Dear Ms. Remezova and Ms. Crews:

The Maryland Department of Transportation (MDOT) hereby modifies the Fiscal Year (FY) 2025-2028 Maryland Statewide Transportation Improvement Program (STIP) on behalf of the City of Baltimore Maryland for a project contained in the FY 2026-2029 Baltimore Regional Transportation Board (BRTB) Transportation Improvement Program (TIP). This modification was approved by the Baltimore Regional Transportation Board (BRTB) Executive Committee on January 9, 2026.

Project Name	STIP #	Funding Source	FY25-FY28 Net Federal Change (in 000's)
Citywide Traffic Signals, Intelligent Transportation Systems and Safety Improvements	12-1218-07	STBG	\$(2,000)

The MDOT has assigned Control #25-77 for this modification to the STIP, and the supporting documentation is attached.

Dear Mr. Anderson:

Enclosed is one Administrative Modification to the 2026-2029 Baltimore Region Transportation Improvement Program (TIP) as approved by the Baltimore Regional Transportation Board (BRTB) Executive Committee on January 9, 2026. The documentation enclosed supports changes to the 2026-2029 TIP for one Baltimore City project.

- **Citywide Traffic Signals, Intelligent Transportation Systems and Safety Improvements : 12-1218-07**

These minor changes are within the framework for Administrative Modifications and do not affect the regional conformity determination. Baltimore City has affirmed that fiscal constraint for their Program of Projects remains intact.

Pursuant to the prescribed Transportation Improvement Program MOU signed in 2014, the BRTB Executive Committee approved these changes to the 2026–2029 TIP.

If you have any questions, please feel free to call me.

Sincerely,

Description

This project includes signal and traffic improvements citywide. Projects included in this TIP ID are: 1) CCTV and signal rewiring citywide, 2) installation of fiber optic and copper communications citywide, 3) ITS deployment and upgrades citywide, 4) geometric improvements at multiple intersections, 5) traffic signal reconstruction, and 6) traffic signal timing optimization. Engineering and planning funds for the traffic signal timing optimization project were included in FY 2022.

Project Benefits

It is necessary to upgrade the aging infrastructure of traffic signals and ITS devices to reduce congestion and delays, distribute traffic volumes through the roadway network, and improve the safety of motorists and pedestrians.

Connection to Long-Range Transportation Goals

5.D Implement Environmentally Responsible Transportation Solutions -- Reduce energy use of the transportation system, 2.B Improve and Maintain the Existing Infrastructure -- Maintain traffic signals and ITS elements., 4.E Increase Mobility -- Support a regional multimodal freight network for safe and efficient freight movement

National Highway System
No

Change Reason: This administrative Modification will decrease STBG funds for Construction in FY 2026 by \$2.64 million (\$2 M federal/\$0.64 M matching). This decrease is necessary to shift funding to the Washington St Bikeway and Traffic Calming project (TIP ID 12-2606-03). The Estimated Total Cost decreases from \$25.44 M to \$22.77 M.

RE: FY2026-29 TIP Amendment for “Washington Street Bikeway and Traffic Calming” and Administrative Modification for “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project”.

Dear Director Lang:

Baltimore City is requesting an amendment to the FY 2026-29 TIP regarding the funding schedule and total estimated cost for the “Washington Street Bikeway and Traffic Calming Project,” as well as an administrative modification to the “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project.” These requested changes are detailed below.

Washington Street Bikeway and Traffic Calming Project

TIP ID: 12-2606-03

CIP ID: 508-131

The “Washington Street Bikeway and Traffic Calming Project” is advancing from design to construction, and the entry for the project in the latest TIP contains funding information that is now out of date. Since the last TIP update, Baltimore City Department of Transportation (BCDOT) received an updated construction cost estimate from design consultant RK&K. Additionally, BCDOT received an FFY26 HSIP award of \$4,097,715 toward the construction cost. Finally, to cover the remaining estimated construction cost, BCDOT has decided to reallocate \$2,000,000 (federal funds) and \$640,000 (local funds) from the “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project” (TIP ID: 12-1218-07) to Washington St Bikeway & Traffic Calming (TIP ID: 12-2606-03). These funds will be used to help cover the construction cost of traffic signals. The estimated total construction cost of Washington St Bikeway and Traffic Calming is \$12,228,000, up from \$5,760,000. This includes \$4,140,000 in federal formula funds and a \$1,035,000 local match; \$4,097,715 in HSIP funds and a \$455,301.67 local match; and \$2,000,000 in federal funds (originally allocated in 12-1218-07) and a \$500,000 local match. We hope to start construction in FFY26.

Please see the attached markup in the TIP project entry that would correct the financial information in the two tables at the bottom of the page, titled “Surface Transportation Block Grant (STBG)” and “Local Funds.” This revision should also update the “Estimated Total Cost” entry in the third row of the header at the top of the page, as well as the overall title of the project, and finally changing the description by expanding “pedestrian signals” to “traffic signals.”

The revisions would read as follows:

Estimated Cost: \$12,228,000

Surface Transportation Block Grant (STBG)

Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project

TIP ID: 12-1218-07

CIP ID: 508-131

Additionally, BCDOT seeks an administrative modification to the “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project.” Because of the reallocation of funds for the above-noted project, the entry for the “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project” in the latest TIP contains funding information that is now incorrect, which necessitates an administrative modification to the TIP to reflect this change. BCDOT is reallocating \$2,000,000 (federal funds) and \$640,000 (local funds) from the “Citywide Traffic Signals, Intelligent Transportation System and Safety Improvements Project” (TIP ID: 12-1218-07) to Washington St Bikeway & Traffic Calming (TIP ID: 12-2606-03). These funds will be used to help cover the construction cost for traffic signals.

Please see the attached markup in the TIP project entry that would correct the financial information in the two tables at the bottom of the page, titled “Surface Transportation Block Grant (STBG)” and “Local Funds.” This revision should also update the “Estimated Total Cost” entry in the third row of the header at the top of the page.

The revisions would read as follows:

Estimated Cost: \$22,800,000

Surface Transportation Block Grant (STBG)

	FY 2026	FY 2027	FY 2028	FY 2029	Total Four-Year Funding Request
