and biking. This CTP includes over \$200 million for bicycle and pedestrian supportive projects. These investments include continued commitment for the Bikeways Program that supports local bicycle transportation projects, providing necessary funding to implement the Statewide Trails Plan and the Bicycle and Pedestrian Master Plan.

Be a Good Steward of our Environment

MDOT will be accountable to our customers for the wise use of limited resources and our impacts on the environment when designing, building, operating and maintaining Maryland's transportation system. MDOT's commitment to Environmental Stewardship is one aspect of a larger commitment to use innovative and forward-looking strategies to ensure our transportation system protects our natural, cultural and community resources.

By coordinating land-use, transportation, and resource planning with partners in other agencies and local governments, MDOT helps to ensure that the investments made will meet multiple needs for the citizens of Maryland. Using the State's Green Infrastructure Plan and Chesapeake Bay Restoration priorities as a guide, MDOT agencies are minimizing negative impacts and using project mitigation to support the State's broader conservation goals. To help decrease pollution from entering our waterways, the CTP supports a three-pronged approach. Retrofitting older parts of the transportation network with the latest stormwater management technology; restoring natural filters through stream restoration, forest establishment and wetland creation; and adopting protective operational practices will move the State closer to meeting mandated water quality targets.

MDOT is working to reduce air emissions and managing energy consumption related to the transportation industry. These issues are being addressed by continued efforts to provide alternatives to traveling by single occupant vehicles. MDOT uses a variety of Travel Demand Management (TDM) strategies to support alternatives to driving alone and limit emissions from the transportation sector. TDM efforts can also help reduce congestion, lower commuting costs, and improve air quality. Some of these efforts are: carpooling, car sharing, transit, teleworking, and variable pricing infrastructure.

MDOT is implementing these strategies in cooperation with our partners in the metropolitan planning organizations (MPOs), the Maryland Department of the Environment, local governments, and the private and not-for-profit sectors.

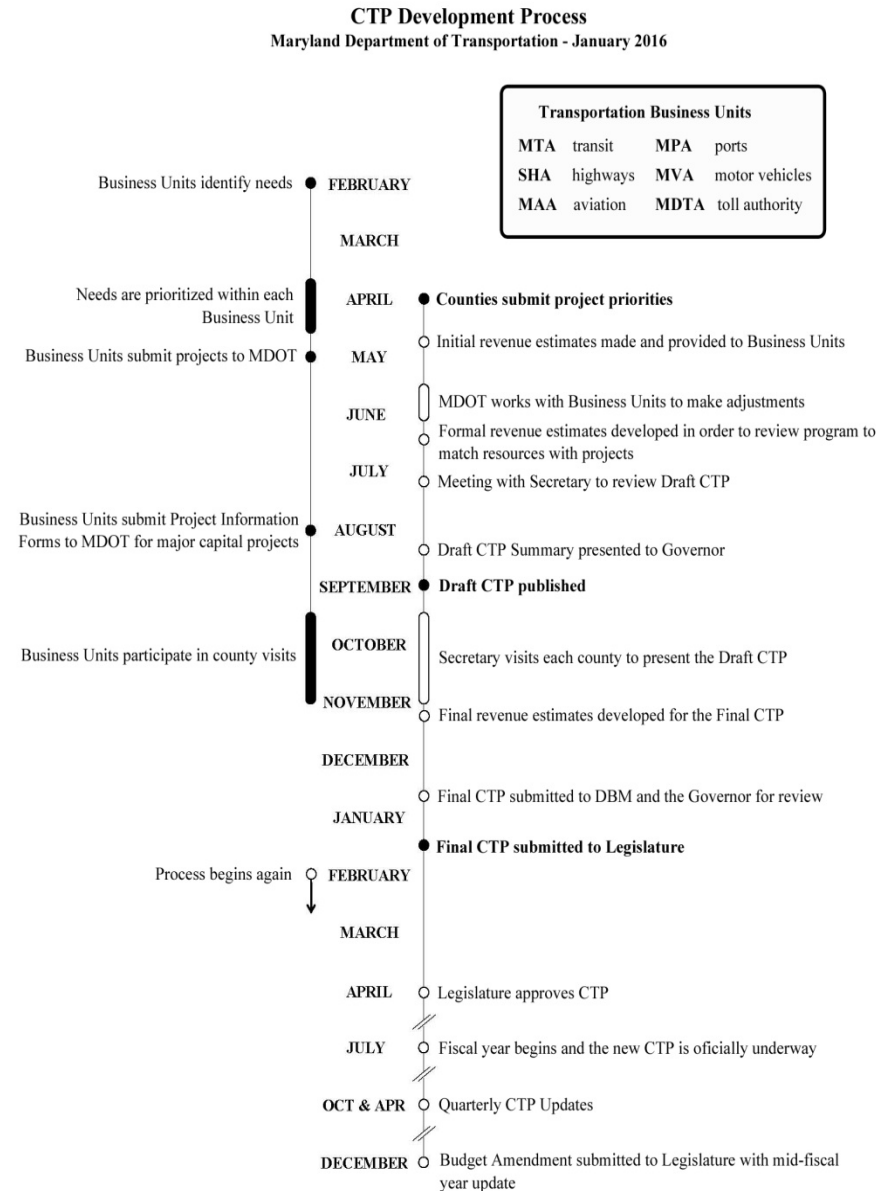

Process for CTP Development

The CTP takes nearly a full year to create through the collaboration and work of MDOT staff with state, regional and local elected officials. Each year, local jurisdictions are encouraged to submit priority project(s) to the State by April. It is important for MDOT to hear from local jurisdictions to facilitate collaboration on state and local needs. MDOT uses the following criteria to identify projects and programs that respond to the State's transportation priorities.

These criteria include:

- Meets all federal and other legal mandates (e.g. Total Maximum Daily Load (TMDL) compliance, Positive Train Control (PTC), Federal Aviation Administration (FAA) regulations to maintain airport permits);
- Supports the Department's program priorities and MTP goals (safety, system preservation, economic development, etc.);
- Meets all federal match requirements to maximize federal revenue sources;
- Supports state plans and objectives;
- Supports existing project commitments and upholds intergovernmental agreements;
- Is the single top priority within a local priority letter;
- Is consistent with local plans; and
- Is included in the regional Metropolitan Planning Organization (MPO) long-range plan (if the project is located within an MPO boundary).

FINANCING MARYLAND'S TRANSPORTATION PRIORITIES

In developing the CTP and establishing funding levels, MDOT must account for state and local economic growth, fluctuations in state transportation revenue, and allocations of federal funding. The State's Transportation Trust Fund supports MDOT investments through a dedicated account. The Transportation Infrastructure Investment Act of 2013 (Transportation Act) phases in a variety of revenue increases, which will provide funding that will enable MDOT to address important capital and operating needs including congestion relief, safety improvements, transit availability; and maintain the competitiveness of the Port of Baltimore and the BWI Marshall Airport.

State Revenue Projections

As Maryland's economy continues to recover, the new revenues provided by the Transportation Act are a welcome "shot in the arm" enabling MDOT to ready Maryland's transportation network for the 21st century. Total projected revenues amount to \$28.5 billion for the six-year period. This estimate is based on the revenue sources used by MDOT and includes bond proceeds and federal funds that will be used for operating, capital and debt payment expenses. The projection does not assume any future State tax or fee increases beyond those changes enacted to date. Funds to accommodate the Governor's pledge to restore local Highway User Revenues have been reserved, pending legislation.

Pertinent details are as follows:

- **Opening Balance:** MDOT's goal is to transition to a \$150 million fund balance over the program period to accommodate working cash flow requirements throughout the year.
- **Motor Fuel Tax:** This revenue is projected to be \$6.8 billion over the six-year period. As of January 1, 2016, the motor fuel taxes were 32.6 cents per gallon gasoline and the 33.35 cents per gallon diesel fuel. These rates include the revenue components provided by the Transportation Act. The Consumer Price Index (CPI) effect is estimated to average 2.4 cents per gallon over the program period. Since federal legislation enabling states to require internet sellers to collect sales taxes did not pass by December 1, 2015, the sales and use tax equivalent rate applied to motor fuel increases to 4% effective January 1, 2016 and to 5% effective July 1, 2016. The sales and use tax equivalent rate effective January 1, 2016 is 8.0 cents per gallon. The sales and use tax is estimated to average 12.2 cents per gallon.
- **Motor Vehicle Titling Tax:** This source is projected to yield \$5.1 billion. The titling tax of 6 percent of the fair market value of motor vehicles, less an allowance for trade-in vehicles, is applied to new and used vehicles sold and to vehicles of new residents. This revenue source follows the cycle of auto sales with periods of decline and growth. Following the recent national down cycle, vehicle sales have stabilized and titling tax revenues are starting to recover. It is projected that this six-year planning period will follow a normal business cycle around an underlying upward trend.

- **Motor Vehicle Registration/Miscellaneous, and Other Fees:** These fees are projected to generate \$3.7 billion. This forecast assumes revenues will increase an average of 1.5 percent every two-year cycle.
- **Corporate Income Tax:** The transportation share of corporate income tax revenues is estimated to be \$939 million. Legislation enacted during the 2011 session of the General Assembly altered the portion of the State's 8.25 percent corporate income tax that MDOT receives. MDOT's share will be 16.6 percent for fiscal years 2014-2016, and 14.6 percent for each fiscal year thereafter.
- **Federal Aid:** This source is projected to contribute \$5.5 billion for operating and capital programs. This amount does not include \$618 million received directly by the WMATA. The majority of federal aid is capital; only \$570 million is for operating assistance. Since federal aid supports a significant portion of the capital program, a more detailed discussion of federal aid assumptions is presented in the next section of this summary.
- **Operating Revenues:** These revenues are projected to provide a six-year total of \$2.8 billion, with \$1.1 billion from MTA, \$305 million from MPA, and \$1.4 billion from MAA. MTA revenues primarily include rail and bus fares, which will be indexed to inflation beginning in fiscal year 2015, as provided by the Transportation Act. MPA revenues include terminal operations, the World Trade Center, and other Port related revenues. MAA revenues include flight activities, rent and user fees, parking, airport concessions, and other aviation-related fees.
- **Bond Proceeds:** It is projected that \$3.5 billion of bonds will be sold in the six-year period. The level of bonds that could be issued is dependent on the net revenues of MDOT. This level of bonds is affordable within the financial parameters used by MDOT.
- **Other Sources:** The remaining sources are projected to provide \$176 million. These sources include earned interest from trust funds, reimbursements, and miscellaneous revenues.

FEDERAL AID ASSUMPTIONS

Enacted in December 2015, the Fixing America's Surface Transportation (FAST) Act re-authorized federal funding for highway, transit and other multimodal projects through September 30, 2020. The FAST Act includes some policy changes, a new focus on freight and provides funding certainty

for five full years through September 2020 including built-in inflation from existing funding levels.

The bill focuses on freight establishing a new formula program for freight, increases some flexibility in spending by converting certain funds into block grants, and streamlines certain functions by eliminating duplications and creating some pilot programs. Authorization does not mean appropriation. While Congress authorized a five year transportation bill, each year, Congress must then appropriate the funds through the federal budget process, which can be at lower amounts than authorized. For FFY 16, Congress has appropriated the transportation bill at the authorized amounts. Maryland is expected to receive approximately \$610 million in FY 2016 inflated up to \$666 million in FY 2020 in highway formula funding and \$240 million in FY 2016 inflated up to \$257 million in FY 2020 in transit formula funding.

Federal aid, representing 19 percent of the total funding in Maryland's Transportation Trust Fund (TTF), supports the multimodal investments in the State's FY 2016 - FY 2021 Consolidated Transportation Program (CTP).

Highways and Transit

Most of the federal funds received by MDOT come from the Federal Highway Trust Fund (FHTF), which provides transportation investment for projects in the following areas: highways and transit, multimodal freight, safety and security, system preservation, bike and pedestrian, and congestion mitigation.

The CTP allocates these federal funds to projects in the program based on reasonable assumptions of authorization given the FAST Act. MDOT expects to have approximately \$593 million in highway formula funding and \$160 million in transit formula funding in FFY 2016 for MDOT projects. The Purple Line has received strong ratings from the Federal Transit Administration and is moving through the process to be eligible for New Starts funding. The FFY 2016 Consolidated Appropriations Act supports the Obama Administration's request for \$900 million for Maryland's Purple Line, with \$100 million set aside for the Purple Line if the Full Funding Grant agreement is signed in FFY 2016.

Federal highway program funds authorized and apportioned to the states are subject to annual ceilings, which determine how much of the authorized money can be obligated in any given year. This ceiling is referred to as Obligation Authority (OA) and is imposed by Congress annually in response to prevailing economic policy. Since FFY 2004, OA has ranged from 84 percent to 95 percent. The OA level received in FFY 2015 was 94.0

percent. Given that Congress has passed a long term bill with inflation built in, this CTP assumes an OA level of 94.0 percent for FFY 2016 and an OA level of 90.0 percent for FY 2017 through 2021.

Washington Metropolitan Area Transit Authority — WMATA

The Washington Metropolitan Area Transit Authority (WMATA) is expected to receive a significant allocation of FAST Act federal formula funds for bus and rail preservation activities. In FFY 2016, the Washington, D.C. Metropolitan Region expects to receive approximately \$360 million under the FAST Act and if fully appropriated, would represent an increase of 8 percent over current levels. This amount is distributed between WMATA, the Potomac and Rappahannock Transportation Commission (PRTC) and the Maryland Transit Administration (MTA) subject to an agreement that, if consistent with the prior year, would leave WMATA with approximately \$310 million in formula funding. Additionally, FFY 2016 funding of \$148.5 million is provided through the 2008 Passenger Rail Investment and Improvement Act (PRIIA) that authorizes federal funding of up to \$1.5 billion over 10 years. The combined federal funding of more than \$458.5 million is a critical complement to WMATA's largest single source of funding - the \$1.3 billion in combined operating and capital subsidies provided by the region's State and local jurisdictions each year. The region's jurisdictions created WMATA through an interstate compact as an agency of the State of Maryland, the District of Columbia and the Commonwealth of Virginia. The jurisdictions demonstrate their commitment by providing more than 40 percent of the funding for WMATA's \$3.1 billion annual budget.

MDOT's first priority for WMATA is to fix the existing system by prioritizing safety and state of good repair investments. To this end, this CTP includes a total of \$300 million (\$50 million each year in FFY 2016 through 2021) as Maryland's matching contribution required by the federal PRIIA legislation. To date, the signatory parties have fulfilled their promise by providing funds to match federal grants provided from FFY 2010 through FFY 2015. In FY 2016 through FY 2021, federal grants are expected to provide \$2.9 billion in funding to WMATA's capital program. This compares with \$3.2 billion in State and local funding in FY 2016 through FY 2021, combining annual pay-as-you-go contributions of \$2.2 billion and \$1 billion in proceeds from debt issuances wherein State and Local governments agree to cover debt service payments,

The Federal Transit Administration's (FTA) 2014 audit of WMATA's financial management and procurement practices and the resulting drawdown restrictions on WMATA's federal aid have impacted the agency's ability to deliver on its capital projects. Additionally, the fatal Smoke Incident at the

L'Enfant Plaza station in January 2015 and subsequent FTA Safety Management Inspection report yielded recommendations that will require additional investment to address safety deficiencies. The FFY 2015 Consolidated Appropriations Act requires future funding for WMATA to be tied to their ability to successfully address the audit findings and that system safety projects receive highest priority when allocating funding. Consistent with this direction, MDOT will work with WMATA and regional partners to ensure that safety and state of good repair projects are prioritized and that WMATA implements adequate controls and properly manages and accounts for every taxpayer dollar it receives.

Aviation

The Federal Aviation Administration (FAA), through the Airport Improvement Program (AIP), is authorized to provide federal entitlement and discretionary funding for airport projects. The MAA estimates annual AIP entitlement funding will range from \$3.5 million to \$4.0 million for the BWI Marshall Airport during the six-year period. Entitlement funding is calculated using enplanement and cargo-based formulas for the BWI Marshall Airport and adjusted based on the airport's authority to collect Passenger Facility Charges (PFC). The MAA received \$16.9 million of entitlement and discretionary AIP funding in FFY 2015 toward the Runway Safety Area, Standard and Pavement Improvement program, plus \$2.6 million of Voluntary Airport Low Emissions (VALE) funding for PC Air and 400 Hz power on terminal passenger boarding bridges. The MAA received \$30 million of federal discretionary funds in FFY 2014, and \$21 million in FFY 2013. The MAA received \$16.9 million of entitlement and discretionary AIP funding in FFY 2015 toward the Runway Safety Area, Standard and Pavement Improvement program, plus \$2.6 million of Voluntary Airport Low Emissions (VALE) funding for PC Air and 400 Hz power on terminal passenger boarding bridges.

Port of Baltimore

The Water Resources Reform and Development Act (WRRDA) reauthorization bill, enacted by Congress in May 2014, authorizes U.S. Army Corps of Engineers (COE) projects. This bill includes the authorization for funding to dredge Maryland's 135 miles of federal navigation channels leading into the Port of Baltimore. This legislation is necessary to support high priority projects such as maintaining deepened navigation channels and harbor maintenance, as well as key dredge placement projects such as Poplar Island and Mid-Chesapeake Bay Island. MDOT continues to work with the Maryland Congressional Delegation to ensure this critical funding is available to maintain access to the thriving Port of Baltimore.

WHERE THE MONEY COMES FROM...

Maryland's transportation system is funded through several dedicated taxes and fees, federal aid, operating revenues, and bond sales, which are assigned to the Transportation Trust Fund. This fund is separate from the State's General Fund, which pays for most other State government operations and programs. MDOT's customers pay user fees for transportation infrastructure and services through motor fuel taxes, vehicle titling taxes, registration fees, operating revenues, and corporate income taxes. The motor fuel tax and vehicle titling tax are two of the largest sources of MDOT revenue. Operating revenues include transit fares and usage fees generated at the Port of Baltimore and BWI Marshall Airport. In addition to collecting revenue within the State, Maryland also receives federal aid for its transportation program. These federal funds must be authorized by a congressional act. The United States Congress enacted federal surface transportation authorizing legislation the, FAST Act, in December 2015, which provides investment in transportation infrastructure through FFY 2020.

Where The Money Comes From

Total projected Trust Fund revenues amount to \$28.5 billion for the six-year period covered by this CTP. These amounts incorporate estimates for the additional revenues provided by the Transportation Infrastructure Investment Act of 2013 and are based on the assumption that the economy will continue along a moderate growth scenario for the next six years.

WHERE THE MONEY GOES...

The MDOT program is fiscally constrained, meaning that the list of projects is tied to estimates of future revenue. The Trust Fund supports operation and maintenance of State transportation systems, administration, debt service, and capital projects. A portion of these funds is directed to the General Fund and a share is also dispersed among Maryland's counties and Baltimore City for local transportation needs. After operating costs, debt service, and local distributions, the remaining money goes toward funding capital projects. This document, Maryland's CTP, is the six-year capital budget for all State transportation projects. This FY 2016 - 2021 CTP totals about \$15.7 billion, \$14.5 billion of which comes through the Trust Fund and \$1.2 billion from "Other" fund sources, including local contributions, WMATA direct funding, PFC airport fees, etc.

Where The Money Goes

*Includes local HUR restoration, pending legislation

Capital Expenditures

FY 2016-2021 CTP SUMMARY (\$ MILLIONS)					
	STATE FUNDS	FEDERAL AID	OTHER*	TOTAL	PERCENT OF TOTAL
TSO	254.8	78.5	1.0	334.3	2.1

TOTAL	9,535.5	4,956.5	1,213.5	15,705.4	100.0

Note: Figures may not add perfectly due to rounding.

* Funds not received through the Trust Fund. Includes some funds from Maryland Transportation Authority (MDTA), Passenger Facility Charges (PFC), Customer Facility Charges (CFC) and federal funds received directly by WMATA.

** Projects using non-trust fund financing sources are included in the total.

TSO – Transportation Secretary's Office

MVA – Motor Vehicle Administration

MAA – Maryland Aviation Administration

MPA – Maryland Port Administration

MTA – Maryland Transit Administration

WMATA – Washington Metropolitan Area Transit Authority

SHA – State Highway Administration

EVALUATING OUR PERFORMANCE

In 2000, the Maryland General Assembly passed a bill requiring MDOT to develop an Annual Attainment Report (AR) on Transportation System Performance. The main objectives of the AR are:

- to report on progress toward achieving the goals and objectives in the MTP and the CTP;
- to establish performance indicators that quantify achievement of these objectives; and
- to set performance targets.

The performance measures were developed and will continue to be developed and updated periodically in a collaborative effort between the Secretary's Office, the transportation business units, and, every 4-5 years, with the AR-Advisory Committee. These performance measures were last updated January 2014. The AR documents how MDOT is achieving its goals and objectives based on performance indicators and helps Maryland citizens assess improvements to its transportation system.

Since 1996, MDOT has undertaken Managing for Results (MFR) as part of the budget process. MFR is a strategic planning, performance measurement, and budgeting process that emphasizes use of resources to achieve measurable results, accountability, efficiency, and continuous improvement in state government programs.

The FAST Act requires the Secretary, in consultation with states, metropolitan planning organizations (MPOs), and other stakeholders, to establish performance measures in the areas listed below. USDOT continues to establish measures. The emphasis areas are:

- Pavement condition on the Interstate System and on the remainder of the National Highway System (NHS);
- Performance of the Interstate System and the remainder of the NHS;
- Bridge condition on the NHS;
- Fatalities and serious injuries (both number and rate per vehicle mile traveled) on all public roads;
- Traffic congestion;
- On-road mobile source emissions; and
- Freight movement on the Interstate System.

MDOT expects to be working with USDOT, the regional MPOs, and other stakeholders to respond to these new requirements once the regulations and guidance are promulgated and demonstrate the effectiveness of MDOT's programs. To the extent these measures can be combined they will, but MDOT may be required to develop multiple reporting and metrics to address these requirements.

The Maryland Department of Transportation (MDOT) is organized into transportation business units responsible for different modes of travel. Projects in the Consolidated Transportation Program (CTP) are listed under the transportation business unit responsible for the project's delivery.

Funding Phases

Engineering – Engineering projects involve detailed environmental studies and preliminary and final design. Having been through a detailed analysis based on the information from the Project Planning phase, these projects are candidates for future addition to the Construction Program.

Construction – This last stage includes the costs of actually building the designed facility.

Federal-Aid – This is the amount of the total that will utilize federal funding.

The CTP also contains information on minor projects. These projects are smaller in scope and cost. They also can include road resurfacing, safety improvements, and sidewalk and bicycle trail construction. Following this introduction is an explanation of some of the significant changes from last year's CTP. This section lists major projects added to the CTP or projects that have advanced to a new stage of development. It also lists changes in construction schedules and projects removed from the CTP. The CTP also includes information regarding the economic trends and assumptions and future revenue projects that inform the capital programming process.

MAJOR PROJECT SIGNIFICANT CHANGES TO THE FY 2015-2020 CTP

Significant project changes consist of additions to, or deletions from, the Construction Program or the Development and Evaluation Program; changes in the construction start year; significant cost increases or decreases, and changes in the scope of a project.

In total, \$722.1 million worth of projects have been added to the CTP. Of that amount thirty-nine projects at a cost of \$721.1 million were added to the Construction Program. One project at a cost of \$1.0 million was added to the Development and Evaluation Program (D&E). In addition, fifteen projects were moved from the D&E Program to the Construction Program at a cost of \$1.02 billion. One project was moved from the Construction Program to the D&E Program at a cost of \$12.9 million. These projects are listed below by category.

PROJECTS REMOVED FROM THE D&E PROGRAM

The following projects have been removed from the D&E Program:

<u>PROJECT DESCRIPTION</u>	<u>PHASE</u>	<u>JUSTIFICATION</u>
Maryland Aviation Administration Exit Lane Technology at BWI Marshall Airport	Engineering	Project moved from D&E to Minor Program, Project #2028
State Highway Administration US 29, Colesville Road/Columbia Pike, and MD 384, Colesville Road; US 29, Colesville Road/Columbia Pike, and MD 384, Colesville Road BRT Study (Montgomery)	Planning	Bus Rapid Transit (BRT) project moved to the MTA program.
MD 97, Georgia Avenue; MD 97, Multimodal transit study between Glenmount and Olney (Montgomery)	Planning	Montgomery County was funding Planning. County decided not to pursue this as BRT route.
MD 355, Wisconsin Avenue/Rockville Pike/Hungerford Drive/Frederick Road/Frederick Avenue; MD 355, Bethesda to Clarksburg BRT Study (Montgomery)	Planning	Bus Rapid Transit (BRT) project moved to the MTA program.

PROJECTS REMOVED FROM THE CONSTRUCTION PROGRAM

The following projects have been removed from the Construction Program:

<u>PROJECT DESCRIPTION</u>	<u>PHASE</u>	<u>JUSTIFICATION</u>
State Highway Administration MD 32, Patuxent Freeway; Wellworth Way access improvements (Howard)	Construction	Moved to the System Preservation Program

CONSTRUCTION SCHEDULE DELAYS

The start of construction has been postponed from the schedule shown in the FY 2015-2020 CTP, for the following four major projects:

<u>PROJECT DESCRIPTION</u>	<u>JUSTIFICATION</u>	<u>FISCAL YEAR</u>
Maryland Aviation Administration		
Homeowner Assistance Program	Federal funding usage requires noise map update.	FY 2015 to FY 2016
State Highway Administration		
MD 30 Bus. Main Street;MD 30, North Woods Trail to CSX Railroad (Carroll)	Construction delayed due to Town of Hampstead constructing water and sewer upgrades	FY 2016 to FY 2017
MD 355, Rockville Pike;MD 355, Woodmont Avenue/Glenbrook Parkway to South Wood Drive/South Drive (Montgomery)	Montgomery County is performing the Advertisement and Construction of this project. Delayed to match Montgomery County's project schedule.	FY 2015 to FY 2016
I-270, Eisenhower Highway;I-270, Interchange at Watkins Mill Road extended (Montgomery)	Due to the scope of the project being revised	FY 2016 to FY 2017

COST & SCOPE CHANGES

In total, one-hundred and fifty-four major construction projects experienced significant changes in project cost or scope, for a net increase of \$645.0 million. One-hundred projects increased in cost by a total of \$1.31 billion, while forty-eight projects experienced decreases totaling \$666.8 million. The scope of five projects changed, which caused a net increase totalling \$16.5 million, while two projects experienced a reduction in scope totalling \$18.7 million. There are many reasons for these changes, including legislated changes in program participation rates, more refined cost estimates, changes in design and environmental requirements. The specific reasons for significant changes to individual projects are noted on their respective Project Information Forms (PIF's).

FY 2015 ACCOMPLISHMENTS
MAJOR PROJECT COMPLETIONS

The Department completed twenty-three major projects in FY 2015, at a total cost of \$3.88 billion. These projects are listed below:

<u>PROJECT DESCRIPTION</u>	<u>TOTAL COST</u> <u>(\$ MILLIONS)</u>
Maryland Aviation Administration	
B/C Connector at BWI Marshall Airport	112.6
Maryland Port Administration	
Masonville Vessel Berth Construction	23.2
Maryland Transit Administration	
MARC West Baltimore Station Parking Expansion	10.6
Central Maryland Transit Maintenance Facility	14.8
State Highway Administration	
I-68, National Freeway, and MD 51, Industrial Boulevard; I-68, Rehabilitate Bridge over Willis Creek/CSX/Cumberland Thruway and Bridge #01092 on MD 51. (Allegany)	18.5
I-68, National Freeway; I-68, Replace Bridge decks over Kelley Ave., CSXT & Patterson Ave. (Allegany)	10.8
MD 648, Baltimore Annapolis Boulevard; Replace Bridge over Cattail Creek (Anne Arundel)	1.4
MD 234, Budds Creek Road; MD 234, Replace Bridge over Allens Fresh Run (Charles)	3.3
US 15, Catoctin Mountain Highway; Replace Bridge on Motter Ave. (Frederick)	15.5
US 219, Garrett Highway; Replace Bridge over Cherry Creek (Garrett)	3.3

A- WMATA capital and operating grants in the Secretary's Office budget are shown for informational purposes.

B- Includes County and Municipality transfer funds from the federal government.

C- Capital Program WMATA Grants line includes federal funds received by WMATA directly.

D- "Other" funds are included in the totals for TSO, MAA, MTA and WMATA.

E- Debt Service for County Bonds is not included in FY 2018 - 2021

F- Funds not received through the Trust Fund. Includes funds from Passenger Facility Charges (PFC), Maryland Transportation Authority (MdTA) funds, Certificates of Participation (COPs), County participation and federal funds received by WMATA directly.

SUMMARY OF FEDERAL AID OBLIGATIONS
(\$ MILLIONS)

The following listing estimates the annual levels of funds anticipated from individual federal aid categories necessary to support the FY 2016-FY 2021 CTP/STP:

	Federal Fiscal Year					<u>TOTAL</u>
	<u>2016</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>	<u>2020 - 21</u>	
National Highway Performance Program (NHPP)	341.3	303.3	299.9	338.7	516.4	1,799.6

MAJOR BRIDGE PROJECTS

The following is a list of major bridge reconstruction, rehabilitation and replacement projects. New highway bridges that are part of a highway project are not included. Detailed information for each can be found on the Major PIF's as referenced.

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Allegany County</u>		
	<u>Construction Program</u>	
1.	I-68, National Freeway, and MD 51, Industrial Boulevard -- Interstate	I-68, Rehabilitate Bridge over Willis Creek/CSX/Cumberland Thruway and Bridge #01092 on MD 51.
2.	I-68, National Freeway -- Interstate	I-68, Replace Bridge decks over Kelley Ave., CSXT & Patterson Ave.
3.	MD 36, Mount Savage Road -- Secondary	MD 36, Bridge over Jennings Run
4.	MD 47, Barrelville Road -- Secondary	MD 47, Bridge over North Branch
<u>Baltimore County</u>		
	<u>Construction Program</u>	
1.	I-83, Harrisburg Expressway -- Interstate	I-83, Bridge over Padonia Road
3.	I-695, Baltimore Beltway -- Interstate	I-695, Bridge on Crosby Road over I-695
4.	I-695, Baltimore Beltway -- Interstate	I-695, Replace Bridge over Milford Mill Road
6.	I-695, Baltimore Beltway -- Interstate	I-695, Replace Bridge over Benson Ave./Leeds Ave./US 1/Amtrak
9.	MD 25, Falls Road -- Secondary	MD 25, Bridge to Georges Run
10.	MD 137, Mount Carmel Road -- Secondary	MD 37, Bridge over I-83
12.	US 1, Washington Boulevard -- Secondary	US 1, Bridge over CSX
13.	US 40, Pulaski Highway -- Secondary	US 40, Bridges over Little and Big Gunpowder Falls

MAJOR BRIDGE PROJECTS (Cont'd.)

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Calvert County</u>		
	<u>Construction Program</u>	
2.	MD 261, Bayside Road -- Secondary	MD 261, Replace Bridge over Fishing Creek
<u>Caroline County</u>		
	<u>Construction Program</u>	
3.	MD 331, Dover Road -- Secondary	MD 331, Replace Bridge over Choptank River
<u>Carroll County</u>		
	<u>Construction Program</u>	
2.	MD 86, Lineboro Road -- Secondary	MD 86, Bridge over South Branch of Gunpowder River
3.	MD 496, Bachmans Valley Road -- Secondary	MD 496, Bridge over Big Pipe Creek
<u>Cecil County</u>		
	<u>Construction Program</u>	
1.	MD 222, N. Main Street -- Secondary	MD 222, Aiken Avenue
2.	MD 272, Mauldin Ave -- Secondary	MD 272, Replace Bridge over Amtrak
<u>Charles County</u>		
	<u>Construction Program</u>	
1.	MD 234, Budds Creek Road -- Secondary	MD 234, Bridge over Gilbert Swamp Run
2.	MD 234, Budds Creek Road -- Secondary	MD 234, Replace Bridge over Allens Fresh Run
<u>Frederick County</u>		
	<u>Construction Program</u>	
2.	US 15, Catocin Mountain Highway -- Secondary	US 15, Bridge over MD 26
4.	MD 75, Green Valley Road -- Secondary	MD 75, Replace Bridge over Haines Branch

MAJOR BRIDGE PROJECTS (Cont'd.)

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Frederick County</u>		
	<u>Construction Program</u>	
6.	MD 140, Main Street -- Secondary	MD 140, Bridge over Flat Run
8.	MD 355, Urbana Pike -- Secondary	MD 355, Urbana Pike
9.	MD 355, Urbana Pike -- Secondary	MD 355, Bridge over CSX
<u>Garrett County</u>		
	<u>Construction Program</u>	
1.	MD 39, Hutton Road -- Secondary	MD 39, Bridge over Youghiogheny River
<u>Howard County</u>		
	<u>Construction Program</u>	
3.	MD 32, Patuxent Freeway -- Primary	MD 32, Bridge on Triadelphia Road over MD 32
<u>Montgomery County</u>		
	<u>Construction Program</u>	
8.	MD 193, University Boulevard -- Secondary	MD 193, Replace Bridge over I-495
9.	MD 195, Carroll Avenue -- Secondary	MD 195, Bridge over Sligo Creek and Sligo Creek Parkway
11.	MD 355, Frederick Road -- Secondary	MD 355, Bridge over Little Bennett Creek
<u>Prince George's County</u>		
	<u>Construction Program</u>	
3.	I-95/I-495, Capital Beltway -- Interstate	I-95/I-495, Bridge over Suitland Road
4.	I-95/I-495, Capital Beltway -- Interstate	I-95/I-495, Bridges over Suitland Parkway
8.	MD 4, Pennsylvania Avenue -- Primary	MD 4, Replace Bridges over MD 223

MAJOR BRIDGE PROJECTS (Cont'd.)

<u>PIF LINE#</u>	<u>PROGRAM/PROJECT</u>	<u>DESCRIPTION</u>
<u>Somerset County</u>		
	<u>Construction Program</u>	
1.	US 13, Ocean Highway -- Primary	US 13, Replace Bridges over the Pocomoke River
<u>St. Mary's County</u>		
	<u>Construction Program</u>	
3.	MD 5, Point Lookout Road -- Secondary	MD 5, Replace Bridge over Eastern Branch
<u>Talbot County</u>		
	<u>Construction Program</u>	
2.	MD 331, Dover Road -- Secondary	MD 331, Replace Bridge over Choptank River
<u>Washington County</u>		
	<u>Construction Program</u>	
1.	I-70, Eisenhower Memorial Highway -- Interstate	I-70, Replace Bridges over MD 63
2.	I-81, Maryland Veterans Memorial Highway -- Interstate	I-81, Replace Bridge over Potomac River
<u>Wicomico County</u>		
	<u>Construction Program</u>	
1.	MD 349, Nanticoke Road -- Secondary	MD 349, Bridge 2201500 over Windsor Creek
<u>Worcester County</u>		
	<u>Construction Program</u>	
1.	US 13, Ocean Highway -- Primary	US 13, Replace Bridges over the Pocomoke River
	<u>Development and Evaluation Program</u>	
4.	US 50, Ocean Gateway -- Primary	US 50, Replace Bridge over Sinepuxent Bay

BICYCLE & PEDESTRIAN PROJECTS

BICYCLE AND PEDESTRIAN RELATED PROJECTS

The Maryland Department of Transportation has various funding programs for bicycles and pedestrian programs. Program funds are used for both design and construction. Several programs are administered as competitive grant programs, in which available funds are awarded to projects managed by local governments and other partners. Funds that have been awarded through these programs, but not yet spent are identified below as "ongoing grant awards and earmarks".

TOTAL ESTIMATED FUNDS PROGRAMMED FOR BICYCLE AND PEDESTRIAN IMPROVEMENTS

	Ongoing Grant Awards and Earmarks	Projects currently funded for construction as of December 2015	FY16-21 Ped/Bike Program Funding^
Retrofit Sidewalk Program		7,834,000	30,200,000
Retrofit Bicycle Program		7,231,000	20,800,000
ADA Program		24,000,000	60,400,000
Urban Reconstruction		3,826,450	18,781,500*
Primary/Secondary Program		8,946,252	8,946,252**
Bikeways Program	10,494,000	--	14,233,000
Bikeshare Program	1,256,300	--	0
Transportation Enhancements/Alternatives Program	45,747,740	--	45,800,000***
Recreational Trails	3,943,000	--	5,610,000***
Safe Routes to School Program	7,932,556	--	0^^
Federal Earmark Projects	17,411,917	--	0^^^
Total	86,785,513	51,837,702	204,770,752

^Includes planning, design and construction funds

*Funding is estimated as a portion of total program funding based on recent bike/ped expenditures

**Additional funding is expected as major projects advance to construction and bicycle and pedestrian costs are itemized

***Funding is estimated based on projected federal appropriations and historic program spending on bicycle and pedestrian projects

^^ This program was consolidated into Transportation Alternatives under the federal transportation bill, MAP-21

^^^ No additional earmark projects are expected at this time

BICYCLE AND PEDESTRIAN RELATED PROJECTS

PROJECTS CURRENTLY FUNDED FOR CONSTRUCTION AS OF DECEMBER 2015

The following projects, funded for construction as of December 2015, are typical of projects that will be developed through the bicycle and pedestrian programs.

STATE HIGHWAY ADMINISTRATION

Retrofit Sidewalk Program (Fiscal years 16-17)

Calvert County

Calvert Beach Rd to Wood Rd, Lore Rd to Holiday Rd	755,000
--	---------

Cecil County

MD 267 - Market St to MD 7C	985,000
-----------------------------	---------

MD 272 - Irishtown Road to Church Street	1,070,000
--	-----------

Charles County

MD 210 - Ruth B Swann Dr to Wooster Dr	519,000
--	---------

Montgomery County

MD 355 - Grafton Street to Bradley Lane	1,760,000
---	-----------

Statewide

Various locations in District 7	2,745,000
---------------------------------	-----------

TOTAL	7,834,000
--------------	------------------

Retrofit Bicycle Program (Fiscal years 16 - 17)

Anne Arundel County

MD 170 - MD 648 to Andover Road	1,605,000
---------------------------------	-----------

Baltimore County

US 1 - US 1 Alt. to Baltimore City Line	4,224,000
---	-----------

Montgomery County

MD187 - Lincoln Drive to Charles Street	1,402,000
---	-----------

TOTAL	7,231,000
--------------	------------------

ADA Program(Fiscal years 16 - 17)

TOTAL	24,000,000
--------------	-------------------

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Urban Reconstruction (Fiscal years 16 - 17)

Baltimore County

US 40 - Intersection improvements at Mohr's Lane ((\$5,685,000 total construction cost, estimated \$324,045 for ped/bike elements)	324,045
---	---------

Calvert County

MD 231 - Heritage Blvd to MD765A, MD 765A from Old Fields Lane to Armory Road ((\$3,473,000 total construction cost, estimated \$197,961 for ped/bike elements)	197,961
--	---------

Frederick County

MD 144 FB - through Town of New Market to Bye Alley ((\$8,040,000 total construction cost, estimated \$458,280 for ped/bike elements)	458,280
--	---------

Harford County

MD 755 - Willoughby Beach Road to MARC Station ((\$6,700,000 total construction cost, estimated \$381,900 for ped/bike elements)	381,900
---	---------

Prince George's County

MD 5 - Curtis Lane and Branch Avenue to south of Suitland Parkway ((\$9,890,000 total construction cost, estimated \$563,730 for ped/bike elements)	563,730
--	---------

MD 201 - Kenilworth Towers to Riverdale Road ((\$9,557,000 total construction cost, estimated \$544,749 for ped/bike elements)	544,749
---	---------

MD 4 – Forestville Road to MD 458 (Silver Hill Road) ((\$23,785,700 total construction cost, estimated \$1,355,785 for ped/bike elements)	1,355,785
--	-----------

TOTAL	3,826,450
--------------	------------------

Primary/Secondary Program (FY2016-17)

The following lists the estimated costs for pedestrian and bicycle elements associated with major projects currently funded for construction

Anne Arundel County

MD 175 - Disney Road to Reece Road	shoulders	1.1 miles	165,000
	sidewalks	1.1 miles	151,008

MD 175 - Mapes Road to Reece Road	shoulders	0.6 miles	90,000
	sidewalks	0.6 miles	82,368

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Baltimore County

MD 140 - Painters Mill to Garrison View	wide curb lanes	0.2 miles	30,000
---	-----------------	-----------	--------

Caroline County

MD 404 - MD 309 to Cemetery Road	shoulders	1.1 miles	163,500
----------------------------------	-----------	-----------	---------

MD 404 - US 50 to MD 309	shoulders	9.1 miles	1,365,000
--------------------------	-----------	-----------	-----------

MD 331 - Bridge over Choptank River	shoulders	0.1 miles	15,000
-------------------------------------	-----------	-----------	--------

Carroll County

MD 30 Bus. - Hampstead Streetscape	wide curb lanes	1.6 miles	240,000
	sidewalks	1.6 miles	219,648

Cecil County

MD 272 - Bridge over Amtrak	shoulders	0.1 miles	15,000
	sidewalks	0.1 miles	13,728

MD 222 - Bridge over Rock Run	shoulders	0.1 miles	15,000
	sidewalks	0.1 miles	13,728

Frederick County

US 15 - Monocacy Boulevard	sidewalks	1.0 miles	137,280
	wide curb lanes	1.0 miles	150,000

US 40 ALT - Old National Pike	sidewalks	2.1 miles	288,288
-------------------------------	-----------	-----------	---------

Montgomery County

I-270 - Watkins Mill Road Extended	sidewalks	0.5 miles	68,640
------------------------------------	-----------	-----------	--------

MD 97 - Randolph Rd.	wide curb lanes	1.0 miles	150,000
	sidewalks	1.0 miles	137,280

MD 97 - Brookeville	shoulders	0.7 miles	105,000
---------------------	-----------	-----------	---------

MD 185 - At Jones Bridge Road Phase 3	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

MD 320 - Anacostia Tributary	pedestrian bridge	0.0 miles	1,500,000
MD 355 - Cedar Lane	shoulders	1.0 miles	150,000
MD 355 - Woodmont Ave. to South Wood Road	wide curb lanes	0.5 miles	75,000
	sidewalks	0.5 miles	68,640
<u>Prince George's County</u>			
I 95/495 - Branch Avenue Metro	sidewalks	0.5 miles	68,640
	wide curb lanes	0.5 miles	75,000
MD 4 - at Suitland Parkway	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000
MD 4 - Forestville Road to MD 458	sidewalks	2.1 miles	288,288
	wide curb lanes	2.1 miles	315,000
MD 5 - at MD 373 and Brandywine Road Relocated	sidewalks	1.0 miles	137,280
MD 210 - at Kerby Hill Road/ Livingston Road	sidewalks	0.1 miles	13,728
	wide curb lanes	0.1 miles	15,000
MD 337 - at MD 218 and I-495 NB off ramp	sidewalks	0.2 miles	27,456
	wide curb lanes	0.2 miles	30,000
MD 500 - MD 208 to MD 410	sidewalks	1.0 miles	137,280
US 1 - College Avenue to MD 193	sidewalks	1.5 miles	205,920
	wide curb lanes	1.5 miles	225,000
<u>Queen Anne's County</u>			
US 301 - at MD 304	shoulders	0.1 miles	15,000
MD 404 - west of MD 309 to Cemetery Rd (Ph. 1B)	shoulders	1.1 miles	165,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Somerset County

MD 822 - at MD 675	sidewalks	0.5 miles	68,640
US 13 - Bridge over Pocomoke	sidewalks	0.1 miles	13,728
	shoulders	0.1 miles	15,000

Saint Mary's County

MD 5 - south of Camp Brown Road to the Roger Station	shoulders	2.0 miles	300,000
--	-----------	-----------	---------

Wicomico County

MD 349 - Bridge over Windsor Creek	shoulders	0.1 miles	15,000
	sidewalks	0.1 miles	13,728

Worcester County

US 113 - Massey Branch to Five Mile Branch	shoulders	4.6 miles	690,000
US 113 - Public Landing Road to Five Mile Branch	shoulders	4.3 miles	645,000

wide curb lanes	8.9 miles	sub-total	1,335,000
shoulders	26.2 miles	sub-total	3,928,500
pedestrian bridge	1.0 bridge	sub-total	1,500,000
sidewalks	15.9 miles	sub-total	2,182,752

TOTAL 8,946,252

ONGOING GRANT AWARDS AND EARMARKS

The following bicycle and pedestrian projects have been awarded grant or earmark funds. Projects are in various stages of design and construction.

Bikeways Program

Typical projects, awarded FY2016

Department of Natural Resources, Construction of Upper Chesapeake Rail Trail	398,966
Hagerstown, Marsh Run Trail Design and City bicycle improvements	90,000
Salisbury, Fitzwater Street bicycle improvements design	32,000

TOTAL ONGOING AWARDS 10,494,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Bikeshare Program

Baltimore City bikeshare	881,300
University of Maryland	187,500
City of College Park	187,500

TOTAL ONGOING AWARDS 1,256,300

Transportation Enhancements/Alternatives Program

<u>Allegany County</u>	
Amtrak Station Entryway Improvement	243,000
<u>Anne Arundel County</u>	
Broadneck Peninsula trail	1,808,868
<u>Baltimore City</u>	
Jones Falls Greenway Phase V	2,050,000
Herring Run Greenway	1,980,000
Downtown Baltimore Bicycle Network	1,220,000
Baltimore Waterfront Promenade	2,000,000
Inner Harbor Crosswalks and Bicycle Way Finding	1,050,000
Inner Harbor Jones Falls Trail Enhancement	313,728
Potomac Street Two-Way Cycle Track	568,431
<u>Calvert County</u>	
Bohemia Trail	1,354,588
Solomon's Island Road Sidewalks	904,440
<u>Caroline County</u>	
Town of Federalsburg Gerardi Blvd Sidewalk	40,000
<u>Charles County</u>	
Indian Head Boardwalk	1,504,100
Indian Head Trailhead Restroom	360,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Carroll County

Town of Sykesville Sidewalks	53,048
------------------------------	--------

Frederick County

Ballenger Creek Trail Phase IV	360,000
Carroll Creek Park Trail Phase II	5,959,000

Howard County

Patuxent Branch Trail Paving- ADA improvements	1,092,000
--	-----------

Montgomery County

Ethan Allen Gateway Streetscape	1,255,123
Flower Avenue Green Street Project	1,040,330
Sligo Creek Trail Improvement	548,000
Falls Road East Shared Use Path	99,703
North Branch	2,000,000

Prince George's County

Bowie Heritage Trail	404,297
City of College Park Hollywood Road Sidewalk Feasibility Study	36,000

Queen Anne's County

Cross County Connector Trail, Grasonville	3,431,084
---	-----------

St. Mary's County

Three Notch Trail Phase VI	1,789,000
MD 5 Pedestrian and Bicycle Trail	1,741,000

Talbot County

Easton Rail Spur Line	827,000
Dutchman's Lane Sidewalk	600,000

BICYCLE AND PEDESTRIAN RELATED PROJECTS

Washington County

Western Maryland Rail Trail Phase IV	2,450,000
City of Hagerstown Marsh Run Multi-Use Trail	200,000
National Park Service, C&O Canal NHP Rehabilitation of the Conococheague Creek Aqueduct	6,240,000

Wicomico County

Northeast Collector Road Bikepath Phase II	225,000
--	---------

TOTAL

45,747,740

Recreational Trails Program

Typical projects, awarded FY2016

Adkins Arboretum Bridge deck repair and visitor guide	23,987
Department of Natural Resources, Greenbriar State Park Red Trail Extension	39,000
Mid-Atlantic Off-Road Enthusiasts, Inc. Patuxent River State Park Trail Project	40,000
Queen Anne's County Cross Island Trail repair	30,000
Town of Union Bridge Wetlands Park trail Extension	40,000

TOTAL ONGOING AWARDS

3,943,000

Safe Routes to School

Typical projects

Hagerstown Access Improvements in Vicinity of Bester Elementary	375,000
Prince George's County	677,993
St. Michael's Elementary	196,800
Takoma Park	152,377

TOTAL ONGOING AWARDS

7,932,556

Federal Earmark Projects

MULTIMODAL FREIGHT PROJECTS

MARYLAND DEPARTMENT OF TRANSPORTATION

MULTIMODAL FREIGHT PROJECTS

Maryland's economy benefits when goods movement is safe, efficient, and reliable over the State's freight network. Highways, rail, marine and airport infrastructure must be in good working condition and free flowing. Unpredictable congestion and delays lower the reliability of delivery times, which leads to costlier freight movement. Ensuring that the network of highways, railways, waterways, and airports are ready to handle the current level and anticipated growth of goods movement is a priority of the Maryland Department of Transportation (MDOT).

MDOT is working to implement multimodal freight mobility solutions, advance supply chains through transportation improvements, and expand freight transportation options throughout the state. The goal of investing in freight related projects is to help improve logistical transportation for over 82,000 freight industry businesses that employ 1.5 Million people and contribute \$123.4 Billion annually to the State's economy.

How is Maryland accommodating goods movement today?

Multiple plans and programs being undertaken by MDOT include freight projects in various stages of development from concept to construction. Highway improvement, maintenance, and capacity projects run the gamut of Intelligent Transportation Systems (ITS) applications for protecting roadways from damage to increasing safe havens for truck drivers. Investments in landside improvements and harbor dredging at the Port of Baltimore keep the inbound and outbound supply chains flowing. Partnerships with short line, switching, and Class I railroads are beneficial for increasing capacity and improving operations to provide alternatives for Maryland shippers.

How is Maryland accommodating goods movement for the future?

MDOT developed a Strategic Goods Movement Plan that contains specific policy recommendations and provides guidance for development of freight programs at the Port, on rails, highways, and in the air. MDOT partnered with carriers, shippers, and freight network users to develop a strategy that works for the entire transportation system and the state as a whole. The Plan is a statewide guide for selecting multimodal transportation projects that impact freight. This is important for state funding priorities and to help Maryland's ability to meet the national freight goals established in federal surface transportation authorization.

The list below highlights projects that have significant freight impacts and are funded for planning, design, and construction activities in the Consolidated Transportation Program, for approximately \$4.6 billion. The list also identifies costs for Port projects by marine terminal and costs for highway freight related projects in each county. Additional information on individual projects can be found under the respective modal sections later in this document.

PROJECT	ESTIMATED TOTAL 6-YEAR COSTS (\$000'S)
<u>THE SECRETARY'S OFFICE</u>	
High Speed Intercity Passenger Rail Grant Funding for Baltimore and Potomac Tunnel	57,322
High Speed Intercity Passenger Rail Grant Funding for Susquehanna River Bridge	17,846

| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

EXPLANATION: Transportation enhancement projects will improve connectivity by enhancing pedestrian and bicycle mobility. In addition to environmental improvements such as treatment of roadway runoff, tree planting and preservation of historical structures.

PROJECT: Transportation Enhancement Program

DESCRIPTION: Projects that may be considered include: pedestrian or bicycle facilities; provision of safety and educational activities for pedestrians and bicyclists; acquisition of scenic easements and scenic or historic sites; scenic or historic highway programs; landscaping and other beautification; historic preservation; rehabilitation and operation of historic transportation buildings, structures or facilities - including historic railroad facilities and canals; preservation of abandoned railway corridors - including conversion for use as bicycle or pedestrian trails; archaeological planning and research. Project sponsors are required to provide matching funds.

PURPOSE & NEED SUMMARY STATEMENT: Transportation enhancements are projects that will add community and environmental value to the transportation system. The Moving Ahead for Progress in the 21st Century Act's (MAP-21) Transportation Alternatives Program provides that 2% of the apportioned funds be set aside for the program. This new program now includes eligibility for most projects that used to be funded under the Transportation Enhancement Program, as well as Recreational Trails and Safe Routes to School programs.

PROJECT: Transportation Emission Reduction Program

DESCRIPTION: The object of the program is the reduction of traffic congestion and/or mobile source emissions. This program will incorporate and expand proven strategies to reduce emissions in Maryland's air quality non-attainment areas.

JUSTIFICATION: The Federal Clean Air Act requires transportation programs to remain in step with State air quality plans. Fifteen counties are in air quality non-attainment or maintenance status. Worsening traffic congestion in the Baltimore/Washington metropolitan area negatively impacts the quality of life for Maryland citizens. This program will help address these issues by implementing projects that will achieve measurable reductions in mobile source emissions. These reductions are important to the annual air quality conformity analysis for the Department's transportation plans and programs and to help reduce Greenhouse Gas emissions.

PROJECT: Bikeways Network Program

DESCRIPTION: Program funds are made available to local jurisdictions and other eligible entities for projects that address gaps in the statewide bicycle network and that advance the goals outlined in the Maryland Bike and Pedestrian Master Plan

JUSTIFICATION: Infrastructure for walking and biking is a core element of Maryland's multimodal transportation strategy. The program helps implement MDOT's Bicycle and Pedestrian Master Plan and Strategic Trails Plan by filling priority missing links in the statewide bicycling network, connecting and extending on-road and off-road bicycle facilities and improving connections to transit, work, schools, shopping and other destinations. By creating a more integrated and safe network of bicycle facilities, the program also helps advance the Maryland Transportation Plan's goals of economic development and environmental stewardship, while strengthening the health and quality of life for

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Safety & Security
- ☐ System Preservation
- ☒ Quality of Service
- ☐ Environmental Stewardship
- ☒ Community Vitality
- ☒ Economic Prosperity

EXPLANATION: The new interchange at I-95 and Contee Road Relocated and Virginia Manor Road Relocated will facilitate enhanced access and improved circulation to an area that is planned for growth and economic development.

PROJECT: Virginia Manor Road Relocated (Konterra Drive), Old Gunpowder Road to Ritz Road

DESCRIPTION: A Secretary's grant to Prince George's County for construction/reconstruction of Virginia Manor Road Relocated between the InterCounty Connector and Old GunPowder Road (Approximately 3.2 miles). Connections will be made to both the InterCounty Connector and the new I-95/Contee Road Interchange. Bicycle and Pedestrian access will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will enable Prince George's County to construct a critical roadway connection to the InterCounty Connector and I-95/Contee Road Interchange. This will enhance the supporting roadway network east and west of I-95 in the area that is planned for significant growth and development.

PROJECT: State-Owned Freight Rail

DESCRIPTION: Funding for engineering and construction for repairs and improvements to State-owned freight railroad lines. Includes regular inspection and rehabilitation of bridges, replacement of grade crossings, and track improvements to support continued safe and efficient operation of short line freight services. Projects and funding are included in MTA's Capital Program.

JUSTIFICATION: Short line freight operations are essential to the economic welfare of the areas they serve. Regular inspection and rehabilitation of bridges is required to meet Federal Railroad Administration (FRA) safety requirements, and improvements to track and replacement of grade crossings is required to bring conditions up to industry standards for modern freight cars and to ensure continued safe and efficient operation into the future.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Project budgets increased by \$6.3M due to addition of FY21 funding and new funding to support design for rehabilitation of track between Massey and Chestertown.

PROJECT: Amtrak's Susquehanna River Bridge

DESCRIPTION: The purpose of this project is to complete preliminary engineering and National Environmental Policy Act (NEPA) documentation for the rehabilitation and or replacement of Amtrak's Susquehanna River Bridge between Harford and Cecil Counties. This project is funded by a High Speed Intercity Passenger Rail grant from the Federal Railroad Administration.

JUSTIFICATION: The Susquehanna River Bridge is located along the Northeast Corridor (NEC), the busiest corridor in Amtrak's rail network. The NEC is between Washington D.C. and Boston, Massachusetts, and carries approximately 110 Amtrak, MARC commuter and Norfolk Southern freight trains per day. The existing two-track bridge was constructed in 1906 and is currently owned and maintained by Amtrak. Due to its age and design, the bridge creates a capacity and speed bottleneck along the heavily traveled NEC.

PROJECT: Amtrak's Baltimore and Potomac (B&P) Tunnel

DESCRIPTION: The purpose of this project is to complete preliminary engineering and National Environmental Policy Act (NEPA) documentation for the rehabilitation and or replacement of Amtrak's B&P Tunnel in Baltimore City. This project is funded by a High Speed Intercity Passenger Rail grant from the Federal Railroad Administration.

JUSTIFICATION: The B&P Tunnel is located along the Northeast Corridor (NEC), the busiest corridor in Amtrak's rail network. The NEC is between Washington D.C. and Boston, Massachusetts, and carries approximately 144 Amtrak, MARC commuter and Norfolk Southern freight trains per day. The existing two-track tunnel was constructed in 1873 and is currently owned and maintained by Amtrak. Due to its age and design, the tunnel creates a capacity and speed bottleneck along the heavily traveled NEC.

EXPLANATION: The MVA implemented business and functional requirements to comply with the passage of Lawful Presence Legislation, and systems changes to account for the need to capture an individual's full legal name during the Driver License and Identification Card application process. There are several additional requirements pertaining to electronic verification of information that will be implemented, once the verification system being developed by DHS/AAMVA is operational.

PROJECT: Real ID Act

DESCRIPTION: This project will verify identification documents presented to the MVA in connection with driver license and ID card transactions. The project will develop a more secure driver license and ID card, and a means to archive identity documents.

PURPOSE & NEED SUMMARY STATEMENT: This project will upgrade systems and policies within MVA in order to comply with federal regulations mandated in May 2005 by the signing of The Real ID Act. Proof of lawful presence in the United States is now required before an individual can be granted a new MD driver's license, learner's permit or ID card.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

EXPLANATION: New Kiosks provide customers with the ability to receive real-time registration stickers, the option to pay in-cash or with a credit card, and the capability to receive certified and non-certified driving records, as well as the option to order scenic and personalized license plates. Providing this advanced functionality is a benefit to the public and enhances customer satisfaction.

PROJECT: Alternative Service Delivery Systems

DESCRIPTION: This project includes the design and implementation of electronic delivery of MVA services through the Internet, kiosks and telephone Interactive Voice Response (IVR) systems.

PURPOSE & NEED SUMMARY STATEMENT: Alternative delivery systems provide MVA customers with the ability to conduct transactions electronically. Web-based services, customer service kiosks, interactive voice recognition systems and other advancements not only make interaction with the MVA an efficient and pleasant experience, they will in turn reduce customer wait time and increase overall customer satisfaction.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

EXPLANATION: Enable the MVA to maximize customer service by updating IT infrastructure. Provide the ability to conduct driver licensing, vehicle registration and titling transactions at any workstation or through any customer preferred interaction model including via the web and mobile devices. Improve data processing and efficiency for customers and customer service agents.

PROJECT: Project Core (Enterprise Management System)

DESCRIPTION: Project Core is an enterprise-wide IT project with an emphasis on modernizing the MVA IT infrastructure, replacing legacy systems and enhancing the agency's ability to provide customers and employees with a 360 degree view of their services and needs.

PURPOSE & NEED SUMMARY STATEMENT: Many existing business systems were developed over the years as independent applications in response to separate business unit needs, and have become outdated in meeting the needs of today's operating environment. These systems need to be more efficient for improved customer service and increased employee productivity, and must be re-engineered to allow MVA to maximize service using electronic commerce and a network of branch locations.

EXPLANATION: This program enhances the environment of neighboring communities by providing homeowner noise mitigation for people living within designated noise zones near BWI Marshall.

PROJECT: Homeowner Assistance Program

DESCRIPTION: This voluntary program provides for the mitigation of aircraft noise and improvement of land-use compatibility around BWI Marshall. Homeowners may elect to either sell their home, with the State ensuring a fair market value, or have their house soundproofed to reduce interior noise levels. The State receives an aviation easement for each participating property.

PURPOSE & NEED SUMMARY STATEMENT: This program enhances the environment of neighboring communities by providing noise mitigation for homeowners residing within the BWI Marshall Airport Noise Zone starting with the most severely impacted communities.

EXPLANATION: This project provides for compliance with Public Law 109-115 and FAA Part 139 regulations. RSA improvements enhance safety by reducing the risk of aircraft damage and personal injury in the event of runway overruns. Pavement improvements and FAA standards ensure airfield pavement is free of cracks and surface variations that could impair directional control of the aircraft. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: Runway Safety Area, Standards and Pavement Improvements Phase 2 at BWI Marshall

DESCRIPTION: The project represents the second phase of the Runway Safety Area (RSA), Standards Compliance and Pavement Management Program (PMP) Improvements. This project consists of the design and construction of the Runway 10-28 RSA compliance, standards and PMP improvements to meet Federal Aviation Administration (FAA) standards. Runway improvements will include grading, pavement rehabilitation, pavement markings, and lighting relocation, as well as, connecting taxiways, and property acquisitions.

PURPOSE & NEED SUMMARY STATEMENT: FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. The proposed work will allow MAA to meet the RSA mandate and address Pavement Condition Index ratings of fair or lower. This project will preserve existing airfield capacity by ensuring the continued long-term use of runways, aprons, taxiways and taxilanes located at the busiest areas of airfield operations and minimize the exposure of aircraft to Foreign Object Debris (FOD).

ASSOCIATED IMPROVEMENTS:

Runway Safety Area, Standards and Pavement Improvements Phase 3 at BWI Marshall -- Line 3.
Runway Safety Area, Standards and Pavement Improvements Phase 4 at BWI Marshall -- Line 4.

STATUS: Runway 10-28 RSA compliant and pavement rehabilitation complete August 2013. Amtrak obstructions modifications, property acquisitions, Runway 10-28 NAVAIDS and a portion of Taxiway C will continue into 2017.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Cost increase of \$1.5 results from bid prices for additional conduit replacement requested by FAA.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost fully recovered through airport user fees.

PROJECT: Runway Safety Area, Standards and Pavement Improvements Phase 3 at BWI Marshall

DESCRIPTION: This project consists of the design and construction of the Runway Safety Area (RSA), and Pavement Management Program (PMP) improvements, other Facility Airport Layout Plan (ALP) improvements, and airfield pavement reconstruction to meet Federal Aviation Administration (FAA) standards. Improvements will include Runway 15R-33L, as well as, connecting taxiways, taxilanes, and adjacent deicing pads.

PURPOSE & NEED SUMMARY STATEMENT: FAA mandates compliance with Runway Safety Area standards by December 2015, in addition, FAR 14 CFR Part 139.305 requires MAA to keep airfield pavement free of cracks and surface variations that could impair directional control of air carrier aircraft. EXPLANATION: Passenger ease of movement and security is a primary focus of the airport. These improvements provide the flexibility and capacity to rebalance security screening needs between Concourses D and E, as well as capacity for new international or expanding airline service by eliminating aircraft restrictions due to current holdroom sizes. Brings concourses up to current fire/life safety codes. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: D/E Connector at BWI Marshall Airport

DESCRIPTION: The terminal improvements in this project include the relocation and consolidation of the Concourses D and E passenger screening checkpoints, the addition of a secure-side connector between Concourses D and E, new holdrooms and gates with immigration access, the conversion of the existing Concourse D and E entrances into egress space, baggage screening improvements, and improved passenger amenities.

PURPOSE & NEED SUMMARY STATEMENT: The project will significantly reduce congestion in the passenger security screening checkpoints, bring existing terminal facilities in compliance with current fire/life safety codes, enhance baggage handling capacity, and provide passengers with ease of movement between concourses without the need to exit and return through security.

EXPLANATION: Replacement of the aged parking revenue system provides ease of access and enhanced payment options for airport users. An updated parking system will improve space management, provide for flexible pricing and enhance financial reporting. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: Parking Revenue Control System at BWI Marshall Airport

DESCRIPTION: The project provides for the replacement of the existing parking system that tracks revenues and parking lot usage for management of the facilities and issues tickets to patrons using the various surface and garage facilities. The new system will bring the latest parking technology including varying payment and ticket options to each of the two garages and surface lots.

PURPOSE & NEED SUMMARY STATEMENT: A reliable system is an inherent necessity to efficiently monitor and control revenue in a parking operation. The end of life age of the current system infrastructure, need for dependable revenue control, and the availability of cost efficient new technologies will help safeguard BWI Marshall's largest revenue generator.

EXPLANATION: Replacement of the aged passenger loading bridges supports the safe movement of passengers on and off aircraft. The addition of PCAir and 400 HZ power units will facilitate alternative fuel usage and improve air quality. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: Loading Bridge Replacement Program at BWI Marshall Airport

DESCRIPTION: This project consists of the purchase and installation of 13 new passenger loading bridges. All new passenger loading bridges on international common use gates are being equipped with PCAir, 400 HZ power units and bag slides. A Federal Airport Improvement Program Voluntary Airport Low Emissions (VALE) grant was received for the purchase and installation of the PCAir and 400 HZ power units.

PURPOSE & NEED SUMMARY STATEMENT: These passenger loading bridges are designated as replacements of existing loading bridges which have reached or exceeded their useful life, as well as those required for ongoing capital improvements. The replacement of the loading bridges is essential to supporting the safe movement of passengers on and off aircraft using terminal facilities.

EXPLANATION: This project enhances compliance with Federal Aviation Administration Part 139 SIDA and safety regulations through modernization of baggage screening processes. In addition, the improvements provide the ability to maintain 100 percent electronic baggage screening while achieving the necessary capacity to meet projected airline departure flight schedules. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: International Checked Baggage Inspection System at BWI Marshall Airport

DESCRIPTION: This project will reconfigure the existing baggage screening and baggage make-up system to a more integrated baggage security and handling system. Improvements will include changes to the baggage system configuration, equipment, and baggage makeup area.

PURPOSE & NEED SUMMARY STATEMENT: The ability to maintain 100 percent electronic baggage screening, while achieving the necessary capacity to meet projected international airline departure flight schedules is dependent upon attaining the maximum utilization of bag screening technology.

ASSOCIATED IMPROVEMENTS: International Building Expansion - (MAA Line 12, Item 123)

STATUS: Construction began October 2015 with completion March 2017.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Cost increase of \$6.1 million is the result of higher than expected bids.

USAGE: Accommodate projected annual passenger growth.

OPERATING COST IMPACT: Operating cost will be recovered through airport user fees.

EXPLANATION: Passenger ease of movement and travel options is a primary focus of the airport. These improvements provide travel flexibility and capacity for new international or expanding airline service. BWI Marshall supports the movement of people, goods and State economy.

PROJECT: International Concourse Extension at BWI Marshall Airport

DESCRIPTION: This project consists of extending the international terminal Concourse E by 150 feet for six additional gates. The work includes constructing a new aircraft parking apron; adding passenger boarding bridges with PC Air/400 HZ capability; stormwater management improvements; extending the existing building and IT systems. The project also includes the addition of automated passport control equipment, additional restrooms, a third bag claim device, and secondary screening area improvements.

PURPOSE & NEED SUMMARY STATEMENT: The greatest potential growth in airline service at BWI Marshall is in international markets. US based airlines are looking to expand their business into international markets, and international carriers are seeking more access to US destinations. With current capacity constraints at the International Concourse during peak periods as well as significant increases in forecasted international traffic in the coming years, an extension of the international concourse is needed for additional aircraft gates.

PROJECT: Hart-Miller Island Related Projects

DESCRIPTION: Hart-Miller Island is a 1,140 acre, two-cell containment island, off-shore from Baltimore County. The island operated as a dredge material placement site since 1984. The southern part of the island is developed for use as a wildlife habitat. On December 31, 2009 Hart-Miller Island ceased accepting dredge material. Department of Natural Resources approved the design for wildlife habitat at the North cell of the island; dewatering and site improvements are underway.

PURPOSE & NEED SUMMARY STATEMENT: The capacity of the island was needed to allow dredging of the Port's harbor and shipping channels. Hart-Miller Island represented one of the most cost efficient dredge disposal options available while it operated.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☒ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS: Dredge Material Placement Monitoring -- Line 2
 Dredge Material Program -- Line 10

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Safety & Security ☒ Environmental Stewardship
☐ System Preservation ☒ Community Vitality
☐ Quality of Service ☐ Economic Prosperity

EXPLANATION: The dredge material placed in the Hart Miller Island facility was collected from Harbor and Bay channels and berths. The placement of this material at Hart-Miller Island allowed vessels to transport cargo to and from the Port of Baltimore.

STATUS: The facility ceased in-flow operations December 31, 2009. Maintenance and monitoring will continue until the final configuration of the cell is determined.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The program was decreased by \$1.5 million due to revised schedule. Funds are added to the program to meet future operating costs.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☐ FEDERAL ☐ GENERAL ☐ OTHER

5002, 5003, 5004

PROJECT: Dredge Material Placement and Monitoring

DESCRIPTION: This program involves the placement and monitoring of material dredged from the Port of Baltimore channels. Costs associated with this program are for construction of containment sites; monitoring during placement; dredge placement site operations; and beneficial use projects.

JUSTIFICATION: The Governor's Strategic Plan for Dredge Material Management identifies either specific sites and projects, or types of sites or projects for future dredge material placement. This program will fund the construction and monitoring during the development of selected sites. With approximately 1,900 ships a year calling on the Port of Baltimore's shipping lanes, there is a need to maintain the channels for the Port to remain competitive and increase economic development.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Hart-Miller Island Related Projects -- Line 1
 Dredge Material Program -- Line 11
 Masonville Vessel Berth - Line 8

STATUS: The MPA continues to evaluate alternative dredge material placement sites. Masonville Dredge Material Placement Facility is accepting dredge material.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Program decreased by \$72 million by removing funding for Coke Point option. MPA continues to pursue other options for dredge material placement.

POTENTIAL FUNDING SOURCE: ☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

EXPLANATION: Funding of this project allows vessels with deeper drafts to make future calls at the Dundak Marine Terminal. These vessels will be larger than current-day ships and carry more cargo. Rehabilitation of these berths will enable the movement of additional cargo across the terminal.

DESCRIPTION: The western bulkhead at Dundalk Marine Terminal was part of the original Harbor Municipal Airport dating back to the 1930's; the marginal wharf was constructed in the early 1960s. This project will (in a phased approach) replace and deepen the berths to meet future cargo and vessels needs. Heavy cargo vessels have grounded on the bottom at low tides. The berths will be designed to allow dredging to an eventual depth of 50 feet. The first phase funded reconstruction of Berths 5 and 6. Phase II funds activity at Berth 4; Phase III funds Berth 3 (and a portion of Berth 2).

PURPOSE & NEED SUMMARY STATEMENT: Berths 1-6 are essential to the Port because they handle a variety of cargoes, i.e. automobiles, forest products, roll-on/roll-off and other break-bulk (van packs). Age and harsh marine environment require these berths be rehabilitated before they become unstable. The other berths at Dundalk Marine Terminal (7-13) are not viable alternatives since they are too distant from the warehouses and automobile lots.

<input checked="" type="checkbox"/>	Project Inside PFA	<input type="checkbox"/>	Grandfathered
<input type="checkbox"/>	Project Outside PFA	<input type="checkbox"/>	Exception Will Be Required
<input type="checkbox"/>	PFA Status Yet to Be Determined	<input type="checkbox"/>	Exception Granted

None.

STATUS: Construction for Phase I was completed in December 2006. Berths 1- 4 Reconstruction and Repair project is currently underway to handle urgent repairs.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: This project increased by \$11.7M as additional funds were programmed to accomplish more berth reconstruction.

USAGE: Increase in larger, deeper vessel calls.

[illegible]

EXPLANATION: These projects will enhance the security of MPA terminals as required by the Maritime Transportation Security Act of 2002

PROJECT: Terminal Security Program

DESCRIPTION: The Terminal Security Program uses state-of-the-art technologies to secure MPA cargo terminals against unauthorized intrusions. Current projects include: iCCTV coverage expansion and upgrades; CCTV Analytic; intrusion beam barrier installation; access control installation at North Locust Point Terminal; placement of mobile security booths and a Cyber Vulnerability Assessment.

PURPOSE & NEED SUMMARY STATEMENT: Federal Regulations enacted under the Maritime Transportation Security Act of 2002 require the MPA to develop a security plan for MPA terminals that handles foreign cargo or passengers. These projects are being developed to comply with this Act. The Security Program will allow the MPA to enhance its capability to prevent unauthorized intrusions onto its terminals and facilities. A large portion of the Federally approved project's cost is funded by Federal Port Security Grants.

PROJECT: South Locust Point Cruise Terminal

DESCRIPTION: Cruise lines operate international excursions out of MPA facilities. A total of 93 departures are scheduled for the 2016 cruise season. Current projects include installing a redundant electrical feeder, new restrooms; upgrading the public address system; enclosing the existing canopy; purchase new check-in counters, furniture and carpeting; and erect new cruise entrance which will improve vehicular circulation

PURPOSE & NEED SUMMARY STATEMENT: This facility is close to tourist attractions located at the Inner Harbor and has excellent visibility and access to I-95. This facility was converted from a lumber warehouse and can accommodate one cruise embark per day.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

<input type="checkbox"/>	Quality of Service	<input checked="" type="checkbox"/>	Economic Prosperity

EXPLANATION: Purchase of property adjacent to the existing terminal allows the MPA to increase cargo activity in the Port of Baltimore. The increased activity will have a positive impact on local and state jobs.

DESCRIPTION: Purchase parcel(s) of land adjacent to or in the vicinity of existing marine terminals at the Port of Baltimore.

PURPOSE & NEED SUMMARY STATEMENT: The desired parcels will allow for greater capacity at existing terminals and will be used to store autos and RoRo equipment for security processing or other space needs. Expanding existing terminals is more cost effective than building new terminals.

<input checked="" type="checkbox"/>	Project Inside PFA	<input type="checkbox"/>	Grandfathered
<input type="checkbox"/>	Project Outside PFA	<input type="checkbox"/>	Exception Will Be Required

EXPLANATION: Remediation of the affective areas located at the DMT will prevent hazardous substances generated by chrome ore residue from entering Baltimore Harbor.

The application of Corrective Measures will enable the reclamation of chrome affected areas. The MPA will use these areas to store additional cargo brought to the Port of Baltimore by truck, vessel or rail.

PROJECT: Chrome Ore Processing Residue Remediation (COPR)

DESCRIPTION: After years of COPR investigations, and submission of a Corrective Measures Alternative Analysis (CMAA), MDE directed MPA and Honeywell to implement enhanced isolation and containment of the COPR at Dundalk Marine Terminal (DMT). This requires relining storm drains in the COPR areas and installing enhanced long-term monitoring and maintenance of the site.

PURPOSE & NEED SUMMARY STATEMENT: Originally chromium was believed to be good fill material; unfortunately, it is now known that a large portion of the chromium at DMT contains hexavalent chromium which is defined and regulated as a hazardous substance under Federal and State law. The studies and work plans required under the Consent Decree are designed to assess the chromium remediation. The CMAA was approved by MDE in July 2012.

EXPLANATION: A new berth is necessary to handle increased cargo volumes.

PROJECT: Masonville Vessel Berth Construction

DESCRIPTION: This project will construct a 968-foot long and 130-foot wide berth, capable of accommodating the world's fleet of Auto and Roll-on/Roll-off ships. The new berth will have a deck load rating of 1000 psf, allowing for flexibility in loading heavy cargo or military equipment. Being a wharf, it will be much less susceptible to damage due to vessel strike, ice movement or debris. Masonville Vessel Berth will not have the wind restrictions of the existing pier. This berth will be dredged to 42 feet.

PURPOSE & NEED SUMMARY STATEMENT: This new structure will supplement Fairfield Marine Terminal Pier 4, a pier of World War II vintage that is currently near the end of its useful life. Pier 4 is the sole MPA berth for two large auto terminals (146 acres). Baltimore finished calendar year 2014 as # 1 in the nation for auto exports.

EXPLANATION: The dredging component of this project will allow larger ships to access Seagirt Marine Terminal. Cargo storage and rail capacity will be enhanced at Fairfield Terminals. The filling of Fruit Slip and the Fairfield Wet Basin will avoid the cost of replacing those bulkheads.

PROJECT: Port of Baltimore Export Expansion Project (TIGER GRANT)

DESCRIPTION: MPA's TIGER project has three portions: provide rail access to Fairfield Marine Terminal; widening and straightening the navigation channel to Seagirt Marine Terminal; and filling the Fairfield Basin to develop seven acres of new land for cargo storage. The scope of the contract has increased to accomplish similar additional work at the Fairfield (Beverly Slip) and South Locust Point terminals (Fruit Slip). Additionally the derelict Pier 5 at Fairfield terminal will be demolished.

PURPOSE & NEED SUMMARY STATEMENT: The current access channel to Seagirt is deep enough; however, it has several turns and is too narrow for the next generation of container ships that will be able to transit the Panama Canal when it is expanded in 2016. The suitable material dredged from this widening will be used as fill in the WWII-era shipbuilding basin to create new land at Fairfield Marine Terminal, which is needed for cargo storage (and cost avoidance to replace failing bulkheads). Rail access to Fairfield will allow more efficient cargo movement.

EXPLANATION: This project plays an integral role in the reactivation of the Pearce Creek DMCF. Dredge material collected from the C&D Canal and placed in the Pearce Creek DMCF will save the State millions of dollars of its share of transportation cost to alternative placement locations such as Poplar Island.

PROJECT: Pearce Creek Waterline Project

DESCRIPTION: The project will construct a waterline from Cecilton to communities near the Pearce Creek Dredged Material Containment Facility (DMCF) in Cecil County. The waterline provides potable water to areas adversely affected by Corps of Engineers dredged material placement in the Pearce Creek DMCF. The Pearce Creek Waterline Project is constructed with the assistance of an MDOT Secretary's Grant.

PURPOSE & NEED SUMMARY STATEMENT: A liner for the Pearce Creek DMCF is to be funded and constructed by the Corps of Engineers. The waterline is needed to support reopening of the DMCF for material taken from the C&D Canal and approach channels.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

PROJECT: Dredge Material Management Program

DESCRIPTION: This project conducts detailed studies with the US Army Corp of Engineers to identify and assess potential dredged material placement sites consistent with Maryland's Dredge Material Management program emphasizing beneficial uses of dredged material for projects such as island and shoreline reclamation.

JUSTIFICATION: Available placement capacity for sediment dredged from navigational channels serving the Port of Baltimore is completely committed. The MPA must identify placement sites and uses for future dredge material. Studies and investigations are necessary to meet the requirements of the Dredge Material Management Act of 2001.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

EXPLANATION: Additional storage capacity enables MARC trains to be stored away from passenger platforms, minimizing disruptions and delays caused by congestion around the platforms.

PROJECT: MARC Maintenance, Layover, & Storage Facilities

DESCRIPTION: Planning, environmental documentation, design, property acquisition, and construction of maintenance, layover, and storage facilities. Includes construction for the Washington Mid-Day Storage Yard, design and construction funding for storage tracks at the MARC Martin State Airport facility, and acquisition and improvements at the Riverside Maintenance Facility.

PURPOSE & NEED SUMMARY STATEMENT: Projects will provide critically needed storage and maintenance facilities for the MARC fleet. The storage facility upgrades will reduce interference with Amtrak operations at Washington Union Station and Penn Station and provide urgently needed fleet storage away from the passenger platforms at the station.

ASSOCIATED IMPROVEMENTS:

MARC Growth and Investment Program - Line 39
MARC Northeast Maintenance Facility - Line 40

STATUS: Construction for the Washington Mid-Day Storage Yard was completed in FY 2015. Design is underway for the Martin State Airport storage tracks and construction is anticipated to begin in FY 2018. Acquisition activities for the Riverside Maintenance Facility will begin in FY 2017.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Project cost increased by \$34.9M due to the addition of the Riverside Maintenance Facility project and an increase to the funding for the Martin State Airport project to fully fund the construction.

EXPLANATION: Projects such as interlocking replacements and platform improvements are needed to keep the system in a state of good repair.

PROJECT: MARC Improvements on Camden, Brunswick, and Penn Lines

DESCRIPTION: Ongoing improvement program of the MARC Camden, Brunswick, and Penn lines to ensure safety and quality of service. Program is implemented through CSX and Amtrak construction agreements. CSX efforts include projects such as interlocking replacements and other track improvements. Amtrak efforts include projects such as passenger upgrades at Baltimore Penn Station and Washington Union Station, interlocking work, and other track improvements.

PURPOSE & NEED SUMMARY STATEMENT: Investments in passenger rail corridor infrastructure improvements are necessary to continue quality MARC service.

PROJECT: MARC Coaches - Overhauls and Replacement

DESCRIPTION: Minor overhaul of 63 MARC III coaches, purchase of 54 MARC IV multi-level coaches, and mid-life overhaul of 26 MARC IIA coaches.

PURPOSE & NEED SUMMARY STATEMENT: Overhauls will extend the life cycle of mechanical systems and car bodies, providing safe and reliable vehicles for MARC service. 54 new railcars will replace 12 Gallery coaches scheduled for retirement. The remainder of the new vehicles will be used for expanded service.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

EXPLANATION: Locomotive overhauls and replacements are needed to maintain a state of good repair.

PROJECT: MARC Locomotives - Overhauls and Replacements

DESCRIPTION: Procure 8 new diesel MP-36 locomotives and repower 6 GP-39 diesel locomotives.

PURPOSE & NEED SUMMARY STATEMENT: Overhaul of locomotives in accordance with the manufacturer's schedule is needed to maintain safe and reliable operation and to comply with federally-mandated maintenance regulations. Replacement diesel locomotives have higher horsepower and meet EPA air quality emissions standards.

PROJECT: MARC Positive Train Control

DESCRIPTION: Implementation and development of Positive Train Control for MARC as required by the Federal Railroad Administration. Positive Train Control incorporates an on-board computer that ensures all signals are received by the various parts of the system to prevent collision, maintain speed limits, and train spacing, while also protecting track workers who have been given exclusive use of the tracks. If the on-board computer determines the train cannot operate safely within the restrictions, it applies the brakes thus preventing any potential accidents. All locomotives and cab cars will be upgraded to operate the Positive Train Control system.

PURPOSE & NEED SUMMARY STATEMENT: Positive Train Control for MARC will create a safeguard against train collisions through proper train spacing on the tracks and active speed limit oversight.

PROJECT: Paul S. Sarbanes Transit Center

DESCRIPTION: Construct a transit center at the Silver Spring Metrorail Station. It includes the construction of bus bays for Metrobus and Ride On, an intercity bus facility, a taxi queuing area, kiss and ride parking, and MARC platforms with connecting pedestrian bridge and elevator towers. Provision is also made for a future Purple Line Station and a hiker/biker trail.

PURPOSE & NEED SUMMARY STATEMENT: Consolidating transit services at a single location in Silver Spring will improve efficiency and ease of use. The project will support the ongoing revitalization of downtown Silver Spring.

PROJECT: MARC West Baltimore Station Parking Expansion

DESCRIPTION: Expand MARC commuter parking capacity from 316 to 638 spaces. In addition, project will reconnect divided communities by rebuilding the 400 block of North Payson Street, introducing streetscape features, a community garden, and station artwork.

PURPOSE & NEED SUMMARY STATEMENT: Parking demand regularly exceeds the capacity of the existing lot. Expanded lot will accommodate ridership growth and reduce overflow parking in adjacent communities. Lot will be designed to accommodate potential transit oriented development.

EXPLANATION: Overhaul of the Metro vehicles and signal system will ensure safe, reliable service to the end of their useful life at which time they will be replaced.

PROJECT: Metro Railcar and Signal System Overhauls and Replacement

DESCRIPTION: Replacement of Metro railcars and repair of critical equipment such as traction motors, gearboxes, axles, and wheels as well as repair and replacement of signal system and associated components.

PURPOSE & NEED SUMMARY STATEMENT: On-going overhauls for Metro vehicle subsystems is required to reduce system failures and improve reliability. The new vehicles will replace the existing fleet which is nearing the end of its useful life. The replacement of the Railcar Fleet will enhance passenger comfort and convenience, ensure better reliability, and improve safety. Metro's wayside signaling system has become difficult to maintain due to parts obsolescence. The replacement of the signaling systems with modern equipment will enhance passenger comfort and convenience, ensure better reliability, and improve safety.

EXPLANATION: The project enables the MTA to service hybrid diesel-electric and articulated buses at the Kirk Bus Division and incorporates sustainable design practices in the new Kirk facilities.

PROJECT: Kirk Bus Facility Replacement

DESCRIPTION: Construct replacement for the existing Kirk Bus Division. Phase I of the project will construct a new maintenance facility on an expanded site. Phase II will construct an enclosed storage/operations facility.

PURPOSE & NEED SUMMARY STATEMENT: The existing Kirk facility is obsolete, severely constrained, and cannot adequately support MTA's current fleet. MTA employees must park off-site on the surrounding neighborhood streets. By replacing the existing Kirk facility with two new sustainable buildings, substantial operational efficiencies will be realized and the community's environmental justice concerns will be addressed.

PROJECT: Bus Procurement

DESCRIPTION: Annual purchase of buses to replace those that have been in service for 12 or more years. The MTA has more than 700 buses in its active fleet.

JUSTIFICATION: Bus replacement levels are based on the fleet size and must be maintained to prevent high out-of-service rates and major repair problems that arise from retaining buses beyond their useful life. The replacement program will serve to maintain the average age of the bus fleet. Replacement buses will reduce emissions, fuel consumption, and noise levels.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

EXPLANATION: This project provides an integrated system for MTA's existing bus fleet that will offer enhanced safety and security as well as improved communications and information systems for customers.

PROJECT: Bus Communications Systems Upgrade

DESCRIPTION: Retrofit of MTA buses with a unified, integrated, state-of-the-art suite of on-board bus equipment as well as fixed-end systems at operations and security monitoring centers, allowing MTA to upgrade equipment and systems to enhance the delivery of safe and reliable customer service.

PURPOSE & NEED SUMMARY STATEMENT: The retrofit will provide a unified infrastructure on-board buses and will fully integrate security and monitoring systems.

EXPLANATION: This project provides upgrades for the bus fleet communication systems, enabling better tracking of buses and improves the quality of information available to patrons.

PROJECT: CAD/AVL Systems

DESCRIPTION: Procurement of new Computer-Aided Dispatch and Automated Vehicle Location system. CAD/AVL provides radio data channel expansion to improve the bus fleet's voice and data communication. Project includes upgrades to the existing CAD/AVL system hardware and software as well as upgrading obsolete vehicle equipment with state-of-the-art replacements. The vehicle location systems will be used to provide real-time vehicle arrival information to patrons.

PURPOSE & NEED SUMMARY STATEMENT: The procurement of an updated and enhanced CAD/AVL system, together with the expanded data channel, will improve the operational efficiency of the bus fleet. These efforts will improve customer service by providing real-time management and scheduling adherence as well as providing real-time information to patrons.

PROJECT: Locally Operated Transit Systems Capital Procurement Projects (Local Jurisdictions)

DESCRIPTION: Funding to rural and small urban jurisdictions for transit vehicles, equipment, and facilities. In addition, the MTA provides rideshare funds to Baltimore City, Anne Arundel, Baltimore, Calvert, Carroll, Frederick, Harford, Howard, Montgomery and Prince George's Counties, and the Tri-County Council for Southern Maryland to promote the use of carpools and vanpools. MTA facilitates federal funds for locally-sponsored projects.

JUSTIFICATION: Intense use of equipment and increased service demand requires regular vehicle replacement and expansion as well as adequate support facilities providing reliable maintenance service. The ridesharing program provides citizens with information on expanded commute options and provides companies with technical expertise needed to meet federal clean air requirements.

PROJECT: Takoma/Langley Park Transit Center (ARRA)

DESCRIPTION: Construction of an off-street covered transit center at the intersection of MD 193 and MD 650 in the Takoma/Langley Park community. Associated SHA improvements include roadway and intersection improvements, pedestrian safety measures, and new sidewalks and crosswalks. Project includes 12 bus bays to provide service for 11 bus routes, passenger shelters, public restroom facilities, a canopy over the entire facility and transit information services. The project will accommodate a future Purple Line station.

PURPOSE & NEED SUMMARY STATEMENT: This area is the busiest bus transit transfer point in the region, with 11 Metrobus, Ride On, The Bus, and shuttle van routes. The project will also address pedestrian safety issues.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

PROJECT: Fare Collection System Enhancements and Equipment Preservation

DESCRIPTION: Upgrade existing fare collection hardware and software to ensure security compliance, improve customer satisfaction, maximize return on investment on existing system, and provide on-going overhaul and replacement of system components while preparing for a next generation system.

PURPOSE & NEED SUMMARY STATEMENT: As the existing fare collection system ages, it is imperative that MTA upgrade software and overhaul critical system components to ensure reliable system operation.

EXPLANATION: The MTA must migrate to the current system to continue the availability of radio communication which is required to ensure safe operation.

PROJECT: Agencywide Radio and Telecommunications Upgrade

DESCRIPTION: This project will migrate all MTA radio users from 490 MHz to the MD FiRST Statewide 700 MHz Radio Communications System. This includes upgrading the current MD FiRST Baltimore cell with additional channel capacity to safely accommodate the additional MTA users, installation of new dispatching consoles, and installation of new subscriber radios.

PURPOSE & NEED SUMMARY STATEMENT: The 490 MHz network will no longer be useable beginning in FY 2022 due to Federal Law 112-96, which requires all 490 MHz users to move to an alternate spectrum by January 1, 2022. This project will migrate all radio users to the MD FiRST Statewide 700 MHz Radio System. MTA will be joining the Maryland Statewide network.

PROJECT: Purple Line

DESCRIPTION: The Purple Line is a 16-mile double track light rail line that will operate between Bethesda in Montgomery County and New Carrollton in Prince George's County. The Bethesda to Silver Spring segment will include a parallel hiker/biker trail. The line will include direct connections to Metrorail in four locations, all three MARC Train lines, and Amtrak. The project includes track, stations, railcars, and two operation and maintenance facilities.

PURPOSE & NEED SUMMARY STATEMENT: The Purple Line will provide faster, more reliable transportation between residential and major employment areas. It will enhance access to existing radial Metrorail lines, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Paul S. Sarbanes Transit Center - Line 6
 Takoma/Langley Park Transit Center - Line 29
 Purple Line: Montgomery County Funded Projects - Line 37

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Safety & Security ☒ Environmental Stewardship
☐ System Preservation ☒ Community Vitality
☒ Quality of Service ☒ Economic Prosperity

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced compared to No Build.

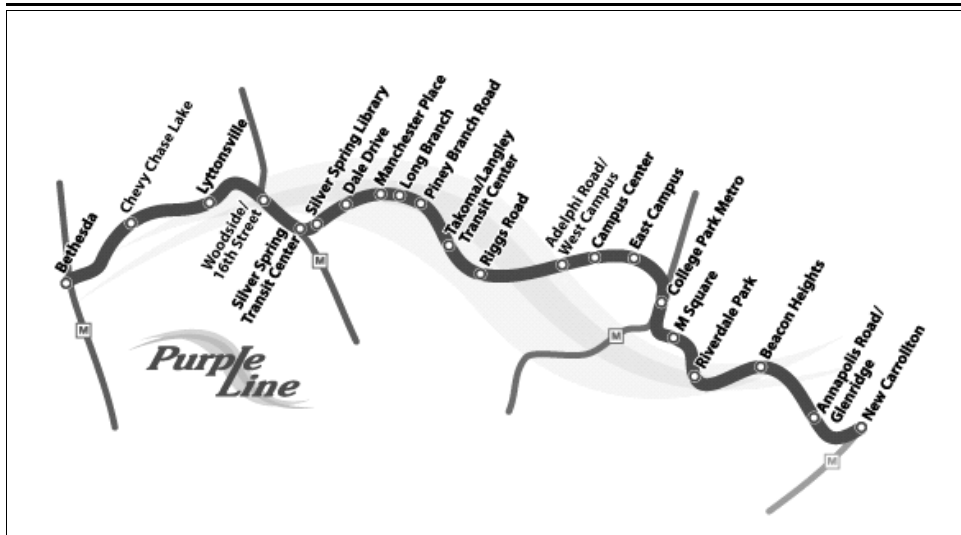

STATUS: Solicitation process underway to select concessionaire to design, build, finance, operate and maintain.

Federal-Aid	936,432	27,432	11,000	297,000	136,000	116,000	116,000	116,000	792,000	117,000

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Total Estimated Cost decreased by \$342.0M due to reductions in project scope and adjustments to private investment through a public private partnership to design, build, finance, operate, and maintain the project.

USAGE: Daily ridership estimated at 72,000 in 2040.

Note: Total estimated cost does not include investments by concessionaire or future availability payments.

<input type="checkbox"/>	Safety & Security	<input checked="" type="checkbox"/>	Environmental Stewardship
<input type="checkbox"/>	System Preservation	<input checked="" type="checkbox"/>	Community Vitality
<input checked="" type="checkbox"/>	Quality of Service	<input checked="" type="checkbox"/>	Economic Prosperity

EXPLANATION: The Purple Line will serve a corridor that currently lacks rail transit service and includes important commercial, institutional, and residential communities. Electrically powered trains will reduce air pollution and greenhouse gas emissions associated with cars and buses. Transit travel times in corridor will be reduced.

DESCRIPTION: Montgomery County has elected to fund a program of projects that will be implemented through and associated with the Purple Line. Projects include a new southern entrance to the Bethesda Red Line station, Capital Crescent Trail, and the Silver Spring Green Trail along Wayne Avenue.

PURPOSE & NEED SUMMARY STATEMENT: To further enhance the transportation and quality of life benefits of the Purple Line and Capital Crescent Trail, Montgomery County is adding additional access features.

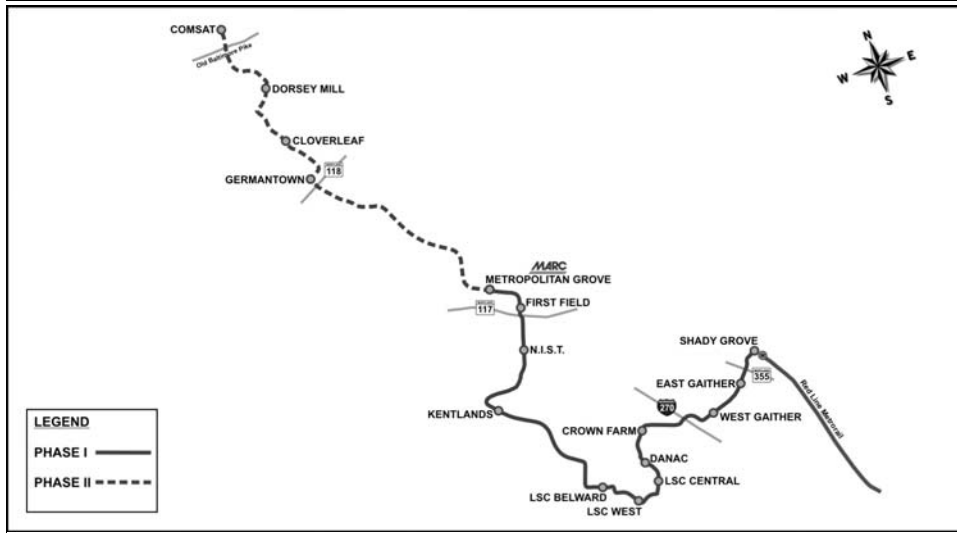

<input checked="" type="checkbox"/>	Project Inside PFA	<input type="checkbox"/>	Grandfathered
<input type="checkbox"/>	Project Outside PFA	<input type="checkbox"/>	Exception Will Be Required
<input type="checkbox"/>	PFA Status Yet to Be Determined	<input type="checkbox"/>	Exception Granted

Paul S. Sarbanes Transit Center - Line 6
Takoma/Langley Park Transit Center - Line 29
Purple Line - Line 36

STATUS: Planning and design activities underway.

[illegible]

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Cost increased by \$25.9M to reflect additional Montgomery County contributions to the Purple Line. These elements of the project are entirely county funded.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safety & Security | <input checked="" type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: The CCT will serve a corridor with rapidly developing residential and employment sites, particularly in the Life Sciences Center in Rockville and Gaithersburg.

PROJECT: Corridor Cities Transitway (CCT)

DESCRIPTION: The Corridor Cities Transitway (CCT) is a 16-mile bus rapid transit line between Shady Grove Metrorail Station and the former COMSAT facility in Montgomery County. The line would be constructed in two phases: from Shady Grove to Metropolitan Grove and from Metropolitan Grove to COMSAT. The project includes a grade separated busway, stations, rapid transit vehicles, and a maintenance facility.

PURPOSE & NEED SUMMARY STATEMENT: The CCT will provide faster, more direct transportation between residential and major employment areas in the I-270 corridor. It will enhance access to Shady Grove station and employment areas, increase capacity of congested roadways, support economic development consistent with local master plans, and reduce environmental impacts.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

MTA DEVELOPMENT & EVALUATION PROGRAM

PROJECT: MARC Growth and Investment Program

DESCRIPTION: Funding to plan and engineer the long-term expansion of the MARC Train System to meet the needs of Maryland commuters. Current work includes planning an design of a replacement West Baltimore Station.

JUSTIFICATION: MARC Train service is at capacity and expansion is needed to accommodate future growth in the MARC corridors.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MARC Maintenance, Layover & Storage Facilities - Line 1
 MARC Improvements on Camden, Brunswick and Penn Lines - Line 2
 MARC West Baltimore Station Parking Expansion - Line 7
 MARC BWI Rail Station Upgrades & Repairs - Line 8

STATUS: West Baltimore station engineering will begin in FY 2016.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

PHASE	TOTAL ESTIMATED COST (\$000)	EXPEND THRU 2015	CURRENT YEAR 2016	BUDGET YEAR 2017	PROJECTED CASH REQUIREMENTS FOR PLANNING PURPOSES ONLY				SIX YEAR TOTAL	BALANCE TO COMPLETE

Federal-Aid	1,725	-2	200	965	562	0	0	0	1,727	0

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Project cost decreased by \$4.0M due to the BWI Station Improvements project moving to Line 8 of the Construction program and the MARC Bayview Station moving to the Minor program.

PROJECT: MARC Northeast Maintenance Facility

DESCRIPTION: Preliminary Engineering and Environmental Assessment for a new MARC Northeast Maintenance Facility north of Baltimore. The new facility will support existing and expanded Penn Line operations at an MTA-controlled facility, enabling transfer of maintenance and layover of locomotives and rolling stock from Amtrak facilities in Baltimore and Washington. Storage of MARC equipment at an MTA-controlled facility will potentially allow contracting of maintenance functions currently performed by Amtrak.

JUSTIFICATION: The MARC Northeast Maintenance Facility project addresses the need for additional Penn Line storage, consolidates maintenance and inspection functions, supports 2035 ridership growth projections, and Amtrak's Northeast Corridor growth and planned expansion of freight and high speed rail. Expansion of Penn Line service to points north and east of Perryville is contingent upon construction of a maintenance facility north of Baltimore. Efforts are underway to evaluate additional capital improvements needed for expansion of Penn Line service in cooperation with local and regional stakeholders.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet to Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MARC Maintenance, Layover & Storage Facilities - Line 1
 MARC Growth and Investment Program - Line 39

STATUS: Project currently in Planning Development and Design. FONSI was received in October 2015.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Project cost increased by \$5.0M to initiate budget and out year project development.

PROJECT: Southern Maryland Rapid Transit Study

DESCRIPTION: Planning activities to identify and protect an alignment for future development of high-capacity transit services in the US 301/MD 5 corridor from White Plains in Charles County to the Branch Avenue Metrorail Station in Prince George's County.

JUSTIFICATION: Continued growth in Southern Maryland has created high levels of traffic congestion in the US 301/MD 5 corridor. Planning is needed to determine the role of a high-capacity transit service in the corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

Special Funds	130.7	153.6	155.9	165.4	173.5	184.2	963.4
Federal Funds - WMATA *	118.6	99.9	99.9	99.9	99.9	99.9	617.9

* These federal funds are received by WMATA directly and are not included in the MDOT budget.

PROJECT: WMATA Capital Improvement Program

DESCRIPTION: This program provides Maryland's share of the funding for the Washington Metropolitan Area Transit Authority's Capital Improvement Program (CIP). It includes Maryland's share of matching funds to federal formula funds received directly by WMATA as well as Maryland's share of additional state and local funds for WMATA capital projects.

JUSTIFICATION: WMATA's FY 2016 - 2021 CIP is focused on safety, infrastructure rehabilitation and replacement and maintaining the Washington region's primary transit system in a state of good repair. WMATA's FY 2016 - 2021 CIP includes investment to replace rail cars, rehabilitation of track and rail structures, replacement vehicles for Metrobus and Metro Access, and implementing recommendations from the National Transportation Safety Board.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet to Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

Matching Funds - Line 3

STATUS: The FY 2016 - 2021 CIP was adopted by the WMATA Board of Directors on May 28, 2015 and subsequently amended on June 25, 2015.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The project cost increased \$204.1M due to the addition of FY 2021, in which \$18.5M of the \$222.6M shown was previously programmed in prior years.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Project increased \$1.1 million due to the addition of funding in FY 2021.

PROJECT: Matching Funding for "Passenger Rail Investment and Improvement Act of 2008" - P.L. 110-432

DESCRIPTION: The Passenger Rail Investment and Improvement Act of 2008 authorizes new federal funds to be appropriated over a ten year period for capital and preventative maintenance projects of the Washington Metropolitan Area Transit Authority. The federal legislation also requires matching funds from Maryland, Virginia, and the District of Columbia. This program provides Maryland's share of the match to federal funds

JUSTIFICATION: Funding is used for capital improvements to improve safety and state of good repair of the rail system, including the replacement of all 1000 series railcars and other investments called for in recommendations made by the National Transportation Safety Board (NTSB).

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered

PROJECT: Metro Matters Program

DESCRIPTION: Metro Matters is a regionally funded program of capital improvements for the Washington Metropolitan Area Transit Authority. This program provides Maryland's share of the required contributions under the terms of the Metro Matters Funding Agreement.

JUSTIFICATION: The Metro Matters program was initiated in FY 2005 with a multi-year budget of approximately \$3.9B. A majority of Metro Matters project work was completed during FY 2005-2010. This program includes funding for debt service for long-term bonds issued by WMATA to fund the Metro Matters program.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

SHA

SHA STATEWIDE

PROJECT: Coordinated Highway Action Response Team (CHART)

DESCRIPTION: Install advanced traffic management system (ATMS) and advanced traffic information system (ATIS) technologies on Interstate highways and arterials statewide. Technologies include cameras, traffic detectors, weather sensors, dynamic message signs, highway advisory radios, web sites and telecommunication networks. CHART is comprised of five major components: 1) Traffic and Roadway Monitoring; 2) Incident Management; 3) "511" - Traveler's Information; 4) System Integration and Communication; 5) Traffic Management.

PURPOSE & NEED SUMMARY STATEMENT: Heavy volumes of traffic, stop-and-go commuter peaks, and lack of comprehensive information regarding current, real-time conditions on available alternatives contribute to and compound the effects of unexpected incidents. With the growth in traffic outpacing any realistic hope of expanding capacity through building new highways, or expanding existing ones, it is imperative to operate the existing system more efficiently through the application of Intelligent Transportation System technologies and interagency teamwork.

SMART GROWTH STATUS: ☒ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☐ Environmental Stewardship
☒ System Preservation ☒ Community Vitality
☒ Quality of Service ☒ Economic Prosperity

EXPLANATION: Projects in the CHART program will aid in the reduction of travel time, reduce congestion and provide critical traffic information for the traveling public, which improves movement of both passengers and freight. Messages on dynamic message boards provide information to aid in the safety and security of travelers.

STATUS: Engineering and Construction underway. This represents a summary of the Statewide CHART program. Individual corridor work is shown in the State Highway Administration's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added funding in FY21.

**PROJECT:** Sidewalk Program

DESCRIPTION: This program will provide matching funds for the construction of sidewalks adjacent to State highways. Fifty percent of project costs will be required from local and municipal project sponsors, except in urban revitalization areas where projects are eligible for 100 percent state funding, and in priority funding areas where projects are eligible for 75 percent state funding.

PURPOSE & NEED SUMMARY STATEMENT: Program will support community revitalization efforts and efforts to encourage pedestrian usage along State highways consistent with the intent of the "Access 2000" legislation.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

<input type="checkbox"/> Project Inside PFA	<input type="checkbox"/> Grandfathered

PROJECT: Sound Barrier Program

DESCRIPTION: Funding to implement retrofit sound barrier projects that meet eligibility criteria.

PURPOSE & NEED SUMMARY STATEMENT: Mitigating highway noise is an essential element of the Department's programs for environmental stewardship and community conservation.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet To Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Safety & Security
☒ System Preservation
☐ Quality of Service

☒ Environmental Stewardship
☐ Community Vitality
☐ Economic Prosperity

EXPLANATION: This program provides mitigation of highway noise to those communities that qualify for noise abatement. Improves quality of life for eligible communities adjacent to access controlled facilities.

STATUS: Engineering, Right-of-way and Construction underway. This consolidates the total dollars available for sound barriers that meet eligibility criteria. Individual projects are shown in SHA's Safety, Congestion Relief, Highway and Bridge Preservation Program.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added funding in FY21.

PROJECT: Total Maximum Daily Load (TMDL)

DESCRIPTION: Plan, design, and construct storm water controls and alternative water quality improvement strategies in Maryland Phase I and Phase II Counties in order to meet the US Environmental Protection Agency's (EPA) Chesapeake Bay Total Maximum Daily Load (TMDL) requirements by the year 2025. These strategies support the goal of protecting and restoring the Chesapeake Bay watershed. The implementation will follow the State of Maryland commitment in its Watershed Implementation Phase I Plan (WIP I).

PURPOSE & NEED SUMMARY STATEMENT: SHA is required to adhere to the Chesapeake Bay TMDL and local TMDLs as a result of its National Pollution Elimination Discharge System (NPDES) Phase I and Phase II Municipal Separate and Storm Sewer System Permit (MS4) permits. This programmatic effort is needed for compliance and supports the ultimate goal of improved water quality in Maryland streams, creeks, rivers, and the Chesapeake Bay.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Safety & Security ☒ Environmental Stewardship
☐ System Preservation ☐ Community Vitality
☒ Quality of Service ☐ Economic Prosperity

EXPLANATION: Implement strategies through the year 2025 that will primarily reduce nitrogen, phosphorus and sediment loads in waters that drain to the Chesapeake Bay from SHA-owned roads and coverage areas. Implementation Strategies to include: Structural and Non-Structural Best Management Practices; Environmentally Sensitive Designs; Stream and Wetland Restoration; and Afforestation.

STATUS: Engineering underway. Construction to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added funding in FY21.

ALLEGANY COUNTY

PROJECT: I-68, National Freeway, and MD 51, Industrial Boulevard

DESCRIPTION: Rehabilitated I-68 Bridge 01096, including ramp structures 01107, 01108, 01109, 01110, 01111 and 01112, over Wills Creek, CSXT Railroad, and municipal streets, and, MD 51 Bridge 01092 over CSXT Railroad and Canal Parkway.

PURPOSE & NEED SUMMARY STATEMENT: The existing structures required rehabilitation including: cleaning, painting, lighting, and superstructure and substructure repairs.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

ANNE ARUNDEL COUNTY

PROJECT: US 50, John Hanson Highway

DESCRIPTION: Project to ease congestion on US 50 from MD 70 to MD 2 northbound (1.7 miles) by restriping lanes on the Severn River/Pearl Harbor Memorial Bridge to accommodate an additional eastbound travel lane.

PURPOSE & NEED SUMMARY STATEMENT: The approaches to the Severn River/Pearl Harbor Memorial Bridge experience severe congestion, particularly the eastbound direction during the evening peak period.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

EXPLANATION: This segment of US 50 experiences severe congestion during peak travel hours. An additional eastbound travel lane on the Severn River/Pearl Harbor Memorial Bridge will improve safety and operations along this important commuter corridor.

STATUS: Planning underway. Engineering to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Moved from the Development and Evaluation Program to the Construction Program. Funding provided by the Governor's Investment in Highways and Bridges Initiative.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 126,450

PROJECTED (2035) - 159,900

PROJECT: MD 175, Annapolis Road

DESCRIPTION: Construct intersection capacity improvements at Mapes Road/Charter Oaks Boulevard and Reece Road (0.6 miles). (BRAC intersection improvement) This project includes construction of a new security fence and tree buffer along Fort Meade's property. Bicycle and pedestrian facilities will be provided.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety and operations along MD 175 and ease growing congestion resulting from BRAC expansion at Fort Meade.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 175, National Business Parkway to McCarron Court (Line 3)
 MD 175, Disney Road to Reece Road (Line 4)
 MD 175, MD 295 to MD 170 (Line 7)
 BRAC Intersection Improvements at Fort Meade (Statewide Line 6)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☐ Environmental Stewardship
☒ System Preservation ☒ Community Vitality
☐ Quality of Service ☒ Economic Prosperity

EXPLANATION: This project will relieve traffic congestion at these failing intersections as a result of the projected volumes from BRAC.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$9.3 million is due to reduced utility needs.

EXPLANATION: This bridge is functionally obsolete and structurally deficient. Bridge serves as a major link along the I-83 commuter and freight route. The I-83 corridor links southern Pennsylvania to Baltimore County and City.

PROJECT: I-83, Harrisburg Expressway

DESCRIPTION: Replace Bridge 03062 over Padonia Road.

PURPOSE & NEED SUMMARY STATEMENT: The bridge carrying northbound and southbound I-83 over Padonia Road was constructed in 1950 and does not allow for shoulders and sidewalks on Padonia Road. Bridge is nearing the end of its structural life.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

EXPLANATION: Crosby Road bridge is nearing the end of its structural life. The bridge links communities on either side of the Beltway. This segment of I-695 is one of the most heavily traveled. The project enhances safety, operation, and accommodates pedestrians and bicycles.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: Replace Bridge 03125 on Crosby Road over I-695.

PURPOSE & NEED SUMMARY STATEMENT: This bridge, constructed in 1961, is nearing the end of its structural life. Replacement bridge will accommodate ultimate section of I-695.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: This project from US 40 to MD 144 will improve the mobility and safety on I-695 by widening the roadway to provide a fourth lane on the outer loop. This project will also accommodate for the ultimate configuration of this section of the beltway.

PURPOSE & NEED SUMMARY STATEMENT: This project will provide additional capacity and improve safety and operations on this segment of I-695.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required

EXPLANATION: The bridges on I-695 Inner Loop over Benson and Leeds/US 1/AMTRAK/Herbert Run are structurally deficient. The new bridges will provide for future capacity improvements of I-695. The ramp is being realigned to provide improved and more direct local and commuter access to the I-695 Inner Loop and to reduce traffic on local streets particularly in Arbutus, including Leeds Ave. by relocating the entrance of it to US 1.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: Replacement of Bridge 03113 on I-695 Inner Loop over Benson Ave. and Bridge 03114 on I-695 Inner Loop over Leeds Ave., US 1, AMTRAK and Herbert Run. The project also includes the realignment of the access to the I-695 on-ramp from Leeds Ave. to US 1.

PURPOSE & NEED SUMMARY STATEMENT: The bridges on I-695 Inner Loop over Benson and Leeds/US 1/AMTRAK/Herbert Run are nearing the end of their useful life and are structurally deficient. An existing ramp is being realigned as part of this project to provide a more direct connection from US 1 to the Inner Loop of I-695.

PROJECT: I-695, Baltimore Beltway

DESCRIPTION: This project will provide a continuous auxiliary lane on both the Inner and Outer Loops of I-695 between MD 41 (Perring Parkway) and MD 147 (Harford Road). Other improvements include wider median shoulders on I-695; the replacement of the existing Old Harford Road bridge over I-695, and ramp modifications on the Inner Loop of I-695 at the MD 147 interchange.

PURPOSE & NEED SUMMARY STATEMENT: This project will improve safety and operations along this segment of I-695. The removal of the loop ramp will eliminate the existing weave maneuver along the Inner Loop of I-695, which in turn is expected to reduce crashes and delays.

EXPLANATION: This project will improve safety and traffic flow on I-695 as this portion serves as a major connection between I-95 and I-83. This project will provide a continuous auxiliary lane and wider median shoulder on both the Inner and Outer Loops of I-695. The reconstruction of the Old Harford Road Bridge over I-695 will accommodate future widening along I-695. This project includes geometric improvements that will improve safety and operations at Harford Road.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$1.1 million is due to noise wall design and additional waterline and retaining wall work.

STATE SYSTEM: Secondary**Annual Average Daily Traffic (vehicles per day)**

CURRENT (2015) - 4,850

PROJECTED (2035) - 7,625

PROJECT: MD 137, Mount Carmel Road

DESCRIPTION: Replace Bridge 03050 over I-83.

PURPOSE & NEED SUMMARY STATEMENT: This bridge was constructed in 1955, is listed as structurally deficient, and is nearing the end of its structural life. This project will provide bike and pedestrian accommodations to meet current MDOT policy.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☒ Not Subject to PFA Law

☐ Project Inside PFA
☐ Project Outside PFA
☐ PFA Status Yet To Be Determined

☐ Grandfathered
☐ Exception Will Be Required
☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

EXPLANATION: This bridge is structurally deficient. This bridge links communities on either side of I-83. I-83 is a major commuter and freight route and links southern Pennsylvania to Baltimore County and Baltimore City.

STATUS: Engineering underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added to the Construction Program. Funding provided by the Governor's Investment in Highways and Bridges Initiative.

STATE SYSTEM: Secondary

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 8,650

PROJECTED (2035) - 11,000

PROJECT: MD 140, Reisterstown Road

DESCRIPTION: Widening northbound MD 140 from Painters Mill Road to Garrison View Road (Phase 1) to accommodate an additional third travel lane and a bicycle-compatible shoulder (0.2 miles). Additional work includes adding new Americans with Disability Act-compliant sidewalks, storm drain system improvements and land scaping.

PURPOSE & NEED SUMMARY STATEMENT: The project will enhance motorist, bicycle and pedestrian safety, and reduce congestion along the corridor. Traffic is expected to increase as a result of the proposed development in the area, including the Transit Oriented Development at the Owings Mills Metro Station and Foundry Row.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 140, Painters Mill Road to Owings Mills Boulevard (Line 19)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☐ Environmental Stewardship
☐ System Preservation ☒ Community Vitality
☐ Quality of Service ☒ Economic Prosperity

EXPLANATION: This project will relieve congestion, accommodate development in the area, and provide bike and pedestrian accommodations to current MDOT policy.

STATUS: Engineering and Right-of-Way underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added \$5.2 million to Construction. Funding provided by the Governor's Investment in Highways and Bridges Initiative. This is a breakout project of MD 140 from Garrison View Road to Owings Mills Boulevard (Line 18).

CALVERT COUNTY

PROJECT: MD 2/4, Solomons Island Road

DESCRIPTION: Widen to a six-lane divided highway with auxiliary lanes from Fox Run Boulevard to Commerce Lane (0.8 miles). This is Phase 2 of a five-phase project to upgrade MD 2/4 from north of Stoakley Road to south of MD 765A.

PURPOSE & NEED SUMMARY STATEMENT: This project will reduce congestion and provide capacity for planned commercial development in the MD 2/4 corridor.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 2/4, North of Stoakley Road to south of MD 765A (Line 3)
 Prince Frederick Boulevard (County Project)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

EXPLANATION: MD 2/4 is a critical link through Southern Maryland. Increasing capacity supports critical regional transportation needs.

STATUS: Engineering underway. Right-of-Way to begin during current fiscal year. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added \$23.2 million to Construction. Funding provided by the Governor's Investment in Highways and Bridges Initiative. This is a breakout project from MD 2/4 Corridor Improvements from north of Stoakley Road to south of MD 765A (Line 3).

POTENTIAL FUNDING SOURCE:

 25,350 (Summer)

PROJECTED (2035) - 31,000
 36,200 (Summer)

PROJECT: MD 331, Dover Road

DESCRIPTION: Replace Bridge 20023 over Choptank River (0.1 miles). The new span will be located south of the existing roadway and provide a 50 foot river clearance. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: Constructing a new bridge will provide a safe and dependable MD 331 crossing of the Choptank River accommodating both vehicular and marine traffic. The existing drawbridge routinely experiences mechanical difficulties affecting commerce and emergency services in Caroline and Talbot counties. This bridge is functionally obsolete.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Safety & Security ☐ Environmental Stewardship
☒ System Preservation ☒ Community Vitality
☒ Quality of Service ☐ Economic Prosperity

EXPLANATION: The drawbridge on the old span has experienced mechanical difficulties affecting commerce and emergency services. The existing bridge is functionally obsolete.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

CARROLL COUNTY

PROJECT: MD 30 Bus. Main Street

DESCRIPTION: Streetscape improvements from North Woods Trail to CSX Railroad (Hampstead Streetscape). Bicycle and pedestrian facilities will be provided (1.6 miles).

PURPOSE & NEED SUMMARY STATEMENT: This project will provide significant improvements to the roadway, sidewalk, and drainage infrastructure. It will also address operational issues at intersections.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

EXPLANATION: This project would begin to restore the Town of Hampstead's historic Main Street to an attractive and friendly urban local roadway.

STATUS: Engineering and Right-of-Way underway. Construction to begin during budget fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Construction delayed from FY16 to FY17 due to the Town of Hampstead constructing water and sewer upgrades.

CHARLES COUNTY

PROJECT: MD 234, Budds Creek Road

DESCRIPTION: Replace Bridge 08047 over Gilbert Swamp Run.

PURPOSE & NEED SUMMARY STATEMENT: The existing structure, built in 1959, is structurally deficient.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

CURRENT (2015) - 6,475

PROJECTED (2035) - 10,600

PROJECT: MD 234, Budds Creek Road

DESCRIPTION: Replaced a temporary bridge over Allens Fresh Run.

PURPOSE & NEED SUMMARY STATEMENT: In 2011, Hurricane Lee damaged Bridge 08036, which was replaced that same year with a temporary bridge. This new permanent bridge replaced that temporary bridge.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☒ Project Outside PFA ☒ Grandfathered
☐ PFA Status Yet To Be Determined ☐ Exception Will Be Required ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- ☐ Safety & Security ☒ Environmental Stewardship
☒ System Preservation ☐ Community Vitality
☐ Quality of Service ☐ Economic Prosperity

EXPLANATION: MD 234 provides a critical link through Southern Maryland. Replacing this structure supports critical regional transportation needs and provides a permanent structure that is more resilient against severe weather events.

STATUS: Open to Service.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

FREDERICK COUNTY

PROJECT: US 15, Catocin Mountain Highway

DESCRIPTION: Construct a grade-separated interchange and park-and-ride lot at Monocacy Boulevard. This project will include appropriate bicycle and pedestrian facilities.

PURPOSE & NEED SUMMARY STATEMENT: This project will add a new US 15 interchange at Monocacy Boulevard to safely accommodate future traffic volume associated with planned development. The project will close an existing at-grade US 15 intersection at Hayward Road.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 I-270/US 15, Multimodal Corridor Study (Line 12)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: The new interchange will improve safety and operations for all users by closing existing at-grade intersections, providing new east-west access, and constructing a ride-share facility. This intersection will support ongoing and planned growth.

STATUS: Construction underway. Frederick County is funding \$1.4 million for Engineering. Frederick City is funding \$1.4 million for Engineering.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$10.5 million is due to a favorable bid price.

EXPLANATION: This project will improve safety for all roadway users by reconstructing functionally obsolete interchange and bridges. It also supports ongoing and planned growth by increasing roadway and interchange capacity.

PROJECT: MD 85, Buckeystown Pike

DESCRIPTION: Widen to a multilane divided highway from Crestwood Boulevard/Shockley Drive to Spectrum Drive (0.8 miles), including MD 85 interchange reconstruction at I-270 and I-270 dual bridges replacement. This project is Phase 1 of a three-phase project to widen and reconstruct MD 85 from south of English Muffin Way to north of Grove Road.

PURPOSE & NEED SUMMARY STATEMENT: This project will relieve congestion and provide capacity for planned commercial development in the MD 85 corridor. Additionally, the existing I-270 dual bridges, built in 1950, are functionally obsolete.

INTERSTATE DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: I-270, Eisenhower Highway, and US 15, Frederick Freeway/Catoctin Mountain Highway

DESCRIPTION: Multimodal corridor study to consider highway and transit improvements in the I-270/US 15 corridor in Montgomery and Frederick counties from Shady Grove Metro Station to north of Biggs Ford Road (32.5 miles).

JUSTIFICATION: I-270 and US 15 experience capacity and safety problems throughout Montgomery and Frederick counties. Traffic conditions will continue to deteriorate due to rapid development in this corridor. Transportation improvements are needed to reduce existing and anticipated congestion and to support planned economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

PROJECTED (2035) - 75,300

PROJECT: MD 24, Rocks Road

DESCRIPTION: MD 24 will be resurfaced and reconstructed including slope repair and guardrail replacement. This is the southern section (Section G) which extends from 900 feet south of Sharon Road to 1,700 feet north of Ferncliff Lane.

JUSTIFICATION: The purpose of these projects is to improve the road safety by remediating the slope supporting MD 24, repairing the pavement, improving roadway drainage and addressing roadside safety concerns.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 24, at Deer Creek Bridge (Section A) (Line 4)

STATUS: Engineering underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added \$1.0 million to Engineering.

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: MD 32, Sykesville Road

DESCRIPTION: Planning and Environmental Linkages study to determine capacity improvements on MD 32 from MD 26 (Liberty Road) to I-70 (7.5 miles).

JUSTIFICATION: Road Connects high growth area of Carroll County with growing job markets in Howard County and around Fort Meade.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 MD 32, Linden Church Road to I-70 (Line 5)

STATUS: Planning Underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added to the Development and Evaluation Program.

POTENTIAL FUNDING SOURCE:		<input checked="" type="checkbox"/> SPECIAL <input type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

MONTGOMERY COUNTY

PROJECT: I-270, Eisenhower Highway

DESCRIPTION: Construct a new I-270 interchange at Watkins Mill Road. Bicycle and pedestrian improvements will be included as appropriate.

PURPOSE & NEED SUMMARY STATEMENT: This project will support economic development and reduce existing congestion at the I-270/MD 124 interchange and the MD 355/MD124 intersection. It will provide access from I-270 to Metropolitan Grove MARC Station.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-270 and US 15, Planning Study (Line14)

I-270, Active Traffic Management (Line 2)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: The new interchange will provide new access points to I-270 and provide for additional east-west access for all roadway users while reducing congestion on existing nearby interchange ramps and parallel roadways. This interchange also supports planned growth and economic development in the vicinity.

STATUS: Engineering and Right-of-Way underway. Construction to begin during budget year. Montgomery County is contributing \$4.9 million towards Engineering.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$30.0 million is due to reduced Right-of-Way needs due to developer donations and a revised engineer's estimate. Construction delayed from FY 16 to FY 17 due to the scope of the project being revised.

POTENTIAL FUNDING SOURCE:

EXPLANATION: As one of Maryland's most heavily traveled roadways, I-270 congestion affects both motorist safety and the economy. These improvements will reduce congestion and improve safety and reliability for all roadway users.

PROJECT: I-270, Eisenhower Highway

DESCRIPTION: Pilot implementation of active traffic management (ATM) and innovative congestion mitigation (ICM) tools to reduce congestion on I-270, including the east and west spurs (31.5 miles). Potential tools may include peak dynamic shoulder use, ramp metering, variable speed limits, and other technology-based congestion reduction measures.

PURPOSE & NEED SUMMARY STATEMENT: This project will reduce congestion and improve safety and reliability.

| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: This grade-separation project will reduce travel times along both Randolph Road and Georgia Avenue and improve safety by separating through movements. The new interchange will also provide new sidewalks and wide curb lanes to safely accommodate all roadway users.

STATUS: Construction underway. Montgomery County is contributing \$14.4 million for Right-of-Way and Advanced Utilities.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$3.5 million is due to additional Utility and Right-of-Way needs.

EXPLANATION: This project will improve safety and operations for both through and local roadway users.

STATUS: Engineering and Right-of-Way underway. Construction to begin during budget fiscal year. Montgomery County is contributing \$10.0 million towards Engineering and Right-of-Way.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$5.9 million is due to increased bridge and pavement costs.

PROJECT: MD 320, Piney Branch Road

DESCRIPTION: This is a bicycle and pedestrian improvement project consisting of a new Anacostia Tributary Trail System pedestrian bridge over Sligo Creek which will improve safety and accessibility for trail users. (BRAC Intersection Improvements)

PURPOSE & NEED SUMMARY STATEMENT: Mitigation of BRAC Right-of-Way impacts to Maryland-National Capital Park and Planning Commission properties in Montgomery County.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 185, at Jones Bridge (Line 6)

 MD 355, at Cedar Lane (Phase 1 and 2) (Line 12)
 MD 355, Woodmont Avenue to South Wood Road (Line 13)
 BRAC Intersection Improvements near Bethesda (Statewide Line 5)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☒ Environmental Stewardship
☐ System Preservation ☒ Community Vitality
☒ Quality of Service ☐ Economic Prosperity

EXPLANATION: These improvements are required as mitigation for Right-of-Way impacts to Maryland-National Capital Park and Planning Commission properties resulting from BRAC intersection improvements. The new facilities will improve safety and accessibility for trail users.

STATUS: Construction underway. This project is funded by the Office of Economic Adjustment.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$0.5 million is due to an unfavorable bid price.

INTERSTATE DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: I-270, Eisenhower Highway, and US 15, Frederick Freeway/Catoctin Mountain Highway

DESCRIPTION: Multimodal corridor study to consider highway and transit improvements in the I-270/US 15 corridor in Montgomery and Frederick counties from Shady Grove Metro Station to north of Biggs Ford Road (32.5 miles).

JUSTIFICATION: I-270 and US 15 experience capacity and safety problems throughout Montgomery and Frederick counties. Traffic conditions will continue to deteriorate due to rapid development in this corridor. Transportation improvements are needed to reduce existing and anticipated congestion and to support planned economic development.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

PRINCE GEORGE'S COUNTY

PROJECT: I-95/I-495, Capital Beltway

DESCRIPTION: Phase 2 Access improvements from MD 5 (Branch Avenue) and I-95/I-495 to the Branch Avenue Metro Station including improvements to the Access Road, pedestrian bridge, and the County Roads (Auth Road, Auth Place and Auth Way). Pedestrian/bicycle facilities will be included where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The Branch Avenue Metro Station increased traffic volumes on MD 5 and the Capital Beltway in the vicinity of the station during peak periods. The purpose of this project is to enhance access to the Metro station and address congestion.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-95/I-495, American Legion Bridge to Woodrow Wilson Bridge (Line 17)
 MD 5, US 301 at T.B. to north of I-95/I-495 (Line 20)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|--|---|
| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: This project will enhance vehicular and pedestrian connectivity between the Metro station and MD 5. The improved connectivity will help support planned growth in the vicinity of the station, a designated transit-oriented development (TOD) site.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

ASSOCIATED IMPROVEMENTS:

I-95/I-495, American Legion Bridge to Woodrow Wilson Bridge (Line 17)
 MD 4, MD 223 to I-95/I-495 (Line 19)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☐ Safety & Security ☒ Environmental Stewardship
☒ System Preservation ☐ Community Vitality
☒ Quality of Service ☒ Economic Prosperity

EXPLANATION: The new interchange at MD 4 and Suitland Parkway will facilitate enhanced access to an area that is planned for growth and economic development. In addition, the project will improve safety and reduce congestion at the existing at-grade intersection.

STATUS: Construction to begin in FY 16.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$22.3 million is due to reduced Right-of-Way needs, developer donations, and reduced inflation.

POTENTIAL FUNDING SOURCE:

☒ SPECIAL ☒ FEDERAL ☐ GENERAL ☐ OTHER

STATE SYSTEM : Primary

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 146,000

PROJECTED (2035) - 163,750

PROJECT: MD 5, Branch Avenue

DESCRIPTION: Construct a new interchange at MD 5, MD 373 and Brandywine Road Relocated. This project also includes a park and ride lot. Bicycle and pedestrian access will be included where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: Significant traffic congestion occurs during peak hours and will increase as growth continues to occur in southern Prince George's County and Southern Maryland.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☒ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

MD 5, US 301 at T.B. to north of I-95/I-495 (Line 20)
 US 301, South Corridor Transportation Study (Line 24)
 US 301, Waldorf Area Project (Line 26)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☐ Environmental Stewardship
☐ System Preservation ☒ Community Vitality
☒ Quality of Service ☐ Economic Prosperity

EXPLANATION: This project reduces congestion at a major bottleneck along the MD 5 and US 301 corridor and removes at-grade conflict points at Brandywine Road and MD 373.

STATUS: Right-of-Way underway. Construction to begin during current fiscal year. Washington Suburban Sanitary Commission is contributing \$8.6 million towards Construction.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$15.3.million is due to lower Right-of-Way appraisal values, unit price decreases, and reduced inflation.

CLASSIFICATION:

STATE - Intermediate Arterial

FEDERAL - Freeway/Expressway

STATE SYSTEM: Primary

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 73,950

PROJECTED (2035) - 107,900

STATE HIGHWAY ADMINISTRATION -- Prince George's County -- Line 20

PRIMARY DEVELOPMENT AND EVALUATION PROGRAM

PROJECT: MD 5, Branch Avenue

DESCRIPTION: Study to upgrade existing MD 5 to a multilane freeway from US 301 interchange at T.B. to north of I-95/I-495 Capital Beltway (10.5 miles). Bicycles and pedestrians will be accommodated where appropriate.

JUSTIFICATION: Severe traffic congestion occurs during peak hours, especially at signalized intersections. High accident rates exist at a number of the at-grade intersections along this section of MD 5. Traffic volumes will continue to increase as southern Prince George's County and Charles County continue to develop.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☒ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-95/I-495, Branch Avenue Metro Station Access - Phase 2 (Line 1)
 MD 5, MD 223 to I-95 (Line 11)
 MD 5, Interchange at MD 373 and Brandywine Road Relocated (Line 12)
 I-95/I-495 American Legion Bridge to Woodrow Wilson Bridge (Line 17)
 US 301, South Corridor Transportation Study (Line 24)
 US 301, Waldorf Area Project (Line 26)

STATUS: Planning underway. Currently evaluating breakouts for needed short term safety improvements and capacity.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

POTENTIAL FUNDING SOURCE:

CLASSIFICATION:

STATE - Minor Arterial

FEDERAL - Other Principal Arterial

STATE SYSTEM: Secondary

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 43,000

PROJECTED (2035) - 68,850

PROJECT: MD 450, Annapolis Road

DESCRIPTION: Upgrade and widen existing MD 450 to a multilane divided highway from Stonybrook Drive to west of MD 3 (1.4 miles). Sidewalks will be included where appropriate. Wide curb lanes will accommodate bicycles.

JUSTIFICATION: Additional lanes are needed to accommodate increasing volumes of traffic. This improvement would provide better access to developing areas of central Prince George's County.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 MD 3, US 50 to MD 32 (Line 18)

STATUS: Project on hold.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

STATE SYSTEM: Secondary

Annual Average Daily Traffic (vehicles per day)

CURRENT (2015) - 28,450

PROJECTED (2035) - 69,300

PROJECT: US 1, Baltimore Avenue

DESCRIPTION: Reconstruct US 1 from MD 193 to I-95 (Capital Beltway) (Segments 2 and 3) (1.1 miles). Bicycle and pedestrian facilities will be included where appropriate.

JUSTIFICATION: Major traffic congestion is experienced along this segment of US 1. This project would improve traffic operations, pedestrian circulation, and safety. This project would also accommodate planned revitalization within College Park.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

QUEEN ANNE'S COUNTY

PROJECT: US 301, Blue Star Memorial Highway

DESCRIPTION: Construct a new interchange at MD 304. Shoulders on MD 304 will accommodate bicycles and pedestrians. J-turns at the intersection of US 301 and MD 305 are also being constructed as a part of the project.

PURPOSE & NEED SUMMARY STATEMENT: The existing at-grade intersection creates a conflict point on a high speed arterial. This project will improve safety and access controls on US 301.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☐ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☒ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: This project will improve safety and operations by removing an at-grade conflict point along a high speed arterial.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$1.4 million is due to increased Right-of-Way appraisal values and utility relocations.

SAINT MARY'S COUNTY

PROJECT: MD 5, Point Lookout Road

DESCRIPTION: Intersection improvements at MD 5 (Point Lookout Road) and Moakley Street/Abell Street.

PURPOSE & NEED SUMMARY STATEMENT: Project addresses existing and projected congestion generated by residential and commercial development in the Leonardtown area and Saint Mary's County.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:
 MD 5, MD 243 to MD 245 (Line 5)

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: Project addresses existing and projected congestion generated by residential and commercial development in Leonardtown area and Saint Mary's County.

STATUS: Engineering underway and Right-of-Way to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added \$10.7 million to Construction and Right-of-Way. Funding provided by the Governor's Investment in Highways and Bridges Initiative. This is a breakout project of MD 5 from MD 243 to MD 245 (Line 5).

POTENTIAL FUNDING SOURCE:				<input checked="" type="checkbox"/> SPECIAL <input checked="" type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input type="checkbox"/> OTHER

PROJECTED (2035) - 32,525

PROJECT: MD 5, Point Lookout Road

DESCRIPTION: Upgrade and widen MD 5 to provide shoulders from south of Camp Brown Road to the Ranger Station (2.0 miles).

PURPOSE & NEED SUMMARY STATEMENT: The existing roadway is narrow with no shoulders, creating an unsafe situation for increasing traffic volumes. A large percentage of tourists are unfamiliar with the roadway, and many recreational vehicles are too wide to safely travel the narrow road.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☐ Project Inside PFA ☒ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

☒ Safety & Security ☐ Environmental Stewardship
☐ System Preservation ☐ Community Vitality
☒ Quality of Service ☐ Economic Prosperity

EXPLANATION: The existing roadway does not meet current design standards creating unsafe conditions.

STATUS: Engineering underway. Right-of-Way to begin during current fiscal year.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Moved from the Development and Evaluation Program to the Construction Program. Funding provided by the Governor's Investment in Highways and Bridges Initiative.

PROJECT: MD 331, Dover Road

DESCRIPTION: Replace Bridge 20023 over Choptank River (0.1 miles). The new span will be located south of the existing roadway and provide a 50 foot river clearance. Shoulders will accommodate bicycles and pedestrians.

PURPOSE & NEED SUMMARY STATEMENT: Constructing a new bridge will provide a safe and dependable MD 331 crossing of the Choptank River accommodating both vehicular and marine traffic. The existing drawbridge routinely experiences mechanical difficulties affecting commerce and emergency services in Caroline and Talbot counties. This bridge is functionally obsolete.

WASHINGTON COUNTY

PROJECT: I-70, Eisenhower Memorial Highway

DESCRIPTION: Replaced dual bridges 2110802 and 2110804 on I-70 over MD 63.

PURPOSE & NEED SUMMARY STATEMENT: The existing structures, built in 1965, were structurally deficient.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

STATE GOALS: Maryland Transportation Plan (MTP) Goals/Selection Criteria:

| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

EXPLANATION: I-70 provides a critical link through central and western Maryland. These bridges were structurally deficient. Replacing these structures supports critical regional transportation needs.

STATUS: Open to Service.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$4.2 million is due to final cost under budget.

PROJECTED (2035) - 69,950

STATE HIGHWAY ADMINISTRATION -- Washington County -- Line 2

INTERSTATE CONSTRUCTION PROGRAM

PROJECT: I-81, Maryland Veterans Memorial Highway

DESCRIPTION: Widen to six lanes and reconstruct I-81 between the Potomac River/West Virginia State Line and MD 63/MD 68 (1.1 miles), including widening and rehabilitating dual bridges 21078 over the Potomac River. This project is Phase 1 of a four-phase project to widen and reconstruct I-81 from US 11 in West Virginia to the Pennsylvania State Line. Phase 1 also includes West Virginia-funded widening between US 11 and the Potomac River in West Virginia.

PURPOSE & NEED SUMMARY STATEMENT: Currently a four-lane freeway, I-81 operates poorly due to heavy traffic volume, especially truck traffic. Projected Hagerstown area development will contribute further to congestion.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law

☒ Project Inside PFA ☐ Grandfathered
☐ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

I-81, West Virginia State Line to the Pennsylvania State Line (Line 4)

| <input checked="" type="checkbox"/> System Preservation | <input checked="" type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: I-81 provides a critical link through western Maryland. Rehabilitating this structure and widening I-81 supports critical regional transportation needs.

STATUS: Engineering underway. Construction to begin during budget fiscal year. West Virginia is contributing \$39.0 million for the additional widening to the Maryland State Line.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost increase of \$45.2 million is due to a revised engineers estimate and the addition of the funding for the West Virginia portion of the project.

EXPLANATION: This project will decrease travel time and delay for local and seasonal traffic and improve safety.

PROJECT: US 113, Worcester Highway

DESCRIPTION: Upgrade existing US 113 as a 4 lane divided highway, including access controls from north of MD 365, Public Landing Road, to Five Mile Branch (4.3 miles). Bicycle and pedestrian accommodations will be included where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The US 113 corridor is experiencing deterioration in safety and operations due to increasing seasonal traffic volumes coupled with local commercial/residential development along the highway. This project will improve the highway's safety, operations and freight movement.

PROJECTED (2035) - 8,900 - 20,850
11,950 - 27,350 (Summer)

STATE HIGHWAY ADMINISTRATION -- Worcester County -- Line 3

PRIMARY CONSTRUCTION PROGRAM

PROJECT: US 113, Worcester Highway

DESCRIPTION: Upgrade existing US 113 as a 4 lane divided highway, Massey Branch to Five Mile Branch (Phase 3) (4.6 miles). Bicycle and pedestrian accommodations will be included where appropriate.

PURPOSE & NEED SUMMARY STATEMENT: The US 113 corridor is experiencing deterioration in safety and operations due to increasing seasonal traffic volumes coupled with local commercial/residential development along the highway. This project will improve the highway's safety, operations, and freight movement.

SMART GROWTH STATUS: ☐ Project Not Location Specific ☐ Not Subject to PFA Law
☐ Project Inside PFA ☒ Grandfathered
☒ Project Outside PFA ☐ Exception Will Be Required
☐ PFA Status Yet To Be Determined ☐ Exception Granted

ASSOCIATED IMPROVEMENTS:

US 113, Public Landing Rd. to Five Mile Branch (Phase 4) (Line 2)

| <input type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input checked="" type="checkbox"/> Economic Prosperity |

EXPLANATION: This project will decrease travel time and delay for local and seasonal traffic and improve safety.

STATUS: Construction underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: The cost decrease of \$12.7 million is due to a favorable bid price and reduced Right-of-Way needs.

PROJECT: US 50, Ocean Gateway

DESCRIPTION: Study to replace Bridge 23007 over the Sinepuxent Bay. The study will investigate options to eliminate/upgrade the drawspan structure. Bicycle and pedestrian accommodations will be included where appropriate.

JUSTIFICATION: The 67 year old drawspan is estimated to have 15 to 20 years of life span left. This high traffic volume arterial has experienced mechanical problems with the drawbridge during peak seasonal traffic. This project would improve the highway's safety and operations.

CONSTRUCTION PROGRAM

PURPOSE & NEED SUMMARY STATEMENT: The Express Toll Lanes have helped to reduce peak period congestion on I-95 between White Marsh and the I-95/I-895 split that occurs during morning and afternoon rush hours, weekends, holidays, incidents and other peak periods. Prior to the opening of the Express Toll Lanes, this segment of I-95 was the most congested section of I-95 in Maryland north of Baltimore City. I-95 is the backbone of the east coast's transportation network and is essential to the movement of people and freight.

I-95 Fort McHenry Tunnel - Rehabilitate Concrete Tunnel Deck - Construction Program (Line 4)
I-95 Fort McHenry Tunnel - Replace Tunnel Lighting Systems - Construction Program (Line 7)

STATUS: Engineering and construction are underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Cost increased by \$8.4 million for scope change to include additional superstructure and pier modifications.

PROJECT: I-95 Fort McHenry Tunnel - Replace Weathering Steel High Mast Light Poles North and South of the Tunnel

DESCRIPTION: Replace all weathering steel high mast light poles with galvanized steel poles on I-95 in Baltimore City, north and south of the Fort McHenry Tunnel. Also, replace foundations and associated conduits/controls. Most of these weathering steel poles represent the original lighting structures when the facility was first built in 1985.

PURPOSE & NEED SUMMARY STATEMENT: The weathering steel high mast light poles were part of the original construction in 1985 and are nearing the end of their useful life. They will be replaced with galvanized steel poles that have a longer life expectancy.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

PROJECT: US 50/301 Bay Bridge - Clean and Paint Structural Steel Westbound Bridge

DESCRIPTION: Partial painting of all structural steel surfaces on the westbound bridge of approximately three million square feet including girder spans, deck trusses, overhead truss members and suspension spans. Phase I is painting the west girder spans. Phase II is cleaning and painting the suspension towers, spot painting the remainder of the suspension span and zone painting the deck truss spans. Phase III is cleaning and painting the deck truss spans and steel rail posts and rehabilitating the steel barrier. Phase IV is cleaning and painting the east girder and through truss spans.

PURPOSE & NEED SUMMARY STATEMENT: The bridge has not been fully painted since it opened in 1973. Limited spot painting has been done as needed. The paint is showing signs of wear. This improvement will protect the steel components of the bridge and extend the useful life.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |

PROJECT: US 50/301 Bay Bridge - Rehabilitate Suspension Spans Westbound Bridge

DESCRIPTION: Rehabilitate the suspension spans on the westbound Bay Bridge, including work on the suspension cables, the bridge superstructure, substructure and bearings.

PURPOSE & NEED SUMMARY STATEMENT: The main suspension cable investigation of the westbound Chesapeake Bay Bridge found areas with varying degrees of wear. The installation of supplemental cables will maintain long-term serviceability of the suspension system. Additionally, signs of wear were found during the routine inspections of structural components of the suspended spans that will be repaired to extend the useful life of the components.

PROJECT: Authority-Wide - Replace Electronic Toll Collection and Operating System - 3rd Generation

DESCRIPTION: The project will develop the framework and consequential contracts for the 3rd generation toll system. The project's contracts will replace the Electronic Toll Collection Next Generation (ETCNG) contracts currently deployed. Project is a multiyear project with major phases including a design/build phase, integration, testing and transition and an operations phase that may be 5-10 years depending on final project plan development.

PURPOSE & NEED SUMMARY STATEMENT: This project will update the Electronic Toll Collection hardware and Operating System software and increase the capacity for handling video tolling and citations.

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input checked="" type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

ASSOCIATED IMPROVEMENTS: None.

EXPLANATION: This project will update the Electronic Toll Collection hardware and Operating System software and increase the capacity for handling video tolling and citations.

STATUS: Engineering is underway. Construction is scheduled to begin in FY 2018.

POTENTIAL FUNDING SOURCE: <input type="checkbox"/> SPECIAL <input type="checkbox"/> FEDERAL <input type="checkbox"/> GENERAL <input checked="" type="checkbox"/> OTHER

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Cost decreased by \$4.4 million to reflect an updated assessment of scope and schedule.

PROJECT: Remove, Replace, and Upgrade Sign Structures - Northern Region

DESCRIPTION: Update and replace sign structures along the John F. Kennedy Memorial Highway and the Thomas J. Hatem Memorial Bridge.

PURPOSE & NEED SUMMARY STATEMENT: Existing sign structures date from the early 1980's and are approaching the end of their design life (30 years).

STATE GOALS : Maryland Transportation Plan (MTP) Goals/Selection Criteria:

- | | |
|---|--|
| <input checked="" type="checkbox"/> Safety & Security | <input type="checkbox"/> Environmental Stewardship |
| <input checked="" type="checkbox"/> System Preservation | <input type="checkbox"/> Community Vitality |
| <input type="checkbox"/> Quality of Service | <input type="checkbox"/> Economic Prosperity |

ASSOCIATED IMPROVEMENTS: None.

EXPLANATION: Aging sign structures along the John F. Kennedy Memorial Highway and the Thomas J. Hatem Memorial Bridge will be updated or replaced.

STATUS: Engineering is complete. Construction is scheduled to begin in FY 2017.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: Added to the Construction Program.

PROJECT: US 301 Harry W. Nice Memorial Bridge - Replace Nice Bridge

DESCRIPTION: Preliminary engineering and right-of-way acquisition for the replacement of the current bridge with a new 4-lane bridge.

JUSTIFICATION: The existing bridge does not meet current standards, i.e., narrow lanes, lack of shoulders, and steep grades with lack of truck climbing lanes. The existing bridge during peak periods is reaching capacity. Traffic is projected to increase by 45 percent on weekdays and 33 percent on weekends by 2025.

ASSOCIATED IMPROVEMENTS:

US 301 Harry W. Nice Memorial Bridge - Clean and Paint Structural Steel and Miscellaneous Structural Repairs - Construction Program (Line 19)

STATUS: Planning is complete. Engineering and right-of-way acquisition are underway.

SIGNIFICANT CHANGE FROM FY 2015 - 20 CTP: None.

PROJECT: US 50/301 Bay Bridge - Rehabilitate Eastbound Bridge Deck

DESCRIPTION: Preliminary engineering for the rehabilitation and/or replacement of the eastbound bridge deck.

JUSTIFICATION: The eastbound deck is exhibiting various degrees of deterioration as it was last replaced in 1985. Industry standards indicate that the deck is nearing the end of its life cycle.

ASSOCIATED IMPROVEMENTS:

US 50/301 Bay Bridge - Cable Rewrapping & Dehumidification - Construction Program (Line 15)
US 50/301 Bay Bridge - Structural Repairs and Misc. Modifications - Constr. Program (Line 17)

STATUS: Engineering is underway.

GLOSSARY

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY

State Report on Transportation (SRT)	Consists of the Maryland Transportation Plan (MTP) and the Consolidated Transportation Program (CTP).
Maryland Transportation Plan (MTP)	The MTP identifies the focus of the Department and its modal administration that defines program objectives and serves to guide program development. It includes a 20-year forecast of needs based on anticipated resources available to the Department.
CHART	Coordinated Highways Action Response Team – Maryland’s program to employ Intelligent Vehicle Highway System (IVHS) technology to better manage highway capacity.
Consolidated Transportation Program (CTP)	The CTP designates capital projects that will be undertaken during the six-year period, and a summary of operating programs. The CTP also identifies projects added to the Construction Program and Development and Evaluation Program, delayed in schedule, deleted from the Development and Evaluation Program and finally completions.
Construction Program	List within the CTP of major projects (descriptions, cost estimates and schedules) under construction and those anticipated to begin construction within the six-year period. An estimate of annual expenditure levels for system preservation projects is also included.
Development & Evaluation Program (D&E)	List within the CTP of projects for planning studies, preparation of environmental studies and preliminary design. These projects are candidates for future addition to the Construction Program.
Remaining Cost to Complete	Amount of funds required after the budget year to complete a project.
Balance to Complete	Amount of funds required after the six-year program period of the CTP to complete a project.
Major Capital Project	New, expanded or significantly improved facility or service that generally involves planning, environmental studies, design, right-of-way acquisition, construction or purchase of essential equipment related to the facility or service.
System Preservation Project	Project of limited scope for the preservation or rehabilitation of an existing facility or service which generally does not have a significant impact on the human or natural environment.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

Reconstruction	Complete rebuilding of a facility/structure or system which is beyond the point where it may be economically repaired or renovated.
Rehabilitation	Restoration and/or modernization of a facility/structure or system in order that it may be effectively used for its designated functional purpose or comply with current requirements.
Highway System Preservation Program	Program of projects oriented toward preserving the existing highway system, including resurfacing, safety improvements, bridge rehabilitation, landscaping, traffic control and ridesharing lots and other miscellaneous improvements.
Reimbursables	State funds advanced for work performed for local jurisdictions, services performed for other agencies, recovery of damages to Department property, salaries and expenses of the Interstate Division for Baltimore City, fees for issuing commercial entrance permits, and other activities performed by the Department and are paid by various sources.
Capital Contributions Agreement	Agreement entered into by 8 local jurisdictions in Maryland, Virginia and the District of Columbia that provides a capital funding schedule for Metrorail construction in the Washington area.
(PP)	Project Planning: The state in the planning process where detailed studies and analysis are conducted to establish the scope and location of proposed transportation facilities.
(PE)	Preliminary Engineering: The state in project development when surveys, soil conditions, elevations, right-of-way plats, and detailed design plans and specifications are prepared.
(RW)	Right-of-Way: Acquisition of land for transportation projects.
(CO)	Construction.
(IN)	Inflated Cost.
(FA)	Federal-aid.
(STP)	Surface Transportation Program category of federal aid
(NHS)	National Highway System category of federal aid.

CONSOLIDATED TRANSPORTATION PROGRAM GLOSSARY (Cont'd.)

(IM)	Interstate Maintenance category of federal aid.
(BR)	Bridge Replacement/Rehabilitation category of federal aid.
(CMAQ)	Congestion Mitigation/Air Quality category of federal aid.
(DEMO)	Specific projects identified in federal legislation for demonstration purposes.
